IMPORTANT NOTICE

THIS OFFERING IS AVAILABLE ONLY TO INVESTORS OUTSIDE THE U.S.

IMPORTANT: You must read the following before continuing. The following applies to the offering memorandum following this page, and you are therefore advised to read this carefully before reading, accessing or making any other use of the offering memorandum. In accessing the offering memorandum, you agree to be bound by the following terms and conditions, including any modifications to them any time you receive any information from us as a result of such access.

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER OF SECURITIES FOR SALE IN ANY JURISDICTION WHERE IT IS UNLAWFUL TO DO SO. THE SECURITIES HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR OTHER JURISDICTION AND THE SECURITIES MAY NOT BE OFFERED, SOLD OR OTHERWISE TRANSFERRED WITHIN THE UNITED STATES, EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND APPLICABLE STATE OR LOCAL SECURITIES LAWS.

THE FOLLOWING OFFERING MEMORANDUM MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS DOCUMENT IN WHOLE OR IN PART IS UNAUTHORIZED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS. IF YOU HAVE GAINED ACCESS TO THIS TRANSMISSION CONTRARY TO ANY OF THE FOREGOING RESTRICTIONS, YOU ARE NOT AUTHORIZED AND WILL NOT BE ABLE TO PURCHASE ANY OF THE SECURITIES DESCRIBED THEREIN.

Confirmation and your representation: In order to be eligible to view this offering memorandum or make an investment decision with respect to the securities, investors must be outside the United States. By accepting the e-mail and accessing this offering memorandum, you shall be deemed to have represented to us that (1) you and any customers you represent are outside the United States and that the electronic mail address that you gave us and to which this e-mail has been delivered is not located in the United States and (2) that you consent to delivery of such offering memorandum by electronic transmission.

The attached document is not a prospectus for the purposes of the European Union's Directive 2003/71/EC (and any amendments thereto) as implemented in member states of the European Economic Area (the "EU Prospectus Directive"). The attached document has been prepared on the basis that all offers of the securities made to persons in the European Economic Area will be made pursuant to an exemption under the EU Prospectus Directive from the requirement to produce a prospectus in connection with offers of the securities.

The securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("MiFID II"); or (ii) a customer within the meaning of Directive 2002/92/EC ("IMD"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the EU Prospectus Directive.

Consequently no key information document required by Regulation (EU) No 1286/2014 (the "PRIIPs Regulation") for offering or selling the securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

The communication of the attached document and any other document or materials relating to the issue of the securities described therein is not being made, and such documents and/or materials have not been approved, by an authorized person for the purposes of section 21 of the United Kingdom's Financial Services and Markets Act 2000, as amended ("FSMA"). Accordingly, such documents and/or materials are not being distributed to, and must not be passed on to, the general public in the United Kingdom. The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom falling within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Financial Promotion Order")), or within Article 49(2)(a) to (d) of the Financial Promotion Order, or to any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as "relevant persons"). In the United Kingdom, the securities described in the attached document are only available to, and any investment or investment activity to which the attached document relates will be engaged in only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on the attached document or any of its contents.

MIFID II product governance / Professional investors and ECPs only target market — Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the securities has led to the conclusion that: (i) the target market for the securities is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the securities to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the securities (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

You are reminded that this offering memorandum has been delivered to you on the basis that you are a person into whose possession this offering memorandum may be lawfully delivered in accordance with the laws of jurisdiction in which you are located and you may not, nor are you authorized to, deliver or disclose the contents of this offering memorandum to any other person.

The materials relating to the offering do not constitute, and may not be used in connection with, an offer or solicitation in any place where offers or solicitations are not permitted by law. If a jurisdiction requires that the offering be made by a licensed broker or dealer and the initial purchasers or any affiliate of the initial purchasers is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the initial purchasers or such affiliate on behalf of the issuer in such jurisdiction. This offering memorandum has been sent to you in an electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of electronic transmission and consequently, none of Credit Suisse (Hong Kong) Limited, Deutsche Bank AG, Singapore Branch, Orient Securities (Hong Kong) Limited and VTB Capital plc as Joint Bookrunners and Joint Lead Managers, or any person who controls any of them or any director, officer, employee or agent of any of them or affiliate of any such person accepts any liability or responsibility whatsoever in respect of any difference between the offering memorandum distributed to you in electronic format and the hard copy version available to you on request from the Joint Lead Managers and the Joint Bookrunners.

You are responsible for protecting against viruses and other destructive items. Your use of this e-mail is at your own risk and it is your responsibility to take precautions to ensure that it is free from viruses and other items of a destructive nature.

REDCO PROPERTIES GROUP LIMITED

力高地產集團有限公司

(incorporated in the Cayman Islands with limited liability)

US\$300,000,000
6.375% Senior Notes due 2019
Issue Price: 100%

Our 6.375% Senior Notes due 2019 (the “Notes”) will bear interest from February 28, 2018 at 6.375% *per annum* payable in arrears on August 28, 2018 and February 27, 2019. The Notes will mature on February 27, 2019.

The Notes are senior obligations of Redco Properties Group Limited (力高地產集團有限公司) (the “Company”), guaranteed by certain of our existing subsidiaries (the “Subsidiary Guarantors”), other than (i) those organized under the laws of the PRC and (ii) certain other subsidiaries specified in the section entitled “Description of the Notes.” We refer to the guarantees by the Subsidiary Guarantors as Subsidiary Guarantees. Under certain circumstances and subject to certain conditions, a Subsidiary Guarantee required to be provided by a subsidiary of us may be replaced by a limited-recourse guarantee (a “JV Subsidiary Guarantee”). We refer to the subsidiaries providing a JV Subsidiary Guarantee as JV Subsidiary Guarantors.

Following the occurrence of NDRC Registration (as defined in the section entitled “Description of the Notes”), the Company may at its option redeem the Notes, in whole or in part, at a redemption price equal to 101% of principal amount plus accrued and unpaid interest, if any, to (but not including) the redemption date. At any time and from time to time prior to February 27, 2019, the Company may redeem up to 35% of the aggregate principal amount of the Notes, at a redemption price of 106.375% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to (but not including) the redemption date, in each case, using the net cash proceeds from sales of certain kinds of capital stock. In addition, prior to February 27, 2019, the Company may redeem the Notes at any time, in whole but not in part, at a price equal to 100% of the principal amount of such Notes plus (i) accrued and unpaid interest, if any, to (but not including) the redemption date and (ii) a premium as set forth in this offering memorandum. Upon the occurrence of a Change of Control Triggering Event (as defined in the indenture governing the Notes (the “Indenture”)), we must make an offer to repurchase all Notes outstanding at a purchase price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the date of repurchase.

The Notes will be (i) senior in right of payment to any of our existing and future obligations expressly subordinated in right of payment to the Notes, (ii) at least *pari passu* in right of payment with the Existing *Pari Passu* Secured Indebtedness and all other unsecured and unsubordinated indebtedness (subject to any priority rights of such unsecured and unsubordinated indebtedness pursuant to applicable law), (iii) effectively subordinated to the secured obligations of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any), to the extent of the value of the assets serving as security therefor (other than the Collateral), and (iv) effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries (as defined below). In addition, applicable law may limit the enforceability of the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) and the pledge of any Collateral. See the section entitled “Risk Factors—Risks relating to the Subsidiary Guarantees and the JV Subsidiary Guarantees and the Collateral.”

For a more detailed description of the Notes, see the section entitled “Description of the Notes.”

Investing in the Notes involves risks. See the section entitled “Risk Factors” beginning on page 18.

Approval in-principle has been received from the Singapore Exchange Securities Trading Limited (the “SGX-ST”) for the listing and quotation of the Notes on the SGX-ST. The SGX-ST assumes no responsibility for the correctness of any of the statements made, opinions expressed or reports contained in this offering memorandum. Approval in-principle from, admission to the Official List of, and listing and quotation of the Notes on, the SGX-ST are not to be taken as an indication of the merits of the Issuer, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any), the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees (if any).

The Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) have not been and will not be registered under the United States Securities Act of 1933, as amended, (the “U.S. Securities Act”), and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act. The Notes are being offered and sold by the Initial Purchasers (as defined in this offering memorandum) only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act (“Regulation S”). For a description of certain restrictions on resale or transfer, see the section entitled “Transfer Restrictions.”

It is expected that the delivery of the Notes will be made on or about February 28, 2018 through the book-entry facilities of Euroclear Bank SA/NV (“Euroclear”) and Clearstream Banking S.A. (“Clearstream”) against payment therefor in immediately available funds.

This offering memorandum does not constitute an offer to sell to, or a solicitation of an offer to buy from, any person in any jurisdiction to whom it is unlawful to make the offer or solicitation in such jurisdiction. Neither the delivery of this offering memorandum nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in our affairs since the date of this offering memorandum or that the information contained in this offering memorandum is correct as of any time after that date.

The following offering memorandum is not a prospectus for the purposes of the European Union’s Directive 2003/71/EC (and any amendments thereto) as implemented in member states of the European Economic Area (the “EU Prospectus Directive”). The following offering memorandum has been prepared on the basis that all offers of the Notes made to persons in the European Economic Area will be made pursuant to an exemption under the EU Prospectus Directive from the requirement to produce a prospectus in connection with offers of the Notes.

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (“MiFID II”); or (ii) a customer within the meaning of Directive 2002/92/EC (“IMD”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the EU Prospectus Directive.

Consequently no key information document required by Regulation (EU) No 1286/2014 (the “PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

The communication of this offering memorandum and any other document or materials relating to the issue of the securities described therein is not being made, and such documents and/or materials have not been approved, by an authorized person for the purposes of section 21 of the United Kingdom's Financial Services and Markets Act 2000, as amended ("FSMA"). Accordingly, such documents and/or materials are not being distributed to, and must not be passed on to, the general public in the United Kingdom. The communication of such documents and/or materials as a financial promotion is only being made to those persons in the United Kingdom falling within the definition of investment professionals (as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Financial Promotion Order")), or within Article 49(2)(a) to (d) of the Financial Promotion Order, or to any other persons to whom it may otherwise lawfully be made under the Financial Promotion Order (all such persons together being referred to as "relevant persons"). In the United Kingdom, the securities described in this offering memorandum are only available to, and any investment or investment activity to which this offering memorandum relates will be engaged in only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on this offering memorandum or any of its contents.

MIFID II product governance / Professional investors and ECPs only target market — Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the securities (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

IN CONNECTION WITH THIS OFFERING, ANY JOINT LEAD MANAGER, APPOINTED AND ACTING IN ITS CAPACITY, AS STABILIZING MANAGER, OR ANY PERSON ACTING FOR IT, MAY PURCHASE AND SELL THE NOTES IN THE OPEN MARKET. THESE TRANSACTIONS MAY, TO THE EXTENT PERMITTED BY APPLICABLE LAWS AND REGULATIONS, INCLUDE SHORT SALES, STABILIZING TRANSACTIONS AND PURCHASES TO COVER POSITIONS CREATED BY SHORT SALES. THESE ACTIVITIES MAY STABILIZE, MAINTAIN OR OTHERWISE AFFECT THE MARKET PRICE OF THE NOTES. AS A RESULT, THE PRICE OF THE NOTES MAY BE HIGHER THAN THE PRICE THAT OTHERWISE MIGHT EXIST IN THE OPEN MARKET. IF THESE ACTIVITIES ARE COMMENCED, THEY MAY BE DISCONTINUED AT ANY TIME AND MUST IN ANY EVENT BE BROUGHT TO AN END AFTER A LIMITED TIME. THESE ACTIVITIES WILL BE UNDERTAKEN SOLELY FOR THE ACCOUNT OF THE STABILIZING MANAGER, AND NOT FOR US OR ON OUR BEHALF.

We, having made all reasonable inquiries, confirm that: (i) this offering memorandum contains all information with respect to us, our subsidiaries and affiliates referred to in this offering memorandum and the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) that is material in the context of the issue and offering of the Notes; (ii) the statements contained in this offering memorandum relating to us and our subsidiaries and our affiliates are in every material respect true and accurate and not misleading; (iii) the opinions and intentions expressed in this offering memorandum with regard to us and our subsidiaries and affiliates are honestly held, have been reached after considering all relevant circumstances and are based on reasonable assumptions; (iv) there are no other facts in relation to us, our subsidiaries and affiliates, the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any), the omission of which would, in the context of the issue and offering of the Notes, make this offering memorandum, as a whole, misleading in any material respect; and (v) we have made all reasonable enquiries to ascertain such facts and to verify the accuracy of all such information and statements. We accept responsibility accordingly.

This offering memorandum is highly confidential. We are providing it solely for the purpose of enabling you to consider a purchase of the Notes. You should read this offering memorandum before making a decision whether to purchase the Notes. You must not use this offering memorandum for any other purpose, or disclose any information in this offering memorandum to any other person.

Notwithstanding anything to the contrary contained herein, a prospective investor (and each employee, representative, or other agent of a prospective investor) may disclose to any and all persons, without limitation of any kind, the tax treatment and tax structure of the transactions described in this offering memorandum and all materials of any kind that are provided to the prospective investor relating to such tax treatment and tax structure. This authorization of tax disclosure is retroactively effective to the commencement of discussions with prospective investors regarding the transactions contemplated herein.

We have prepared this offering memorandum, and we are solely responsible for its contents. You are responsible for making your own examination of us and your own assessment of the merits and risks of investing in the Notes. By purchasing the Notes, you will be deemed to have acknowledged that you have made certain acknowledgements, representations and agreements as set forth under the section entitled “Transfer Restrictions” below.

No representation or warranty, express or implied, is made or given by Credit Suisse (Hong Kong) Limited, Deutsche Bank AG, Singapore Branch, Orient Securities (Hong Kong) Limited and VTB Capital plc (the “Initial Purchasers”), Citicorp International Limited (the “Trustee”), Citibank, N.A., London Branch (the “Paying Agent,” the “Transfer Agent” and the “Registrar,” and collectively, the “Agents”) or any of their respective affiliates or advisors as to the accuracy, completeness or sufficiency of the information set forth herein, and nothing contained in this offering memorandum is, or should be relied upon as, a promise, representation or warranty, whether as to the past or the future. None of the Initial Purchasers, the Trustee or the Agents has independently verified any of the information contained in this offering memorandum or can give any assurance that this information is accurate, truthful or complete.

Each person receiving this offering memorandum acknowledges that: (i) such person has been afforded an opportunity to request from us and to review, and has received, all additional information considered by it to be necessary to verify the accuracy of, or to supplement, the information contained herein; (ii) such person has not relied on the Initial Purchasers, the Trustee or the Agents or any person affiliated with the Initial Purchasers, the Trustee or the Agents in connection with any investigation of the accuracy of such information or its investment decision; and (iii) no person has been authorized to give any information or to make any representation concerning us, our subsidiaries and affiliates, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees (other than as contained herein and information given by our duly authorized officers and employees in connection with investors’ examination of our Company and the terms of the offering of the Notes) and, if given or made, any such other information or representation should not be relied upon as having been authorized by us or the Initial Purchasers, the Trustee or the Agents.

The Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) have not been approved or disapproved by the United States Securities and Exchange Commission (the “SEC”), any state securities commission in the United States or any other United States regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the offering or the accuracy or adequacy of this offering memorandum. Any representation to the contrary is a criminal offense in the United States.

We are not, and the Initial Purchasers are not, making an offer to sell the Notes, including the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any), in any jurisdiction except where an offer or sale is permitted. The distribution of this offering memorandum and the offering of the securities, including the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any), may in certain jurisdictions be restricted by law. Persons into whose possession this offering memorandum comes are required by us and the Initial Purchasers to inform themselves about and to

observe any such restrictions. For a description of the restrictions on offers, sales and resales of the securities, including the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any), and distribution of this offering memorandum, see the sections entitled “Transfer Restrictions” and “Plan of Distribution” below.

This offering memorandum summarizes certain material documents and other information, and we refer you to them for a more complete understanding of what we discuss in this offering memorandum. In making an investment decision, you must rely on your own examination of us and the terms of the offering, including the merits and risks involved. We are not making any representation to you regarding the legality of an investment in the Notes by you under any legal, investment or similar laws or regulations. You should not consider any information in this offering memorandum to be legal, business or tax advice. You should consult your own professional advisors for legal, business, tax and other advice regarding an investment in the Notes.

We reserve the right to withdraw the offering of Notes at any time, and the Initial Purchasers reserve the right to reject any commitment to purchase the Notes in whole or in part and to allot to any prospective purchaser less than the full amount of the Notes sought by such purchaser. The Initial Purchasers and certain related entities may acquire for their own account a portion of the Notes.

CERTAIN DEFINITIONS, CONVENTIONS AND CURRENCY PRESENTATION

We have prepared this offering memorandum using a number of conventions, which you should consider when reading the information contained herein. When we use the terms “we,” “us,” “our,” the “Company,” the “Group” and words of similar import, we are referring to Redco Properties Group Limited (力高地產集團有限公司) itself and its consolidated subsidiaries, as the context requires.

Market data, industry forecast and the PRC and property industry statistics in this offering memorandum have been obtained from both public and private sources, including market research, publicly available information and industry publications. Although we believe this information to be reliable, it has not been independently verified by us or the Initial Purchasers or our or their respective directors and advisors, and neither we, the Initial Purchasers nor our or their respective directors and advisors make any representation as to the accuracy or completeness of that information. In addition, third-party information providers may have obtained information from market participants and such information may not have been independently verified. Due to possibly inconsistent collection methods and other problems, such statistics herein may be inaccurate. You should not unduly rely on such market data, industry forecast and the PRC and property industry statistics.

In this offering memorandum, all references to “US\$” and “U.S. dollars” are to United States dollars, the official currency of the United States of America (the “United States” or “U.S.”); all references to “HK\$” and “H.K. dollars” are to Hong Kong dollars, the official currency of the Hong Kong Special Administrative Region of the PRC (“Hong Kong” or “HK”); and all references to “RMB” or “Renminbi” are to the Renminbi, the official currency of the People’s Republic of China (“China” or the “PRC”).

We record and publish our financial statements in Renminbi. Unless otherwise stated in this offering memorandum, all translations from Renminbi amounts to U.S. dollar amounts were made at the rate of RMB6.7793 to US\$1.00, the noon buying rate in New York City for cable transfers payable in Renminbi as certified for customs purposes by the Federal Reserve Bank of New York on June 30, 2017, and all translations from H.K. dollar amounts into U.S. dollar amounts were made at the rate of HK\$7.8055 to US\$1.00, the noon buying rate in New York City for cable transfers payable in H.K. dollars as certified for customs purposes by the Federal Reserve Bank of New York on June 30, 2017. All such translations in this offering memorandum are provided solely for your convenience and no representation is made that the Renminbi amounts referred to herein have been, could have been or could be converted into U.S. dollars or H.K. dollars, or vice versa, at any particular rate, or at all. All amounts converted into U.S. dollars contained in this offering memorandum are unaudited and for reference purposes only. For further information relating to the exchange rates, see the section entitled “Exchange Rate Information.”

References to “PRC” and “China,” in the context of statistical information and description of laws and regulations in this offering memorandum, except where the context otherwise requires, do not include Hong Kong, Macau Special Administrative Region of the PRC (“Macau”), or Taiwan. “PRC government” or “State” means the central government of the PRC, including all political subdivisions (including provincial, municipal and other regional or local governments) and instrumentalities thereof, or, where the context requires, any of them.

References to “HKFRS” are to Hong Kong Financial Reporting Standards, which include Hong Kong Accounting Standards and Interpretations, issued by the Hong Kong Institute of Certified Public Accountants.

Our financial statements for the years ended December 31, 2014, 2015 and 2016 and the six months ended June 30, 2017 are prepared in accordance with HKFRS which differ in certain respects from generally accepted accounting principles (“GAAP”) in certain other jurisdictions. Unless the context otherwise requires, references to “2014,” “2015” and “2016” in this offering memorandum are to our financial years ended December 31, 2014, 2015 and 2016, respectively.

References to the “2014 Notes” are to the Company’s 13.75% senior notes due 2019. We redeemed the 2014 Notes in full on August 9, 2017 and Citicorp International Limited, as trustee with respect to the 2014 Notes, has been removed as a secured party under the Intercreditor Agreement.

References to the “2017 Notes” are to the Company’s 7.0% senior notes due November 14, 2018.

References to “average selling price” or “ASP” are to the average selling price on a gross basis, unless otherwise stated.

References to “Board of Directors” or “Board” are to the board of Directors of the Company.

References to “CAGR” are to the compound annual growth rate.

References to “commercial property(ies)” are to the property(ies) designated for commercial use.

In addition, unanticipated events may adversely affect the actual results we achieve. Important factors that could cause actual results to differ materially from our expectations are disclosed under the section entitled “Risk Factors” in this offering memorandum. Except as required by law, we undertake no obligation to update or otherwise revise any forward-looking statements contained in this offering memorandum, whether as a result of new information, future events or otherwise after the date of this offering memorandum. All forward-looking statements contained in this offering memorandum are qualified by reference to the cautionary statements set forth in this section.

ENFORCEMENT OF CIVIL LIABILITIES

We are an exempted company incorporated in the Cayman Islands with limited liability, and each Subsidiary Guarantor and JV Subsidiary Guarantor (if any) is also incorporated or may be incorporated, as the case may be, outside the United States, such as the British Virgin Islands (the “BVI”) and Hong Kong. The Cayman Islands, the BVI, Hong Kong and other jurisdictions have different bodies of securities laws from the United States and protections for investors may differ.

Substantially all of our assets and all of the assets of the initial Subsidiary Guarantors are, and all of the assets of any future Subsidiary Guarantors or JV Subsidiary Guarantors may be, located outside the United States. In addition, all of our directors and officers and the directors and officers of the initial Subsidiary Guarantors are, and the directors and officers of any future Subsidiary Guarantors or JV Subsidiary Guarantors may be, nationals or residents of countries other than the United States (principally of the PRC), and all or a substantial portion of such persons’ assets are or may be located outside the United States. As a result, it may be difficult for investors to effect service of process within the United States upon us, any of the initial Subsidiary Guarantors or future Subsidiary Guarantors or JV Subsidiary Guarantors or such directors and officers or to enforce against us or any of the initial Subsidiary Guarantors or future Subsidiary Guarantors or JV Subsidiary Guarantors or such directors and officers judgments obtained in United States courts, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state thereof.

We and each of the Subsidiary Guarantors and JV Subsidiary Guarantors (if any) expect to appoint Cogency Global Inc. as our and their respective agent to receive service of process with respect to any action brought against us or any such Subsidiary Guarantor or JV Subsidiary Guarantor in the United States federal courts located in the Borough of Manhattan, the City of New York under the federal securities laws of the United States or of any state of the United States or any action brought against us or any such Subsidiary Guarantor or JV Subsidiary Guarantor (if any) in the courts of the State of New York in the Borough of Manhattan, The City of New York under the securities laws of the State of New York.

We have been advised by our Cayman Islands legal advisors, Conyers Dill & Pearman, that (i) judgments of courts of the United States predicated upon the civil liability provisions of the securities laws of the United States or any state may be difficult to enforce against us in the courts of the Cayman Islands and (ii) in original actions brought in the Cayman Islands, the Cayman Islands courts may not impose liabilities against us, our directors or officers or any Subsidiary Guarantor or their directors or officers predicated upon the civil liability provisions of the securities laws of the United States or any state, in each of (i) and (ii) on the grounds that such provisions may be held by the courts of the Cayman Islands to be penal, revenue or other public laws of a foreign state. Our counsel as to Cayman Islands laws further advised us that the courts of the Cayman Islands would recognize as a valid judgment, a final and conclusive judgment *in personam* obtained in the federal or state courts in the United States under which a sum of money is payable (other than a sum of money payable in respect of multiple damages, taxes or other charges of a like nature or in respect of a fine or other penalty) or, in certain circumstances, an *in personam* judgment for non-monetary relief, and would give a judgment based thereon provided that: (a) such courts had proper jurisdiction over the parties subject to such judgment; (b) such courts did not contravene the rules of natural justice of the Cayman Islands; (c) such judgment was not obtained by fraud; (d) the enforcement of the judgment would not be contrary to the public policy of the Cayman Islands; (e) no new admissible evidence relevant to the action is submitted prior to the rendering of the judgment by the courts of the Cayman Islands; and (f) there is due compliance with the correct procedures under the laws of the Cayman Islands.

Conyers Dill & Pearman, our counsel as to British Virgin Islands laws, has advised us that the courts of the British Virgin Islands would recognize as a valid judgment, a final and conclusive judgment *in personam* obtained in the federal or state courts in the United States against us under which a sum of money is payable (other than a sum of money payable in respect of multiple damages,

taxes or other charges of a like nature or in respect of a fine or other penalty) and would give a judgment based thereon provided that (a) such courts had proper jurisdiction over the parties subject to such judgment, (b) such courts did not contravene the rules of natural justice of the British Virgin Islands, (c) such judgment was not obtained by fraud, (d) the enforcement of the judgment would not be contrary to the public policy of the British Virgin Islands, (e) no new admissible evidence relevant to the action is submitted prior to the rendering of the judgment by the courts of the British Virgin Islands; and (f) there is due compliance with the correct procedures under the laws of the British Virgin Islands.

Hong Kong has no arrangement for the reciprocal enforcement of judgments with the United States. However, under Hong Kong common law, a foreign judgment (including one from a court in the United States predicated upon U.S. federal or state securities laws) may be enforced in Hong Kong by bringing an action in a Hong Kong court and seeking summary or default judgment on the strength of the foreign judgment, *provided* that the foreign judgment is for debt or a definite sum of money and is final and conclusive on the merits. In addition, the Hong Kong courts may refuse to recognize or enforce a foreign judgment if such judgment:

- (a) was obtained by fraud;
- (b) was rendered by a foreign court that lacked the appropriate jurisdiction at the time (as determined by Hong Kong jurisdictional rules);
- (c) is contrary to public policy or natural justice;
- (d) is based on foreign penal, revenue or other public law; or
- (e) falls within Section 3(1) of the Foreign Judgment (Restriction on Recognition and Enforcement) Ordinance.

Pursuant to the Civil Procedure Law of the PRC, the Arrangement of the Supreme People's Court between the Mainland and the HKSAR on Reciprocal Recognition and Enforcement of the Decisions of Civil and Commercial Cases under Consensual Jurisdiction (最高人民法院關於內地與香港特別行政區法院相互認可和執行當事人協議管轄的民商事案件判決的安排) and the Arrangements of the Supreme People's Court on Mutual Recognition and Execution of Arbitral Awards between Mainland and Hong Kong Special Administrative Region (關於內地與香港特別行政區相互執行仲裁裁決的安排), subject to the requirements on the recognition and enforcement of judgments or arbitration awards provided therein, a final decision of payment with enforcement made by a court of the Hong Kong in a civil or commercial case under a written jurisdiction agreement or an arbitration award made in Hong Kong may be recognized and enforceable by the competent PRC courts. However, we have also been advised by our PRC legal advisors, Jun He LLP, that the PRC does not have treaties providing for the reciprocal recognition and enforcement of judgments awarded by courts in the United States and there is uncertainty as to whether the courts of the PRC would (i) enforce judgments of U.S. courts obtained against us, our directors or officers, any Subsidiary Guarantor, any JV Subsidiary Guarantor or their respective directors or officers predicated upon the civil liability provisions of the U.S. federal or state securities laws or (ii) entertain original actions brought in China against us, our directors or officers, any Subsidiary Guarantor, any JV Subsidiary Guarantor or their respective directors or officers predicated upon the U.S. federal or state securities laws.

SUMMARY

This summary does not contain all the information that may be important to you in deciding to invest in the Notes. You should read the entire offering memorandum, including the section entitled “Risk Factors” and our consolidated financial statements and related notes thereto, before making an investment decision.

Overview

We are an integrated residential and commercial property developer primarily focusing on residential property development in the PRC. We have successfully established our presence in a number of key economic cities in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region, including Shenzhen, Zhongshan, Shanghai, Tianjin, Hefei, Nanchang, Jinan, Yantai and Xianyang.

We believe that we have successfully established the “Redco” brand in the cities where we have built our presence. In 2017, we were recognized as “Top 100 Comprehensive Strength Listed Real Estate Enterprise of China for 2017” (2017年中國房地產上市公司綜合實力100強) by China Real Estate Association (中國房地產業協會). In 2016, the Group was recognized as “the Most Valuable Listed Real Estate Enterprise of China for 2016” (2016 中國最具價值地產上市企業) by Guandian.cn(觀點地產新媒體). In 2015, we were recognized as “2015 Top 10 Hong Kong Listed Domestic Developers Worthy of Investment” (2015中國大陸在港上市房地產公司投資價值TOP 10) by the Enterprise Development Research Center of the State Council (國務院發展研究中心企業研究所), the Real Estate Research Institute of Tsinghua University (清華大學房地產研究所) and China Index Academy (中國指數研究院). In addition, our property projects have also received numerous awards from different organizations. Our Company has been selected as a constituent of the “Hang Seng Composite SmallCap Index of the Hang Seng Composite Index since September 4, 2017. We believe that becoming a constituent of the Hang Seng Family of Indexes represents the recognition of our business performance, stock liquidity and growth prospect by the market.

Since we commenced property development operations in 1995, we have successfully executed our multi-regional strategy and demonstrated a proven track record of success by developing in strategically selected cities that we believe possess high growth potential across the PRC. Subsequent to our initial success in Quanzhou, Fujian Province, we deliberately expanded and quickly replicated our success in strategically targeted key economic cities, including Shenzhen, Zhongshan, Shanghai, Tianjin, Hefei, Nanchang, Jinan, Yantai and Xianyang. We also established presence in Australia by jointly developing a residential community in Sydney with a recognized local developer. During the three years ended December 31, 2014, 2015, 2016 and the six months ended June 30, 2017, we recognized revenue from property development and investment projects covering certain key economic cities in China. As of June 30, 2017, we had 30 property development and investment projects with an aggregate GFA of approximately 3.8 million sq.m.

● Cities with property development projects from which we recognized revenue during 2014, 2015, 2016 and the six months ended June 30, 2017

- **The Greater Western Taiwan Straits Economic Zone**

In the Greater Western Taiwan Straits Economic Zone, we have strategically targeted the key economic city of Nanchang, Jiangxi Province. Nanchang is the provincial capital of Jiangxi Province. As of June 30, 2017, we had a land bank comprising 13 property development and investment projects in the Greater Western Taiwan Straits Economic Zone with an aggregate GFA of 1,107,994.5 sq.m.

- **The Bohai Economic Rim**

In the Bohai Economic Rim, we have property development projects in Tianjin, Jinan, Shandong Province, and Yantai, Shandong Province. Tianjin is one of the four centrally-administered municipalities in the PRC, Jinan is the provincial capital of Shandong Province and Yantai’s nominal GDP ranked second in Shandong Province in 2016. As of June 30, 2017, we had a land bank comprising nine property development and investment projects in the Bohai Economic Rim with an aggregate GFA of 1,975,691.1 sq.m.

- **The Central and Western Regions**

In the Central and Western Regions, we have property development projects in Hefei, Anhui Province, and Xianyang, Shanxi Province. Hefei is the provincial capital of Anhui Province. Under the government initiative, “Integration of Xi’an and Xianyang”, favorable governmental policies are being implemented to allow Xi’an and Xianyang to develop into an integrated central commercial hub in Western China. In 2016, the combined nominal GDP of Xi’an and Xianyang ranked first in Shaanxi Province. As of June 30, 2017, we had a land bank comprising four property development projects in the Central and Western Regions with an aggregate GFA of approximately 547,783.0 sq.m.

- **The Pearl River Delta Region**

In the Pearl River Delta Region, we have property development projects in Shenzhen, Guangdong Province and Zhongshan, Guangdong Province. Shenzhen is a first-tier city in China, and Zhongshan is a fast-growing city in East Guangdong. In 2014, 2015 and 2016, Shenzhen’s nominal GDP ranked fourth among all cities in China. As of June 30, 2017, we had a land bank comprising two property development projects in the Pearl River Delta Region with an aggregate GFA of 111,773.1 sq.m.

- **Others**

In addition to the four major regions above, we have also established our presence in Shanghai, a first-tier city in China, and Sydney, the economic and cultural center of Australia. As of June 30, 2017, we had a land bank comprising two property development projects in these two cities with an aggregate GFA of 103,124.0 sq.m.

While we continue to strengthen our market position in strategically targeted key economic cities in these regions, we intend to leverage our experience and expertise to expand our operations and replicate our success in other cities with high GDP and population growth potential where we do not have any presence currently. We believe that our strategic focus on the selected key economic cities with high growth potential will enable us to benefit from the sustained economic growth and accelerating urbanization in these cities in the coming years.

We have established diversified land acquisition strategies that complement each other, including acquisitions from third parties and listings-for-sale. We have also employed other land acquisition strategies including: (i) incorporating cultural concepts to develop properties that meet the needs of the local communities; (ii) early involvement in areas encouraged by the local governments; (iii) leveraging on our track record in developing quality property projects to acquire additional land in the same geographical area; (iv) acquisition of local property developers that have a land reserve suitable for our development strategy; and (v) incorporating the concepts of healthcare and elderly nursing to develop properties that meet the needs of the local communities.

For example, we successfully incorporated the cultural concept of the Mazu goddess (媽祖) to acquire land in Tianjin, a coastal city in the Bohai Economic Rim. Through Mr. Wong's strong ties with various Mazu cultural organizations, we gained deep insights into the importance of Mazu culture in Tianjin. Leveraging on such knowledge and in line with the Tianjin local government's desire to facilitate Mazu culture and economic development in Taiwan and the PRC, we formed a joint venture company with the largest Mazu worshipping temple in Taiwan to acquire our first parcels of land in coastal Tianjin for our Sunshine Coast and Land Lot Nos. A1 and A2 projects.

Our Strengths

We believe that we have the following competitive strengths:

- we have demonstrated a proven track record of multi-regional success by focusing on key economic cities in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions the Pearl River Delta Region and Others;
- we have acquired quality land bank at competitive costs;
- we have been successful in establishing the “Redco” brand in the cities where we have built up our presence;
- our standardized property designs and business protocols allow us to swiftly capture new market opportunities in the key economic cities;
- we have implemented prudent financial management policies with diversified financing channels;
- we provide full life-cycle services to clients leveraging the brand recognition; and
- we have a management team with strong execution capabilities and extensive industry experience.

Our Strategies

Within the next five years, we aim to become (i) one of the top 100 real estate developers in the PRC and (ii) an integrated developer with regional brand recognition and leading market shares in the cities where we have put efforts in development. We believe that we can achieve the aforesaid objectives by executing the following strategies:

- further expand our business operations in the key economic cities in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region as well as other regions in China;
- continue our diversified land acquisition strategies with a view to allocating financial resources to what we believe to be the most profitable opportunities;
- continue to focus primarily on residential property development while achieving an optimal and diversified portfolio by developing a higher proportion of commercial property development projects;
- further strengthen our “Redco” brand by providing quality products to our customers and continuing to engage in projects that entail the construction of landmark properties;
- provide services satisfying demand along the full lifecycle of home buyers; and
- continue to recruit, retain and motivate a talented workforce.

Recent Development

Issue of the 2017 Notes

On November 15, 2017, we entered into an indenture (the “2017 Indenture”) pursuant to which we issued an aggregate principal amount of US\$250,000,000 7.0% senior notes due 2018. The 2017 Notes are listed on the Singapore Exchange Securities Trading Limited (the “SGX-ST”). As of the date of this offering memorandum, the entire principal amount of the 2017 Notes remains outstanding. See “Capitalization and Indebtedness” and “Description of Material Indebtedness and Other Obligations — 2017 Notes.”

Disposal of Interest in Shanghai Mingchang Properties Limited

On December 19, 2017, Tianjin Redco Shengye Co., Ltd. (天津力高盛業有限公司) (the “Vendor”), a subsidiary of the Company incorporated in the PRC, entered into an agreement (the “Agreement”) with Shanghai Zhong Da Industry Development Co., Ltd. (上海重達實業發展有限公司) (the “Purchaser”), a company established in the PRC which is principally engaged in investment holding and independent of the Company, in relation to the disposal of a 100% equity interest in Shanghai Mingchang Properties Limited (上海明昌置業有限公司) (the “Target Company”). As of the date of the Agreement, the Target Company was a 90%-owned subsidiary of the Vendor which was principally engaged in property development. The consideration for the disposal is approximately RMB671,798,000 (subject to adjustment) to be paid in two instalments on the dates stipulated in the Agreement. Approximately RMB67,179,800, representing 10% of the consideration, has been paid by the Purchaser to the Vendor. Completion is conditional upon the satisfaction of certain conditions precedents stipulated in the Agreement, including, among others, the completion of the acquisition by the Vendor of the 10% equity interest in the Target Company held by an independent minority shareholder. Completion will take place within two business days (as defined in the Agreement) after the registration of the transfer of the 100% equity interest in the Target Company to the Purchaser in accordance with the applicable laws. Upon completion, the Target Company will cease to be a subsidiary of the Company and its financial results will cease to be consolidated with the results of the Group.

Ranking of the Notes	The Notes are: <ul style="list-style-type: none">• general obligations of the Company;• senior in right of payment to any existing and future obligations of the Company expressly subordinated in right of payment to the Notes;• at least <i>pari passu</i> in right of payment with the Existing Pari Passu Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of the Company (subject to any priority rights of such unsecured, unsubordinated Indebtedness pursuant to applicable law);• guaranteed by the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) on a senior basis, subject to the limitations described below under the captions “Description of the Notes — The Subsidiary Guarantees and the JV Subsidiary Guarantees” and in “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral”;• effectively subordinated to the other secured obligations (if any, other than Permitted Pari Passu Secured Indebtedness) of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any), to the extent of the value of the assets serving as security therefor (other than the Collateral); and• effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

After the pledge of the Collateral (as described below) by the Company and the Subsidiary Guarantor Pledgors and subject to certain limitations described under “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral” and “Description of the Notes — Security,” the Notes will:

- be entitled to the benefit of a Lien on the Collateral pledged by the Company and the Subsidiary Guarantor Pledgors (subject to any Permitted Liens and shared on a pari passu basis pursuant to the Intercreditor Agreement with holders of the Existing Pari Passu Secured Indebtedness and holders of the Permitted Pari Passu Secured Indebtedness); and
- rank effectively senior in right of payment to unsecured obligations of the Company and the Subsidiary Guarantor Pledgors with respect to the value of the Collateral pledged by the Company and the Subsidiary Guarantor Pledgors securing the Notes (subject to any priority rights of such unsecured obligations pursuant to applicable law).

Subsidiary Guarantees

Each of the Subsidiary Guarantors will, jointly and severally, guarantee the due and punctual payment of the principal of, premium, if any, and interest on, and all other amounts payable under, the Notes.

A Subsidiary Guarantee may be released in certain circumstances. See “Description of the Notes — Release of the Subsidiary Guarantees and JV Subsidiary Guarantees.”

The initial Subsidiary Guarantors will consist of all of the Restricted Subsidiaries other than those Restricted Subsidiaries organized under the laws of the PRC and the Initial Other Non-Guarantor Subsidiaries.

All of the initial Subsidiary Guarantors are holding companies that do not have significant operations. See “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — Our initial Subsidiary Guarantors do not currently have significant operations and certain Subsidiary Guarantees may in some cases be replaced by limited-recourse guarantees.”

Any future Restricted Subsidiary, as defined under “Description of the Notes — Certain Definitions” (other than subsidiaries organized under the laws of the PRC, Exempted Subsidiaries and Listed Subsidiaries), will provide a guarantee of the Notes promptly upon becoming a Restricted Subsidiary.

Notwithstanding the foregoing sentence, the Company may elect to have any Restricted Subsidiary organized outside the PRC not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee at the time such entity becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary or a Listed Subsidiary, *provided* that, after giving effect to the Consolidated Assets of such Restricted Subsidiary, the Consolidated Assets of all Restricted Subsidiaries organized outside the PRC other than Exempted Subsidiaries and Listed Subsidiaries that are neither Subsidiary Guarantors nor JV Subsidiary Guarantors do not account for more than 20% of the Total Assets of the Company.

Ranking of Subsidiary
Guarantees

The Subsidiary Guarantee of each Subsidiary Guarantor:

- is a general obligation of such Subsidiary Guarantor;
- is effectively subordinated to the other secured obligations (if any) of such Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor (other than the Collateral);
- is senior in right of payment to all future obligations of such Subsidiary Guarantor expressly subordinated in right of payment to such Subsidiary Guarantee;
- ranks at least *pari passu* with the Existing Pari Passu Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of such Subsidiary Guarantor (subject to any priority rights of such unsecured and unsubordinated Indebtedness pursuant to applicable law); and
- is effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

After the pledge of the Collateral by the Company and the Subsidiary Guarantor Pledgors and subject to certain limitations described under “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral” and “Description of the Notes — Security,” the Subsidiary Guarantees of each Subsidiary Guarantor Pledgor:

- will be entitled to the benefit of a security interest in the Collateral (subject to any Permitted Liens) pledged by such Subsidiary Guarantor Pledgor and shared on a *pari passu* basis pursuant to the Intercreditor Agreement with holders of the Existing Pari Passu Secured Indebtedness and holders of the Permitted Pari Passu Secured Indebtedness; and

- will rank effectively senior in right of payment to the unsecured obligations of such Subsidiary Guarantor Pledgor with respect to the value of the Collateral securing such Subsidiary Guarantee (subject to any priority rights of such unsecured obligations pursuant to applicable law).

See “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral.”

Ranking of JV Subsidiary
Guarantees

A JV Subsidiary Guarantee may be provided by a Subsidiary Guarantor instead of a Subsidiary Guarantee following a sale or issuance by the Company or any of its Restricted Subsidiaries of Capital Stock in (a) such Subsidiary Guarantor or (b) any other Subsidiary Guarantor that, directly or indirectly, owns a majority of the Capital Stock of such Subsidiary Guarantor, in each case where such sale or issuance, whether through the sale of existing shares or the issuance of new shares, is for no less than 20% of the issued Capital Stock of the relevant Subsidiary Guarantor. No JV Subsidiary Guarantee exists as of the Original Issue Date.

The JV Subsidiary Guarantee of each JV Subsidiary Guarantor:

- will be a general obligation of such JV Subsidiary Guarantor;
- will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be enforceable only up to the JV Entitlement Amount;
- will be effectively subordinated to the secured obligations of such JV Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be limited to the JV Entitlement Amount, and will be senior in right of payment to all future obligations of such JV Subsidiary Guarantor expressly subordinated in right of payment to such JV Subsidiary Guarantee; and

- will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be limited to the JV Entitlement Amount, and will rank at least *pari passu* with all other unsecured and unsubordinated Indebtedness of such JV Subsidiary Guarantor (subject to any priority rights of such unsecured and unsubordinated Indebtedness pursuant to applicable law).

Security to Be Granted.

The Company has pledged, or caused the initial Subsidiary Guarantor Pledgors to pledge, as the case may be, the Capital Stock of each initial Subsidiary Guarantor (the “Collateral”) (subject to Permitted Liens and the Intercreditor Agreement) in order to secure the obligations of the Company under the Existing *Pari Passu* Secured Indebtedness and of such Subsidiary Guarantor Pledgor under its Subsidiary Guarantee of the Existing *Pari Passu* Secured Indebtedness.

Upon the accession by the Trustee to the Intercreditor Agreement, the benefit of the Collateral will be extended to secure the obligations of the Company under the Notes and of the Subsidiary Guarantor Pledgors under their respective Subsidiary Guarantees.

In addition, the Collateral will be shared on a *pari passu* basis pursuant to the Intercreditor Agreement by and among the holders of the Notes, the holders of the Existing *Pari Passu* Secured Indebtedness and the holders of other Permitted *Pari Passu* Secured Indebtedness.

The Collateral securing the Notes and the Subsidiary Guarantees may be released or reduced in the event of certain asset sales and certain other circumstances. See “Description of the Notes — Security.”

Intercreditor Agreement

The Company, the initial Subsidiary Guarantor Pledgors, the Collateral Agent, Citicorp International Limited as trustee with respect to the 2014 Notes and the 2015 HSB Facility Agent entered into an intercreditor agreement dated as of March 20, 2015 (as such may be amended, modified or supplemented through the Original Issue Date, the “Intercreditor Agreement”) pursuant to which certain rights and interests with respect to the Collateral are regulated and a mechanism for future holders of Permitted *Pari Passu* Secured Indebtedness to become bound and be entitled to receive a pro rata entitlement to and equal priority in the Collateral is created. The 2016 HSB Facility Agent, the 2017 HSB Facility Agent and the trustee for the 2017 Notes acceded to the Intercreditor Agreement prior to the Original Issue Date. The Company has fully redeemed the 2014 Notes in August 2017.

On the Original Issue Date, the Trustee shall execute a supplement to the Intercreditor Agreement pursuant to which the holders of the Notes (through the Trustee) will share equal priority and *pro rata* entitlement in and to the Collateral.

Use of Proceeds

We estimate that the net proceeds from this offering, after deducting the underwriting discounts and commissions and other estimated expenses payable by us in connection with this offering, will be approximately US\$297.5 million, which we plan to use to refinance certain existing indebtedness and for other general corporate purposes. We may adjust our foregoing plans in response to changing market conditions and, thus, reallocate the use of the proceeds. Pending application of the net proceeds of this offering, we intend to invest such net proceeds in “Temporary Cash Investments” as defined under “Description of the Notes.”

Optional Redemption

At any time and from time to time following the occurrence of the NDRC Registration, the Company may at its option redeem the Notes, in whole or in part, at a redemption price equal to 101% of the principal amount plus accrued and unpaid interest, if any, to (but not including) the redemption date.

At any time prior to February 27, 2019, the Company may at its option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes plus the Applicable Premium (as defined in “Description of the Notes”) as of, and accrued and unpaid interest, if any, to (but not including) the redemption date.

At any time and from time to time prior to February 27, 2019, the Company may redeem up to 35% of the aggregate principal amount of the Notes at a redemption price of 106.375% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to (but not including) the redemption date, with the proceeds from sales of certain kinds of its capital stock, subject to certain conditions.

Repurchase of Notes Upon a
Change of Control Triggering
Event

Upon the occurrence of a Change of Control Triggering Event, the Company will make an offer to repurchase all outstanding Notes at a purchase price equal to 101% of their principal amount plus accrued and unpaid interest, if any, to (but not including) the repurchase date.

Redemption for Taxation Reason . Subject to certain exceptions and as more fully described herein, the Company may redeem the Notes, as a whole but not in part, at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, if any, to the date fixed by the Company for redemption, if the Company or a Subsidiary Guarantor would become obligated to pay certain additional amounts as a result of certain changes in specified tax laws. See “Description of the Notes — Redemption for Taxation Reasons.”

Covenants The Notes, the Indenture governing the Notes and the Subsidiary Guarantees will limit the Company’s ability and the ability of its Restricted Subsidiaries to, among other things:

- incur or guarantee additional indebtedness and issue disqualified or preferred stock;
- declare dividends on its capital stock or purchase or redeem capital stock;
- make investments or other specified restricted payments;
- issue or sell capital stock of Restricted Subsidiaries;
- guarantee indebtedness of Restricted Subsidiaries;
- sell assets;
- create liens;
- enter into sale and leaseback transactions;
- enter into agreements that restrict the Restricted Subsidiaries’ ability to pay dividends, transfer assets or make intercompany loans;
- enter into transactions with shareholders or affiliates; and
- effect a consolidation or merger.

These covenants are subject to a number of important qualifications and exceptions described in “Description of the Notes — Certain Covenants.”

Transfer Restrictions The Notes will not be registered under the Securities Act or under any state securities laws of the United States and will be subject to customary restrictions on transfer and resale. See “Transfer Restrictions.”

Form, Denomination and Registration	The Notes will be issued only in fully registered form, without coupons, in minimum denominations of US\$200,000 of principal amount and integral multiples of US\$1,000 in excess thereof and will be initially represented by one or more global notes registered in the name of a nominee of a common depository for Euroclear and Clearstream.	
Book-Entry Only	The Notes will be issued in book-entry form through the facilities of Euroclear and Clearstream for the accounts of its participants. For a description of certain factors relating to clearance and settlement, see “Description of the Notes — Book-Entry; Delivery and Form.”	
Delivery of the Notes.	The Company expects to make delivery of the Notes, against payment in same-day funds, on or about February 28, 2018, which the Company expects will be the fourth business day following the date of this offering memorandum referred to as “T+4.” You should note that initial trading of the Notes may be affected by the T+4 settlement. See “Plan of Distribution.”	
Paying and Transfer Agent	Citibank, N.A., London Branch.	
Trustee and Collateral Agent	Citicorp International Limited.	
Note Registrar	Citibank, N.A., London Branch.	
Listing	Approval in-principle has been received from the SGX-ST for the listing and quotation of the Notes on the SGX-ST. Approval in-principle from, admission to the Official List of, and listing and quotation of the Notes on, the SGX-ST are not to be taken as an indication of the merits of the Issuer, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any), the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees (if any). For so long as the Notes are listed on the SGX-ST and the rules of the SGX-ST so require, the Notes, if traded on the SGX-ST, will be traded in a minimum board lot size of S\$200,000 (or its equivalent in foreign currencies). Accordingly, the Notes, if traded on the SGX-ST, will be traded in a minimum board lot size of US\$200,000.

Governing Law	The Notes and the Indenture will be governed by and will be construed in accordance with the laws of the State of New York. The relevant pledge documents will be governed under the laws of the jurisdiction in which the relevant Subsidiary Guarantor is incorporated.	
Risk Factors.	For a discussion of certain factors that should be considered in evaluating an investment in the Notes, see “Risk Factors.”	

SUMMARY CONSOLIDATED FINANCIAL AND OTHER DATA

The following table presents our summary consolidated financial and other data. The summary consolidated financial information for our Group as of and for the six months ended June 30, 2017 set forth below (except for EBITDA data) is derived from the unaudited condensed consolidated financial statements of our Group for such period which have been reviewed by our Group's independent auditor, PricewaterhouseCoopers, Hong Kong Certified Public Accountants, in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" and should be read in conjunction with the condensed consolidated financial statements of our Group for the six months ended June 30, 2017, including the notes thereto, which are included elsewhere in this offering memorandum. Results for an interim period are not necessarily indicative of results for the full year.

The consolidated financial statements of the Group as of and for the years ended December 31, 2015 and 2016 were audited by our Group's independent auditor, PricewaterhouseCoopers, Hong Kong Certified Public Accountants. Subsequently, the 2015 and 2016 financial information and the comparative financial information for the six months ended June 30, 2016, as contained therein, were restated to reflect the change in accounting policy with effect from January 1, 2017 when the Group changed its valuation model of investment property from cost model to fair value model, as the Directors of the Company considered that the change provides a reliable and more relevant information to users of the financial statements than the cost model. The changes in valuation model and accounting policy has been applied retrospectively in the interim condensed consolidated financial statements of the Group as at and for the six months ended June 30, 2017.

The summary consolidated financial information for the years ended December 31, 2015 and 2016 and for the six months ended June 30, 2016 has been presented in a manner consistent with the interim condensed consolidated financial statements for the six months ended June 30, 2017. The 2015 and 2016 financial information and the comparative financial information for the six months ended June 30, 2016 of the Group as contained therein (which has been restated) was neither audited nor reviewed by the independent auditor of our Group. The audited consolidated financial statements for the years ended December 31, 2015 and 2016, including the notes thereto, were included elsewhere in this offering memorandum, have not reflected the above restatements and are for reference purpose only.

The comparative financial information of the Group for the year ended and as of December 31, 2014 as contained therein has not been restated. Should such information (as included in this offering memorandum) be restated to reflect the effect of such change in valuation model, the restated amounts might be different from the financial information reported herein. Consequently, potential investors must exercise caution when using such financial information to evaluate the Issuer's financial condition and results of operations.

Our financial statements for the years ended December 31, 2014, 2015 and 2016 and the six months ended June 30, 2017 have been prepared and presented in accordance with HKFRS, which differ in certain respects from generally accepted accounting principles in other jurisdictions. The summary consolidated financial data below should be read in conjunction with the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements and the notes to those statements included elsewhere in this offering memorandum.

Notes:

(1) EBITDA for any period consists of profit before tax less other losses or gains, share of profit or loss of investments accounted for using the equity method and interest income, plus finance costs, capitalized interest included in cost of sales, depreciation and amortization expenses and impairment of goodwill. EBITDA is not a standard measure under the HKFRS. EBITDA is a widely used financial indicator of a company's ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. EBITDA does not account for taxes, interest expense or other non-operating cash expenses. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. See "Management's Discussion and Analysis of Financial Condition and Results of Operations — Non-GAAP Financial Measures" for a reconciliation of our profit for the year/period under HKFRS to our definition of EBITDA. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the Indenture governing the Notes. See "Description of the Notes — Definitions" for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indenture governing the Notes.

(2) EBITDA margin is calculated by dividing EBITDA by revenue.

RISK FACTORS

You should carefully consider the risks described below and other information contained in this offering memorandum before making an investment decision. The risks and uncertainties described below may not be the only ones that we face. Additional risks and uncertainties that we are not aware of or that we currently believe are immaterial may also adversely affect our business, financial condition or results of operations. If any of the possible events described below occur, our business, financial condition or results of operations could be materially and adversely affected. In such case, we may not be able to satisfy our obligations under the Notes, and you could lose all or part of your investment.

RISKS RELATING TO OUR BUSINESS

Our business and revenue growth are primarily dependent on favorable economic conditions in the PRC, particularly the performance of the PRC residential property market in the cities in which we develop our property development projects, and therefore any potential decline in demand for properties, property sales or property prices in the PRC, particularly in the cities where we have operations, could have a material adverse effect on our business, results of operations and financial condition

Our business and revenue growth is subject to favorable economic conditions in the PRC, particularly in the cities where our property projects are located. As we focus on the development of residential developments in the PRC, if the property market, in particular the residential property market, in the PRC performed badly, it would have a direct adverse effect on us.

The PRC property market is affected by many factors, including changes in the PRC's social, political, economic and legal environments, changes in the PRC government's fiscal and monetary policy, the lack of a mature and active secondary market for residential properties and the limited availability of mortgage loans to individuals in the PRC. We are also sensitive to changes in the economic conditions, consumer confidence, consumer spending and customer preferences of the urban Chinese population. Other factors beyond our control, such as levels of personal disposable income, may also affect consumer confidence in our geographical markets and demand for our properties.

Demand for residential properties in the PRC has been growing rapidly over the past few years. However, such growth is often coupled with volatility in market conditions and fluctuations in housing prices. There have been concerns that the PRC property market has been overheating and may become a property "bubble." In response, the PRC government has taken measures to prevent the overheating of the PRC property market. Such measures may lead to changes in market conditions, price instability and an imbalance between the supply of and demand for properties in the PRC.

We cannot assure you that the PRC residential property market and housing prices will continue to grow at past levels or will not decline. Any potential decline in demand for properties, property sales or property prices in the PRC, particularly in the cities where we have operations, could have a material adverse effect on our business, results of operations and financial condition.

We may not be able to identify suitable land or acquire land use rights for future development at reasonable prices, or at all, and if that happens, our business, results of operations and financial condition as well as prospects may be materially and adversely affected

We derive substantially all of our revenue from the sale of properties that we have developed. We must continuously acquire land use rights for sites suitable for future development at reasonable prices at an appropriate pace in order to generate sustainable revenue and maintain business growth. There is a limited supply of suitable land available for development in the cities or regions into which

we plan to expand, and the costs of acquiring land use rights in many such cities have increased in recent years. We also face strong competition from other property developers for sites that we may target. We cannot assure you that we will be able to successfully acquire any or all of the land use rights for projects planned for future development at reasonable prices, or at all.

The PRC government has control over the supply of substantially all land and their approved usage, and regulates various aspects of the process through which land is acquired and developed. Such PRC government land policies have a direct impact on our ability to acquire land and our costs of acquisition. Any changes in PRC government land policies with regard to land supply and development may lead to increases in our costs of acquisition and limit our ability to successfully acquire land at reasonable prices, which would have a material adverse effect on our business, results of operations and financial condition. The various PRC regulatory measures may also intensify the competition for land in the PRC among property developers. Please refer to the section headed “— Risks relating to our industry — Our operations are subject to extensive governmental regulations and the frequent introduction of new regulations, and we may be affected by further measures by the PRC government to slow down the growth of the property sector” in this offering memorandum for further details. For additional information on the regulatory procedures and restrictions on land acquisition in the PRC, please refer to the section headed “Regulation” in this offering memorandum.

If we fail to acquire land use rights for sites suitable for development in a timely manner, at reasonable prices or at all, or if further changes in government policies with regard to land supply and development lead to increases in our costs of acquisition, our business, results of operations and financial condition as well as prospects may be materially and adversely affected.

We may not be able to obtain land use rights of parcels of land with respect to which framework agreements or letters of intent have been entered into, and as a result, there may be a material adverse effect on our business, results of operation and financial condition

We may enter into agreements or letters of intent with relevant governmental authorities and third parties with respect to parcels of land. We may also, from time to time, pay deposits or advance payments pursuant to such agreements, letters of intent and other arrangements in an attempt to acquire land. Such arrangements do not constitute land grant contracts. We cannot assure you that these agreements or letters of intent will eventually result in our acquisition of any land use rights or our entering into of any land grant contract, or that the governmental authorities will grant us the land use rights or issue the relevant land use rights certificates in respect of these parcels of land. If we fail to obtain or experience a material delay in obtaining the land use rights, there may be a material adverse effect on our business, results of operation and financial condition. If a land acquisition fails to materialize, we are generally entitled to a refund of our advance payments or deposits pursuant to the relevant agreements or arrangements. However, there is no assurance that the refund will be made on a timely basis. If there is any delay in refunding our deposits or advance payments, our business, results of operations and financial condition may be materially and adversely affected.

We rely on our external contractors for all of our construction works and if any of these contractors fail to deliver satisfactory services, our reputation, business, results of operations and financial condition may be materially and adversely affected

We outsource construction works of all our projects to external contractors. Such works include, among other things, foundation digging, general construction and installation of equipment. We consider a wide range of factors when selecting a contractor. We cannot assure you that any such external contractor will provide satisfactory services at the required quality level. If the performance of any external contractor is unsatisfactory, we may need to replace the external contractor or take other actions to remedy the situation, which may have a material adverse effect on the cost and construction progress of our projects.

In accordance with applicable PRC laws and regulations, we provide warranties on the quality of properties we construct or sell to our customers. We receive quality warranties from third-party contractors we engage to construct our development projects. If claims are brought against us under our warranties, and if the relevant third-party contractor fails to indemnify us for such claims in a timely manner or at all, or the indemnity provided is not sufficient, we could incur significant expenses to resolve such claims or face delays in rectifying such defects. The occurrence of these events may harm our reputation and have a material adverse effect on our business, results of operations and financial condition.

Furthermore, our external contractors may undertake projects from other developers, engage in risky undertakings or otherwise encounter financial or other difficulties, which may cause delay in the completion of our property projects or increase our project development costs. The occurrence of any of the above events may have a material adverse effect on our reputation, business, results of operations and financial condition.

We may not be successful in managing our expansion into new cities or regions, and as a result our business, results of operation and financial condition may be materially and adversely affected

We have focused primarily on the development of residential properties in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region in the PRC. We have also established our presence in Shanghai since 2015 and Sydney, Australia since 2016. We intend to continue to expand our operations into additional cities in these regions. In addition, we intend to expand into other regions with growth potential.

Expanding into new geographical locations involves uncertainties and challenges as we may be less familiar with local regulatory practices and customs, customer preferences and behavior, the reliability of local contractors and suppliers, business practices and business environments and municipal-planning policies. In addition, expanding our business into new geographical locations would entail competition with developers who may have a better-established local presence or greater access to local expertise and knowledge than we do.

As we may face challenges not previously encountered, we may fail to recognize or properly assess risks or take full advantage of opportunities, or otherwise fail to adequately leverage our past experience to meet challenges encountered in these new markets. For example, we may have difficulty in accurately predicting market demand for our properties in the cities into which we expand.

In addition, expanding into new geographic locations requires a significant amount of capital and management resources. We will also need to manage the growth in our workforce to match the expansion of our business. Any of these factors could have a material adverse effect on our business, results of operations, financial conditions as well as prospects.

A deterioration in our reputation and brand image may have a material adverse effect on our business, results of operations and financial condition

We rely on our reputation and brand image to attract potential customers to our properties. Reputation and brand image are based largely on consumer perceptions with a variety of subjective qualities and can be damaged by isolated business incidents that degrade consumer confidence. Any negative incident or negative publicity concerning us or our properties, whether accurate or not, may damage our reputation and have a material adverse effect on our business, results of operations and financial condition. In addition, any inaccurate or negative media reports may require us to engage in defensive actions, which may divert our management's attention and adversely affect our business and results of operations. We cannot assure you that there will not be any other false, inaccurate or negative media reports about us or our projects in the future.

We may fail to obtain, or experience material delays in obtaining, requisite certificates, licenses, permits or governmental approvals for our property development operations, and as a result our development plans, business, results of operations and financial condition may be materially and adversely affected

The property industry in the PRC is heavily regulated. During various stages of our property development projects, we are required to obtain and maintain various certificates, licenses, permits, certificates and governmental approvals, including but not limited to qualification certificates, land use rights certificates, construction land planning permits, construction works planning permits, construction works commencement permits, pre-sale permits and completion certificates. Before the government authorities issue or renew any certificate, license or permit, we must meet specific conditions. Please refer to the sections headed “Regulation” and “Business — Legal proceedings, compliance and internal control — Compliance with relevant laws and requirements — Qualifications” in this offering memorandum for details. The GFA of the projects developed by one of our PRC subsidiaries exceeded the limit stipulated in their qualification certificates. Under the relevant laws and regulations, such PRC subsidiaries may be required to rectify within a stipulated period of time and subject to a fine up to RMB100,000. If such PRC subsidiaries fail to make rectification as required, their qualification certificates and business licenses may be revoked. As of the date of this offering memorandum, we have not received any notice from relevant authorities in relation to such projects.

We cannot assure you that we will be able to adapt to new PRC land policies that may come into effect from time to time with respect to the property development industry or that we will not encounter other material delays or difficulties in fulfilling the necessary conditions to obtain and/or renew all necessary certificates, licenses or permits for our operations in a timely manner, or at all, in the future. If we fail to obtain or renew, or encounter significant delays in obtaining or renewing, the necessary certificates, licenses or permits for any of our major property development projects, we will not be able to continue with our development plans or they may be delayed, and our business, results of operations and financial condition may be adversely affected.

We may not be able to complete or deliver our property development projects on time, which may subject us to liabilities as a result of such delays

The progress of a property development project may be materially and adversely affected by various factors, including delays in obtaining necessary licenses, permits or governmental approvals, shortages of materials, equipment and skilled labors, labor disputes, negligence or poor work quality of contractors, construction accidents, natural catastrophes, adverse weather conditions and changes in governmental policies.

We make certain undertakings in our sales contracts including delivering completed properties and individual building ownership certificates to our customers within the period stipulated in the sales contracts. These sales contracts and the relevant PRC laws and regulations provide for remedies for breach of such undertakings. If we fail to complete the properties on time, our customers may seek compensation for late delivery pursuant to either their sales contracts with us or relevant PRC laws and regulations. If our delay extends beyond a specified period, our customers may terminate the sales contracts and claim compensation. Our customers may also elect to default on such sales contracts. We may also be liable to our customers for any delay in the delivery of individual building ownership certificates, which is caused by delays in the administrative approval process or other reasons beyond our control.

We cannot assure you that we will not experience any significant delays in the completion or delivery of our properties, or that we will not be subject to any liabilities for any such delays. Liabilities arising from any delays in the completion or delivery of our properties may have a material adverse effect on our business, results of operations and financial condition. In addition, you should not unduly rely upon our contracted sales numbers (which have neither been audited nor reviewed by our auditors) contained in this offering memorandum as a measure or indication of our current or future operating performance.

The PRC government may impose fines or other penalties on us if we fail to comply with the terms of the land grant contracts or listing-for-sale confirmation letters, and we may not be able to obtain land use rights certificates with respect to certain parcels of land

Under PRC laws and regulations, the PRC government may issue a warning, impose a penalty and/or reclaim our land if we fail to develop a particular project according to the terms of the relevant land grant contracts, such as the approved land use, payment of land premiums and other fees, and the time for commencement and completion of development.

Under current PRC laws and regulations, we may be subject to late penalties as stipulated in the land grant contracts if we fail to pay any outstanding land premium by the stipulated deadline. If we fail to commence development for more than one year from the commencement date stipulated in the land grant contracts, the relevant PRC land and resource authorities may serve an investigation notice and impose an idle land fee of up to 20% of the land premium on us if the delay is found out not to be caused by government actions or force majeure. If we fail to commence development for more than two years, the land may be subject to forfeiture by the PRC government unless the delay is caused by government actions or force majeure. Furthermore, even if we commence development in accordance with the land grant contracts, if the developed land area is less than one-third of the total land area, or if the total capital expenditure on land development is less than one-fourth of the total amount expected to be invested in the project as specified in the project registration or approval documents, not including the purchase price of the land, and the development of the land is suspended for over one year without government approval, the land will still be treated as idle land.

We cannot assure you that we will be able to fully comply with the obligations under the land grant contracts or listing-for-sale letters in the future due to factors which are beyond our control, or that our property development projects will not be subject to idle land penalties or be taken back by the government as a result of such delays. If we fail to comply with the terms of any land grant contract or listing-for-sale confirmation letter as a result of delays in project development or any other reasons, we may lose our previous investments in the land and the opportunity to develop the project, which may have a material adverse effect on our business, results of operations and financial condition.

We had negative net operating cash flows for the year ended December 31, 2014 and 2015. If we are unable to meet our payment obligations, our business, financial condition and results of operations may be materially and adversely affected

For the years ended December 31, 2014 and 2015, we recorded negative net cash flows from operating activities of approximately RMB1,597.9 million and RMB90.3 million, respectively. Our negative net operating cash flow was principally attributable to cash outflow associated with land acquisition. We cannot assure you that we will not experience negative net cash flows in the future. Negative net operating cash flows require us to obtain sufficient external financing to meet our financial needs and obligations. If we are unable to do so, we will be in default of our payment obligations, including those under the Notes and may not be able to develop our projects as planned or meet our capital expenditure requirements. As a result, our business, financial condition and results of operations may be materially and adversely affected.

We provide guarantees for mortgage loans of our customers and may become liable to mortgagee banks if our customers default on their mortgage loans

In line with industry practice, we provide guarantees for mortgage loans given by banks to our purchasers of properties developed by us. Typically, we guarantee mortgage loans given by banks to purchasers until the earlier of (i) the relevant properties are completed and the relevant building ownership certificates and the mortgage are registered in favor of the mortgagee bank, and (ii) the mortgage loans between the mortgagee bank and the purchaser are settled. If a purchaser defaults on a mortgage loan, we may be required to repurchase the underlying property by paying off the mortgage. If we fail to do so, the mortgagee bank may auction the underlying property and recover any additional amount outstanding from us as the guarantor of the mortgage loans. In line with industry practice, we do not conduct any independent credit checks on our customers and rely on the credit evaluation conducted by the mortgagee banks on such customers. These are contingent liabilities not reflected on our balance sheets.

As of December 31, 2014, 2015 and 2016 and June 30, 2017 our outstanding guarantees in respect of the mortgages for certain purchasers of our properties amounted to RMB2,801.1 million, RMB3,409.7 million, RMB5,100.3 million and RMB5,327.6 million (US\$785.9 million), respectively. For the three years ended December 31, 2016 and the six months ended June 30, 2017, we encountered a total of eight incidents of default by purchasers, which involved an aggregate default payment of RMB7.4 million. If there is any material default and if we were called upon to honour our guarantees, our business, results of operations and financial condition may be materially and adversely affected.

Our results of operations are largely dependent on the development schedules and pre-sales of our projects and may therefore fluctuate significantly from period to period, and such fluctuations make it difficult to predict our future performance

Since we derive our revenue primarily from the sale of properties developed by us, our future cash flows and revenue are heavily affected by the schedule of pre-sale and sale of our properties.

Our results of operations have varied significantly in the past and may continue to fluctuate significantly from period to period in the future. For the years ended December 31, 2014, 2015 and 2016 and the six months ended June 30, 2017, our revenue was RMB3,502.8 million, RMB3,378.2 million, RMB5,270.1 million (US\$777.4 million) and RMB3,009.9 million (US\$444.0 million), respectively; our net profit attributable to our equity holders was RMB347.2 million, RMB412.2 million (restated), RMB450.8 million (US\$66.5 million) (restated) and RMB322.1 million (US\$47.5 million), respectively. Our results of operations may continue to vary in the future due to various factors, including the overall development and delivery schedule of our property projects, the level of acceptance by our customers of our properties, the timing of the pre-sale and sale of properties, our revenue recognition policies, any changes in our development costs and expenses and the general condition of the property market. Our property developments are often developed in multiple phases over the course of several years. According to our revenue recognition policy, we recognize revenue from sales of our properties upon delivery to purchasers. There is a time difference between pre-sales of projects under development and the completion of construction works. Periods in which we pre-sell a large amount of aggregate GFA may not be periods in which we generate a correspondingly high level of revenue, if the properties are not completed and delivered within the same period. Our revenue and profit for any period may decrease if the number of properties we deliver declines during such period. For example, our expected delivery of properties in 2016 is more concentrated in the second half of the year, and as a result, our revenue and profit in the first half of 2016 will reflect the quantity of properties delivered during that period and may not be indicative of the actual demand for our properties or contracted sales achieved during that period. The effect of timing of delivery on our results of operation is accentuated by the fact that we can only undertake a limited number of projects at a particular time, as we require substantial capital to fund land acquisition and construction costs.

Accordingly, our results of operations for any given period may not be indicative of the actual demand for our properties or the pre-sales or sales achieved during such period. Our revenue and profit during any given period generally reflect property purchases at a time in the past, typically in the prior fiscal period. Accordingly, our results of operations are not necessarily indicative of results that may be expected for any future period. Furthermore, our interim results may not be indicative of our annual results.

Our profitability and results of operations are affected by changes in interest rates

We finance our property development projects primarily through proceeds from pre-sales and sales and bank borrowings. Changes in interest rates have affected, and will continue to affect, the financing costs for our property developments. Our bank borrowings are primarily denominated in Renminbi. The interest rates on our Renminbi bank borrowings are primarily affected by the benchmark interest rate set by the PBOC, which has fluctuated significantly in recent years. The PBOC benchmark one-year lending rates in the PRC (which directly affects the property mortgage rates offered by commercial banks in the PRC) as of December 31, 2014, 2015 and 2016 and June 30, 2017 were 5.60%, 4.35%, 4.35% and 4.35%, respectively. The weighted average effective interest rate for our bank loans was 5.90%, 6.63%, 5.31% and 5.25%, respectively, as of December 31, 2014, 2015 and 2016 and June 30, 2017, and the weighted average effective interest rate for our trust financing arrangements was 12.00%, and 12.00%, respectively, as of December 31, 2014 and 2015. Most of our finance costs are capitalized and recognized as cost of sales upon the sale of properties. As a result, such capitalized finance costs may adversely affect our gross profit margin upon the sales of properties in future. In addition, changes in interest rates may affect our customers' ability to secure mortgages on acceptable terms, which, in turn, may affect their ability to purchase our properties. In 2014, 2015, 2016 and the six months ended June 30, 2017, our finance costs were RMB2.9 million, RMB3.4 million, RMB6.4 million (US\$0.94 million) and RMB3.6 million (US\$0.53 million) respectively.

We cannot assure you that the PBOC will not raise lending rates further or otherwise discourage bank lending. Further increases in lending rates may increase our finance costs, which may have a material adverse effect on our business, results of operations and financial condition.

Fluctuations in cost of construction materials or cost of labor may have a material adverse effect on our business, results of operations and financial condition

The cost of construction materials such as steel and cement, as well as contractors' labor costs, may fluctuate. For example, construction material costs experienced periods of fluctuations in 2014, 2015 and 2016 and the six months ended June 30, 2017. We procure construction materials through our external contractors or by ourselves. If the price of construction materials increases beyond the agreed pre-determined percentage, we may be required to reimburse our contractors for any shortfall. If there is a material increase in the costs of construction materials and we cannot pass on such increase to our customers, our business, financial conditions and results of operations may be materially and adversely affected.

Our construction costs have also been affected by rising labor costs in the PRC in recent years, and we expect labor costs in the PRC to continue to increase in the future.

If the cost of construction materials or cost of labor deviate materially from our initial estimation, our business, results of operations and financial condition may be materially and adversely affected.

Our success is dependent on the continuing service of members of our senior management, and if we lose the services of any of these key executives and cannot replace them in a timely manner, our business may be materially and adversely affected

The success of our business has been, and will continue to be, heavily dependent upon the continuing service of members of our senior management, in particular our chairman, Mr. Wong. If we lose the services of any of our key executives and cannot replace them in a timely manner, our business may be materially and adversely affected.

In addition, our success depends on our ability to attract and retain talented personnel. We may not be able to successfully attract, assimilate or retain all the personnel we need. We may also need to offer superior compensation and other benefits to attract and retain key personnel and therefore cannot assure you that we will have the resources to fully achieve our staffing needs. Our failure to attract and retain competent personnel and any increase in staffing costs to retain such personnel could have a negative effect on our ability to maintain our competitive position and to grow our business, and our business, results of operations and financial condition may be materially and adversely affected as a result.

We may not have adequate insurance coverage to cover our potential liability or losses and as a result our business, results of operations and financial condition may be materially and adversely affected

We face various risks in connection with our businesses and may lack adequate insurance coverage or may have no relevant insurance coverage. In addition, in line with general industry practice in the PRC, we do not maintain insurance in respect of litigation risks, business termination risks, product liability or important personnel of our Group. Please refer to the section headed “Business — Insurance” in this offering memorandum for further information. The occurrence of any of these events may result in an interruption of our operations and subject us to significant losses or liabilities. In addition, there are certain losses for which insurance is not available on commercially reasonable terms, such as losses suffered due to earthquake, war, civil unrest and certain other events of force majeure. If we incur substantial losses or liabilities and our insurance coverage is unavailable or inadequate to cover such losses or liabilities, our business, results of operations and financial condition may be materially and adversely affected.

We may be involved in disputes, legal and other proceedings arising out of our operations from time to time and may face significant liabilities as a result

We may from time to time be involved in disputes with various parties involved in the development and sales of our properties, including contractors, suppliers, construction workers and purchasers. These disputes may lead to protests or legal or other proceedings and may result in damage to our reputation, substantial costs to our operations, and diversion of our management’s attention. In addition, we may have disagreements with regulatory bodies in the ordinary course of our operations, which may subject us to administrative proceedings and unfavorable decrees that result in significant liabilities and cause delays to our property developments. We cannot assure you that we will not be so involved in any major legal or other proceedings in the future.

We are subject to certain restrictive covenants and risks normally associated with borrowings which may limit or otherwise materially and adversely affect our business, results of operations and financial condition

Certain of our banking facilities are subject to a number of material, customary affirmative and/or negative covenants. For example, certain of our subsidiaries are restricted from carrying out merger, restructuring, spin-off, material asset transfer, liquidation, change of control, reduction of registered capital, change of scope of business, declaration and payment of dividends and incurring further indebtedness without the prior consent of the relevant banks. Certain of our banking facilities taken out by certain of our operating subsidiaries also contain cross default conditions which deem

a breach of default conditions under relevant financing facilities by the related companies of such operating subsidiaries and their guarantor(s) to be a default by such operating subsidiaries of the banking facilities. If any cross default occurs, these banks are entitled to accelerate payment of all or any part of the indebtedness owing under the relevant loan agreements and to enforce all or any of the security for such indebtedness. If we fail to comply with any of those covenants or repay these loans in part or in full at their respective maturity dates, there may be a material adverse effect on our business, results of operations and financial condition.

We engage in resettlement operations that involve the resettlement of existing residents and the resettlement process may be delayed or not be completed as planned, and as a result our land acquisition and development process may be materially and adversely affected

We undertook or may undertake resettlement operations whereby either we or the original land use rights owner are responsible for resettlement operations including compensation and resettlement of affected local residents, demolition of existing structures and clearing of land of the relevant areas. We are often required to repay certain amounts to the local government authorities before commencement of such resettlement operations. In cases where resettlement of local residents is involved, we may be required to compensate the affected local residents in accordance with applicable laws and regulations. Any disputes with affected local residents as to the related compensation or refusals of dissenting residents for relocation may increase our resettlements costs, delay the resettlement process and the subsequent land acquisition and development process, which may in turn have a material adverse effect on our business, results of operation and financial condition.

As of June 30, 2017, we were involved in ongoing resettlement operations. In respect of our ongoing resettlement operation in Yantai, we had paid site clearing fees in the amount of RMB40 million under our current arrangements with the relevant governmental authority and acquired three parcels of land with RMB497.2 million. The local governmental authority is responsible for entering into resettlement agreements with affected local residents and clearing the relevant land so that it becomes ready for subsequent public tender, listing-for-sale or auction. Site clearing fees shall be returned to us upon full payment of the land grant premium by the successful bidder of the land at the subsequent public tender, listing-for-sale or auction. Please refer to the section headed “Business — Resettlement Operations” in the offering memorandum for further details on the projects.

There is no assurance that we can successfully obtain land use rights at the subsequent public tender, listing-for-sale or auction with respect to the land for which we have engaged in resettlement operations. There is also no assurance that our prepayments will be returned to us in a timely manner if we fail to obtain land use rights at the subsequent public tender, listing-for-sale and auction. If we cannot acquire land use rights for future property development projects, there may be a material adverse effect on our business, results of operations and financial condition.

Investment in real properties is relatively illiquid, and we may not be able to sell such investment properties at prices or on terms satisfactory to us, or at all

We intend to increase the proportion of commercial property projects while strategically retaining high quality commercial properties as investment properties for generating rental income. In general, investment in real properties is relatively illiquid compared with other forms of investment. We may need to dispose of certain investment properties in the event of changing economic, financial and investment conditions. However, we cannot assure you that we will be able to sell such investment properties at prices or on terms satisfactory to us, or at all.

We may be subject to potential liability for environmental problems, which may result in losses

We are subject to a variety of laws and regulations concerning the protection of the environment. The applicable environmental laws and regulations may vary significantly depending on the location, environmental condition and present and former uses of the site. Project development activities can be severely restricted or prohibited in environmentally sensitive regions or areas. Compliance with health and environmental laws and conditions may result in delays or cause us to incur substantial compliance and other costs. Please refer to the sections headed “Business — Health, work safety, social and environmental matters — Environmental Matters” in this offering memorandum for details.

As required by PRC laws, we have engaged independent third-party environmental consultants to conduct environmental impact assessments at all of our construction projects, and such environmental impact assessments were submitted to the relevant government authorities for approval before commencement of development. It is possible that the environmental impact assessment conducted may not reveal all environmental liabilities or their extent, and there may be material environmental liabilities of which we are unaware. If any portion of the project is found to be non-compliant with relevant environmental standards, we may be subject to suspension of our operations of such project as well as fines and penalties.

Future investments or acquisitions may have a material adverse effect on our ability to manage our business and harm our results of operations and financial condition

We may make strategic investments and acquisitions that complement our operations. However, our ability to make successful strategic investments and acquisitions will depend to a large extent on our ability to identify suitable acquisition targets that meet our investment and acquisition criteria, to obtain financing on favorable terms and, where relevant, to obtain the required regulatory approvals. In the event that we are unable to make, or are restricted from making, such strategic investments or acquisitions due to regulatory, financial or other constraints, we may not be able to effectively implement our investment or expansion strategies.

Acquisitions typically involve a number of risks, including, but not limited to:

- the difficulty of integrating the operations and personnel of the acquired business;
- the potential disruption to our ongoing business and the distraction of our management;
- the difficulty of maintaining uniform standards, controls, procedures and policies;
- the impairment of relationships with employees and customers as a result of integration of new management and personnel;
- unrevealed potential liabilities associated with acquired businesses;
- higher than planned requirements to preserve and grow the value of acquired businesses or assets; and
- adverse effects on our results of operations due to the amortization of and potential impairment provision for goodwill or other intangible assets associated with acquisitions, and losses sustained by acquired businesses after the date of acquisitions.

We may not be able to make acquisitions or investments on favorable terms or within a desired time frame. Even if we were able to make acquisitions or investments successfully as desired, we cannot assure you that we will achieve an intended level of return on such acquisitions or investments. In addition, we may require additional equity financing in order to make such acquisitions and investments. If obtained, any such additional equity financing may result in dilution to the holdings of existing shareholders. Any of these factors could have a material adverse effect on our business, results of operations, financial condition and prospects.

We mainly purchase from a small group of suppliers, and any disruption in their supply may have a material adverse effect on our business, results of operations and financial condition

In 2014, 2015 and 2016 and the six months ended June 30, 2017, our major suppliers were mainly our construction contractors. Purchases from our five largest suppliers accounted for approximately 38.1%, 58.8%, 28.8% and 34.1%, respectively, of our total purchases for the years ended December 31, 2014, 2015 and 2016 and the six months ended June 30, 2017, and purchases from our largest supplier accounted for approximately 13.5%, 33.1%, 17.1% and 16.5%, respectively, of our total purchases for the corresponding periods. Should there be a disruption in supply by one or more of our major suppliers and we fail to find replacement suppliers on favorable terms, or at all, our business, results of operations and financial condition may be materially and adversely affected. Please refer to section headed “Business — Suppliers and Customers — Suppliers” in this offering memorandum for further details.

We may be subject to fines or penalties if we fail to comply with any applicable laws, rules or regulations

Certain members of our Group have failed to lay their profit and loss accounts and balance sheets at their respective annual general meeting and/or lay their accounts made up to date not more than nine months before the annual general meeting in accordance with requirements under the Companies Ordinance in history. For risks associated with our failure to comply with the terms of the land grant contracts or listing-for-sale confirmation letters, please refer to the section headed “— Risks relating to our business — The PRC government may impose fines or other penalties on us if we fail to comply with the terms of the land grant contracts or listing-for-sale confirmation letters, and we may not be able to obtain land use rights certificates with respect to certain parcels of land” in this offering memorandum. For risks associated with our failure to comply with the PRC State Administration of Foreign Exchange (“SAFE”) registration requirements, please refer to the section headed “— Risks relating to conducting business in the PRC — Failure to comply with SAFE regulations relating to the establishment of special purpose vehicles by our beneficial owners may materially and adversely affect our business operations” and “— Risks relating to conducting business in the PRC — Failure to comply with the cross-border guarantee related regulations may materially and adversely affect our business, results of operations and financial condition” in this offering memorandum. Although we have put in effect internal control measures to prevent occurrence of similar incidents in the future, there is no assurance that our Group will not have any non-compliance incidents in the future. In the event that we breach any applicable laws, rules or regulations in the future, we may be subject to fines or penalties arising from such non-compliance incidents, which may have a material adverse effect on our business, results of operations and financial condition.

We may be subject to fines due to the commencement of construction works prior to obtaining the relevant construction works commencement permit or building unauthorized construction without local government's permission

Pursuant to the Regulation on the Quality Management of Construction Projects 《(建設工程質量管理條例)》 promulgated by the State Council on January 10, 2000, effective on January 30, 2000 and amended on October 7, 2017, a property developer shall apply for a construction works commencement permit from the relevant authority prior to the commencement of any construction works on the land. If a property developer fails to obtain the relevant construction works commencement permit before commencement of construction works, the relevant authorities may order the property developer to stop the construction and make corrections and impose a fine of no less than 1% but no more than 2% of the contractual price of the project to the property developer. Where a fine is imposed on the property developer, a fine of no less than 5% but no more than 10% of the amount of the property developer's fine may be imposed on the directly liable person-in-charge and other directly liable persons in the property developer. If any of our project companies commences construction without the construction work commencement permit, we may be subject to fines, which may have an adverse effect on our business, results of operations and financial condition.

We may not be able to realize the anticipated economic and other benefits from our joint ventures, and disputes with joint venture partners or any violation of PRC laws by our joint ventures may adversely affect our business, results of operations and financial condition

We have entered into joint ventures with other property developers to develop projects and may continue to do so in the future. The success of a joint venture depends on a number of factors, some of which are beyond our control. As a result, we may not be able to realize the anticipated economic and other benefits from our joint ventures. In addition, in accordance with PRC law, certain matters relating to joint ventures require the consent of all parties to the joint ventures. Joint ventures may involve risks associated with, among others, the possibility that our joint venture partners may:

- have economic or business interests or goals inconsistent with ours;
- take actions contrary to our instructions, requests or our policies or objectives;
- be unable or unwilling to fulfill their obligations under the relevant joint venture agreements;
- have financial difficulties; or
- have disputes with us as to the scope of their responsibilities and obligations.

In addition, since we do not have full control over the business and operations of our joint ventures, we cannot assure that they have been, or will be in strict compliance with all applicable PRC laws and regulations. We cannot assure you that we will not encounter problems with respect to our joint ventures or our joint ventures will not violate applicable PRC laws and regulations, which may have an adverse effect on our business, results of operations and financial condition.

RISKS RELATING TO OUR INDUSTRY

We may not have adequate financing, whether through bank loans or other arrangements, to fund our property developments, and such capital resources may not be available on commercially reasonable terms, or at all

Property development is capital intensive. We finance our property development projects primarily through proceeds from sales of properties and bank borrowings. We may also access the capital markets to raise further financing. Our ability to obtain external financing in the future is subject to a variety of uncertainties, many of which are beyond our control, including:

- the condition of the international and domestic financial markets and financing availability;
- obtaining the necessary PRC government approvals to raise financing in the domestic or international markets;
- our future financial condition, results of operations and cash flow;
- general economic conditions in the PRC;
- performance and outlook of the property development industry in the PRC;
- changes in the monetary policy of the PRC government with respect to bank interest rates, lending practices and conditions; and
- changes in policies regarding regulation and control of the property market.

We cannot assure you that we will be able to meet our sales targets or that banks or other lenders will grant us sufficient financings in the future as we expect. Accordingly, we may not be able to raise enough funds for our continuing operations, existing and future capital expenditure requirements, acquisition and investment plans and other funding requirements.

There are certain PRC laws and regulations which govern financing policies on PRC financial institutions for the property development sector and tighten the criteria for banks to provide loans to property development enterprises and limit the accessibility of bank financing to our development projects. Please refer to the section headed “Regulation” in this offering memorandum.

The PRC government may further tighten financing policies on PRC financial institutions for the property development sector. These property-related financing policies may limit our ability and flexibility to use bank borrowings to finance our property projects and therefore may require us to maintain a relatively high level of internally generated cash.

We cannot assure you that the PRC government will not introduce other initiatives, which may further limit our access to capital and the ways we finance our property development projects, or that we will be able to secure adequate financing or renew our existing credit facilities prior to their expiration on commercially reasonable terms, or at all. If we fail to secure adequate financing or renew our existing loans prior to their expiry as a result of these governmental actions and policy initiatives, there may be a material adverse effect on our business, results of operations and financial condition.

Our operations are subject to extensive governmental regulations and the frequent introduction of new regulations, and we may be affected by further measures promulgated by the PRC government to slow down the growth of the property sector

Our business of developing and selling residential premises is extensively regulated in the PRC. We are required to comply with various PRC laws and regulations, as well as policies and procedures prescribed by local authorities to implement such laws and regulations. In particular, the PRC government exerts considerable direct and indirect influence on the development of the PRC property sector by imposing industry policies and other economic measures, which, among other things, control foreign exchange, taxation, foreign investment and the supply of land for property development. Through these policies and measures, the PRC government may raise the benchmark interest rates of commercial banks, place additional limitations on the ability of commercial banks to make loans to property developers and property purchasers, impose additional taxes and levies on property sales, impose foreign exchange restriction on cross-border investment and financing related activities and restrict foreign investment in the PRC property sector and restrict or reduce the supply of land for property development. In the event that we breach any applicable laws, rules, regulations or restrictions, we may be subject to fines or penalties, which may have a material adverse effect on our business, results of operations and financial condition.

Over the past few years, the PRC government has introduced a number of policies to control the growth and curtail the overheating of, and the foreign investment in, the PRC property sector. Please refer to the section headed “Regulation” in this offering memorandum for further details.

The PRC government’s measures and policies could restrict our ability to obtain financing and increase our operating costs, as well as limit our potential customers’ ability to purchase our properties. Measures and policies adopted by the PRC government to restrict the ability of purchasers to obtain mortgages, to resell their properties or to increase the cost of mortgage financing may reduce market demand for our properties and therefore have a material adverse effect on our business, results of operations and financial condition. The PRC government may adopt further measures in the future which may further reduce market demand and slow down the growth of the property industry. These measures may have a material adverse effect on our business, results of operations and financial condition.

Changes in PRC laws and regulations with respect to pre-sale may have a material adverse effect on our business performance

We depend on cash flows from the pre-sale of properties as an important source of funding for our property development. Under current PRC laws and regulations, property developers must fulfill certain conditions before they can commence pre-sale of the relevant properties and may only use pre-sale proceeds to finance their development. We cannot assure you that the PRC government will not implement further restrictions on property pre-sale, such as imposing additional conditions for obtaining pre-sale permits or imposing further restrictions on the use of pre-sale proceeds. The adoption of any such measures may materially and adversely affect our cash flow position and force us to seek alternative sources of funding to finance our project development, which may not be available on commercially reasonable terms, or at all.

The relevant PRC tax authorities may challenge the basis on which we calculate our LAT obligations which could have a material adverse effect on our results of operations

In accordance with PRC regulations on LAT, all persons including companies and individuals that receive income from the sale or transfer of land use rights, properties and their attached facilities are subject to LAT at progressive rates ranging from 30% to 60% of the appreciated value of the property. In 2014, 2015 and 2016, and the six months ended June 30, 2017, we incurred LAT of RMB87.3 million, RMB149.8 million, RMB247.6 million (US\$36.5 million) and RMB166.8 million (US\$24.6 million), respectively. Pursuant to a circular issued by the State Administration of Taxation,

effective February 1, 2007, LAT obligations must be settled with the relevant tax authorities under specific circumstances. Please refer to the section headed “Regulation — Major taxes applicable to property developers” in this offering memorandum for a detailed description of PRC regulations on LAT.

We make provisions for the full amount of applicable LAT in accordance with the relevant PRC tax laws and regulations from time to time pending settlement of the same with the relevant tax authorities. As we often develop our projects in several phases, deductible items for calculation of LAT, such as land costs, are apportioned amongst such different phases of development. Provisions for LAT are made on our own estimates based on, among others, our own apportionment of deductible expenses which are subject to final confirmation by the relevant tax authorities upon settlement of the LAT. However, given the time gap between the point at which we make provision for and the point at which we settle the full amount of LAT payable, the relevant tax authorities may not necessarily agree with our own apportionment of deductible expenses or other bases on which we calculate LAT. If we substantially underestimated LAT for a particular period, a payment of the actual LAT assessed and levied on us by the tax authorities could have a material adverse effect on our results of operations for a subsequent period.

The terms on which mortgage loans are available, if at all, may affect our sales

Many purchasers of our properties rely on mortgages to finance their purchases. Any increase in interest rates may significantly increase the cost of mortgage financing, thus affecting the purchasers’ affordability of properties. In addition, the PRC government and commercial banks may increase the down payment requirement, impose other conditions or otherwise change the regulatory framework in a manner that would make mortgage financing unavailable or unattractive to potential property purchasers.

From time to time, the PRC government issues laws, regulations or government policies regarding mortgage financing to regulate the PRC property market. In January 2010, the State Council issued the Circular on Promoting the Stable and Healthy Development of the Real Estate Market (《關於促進房地產市場平穩健康發展的通知》), which, among other things, provides that homeowners with outstanding mortgage loans who intend to buy additional housing properties for themselves, their spouses or dependent children are required to pay a down payment of no less than 40% of the purchase price and the applicable interest rate shall be set strictly based upon the associated risk level. In April 2010, the State Council issued a notice to raise the minimum down payment for second home purchases to 50% and set a minimum 30% down payment on first homes with a GFA of more than 90 sq.m. Further, pursuant to such notice, interest rate for mortgage loans of second homes cannot be lower than 110% of the PBOC benchmark lending rate. In May 2010, the Ministry of Housing and Urban-Rural Development (the “MOHURD,” previously the Ministry of Construction), PBOC and the CBRC jointly issued a circular to clarify that the number of residential properties owned by an individual property purchaser who is applying for mortgage loans shall be determined by taking into account all residential properties owned by the family members of such purchaser (including the purchaser and such purchaser’s spouse and children under the age of 18), and that property purchasers of second or subsequent residential properties shall be subject to different credit terms when applying for mortgage loans. According to a notice jointly issued by PBOC and CBRC on September 29, 2010, the minimum down payment has been raised to 30% for all first home purchases, and commercial banks are required to suspend mortgage loans for purchases of a customer’s third or subsequent residential properties. In November 2010, MOHURD, the Ministry of Finance and PBOC jointly issued a notice, which set a separate minimum down payment of 20% on the first homes with a GFA of no more than 90 sq.m. for the purchasers using housing provident fund loans. In January 2011, the State Council issued a circular to further raise the minimum down payment for second home purchases to 60%. See “Regulation — Loan for Real Estate and Measures on Stabilizing Housing Price.” In addition, pursuant to the guidance issued by CBRC in August 2004, mortgagee banks may not lend to any individual borrower if the monthly repayment of the anticipated mortgage loan would exceed 50% of the individual borrower’s monthly income or if the total debt service of the individual

borrower would exceed 55% of such individual's monthly income. In February 2013, the State Council issued a notice to control the market of real property by allowing local branches of PBOC located in cities with a rapid rise of housing price to further increase the down payment ratio and mortgage loan interest rates for second home purchasers. A notice jointly issued by the PBOC, the CBRC and the MOHURD in March 2015 lowered the minimum down payment ratio to 40% for a second home purchaser with existing mortgage loans applying for a new mortgage loan for the second home. In August 2015, the Ministry of Finance and the PBOC jointly issued a notice to lower the down payment ratio from 30% to 20% for the second home purchaser who has paid off the housing provident fund loan for the first home and is applying for a new housing provident fund loan to purchase a second home for improving current living conditions of such purchaser. In February 2016, the PBOC and CBRC jointly issued a notice, which provides that, in cities where housing purchase restriction is not implemented, the minimum down payment ratio shall generally be 25% for first home purchasers with commercial individual housing loans, which may be further decreased by 5% by local governments, and the minimum down payment ratio shall not be less than 30% for second home purchasers with existing mortgage loans applying for another commercial individual housing loan. Since 2015, although the PRC banks have become more flexible in dealing with mortgage lending in the cities without housing purchase restriction, the mortgage lending in cities where housing purchase restriction being imposed is still under strict control in general. If the availability or attractiveness of mortgage financing is reduced or limited, many of our prospective customers may not be able to purchase our properties and, as a result, our business, results of operations and financial condition may be materially and adversely affected.

Intensified competition may materially and adversely affect our business, results of operations and financial condition

Competition within the PRC real estate industry is intense. Domestic and overseas property developers have also entered the property development markets in cities where we have operations. Many of them may have more financial, marketing, technical or other resources than us. Competition among property developers may cause an increase in land premium and raw material costs, shortages in quality construction contractors, surplus in property supply leading to decreasing property prices, further delays in issuance of governmental approvals, and higher costs to attract or retain skilled employees. If we fail to compete effectively, our business, results of operations and financial condition materially and adversely affected.

RISKS RELATING TO CONDUCTING BUSINESS IN THE PRC

Most of our assets and operations are in the PRC, and substantially all of our revenue is derived from our operations in the PRC. Accordingly, our future business, results of operations, financial condition and prospects are subject, to a significant degree, to economic, political and legal developments in the PRC, including the following risks:

Political and economic policies of the PRC government may affect our business and results of operations and may result in our inability to sustain our growth and expansion strategies

The PRC economy has largely been a centrally planned economy, which differs from other developed economies of the world in many respects, including:

- its structure;
- the level of governmental involvement;
- the level of development;
- growth rate;

- the control of foreign exchange; and
- the allocation of resources.

The PRC economy has been transitioning from a planned economy to a more market oriented economy. The PRC government has implemented economic reform measures emphasizing utilization of market forces in the development of the PRC economy and is continuing to play a significant role in regulating industries by imposing industrial policies.

We cannot, however, predict whether changes in the political, economic and social conditions and policies in the PRC, or in the relevant laws and regulations, will have any material adverse effect on our current or future business, results of operations, financial condition and prospects.

Our ability to successfully expand our business operations in the PRC depends on a number of factors, including macro-economic and other market conditions, and credit availability from lending institutions. The PRC government has recently articulated the need to control economic growth, and to limit inflation. The PRC government implemented a series of macro-economic policies which included raising the benchmark interest rates, increasing the PBOC statutory deposit reserve ratio and imposing commercial bank lending guidelines that had the effect of restricting loans to certain industries. Certain of these macro-economic policies and stricter lending policies in the PRC may have a material adverse effect on our results of operations, financial condition and our ability to obtain financing, thus reducing our ability to implement our expansion strategies. We cannot assure you that the PRC government will not implement any additional measures to tighten lending, or that, if any such measure is implemented, it will not have a material adverse effect on our future results of operations or profitability. Furthermore, we cannot assure you that our historical economic and market conditions will continue, or that we will be able to sustain our growth.

A slowdown of the PRC economy may slow down our growth and may affect our business

The PRC economy has recorded one of the world's fastest growth rates in terms of GDP. However, we cannot assure you that such growth will sustain and continue in the future. In addition, a slowdown in the economies of the United States, the European Union and certain Asian nations with which the PRC has important trade relationships or any future calamities may materially and adversely affect the economic growth of the PRC. If the PRC economy experiences a significant downturn, our business, results of operations, financial condition and prospects may be materially and adversely affected.

In May 2017, Moody's Investors Service downgraded China's sovereign credit rating for the first time since 1989 and changed its outlook from stable to negative, citing concerns on the country's rising levels of debt and expectations of slower economic growth. In September 2017, S&P Global Ratings downgraded China's sovereign credit rating for the first time since 1999, citing similar concerns. The full impact of such actions by international rating agencies remains to be seen, but the perceived weaknesses in China's economic development model, if proven and left unchecked, would have profound implications. If China's economic conditions worsen, or if the banking and financial systems experience difficulties from over-indebtedness, businesses in China may face a more challenging operating environment.

Rapid economic growth can lead to growth in money supply and inflation. If prices of our properties rise at a rate that is insufficient to compensate for the rise in our costs, our business, financial condition and operating results may be materially and adversely affected. To control inflation in the past, the PRC government has imposed control on bank credits, limits on loans for fixed assets and restrictions on State bank lending. Such an austerity measure can lead to a slowdown in the economic growth and may materially and adversely affect our business, results of operation and financial condition.

The global financial markets have experienced significant deterioration and volatility, which have negatively affected the global economy. Any further downturn may adversely affect our results of operations and financial condition

The global financial markets have been affected by a general slowdown of economic growth globally, resulting in substantial volatility in global equity securities markets and tightening of liquidity in global credit markets. Since 2011, the tightening monetary policies and high inflation in the PRC, global economic uncertainties and the euro zone sovereign debt crisis have resulted in adverse market conditions and increased volatility in the PRC and overseas financial markets. While it is difficult to predict how long these conditions will exist and the extent to which we may be affected, these developments may continue to present risks to our business operations for an extended period of time, including increase in interest expenses on our bank borrowings, or reduction in the amount of banking facilities currently available to us. More recently, on June 23, 2016, the United Kingdom held a remain-or-leave referendum on its membership within the European Union, the result of which favored the exit of the United Kingdom from the European Union (“Brexit”). A process of negotiation will determine the future terms of the United Kingdom’s relationship with the European Union, as well as whether the United Kingdom will be able to continue to benefit from the European Union’s free trade and similar agreements. Given the lack of precedent, it is unclear how Brexit would affect the fiscal, monetary and regulatory landscape within the UK, the EU and globally. This event has resulted in a downgrade of the credit ratings of the United Kingdom and the uncertainty before, during and after the period of negotiation may also create a negative economic impact and increase volatility in global markets. These challenging market conditions have resulted in reduced liquidity, widening of credit spreads in credit markets, a reduction in available financing and a tightening of credit terms.

Should there be a further economic downturn or credit crisis for any reason, our ability to borrow funds from current or other funding sources may be further limited, causing our continued access to funds to become more expensive, which would adversely affect our business, liquidity, financial condition, results of operations, and most importantly, our property development projects. As such, we cannot assure you that our business operations will not suffer further adverse effects caused by the previous or future credit crisis in the near future.

The PRC legal system is less developed than legal systems in certain other jurisdictions and embodies inherent uncertainties that could limit the legal protection available to us and to our shareholders

Our operations are conducted in the PRC. The PRC legal system is based on written statutes and thus prior court decisions can only be cited as reference and have limited use as precedents. Since the late 1970s, the PRC government has been developing a comprehensive system of laws, regulations and rules in relation to economic matters, such as foreign investment, corporate organization and governance, commerce, taxation and trade.

However, given that these laws, regulations and rules have not been fully developed, limited volumes of published cases are available and the cases are non-binding in nature, there is some degree of uncertainty in the interpretation and enforcement of these laws, regulations and rules, which in turn creates uncertainty as to the outcome of any legal action that may be taken against us in the PRC. The interpretation of statutes, regulations and rules may also be subject to government policies which can change to reflect domestic political factors.

In addition, the PRC legal system is based, in part, on governmental policies and internal rules (some of which are not published on a timely basis or at all) that may have a retroactive effect. We may also be deemed to have violated certain policies or rules for the actions of our counterparties in various transactions even if we are not aware of whether our counterparties are acting in compliance

with applicable PRC laws and regulations. Accordingly, we may not be aware of any actual or deemed violations of such policies and rules until some time after such violations have taken place. Furthermore, any litigation we undertake in the PRC, regardless of its outcome, may be protracted and result in substantial costs to us and diversion of both our resources and management attention.

Fluctuations in foreign exchange rates and changes in foreign exchange regulations may materially and adversely affect our business and results of operations and our ability to remit dividends

Our revenue and expenditure are principally denominated in Renminbi, which is currently not a freely convertible currency. We do not have a formal hedging policy and have not entered into any foreign currency exchange contracts or derivative transactions to hedge our currency risk. We import certain materials for the production of some of our products. In addition, we will require foreign currencies for dividend payment (if any) to our shareholders. As a result, we are exposed to foreign currency fluctuations.

In the PRC, since 1994, the conversion of Renminbi into foreign currencies, including Hong Kong and U.S. dollars, has been based on rates set by the PBOC. Pursuant to reforms of the exchange rate system announced by the PBOC on July 21, 2005, Renminbi-to-foreign currency exchange rates are allowed to fluctuate within a narrow and managed band against a basket of foreign currencies, rather than being effectively linked to the U.S. dollar. Further, from May 18, 2007, the PBOC enlarged the floating band for the trading prices in the inter-bank foreign exchange market of the Renminbi against the U.S. dollar from 0.3% to 0.5% around the central parity rate, effective on May 21, 2007. This allows the Renminbi to fluctuate against the U.S. dollar by up to 0.5% above or below the central parity rate published by the PBOC. The floating band was further widened to 1.0% on April 16, 2012 and further widened to 2.0% on March 17, 2014. These changes in currency policy resulted in the Renminbi appreciating against the U.S. dollar by approximately 24.5% from July 21, 2005 to June 30, 2016. On August 11, 2015, the PBOC announced plans to improve the central parity rate of the RMB against the U.S. dollar by authorizing market-makers to provide parity to the China Foreign Exchange Trading Center operated by the PBOC with reference to the interbank foreign exchange market closing rate of the previous day, the supply and demand for foreign currencies as well as changes in exchange rates of major international currencies. On the same day, the central parity rate of the RMB against the U.S. dollar depreciated by nearly 2.0% as compared to August 10, 2015, and further depreciated by nearly 1.6% on August 12, 2015 as compared to August 11, 2015. The International Monetary Fund announced on September 30, 2016 that the Renminbi joins its Special Drawing Rights currency basket. Such change and additional future changes may increase the volatility in the trading value of the Renminbi against foreign currencies. The PRC government may adopt further reforms of its exchange rate system, including making the Renminbi freely convertible in the future. Any appreciation of Renminbi may result in the decrease in the value of foreign currency-denominated assets. Conversely, any depreciation of Renminbi may adversely affect our business, results of operations and financial condition.

Capital account transactions in foreign currencies are subject to significant exchange controls and generally require the approval of PRC government authorities, including SAFE. Under the existing PRC foreign exchange regulations, by complying with certain procedural requirements, we will be able to pay dividends (if any) in foreign currencies without prior approval from SAFE. However, in the future, the PRC government may, at its discretion, take measures to restrict access to foreign currencies for current account transactions under certain circumstances. In this case, we may not be able to pay dividends in foreign currencies to our shareholders.

We may be treated as a PRC resident enterprise for PRC tax purposes, which may subject us to PRC income taxes on our worldwide income and PRC withholding taxes on interest we pay on the Notes and may result in PRC tax on gains from the transfer of the Notes

Under the Enterprise Income Tax Law (企業所得稅法) (the “EIT Law”) which took effect on January 1, 2008 and was amended on February 24, 2017, and its implementation rules, enterprises established outside the PRC whose “*de facto* management bodies” are located in China are considered “resident enterprises” for PRC tax purposes. The implementation rules define the term “*de facto* management body” as a management body that exercises full and substantial control and management over the business, personnel, accounts and properties of an enterprise. In April 2009, the State Administration of Taxation specified certain criteria for the determination of the “*de facto* management bodies” for foreign enterprises that are controlled by PRC enterprises. However, there have been no official implementation rules regarding the determination of the “*de facto* management bodies” for foreign enterprises that are not controlled by PRC enterprises (including companies like ourselves).

We are a Cayman Islands holding company and we hold our shareholders’ meetings and board meetings outside the PRC and keep our shareholders’ list outside the PRC. However, most of our directors and senior management are currently based inside the PRC and we keep our books of account inside the PRC. The above elements may be relevant for the tax authorities in determining whether we are a PRC resident enterprise for tax purposes. However, there is no clear standard published by the tax authorities for making such a determination.

Although it is unclear under PRC tax law whether we have a “*de facto* management body” located in the PRC for PRC tax purposes, we currently take the position that we are not a PRC resident enterprise for tax purposes. We cannot assure you that the tax authorities will agree with our position. If we are deemed to be a PRC resident enterprise for EIT Law purposes, we would be subject to the PRC enterprise income tax at the rate of 25% on our worldwide income. Furthermore, we may be obligated to withhold PRC income tax at a rate of 10% on payments of interest and redemption premium on the Notes to investors that are non-resident enterprises because the interest and redemption premium may be regarded as being derived from sources within the PRC. In the case of individual holders of Notes, the tax may be withheld at a rate of 20%. Further, if we were treated as a PRC resident enterprise, any gain realized by a non-resident enterprise investor from the transfer of the Notes may be regarded as being derived from sources within the PRC and accordingly may be subject to a 10% PRC tax in the case of non-resident enterprises or 20% in the case of non-resident individuals. These rates may be reduced by an applicable tax treaty. For example, non-resident enterprise investors located in Hong Kong may qualify for tax on payments of interest and redemption premium under the Notes at a rate of 7% pursuant to the Arrangement Between the Mainland of China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income.

If we are required to withhold PRC tax on interest payable to our foreign noteholders that are “non-resident enterprises,” we will be required, subject to certain exceptions, to pay such additional amounts as will result in receipt by a holder of a Note of such amounts as would have been received by the holder had no such withholding been required. The requirement to pay additional amounts will increase the cost of servicing interest payments on the Notes, and could have a material adverse effect on our ability to pay interest on, and repay the principal amount of, the Notes, as well as our profitability and cash flow. In addition, if you are required to pay PRC income tax on the transfer of our Notes, the value of your investment in our Notes may be materially and adversely affected. It is unclear whether, if we are considered a PRC “resident enterprise,” holders of our Notes might be able to claim the benefit of income tax treaties or agreements entered into between China and other countries or areas.

The full-fledged levy of value added tax on revenues from a comprehensive list of service sectors may subject our revenues to a higher average tax rate

Pursuant to the Circular on Comprehensively Promoting the Pilot Program of the Collection of Value-added Tax in Lieu of Business Tax 《(關於全面推開營業稅改徵增值稅試點的通知)》 issued on March 23, 2016 and implemented on May 1, 2016 (“Circular 36”) by the Ministry of Finance and SAT, effective from May 1, 2016, PRC tax authorities have started imposing value added tax on revenues from various service sectors, including real estate, construction, financial services and insurance, as well as other lifestyle service sectors, to replace the business tax that co-existed with value added tax for over 20 years. Since the issuance of Circular 36, the Ministry of Finance and SAT have subsequently issued a series of tax circulars in March and April 2016 to implement the collection of value added tax on revenues from construction, real estate, financial services and lifestyle services. The value added tax rates applicable to us may be generally higher than the business tax rate we were subject to prior to the implementation of Circular 36. For example, the value added tax rate for the sale of self-developed real estate projects will be increased from 5% (the applicable business tax rate prior to May 1, 2016 and the applicable VAT rate for sale of “old projects,” i.e. real property the construction of which commenced prior to 1 May 2016) to 11%. Unlike business tax, the value added tax will only be imposed on added value, which means the input tax incurred from our construction and real estate can be offset from our output tax. However, details of concrete measures are still being formulated in accordance with Circular 36. We are still in the process of assessing the comprehensive impact of the new value added tax regime on our tax burden, our revenues and results of operations, which remains uncertain.

It may be difficult to effect service of process in connection with disputes brought in courts outside the PRC on, or to enforce judgments obtained from non-PRC courts against, us or our management who reside in the PRC

Most of our management reside in the PRC and a significant portion of our assets and the assets of our management are located in the PRC. Accordingly, it may be difficult for you to effect service of process in connection with disputes brought in the courts outside the PRC on, or to enforce judgments obtained from non-PRC courts against, us or our management who reside in the PRC.

Furthermore, the PRC does not have treaties providing for the reciprocal recognition and enforcement of judgments awarded by courts in the BVI, the Cayman Islands and most other western countries. Hence, the recognition and enforcement in the PRC of judgments of a court in any of these jurisdictions in relation to any matter not subject to a binding arbitration provision may be difficult or even impossible.

Acts of God, acts of war, epidemics and other disasters could affect our business

Our business is subject to the general and social conditions in the PRC. Natural disasters, epidemics, acts of God and other disasters that are beyond our control may materially and adversely affect the economy, infrastructure and livelihood of the people of the PRC. Some cities in the PRC are under the threat of flood, earthquake, sandstorm or drought. Our business, results of operations and financial condition may be materially and adversely affected if these natural disasters occur.

Epidemics threaten people’s lives and may materially and adversely affect their livelihoods. The occurrence of an epidemic is beyond our control and there is no assurance that the outbreak of severe acute respiratory syndrome, avian flu or the human swine flu will not happen again. Any epidemic occurring in areas in which we operate, or even in areas in which we do not operate, may materially and adversely affect our business, results of operations and financial condition.

Acts of war and terrorist attacks may cause damage or disruption to us, our employees, facilities, markets, suppliers and customers, any of which may materially and adversely affect our revenue, cost of sales, results of operations, financial condition or share price. Potential war or terrorist attacks may also cause uncertainty and cause our business to suffer in ways that we cannot currently predict.

RISKS RELATING TO THE NOTES

We are a holding company and payments with respect to the Notes are structurally subordinated to liabilities, contingent liabilities and obligations of our subsidiaries

We are a holding company with no material operations. We conduct our operations through our PRC subsidiaries. The Notes will not be guaranteed by any current or future PRC subsidiaries or by certain other Non-Guarantor Subsidiaries. Our primary assets are ownership interests in our PRC subsidiaries and other Non-Guarantor Subsidiaries. The Subsidiary Guarantors do not, and the JV Subsidiary Guarantors (if any) may not, have material operations. Accordingly, our ability to pay principal and interest on the Notes and the ability of the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) to satisfy their obligations under the Subsidiary Guarantees or the JV Subsidiary Guarantees (as the case may be) will depend upon our receipt of principal and interest payments on the intercompany loans and distributions of dividends from our PRC subsidiaries.

Creditors, including trade creditors of our Non-Guarantor Subsidiaries and any holders of preferred shares in such entities, would have a claim on such subsidiaries' assets that would be prior to the claims of holders of the Notes. As a result, our payment obligations under the Notes will be effectively subordinated to all existing and future obligations of such subsidiaries, and all claims of creditors of our Non-Guarantor Subsidiaries will have priority as to the assets of such entities over our claims and those of our creditors, including holders of the Notes. As of June 30, 2017, our Non-Guarantor Subsidiaries had bank borrowings in the amount of RMB2,101.3 million (US\$310.0 million) and capital commitments and contingent liabilities arising from guarantees of approximately RMB2,574.1 million (US\$379.7 million) and RMB5,327.6 million (US\$785.9 million), respectively. See the section entitled "Description of Other Material Indebtedness." The Notes and the Indenture permit us, the Subsidiary Guarantors, the JV Subsidiary Guarantor (if any) and our Non-Guarantor Subsidiaries to incur additional indebtedness and issue additional guarantees, subject to certain limitations. The Notes and the Indenture do not restrict the ability of our subsidiaries to issue certain categories of guarantee in the ordinary course of business. In addition, our secured creditors or those of any Subsidiary Guarantor or JV Subsidiary Guarantor (if any) would have priority as to our assets or the assets of such Subsidiary Guarantor or JV Subsidiary Guarantor (if any) securing the related obligations over claims of holders of the Notes (other than the Collateral).

Under the terms of the Notes, a Subsidiary Guarantee required to be provided by a subsidiary of the Company under the terms of the Notes may be replaced by a limited-recourse guarantee, or JV Subsidiary Guarantee, following the sale or issuance to, or a purchase from, a third party of an equity interest in such subsidiary or its direct or indirect majority shareholders (subject to the satisfaction of certain conditions). Recovery under the JV Subsidiary Guarantees provided by a JV Subsidiary Guarantor and its shareholders and subsidiaries are limited to an amount equal to our proportional interest in the issued share capital of such JV Subsidiary Guarantor, multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal year end of the Company. As a result, the amount that may be recovered by the Trustee pursuant to a JV Subsidiary Guarantee (compared to a Subsidiary Guarantee) is reduced, which in turn may affect your ability to recover any amounts due under the Notes.

We have substantial indebtedness and may incur substantial additional indebtedness in the future, which could adversely affect our financial health and our ability to generate sufficient cash to satisfy our outstanding and future debt obligations

We now have, and will continue to have after the offering of the Notes, a substantial amount of indebtedness. As of December 31, 2014, 2015, 2016 and June 30, 2017, our total outstanding bank borrowings amounted to RMB2,014.2 million, RMB2,423.6 million, RMB2,774.0 million (US\$409.2 million) and RMB3,275.3 million (US\$483.1 million), respectively.

Our substantial indebtedness could have important consequences to you. For example, it could:

- limit our ability to satisfy our obligations under the Notes and other debt;
- increase our vulnerability to adverse general economic and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to servicing and repaying our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and for other general corporate purposes;
- limit our flexibility in planning for or reacting to changes in our businesses and the industry in which we operate;
- place us at a competitive disadvantage compared to our competitors that have less debt;
- limit, along with the financial and other restrictive covenants of our indebtedness, among other things, our ability to borrow additional funds; and
- increase the cost of additional financing.

In the future, we may from time to time incur substantial additional indebtedness and contingent liabilities. Under the Notes, our ability to incur additional debt is subject to the limitation on indebtedness and preferred stock covenant. Under such covenant, we may incur (i) certain Permitted Indebtedness or (ii) additional indebtedness if we can, among other things, satisfy the Fixed Charge Coverage Ratio. The Fixed Charge Coverage Ratio is derived by dividing consolidated EBITDA by Consolidated Fixed Charges. Because our definition of Consolidated Net Income (which is a significant component of Consolidated EBITDA) for the Notes includes our unrealized gains on valuation adjustments on our investment properties, our Consolidated EBITDA and therefore our ability to incur additional debt under such covenants could be substantially larger when compared to other similarly situated PRC issuers whose covenants do not typically include such gains in the definition of Consolidated Net Income. As a result, our ability to incur additional debt under the Fixed Charge Coverage Ratio could be substantially larger when compared to such other issuers. In addition, because our definition of Consolidated Interest Expense excludes the interest expense on indebtedness of third parties that we guarantee (except to the extent that such interest expense has become payable by us), our Consolidated Interest Expense and our ability to incur additional debt could be even larger when compared to other similarly situated PRC senior notes issuers whose typically include such interest expense in the calculation of their respective Consolidated Interest Expense. If we or our subsidiaries incur additional debt, the risks that we face as a result of our already substantial indebtedness and leverage could intensify. If we or our subsidiaries incur additional debt, the risks that we face as a result of our already substantial indebtedness and leverage could intensify. Please refer to the sections headed “Description of the Notes — Certain Covenants” and “Description of the Notes — Definitions” in this offering memorandum for further details.

Our ability to generate sufficient cash to satisfy our outstanding and future debt obligations will depend upon our future operating performance, which will be affected by prevailing economic conditions and financial, business and other factors, many of which are beyond our control. We anticipate that our operating cash flow will be sufficient to meet our anticipated operating expenses and to service our debt obligations as they become due. However, we may not generate sufficient cash flow for these purposes. If we are unable to service our indebtedness, we will be forced to adopt an alternative strategy that may include actions such as reducing or delaying capital expenditures, selling assets, restructuring or refinancing our indebtedness or seeking equity capital. These strategies may not be instituted on satisfactory terms, if at all.

In addition, the terms of the Indenture prohibit us from incurring additional indebtedness unless (i) we are able to satisfy certain financial ratios or (ii) we are able to incur such additional indebtedness pursuant to any of the specific exceptions to the financial ratios requirements, and meet any other applicable restrictions. Our ability to meet our financial ratios may be affected by events beyond our control. We cannot assure you that we will be able to meet these ratios. Certain of our other financing arrangements also impose operating and financial restrictions on our business. See the section entitled “Description of Other Material Indebtedness.” Such restrictions in the Notes and our other financing arrangements may negatively affect our ability to react to changes in market conditions, take advantage of business opportunities we believe to be desirable, obtain future financing, fund required capital expenditures, or withstand a continuing or future downturn in our business. Any of these factors could materially and adversely affect our ability to satisfy our obligations under the Notes and other debt.

Our subsidiaries are subject to restrictions on the payment of dividends and the repayment of intercompany loans or advances to us and our subsidiaries and any dividends from such subsidiaries may not qualify for reduced treaty rates

As a holding company, we depend on the receipt of dividends and interest and principal payments on intercompany loans or advances from our subsidiaries, including our PRC subsidiaries, to satisfy our debt obligations, including our obligations under the Notes. The ability of our subsidiaries to pay dividends and make payments on intercompany loans or advances to their shareholders is subject to, among other things, distributable earnings, cash flow conditions, restrictions contained in the articles of association of our subsidiaries, applicable laws and restrictions contained in the debt instruments of such subsidiaries. In particular, one of our PRC subsidiaries is a party to bank loan agreement that restricts its ability to pay dividends. See the section entitled “Description of Other Material Indebtedness.” In addition, if any of our subsidiaries raises capital by issuing equity securities to third parties, dividends declared and paid with respect to such equity would not be available to us to make payments on the Notes. Further, certain loan agreements and secured trust financing agreements obtained or to be obtained by our PRC subsidiaries from lender banks and trust companies in the PRC may contain provisions that restrict or prohibit the payment or declaration of dividends or distributions. These restrictions could reduce the dividends and advances that we receive from our subsidiaries, which would restrict our ability to meet our payment obligations under the Notes and the ability of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) to satisfy their obligations under the Subsidiary Guarantees or JV Subsidiary Guarantees (as the case may be).

PRC laws and regulations permit payment of dividends only out of accumulated profits as determined in accordance with PRC accounting standards and regulations and such profits differ from profits determined in accordance with HKFRS and HKAS in certain significant respects, including the use of different bases of recognition of revenue and expenses. Our PRC subsidiaries are also required to set aside a portion of their after-tax profits according to PRC accounting standards and regulations to fund certain reserves that are not distributable as cash dividends by the board of directors.

In addition, dividends paid by our PRC subsidiaries to their non-PRC parent companies are subject to a 10% withholding tax, unless such non-PRC parent companies are held to be PRC resident enterprises by relevant tax authorities, which shall be exempt from enterprise income tax for their direct equity investments in other PRC resident enterprises, or there is a tax treaty between the PRC and the jurisdiction in which the overseas parent company is incorporated that specifically exempts or reduces such withholding tax. Pursuant to the Arrangement between Mainland China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and Prevention of Fiscal Evasion with respect to Taxes on Income (《內地和香港特別行政區關於對所得避免雙重徵稅和防止偷漏稅的安排》) (the “Hong Kong Tax Treaty”), our Hong Kong subsidiaries, directly holding 25% or more equity interest in a PRC subsidiary at the time of the distribution, may be subject to withholding tax at a rate of 5% on dividends received from such PRC subsidiary. However, according to the Circular in Relation to the Understanding and Determination of “Beneficial Owners” in Tax Treaties

(《關於如何理解和認定稅收協定中“受益所有人”的通知》) issued by the PRC State Administration of Taxation on October 27, 2009 (“Circular 601”), tax treaty benefits will be denied to “conduit” or shell companies without substantive business activities. It is unclear whether Circular 601 applies to dividends from our PRC operating subsidiaries paid to us through our Hong Kong subsidiaries. It is possible, however, that under Circular 601, our Hong Kong subsidiaries would not be considered as the “beneficial owners” of any such dividends, and that such dividends would as a result be subject to income tax withholding at the rate of 10% rather than the favorable 5% rate applicable under the Hong Kong Tax Treaty, in which case our results of operations and financial position would be materially and adversely affected. As a result of such limitations, there could be timing limitations on payments from our PRC subsidiaries to meet our payment obligations under the Notes or to satisfy the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or the JV Subsidiary Guarantees (as the case may be), and there could be restrictions on payments required to redeem the Notes at maturity or as required for any early redemption.

Furthermore, in practice, the market interest rate that our PRC subsidiaries can pay with respect to offshore loans generally may not exceed comparable interest rates in the international finance markets. The interest rates on shareholders’ loans paid by our subsidiaries, therefore, are likely to be lower than the interest rate for the Notes. Our PRC subsidiaries are also required to pay a 10% (or 7% if the interest is paid to a Hong Kong resident, subject to approval by local tax authorities) withholding tax on our behalf on the interest paid under any shareholders’ loans.

As a result of the foregoing, we cannot assure you that we will have sufficient cash flow from dividends or payments on intercompany loans or advances from our subsidiaries to satisfy our obligations under the Notes or the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or the JV Subsidiary Guarantees (as the case may be). Any limitation on the ability of our PRC subsidiaries to pay dividends to us may also materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses or otherwise fund and conduct our business.

Our transfer of funds into the PRC to finance our development projects is subject to approval by the PRC Government and, as a result, the use of our net proceeds from the offering of the Notes as disclosed may be delayed

The PRC Government has implemented a series of rules and measures to control the inflow of foreign funds into the property development industry or for property speculation. The transfer of our net proceeds from the offering of the Notes into the PRC is subject to such PRC government control measures.

According to Measures for the Administration of Foreign Debt Registration (《外債登記管理辦法》)(“Notice No. 19”) issued by SAFE on April 28, 2013 which took effect on May 13, 2013, local branches of SAFE shall not register any foreign debt of a Foreign-Invested Real Estates Enterprises (the “FIREE”) if it obtained approval certificate from competent commercial departments and filed with MOFCOM on or after June 1, 2007. It restricts the ability of FIREE to raise funds offshore by structuring the funds as a shareholder loan to the property development companies in the PRC. Instead, in most circumstances such companies have to structure the funds from offshore as an equity investment and obtain the funds through an increase of their registered capital or the establishment of new FIREE.

On May 23, 2007, MOFCOM and SAFE jointly promulgated the Notice on Further Reinforcing and Regulating the Approval and Supervision on Foreign Direct Investment in the Real Estate Industry (《關於進一步加強、規範外商直接投資房地產業審批和監管的通知》) (“Circular 50”), which provides that, among things, before any foreign-invested enterprise engaging in real estate development or operations or any FIREE engaging in new real estate project developments, approvals from relevant PRC authorities shall be obtained. On June 18, 2008, MOFCOM issued the Circular on Better Implementation of the Filing of Foreign Investment in the Real Estate Industry (《商務部關於

做好外商投資房地產業備案工作的通知》), pursuant to which MOFCOM has delegated the task of verifying filing documents to its provincial agencies. On November 22, 2010, MOFCOM promulgated the Notice on Strengthening Administration of the Approval and Registration of Foreign Investment into Real Estate Industry (《關於加強外商投資房地產業審批備案管理的通知》), which provides that, among other things, the local MOFCOM authorities are not permitted to approve investment companies to engage in the real estate development and management. On June 24, 2014, MOFCOM and SAFE jointly issued the Notice on Improving the Registration of Foreign Investment in Real Estate (《關於改進外商投資房地產業備案工作的通知》) to simplify the procedures of registration of foreign investment in real estate. And the MOFCOM and SAFE jointly issued the Circular on Further Improving the Record-filing for Foreign Investments in Real Estate (《關於進一步改進外商投資房地產業備案工作的通知》) on November 6, 2015, cancelling the online record filing-procedure maintained by MOFCOM, and allowing local branches of MOFCOM to approve the establishment and modification of FIREEs as they did to other foreign-invested enterprises.

Pursuant to the above notices, we are required to register and apply for approvals from relevant PRC governmental authorities if we plan to expand the scope of our business or the scale of our operations, engage in new real estate project developments or operations or increase the registered capital of our subsidiaries or associated project companies in the PRC in the future. Our net proceeds from the offering of the Notes will primarily be used to refinance certain existing indebtedness and for other general corporate purposes. The injection of funds by any of such means is subject to the registration and approval requirements as mentioned above. As a result, we must register and apply for approval with the relevant PRC governmental authorities, and wait till the requested approvals are completed before we may transfer the proceeds from the offering of the Notes into the PRC for the intended uses in the PRC.

In addition, any capital contributions or loans that we, as an offshore company, make to our PRC operating subsidiaries, including from the proceeds of the offering of the Notes, are subject to other foreign investment regulations in the PRC. For example, any of our loans to our PRC subsidiaries cannot exceed the difference between the total investment amount that our PRC subsidiaries are approved to make under the relevant PRC laws and regulations, and their respective registered capital, and must be registered with or approved by the local branches of SAFE.

We may be subject to risks presented by fluctuations in exchange rates between the Renminbi and other currencies, particularly the U.S. dollar

The Notes are denominated in U.S. dollars, while substantially all of our revenues are generated by our PRC operating subsidiaries and are denominated in Renminbi. Pursuant to reforms of the exchange rate system announced by the PBOC on July 21, 2005, Renminbi-to-foreign currency exchange rates are allowed to fluctuate within a narrow and managed band against a basket of foreign currencies, rather than being effectively linked to the U.S. dollar. Further, from May 18, 2007, the PBOC enlarged the floating band for the trading prices in the inter-bank foreign exchange market of the Renminbi against the U.S. dollar from 0.3% to 0.5% around the central parity rate, effective on May 21, 2007. This allows the Renminbi to fluctuate against the U.S. dollar by up to 0.5% above or below the central parity rate published by the PBOC. The floating band was further widened to 1.0% on April 16, 2012 and further widened to 2.0% in March 17, 2014. These changes in currency policy resulted in the Renminbi appreciating against the U.S. dollar by approximately 24.5% from July 21, 2005 to June 30, 2016. On August 11, 2015, the PBOC announced plans to improve the central parity rate of the RMB against the U.S. dollar by authorizing market-makers to provide parity to the China Foreign Exchange Trading Center operated by the PBOC with reference to the interbank foreign exchange market closing rate of the previous day, the supply and demand for foreign currencies as well as changes in exchange rates of major international currencies. On the same day, the central parity rate of the RMB against the U.S. dollar depreciated by nearly 2.0% as compared to August 10, 2015, and further depreciated by nearly 1.6% on August 12, 2015 as compared to August 11, 2015. The International Monetary Fund announced on September 30, 2016 that the Renminbi joins its Special Drawing Rights currency basket. Such change and additional future changes may increase the

volatility in the trading value of the Renminbi against foreign currencies. The PRC government may adopt further reforms of its exchange rate system, including making the Renminbi freely convertible in the future. If such reforms were implemented and resulted in devaluation of the Renminbi against the U.S. dollar, our financial condition and results of operations could be adversely affected because of our substantial U.S. dollar denominated indebtedness and other obligations. Such a devaluation could also adversely affect the value, translated or converted into U.S. dollars or otherwise, of our earnings and our ability to satisfy our obligations under the Notes and other indebtedness denominated in foreign currencies.

There are limited hedging instruments available in China to reduce our exposure to exchange rate fluctuations between the Renminbi and other currencies. To date, we have not entered into any hedging transactions to reduce our exposure to such risks. Following the offering of the Notes, we may enter into foreign exchange or interest rate hedging agreements in respect of our U.S. dollar-denominated liabilities under the Notes. These hedging agreements may require us to pledge or transfer cash and other collateral to secure our obligations under the agreements, and the amount of collateral required may increase as a result of mark-to-market adjustments. The Initial Purchasers and their affiliates may enter into such hedging agreements permitted under the Indenture, and these agreements may be secured by pledges of our cash and other assets as permitted under the Indenture. If we were unable to provide such collateral, it could constitute a default under such agreements.

Any hedging obligation entered into or to be entered into by us or our subsidiaries, may contain terms and conditions that may result in the early termination, in whole or in part, of such hedging obligation upon the occurrence of certain termination or analogous events or conditions (howsoever described), including such events relating to us and/or any of our subsidiaries, and the terms and conditions of such hedging obligation(s) may provide that, in respect of any such early termination, limited or no payments may be due and payable to, or that certain payments may be due and payable by, us and/or any of our subsidiaries (as relevant) in respect of any such early termination. Any such early termination, in whole or in part, of any such hedging obligation(s), and the payment and any other consequences and effects of such early termination(s), may be material to our financial condition and/or any of our subsidiaries and may be material in relation to the performance of our or their respective obligations under or in relation to the Notes (if applicable), any indebtedness or any other present or future obligations and commitments.

We may not be able to repurchase the Notes upon a Change of Control

Upon the occurrence of a Change of Control, the holder of each Note will have the option to require us to redeem all or some of the holder's Notes at a purchase price equal to 101% of the principal amount plus accrued and unpaid interest. See the section entitled "Description of the Notes — Repurchase of Notes Upon a Change of Control."

The source of funds for any such purchase would be our available cash or third-party financing. However, we may not have enough available funds at the time of the occurrence of any Change of Control to make purchases of the outstanding Notes. Our failure to make the offer to purchase or to purchase the outstanding Notes would constitute an event of default under the Notes. The event of default may, in turn, constitute an event of default under other indebtedness, any of which could cause the related debt to be accelerated after any applicable notice or grace periods. If our other debt were to be accelerated, we may not have sufficient funds to purchase the Notes and repay the debt.

In addition, the definition of Change of Control for purposes of the Indenture does not necessarily afford protection for the holders of the Notes in the event of some highly leveraged transactions, including certain acquisitions, mergers, refinancings, restructurings or other recapitalizations, although these types of transactions could increase our indebtedness or otherwise affect our capital structure. The definition of Change of Control for purposes of the Indenture also includes a phrase relating to the sale of "all or substantially all" of our assets. Although there is a

limited body of case law interpreting the phrase “substantially all,” there is no precise established definition under applicable law. Accordingly, our obligation to make an offer to purchase the Notes, and the ability of a holder of the Notes to require us to purchase its Notes pursuant to the offer as a result of a highly leveraged transaction or a sale of less than all of our assets may be uncertain.

The terms of the Notes permit us to make investments in Unrestricted Subsidiaries and minority owned joint ventures

In light of land prices, the capital intensive nature of land acquisitions, sizes of projects, the competitive landscape and other factors, we may from time to time consider developing properties jointly with other property developers. As a result, we may need to make investments in joint ventures (including joint ventures in which we may own less than a 50% equity interest) and such joint ventures may or may not be Restricted Subsidiaries under the Indenture governing the Notes. Although the Indenture governing the Notes restricts us and our Restricted Subsidiaries from making investments in Unrestricted Subsidiaries or joint ventures, these restrictions are subject to important exceptions and qualifications. See the section entitled “Limitation on Restricted Payments” and the definition of “Permitted Investment” in “Description of the Notes.”

The terms of the Notes give us enhanced flexibility to pay dividends and repurchase our shares

We pay dividends to our shareholders or redeem our common stock from time to time. Under the Indenture, any such dividend payment or repurchase will be a “Restricted Payment,” which could not be made unless we can, among other things, satisfy the Fixed Charge Coverage Ratio. However, such restriction is subject to important exceptions and qualifications. Under the terms of the Notes, we may pay dividends on our common stock or redeem our common stock in an aggregate amount up to 20% of our consolidated profit for the year without satisfying the Fixed Charge Coverage Ratio. With such an exception, we may be able pay substantial amount of dividends or redeem a substantial amount of our common stock even when we are highly leveraged, which may materially and adversely affect our ability to service our indebtedness, including the Notes.

We may be able to redeem the Notes in whole at a redemption price equal to 100% of the principal amount plus accrued and unpaid interest in the event we are required to pay additional amounts because we are treated as a PRC “resident enterprise”

In the event we are treated as a PRC “resident enterprise” under the EIT Law, we may be required to withhold PRC tax on interest payable to certain of our non-resident investors. In such case, we will, subject to certain exceptions, be required to pay such additional amounts as will result in receipt by a holder of a Note of such amounts as would have been received by the holder had no such withholding been required. As described under “Description of the Notes — Redemption for Taxation Reasons,” in the event we are required to pay additional amounts as a result of certain changes in specified tax laws or certain other circumstances, including any change or interpretation or the stating of an official position that results in our being required to withhold tax on interest payments as a result of our being treated as a PRC “resident enterprise,” we may redeem the Notes in whole at a redemption price equal to 100% of the principal amount plus accrued and unpaid interest.

The insolvency laws of the Cayman Islands and the PRC and other local insolvency laws applicable to us may differ from those of any other jurisdiction with which holders of the Notes are familiar

Because we are incorporated under the laws of the Cayman Islands, an insolvency proceeding relating to us, even if brought in the United States, would likely involve Cayman Islands insolvency laws, the procedural and substantive provisions of which may differ from comparable provisions of the laws of the United States or other jurisdictions with which holders of the Notes are familiar. In addition, the Subsidiary Guarantors are incorporated in the BVI or Hong Kong and the insolvency laws of the BVI and Hong Kong may also differ from the laws of the United States or other jurisdictions with which the holders of the Notes are familiar.

We conduct substantially all of our business operations through PRC-incorporated subsidiaries in China. We and our Subsidiary Guarantors, as equity holders in our PRC subsidiaries, are necessarily subject to the bankruptcy and insolvency laws of China in a bankruptcy or insolvency proceeding involving any of such PRC subsidiaries. Any JV Subsidiary Guarantors which become equity holders of our PRC Subsidiaries would also be subject to such laws. The PRC laws and regulations relating to bankruptcy and insolvency and the legal proceedings in that regard may significantly differ from those of the United States and other jurisdictions with which the holders of the Notes are familiar. You should analyze the risks and uncertainties in the insolvency laws of the Cayman Islands, the BVI, Hong Kong, the PRC and other jurisdictions applicable to us carefully before you invest in our Notes.

We may be unable to obtain and remit foreign exchange

Our ability to satisfy our obligations under the Notes depends solely upon the ability of our subsidiaries in the PRC to obtain and remit sufficient foreign currency to pay dividends to us and to repay shareholder loans. Our PRC subsidiaries must present certain documents to SAFE, its authorized branch or the designated foreign exchange bank, for approval before they can obtain and remit foreign currencies out of the PRC (including, in the case of dividends, evidence that the relevant PRC taxes have been paid and, in the case of shareholder loans, evidence of the registration of the loan with SAFE). Prior to payment of interest and principal on any shareholder loan we make to our PRC subsidiaries, the relevant PRC subsidiary must also present evidence of payment of the 10% (or 7% if the interest is paid to a Hong Kong resident, subject to approval by local tax authorities) withholding tax on the interest payable in respect of such shareholder loan. If any PRC subsidiary for any reason fails to satisfy any of the PRC legal requirements for remitting foreign currency payments, the PRC subsidiary will be unable to pay us dividends or interest and principal on our existing shareholder loans, which may affect our ability to satisfy our obligations under the Notes.

If we are unable to comply with the restrictions and covenants in our debt agreements or the Indenture, there could be a default under the terms of these agreements or the Indenture, which could cause repayment of our debt to be accelerated

If we are unable to comply with the restrictions and covenants in the Indenture or our current or future debt obligations and other agreements, there could be a default under the terms of these agreements. In the event of a default under these agreements, the holders of the debt could terminate their commitments to lend to us, accelerate repayment of the debt and declare all amounts borrowed due and payable or terminate the agreements, as the case may be. Furthermore, some of our debt agreements, including the Indenture, contain cross-acceleration or cross-default provisions. As a result, our default under one debt agreement may cause the acceleration of repayment of debt, including the Notes, or result in a default under our other debt agreements, including the Indenture. If any of these events occur, we cannot assure you that our assets and cash flow would be sufficient to repay in full all of our indebtedness, or that we would be able to find alternative financing. Even if we could obtain alternative financing, we cannot assure you that it would be on terms that are favorable or acceptable to us.

Our operations are restricted by the terms of the Notes and other debt agreements, which could limit our ability to plan for or react to market conditions or meet our capital needs, which could increase your credit risk

The Indenture and other debt agreements include a number of significant restrictive covenants. These covenants restrict, among other things, our ability, and the ability of our Restricted Subsidiaries, to:

- incur or guarantee additional indebtedness and issue disqualified or preferred stock;
- declare dividends on their capital stock or purchase or redeem capital stock;
- make investments or other specified restricted payments;

- issue or sell capital stock of Restricted Subsidiaries;
- guarantee indebtedness of Restricted Subsidiaries;
- sell assets;
- create liens;
- enter into sale and leaseback transactions;
- enter into agreements that restrict the Restricted Subsidiaries' ability to pay dividends, transfer assets or make intercompany loans;
- enter into transactions with shareholders or affiliates; and
- effect a consolidation, merger, restructuring or changes in shareholding in subsidiaries.

These covenants could limit our ability to plan for or react to market conditions or to meet our capital needs. Our ability to comply with these covenants may be affected by events beyond our control, and we may have to curtail some of our operations and growth plans to maintain compliance.

A trading market for the Notes may not develop, and there are restrictions on resale of the Notes

The Notes are a new issue of securities for which there is currently no trading market. We have been advised that the Initial Purchasers intend to make a market in the Notes, but the Initial Purchasers are not obligated to do so and may discontinue such market making activity at any time without notice. In addition, the Notes are being offered pursuant to exemptions from registration under the Securities Act and, as a result, you will only be able to resell your Notes in transactions that have been registered under the Securities Act or in transactions not subject to or exempt from registration under the Securities Act. See the section entitled "Transfer Restrictions." We cannot predict whether an active trading market for the Notes will develop or be sustained.

The ratings assigned to the Issuer may be lowered or withdrawn in the future

The Issuer has been assigned a rating of B by Standard & Poor's Ratings Services and B by Fitch Ratings Ltd. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time. We cannot assure you that the ratings will be confirmed or they will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by the relevant rating agency if in its judgment circumstances in the future so warrant (such circumstances include, for example, if we or our Restricted Subsidiaries were to incur substantial additional indebtedness to the extent permitted under the Indenture). We have no obligation to inform holders of the Notes of any such revision, downgrade or withdrawal. A suspension, reduction or withdrawal at any time of the rating assigned to the Issuer may adversely affect the market price of the Notes.

Certain transactions that constitute "connected transactions" under the Listing Rules will not be subject to the "Limitation on Transactions with Shareholders and Affiliates" covenant

Our shares are listed on the Hong Kong Stock Exchange and we are required to comply with the Listing Rules, which provide, among other things, that any transaction between a listed company or any of its subsidiaries, on the one hand, and a "connected person" of such listed company, on the other hand, is a "connected transaction" that, if the value of such transaction exceeds the applicable de minimis thresholds, will require the prior approval of the independent shareholders of such listed

company. The definition of “connected person” to a listed company includes, among others, any 10% or more shareholder of (i) such listed company or (ii) any subsidiary of such listed company. The concept of “connected person” also captures “associates,” which include, among others, (a) any subsidiary of such “connected person,” (b) any holding company of such “connected person” and any subsidiary of such holding company, and (c) any company in which such entity or entities mentioned in (a) and (b) above taken together has/have the power to exercise control, directly or indirectly, of 30% or more of the voting power of such company.

The “Limitation on Transactions with Shareholders and Affiliates” covenant in the Notes only applies to transactions between the Company or any Restricted Subsidiary, on the one hand, and

- (a) any holder (or any Affiliate of such holder) of 10% or more of shares of the Company; or
- (b) any Affiliate of the Company, on the other hand.

As such, transactions between the Company or any Restricted Subsidiary, on the one hand, and an Affiliate of any Restricted Subsidiary, on the other hand, will not be captured by such covenant, even though they may be connected transactions under the Listing Rules and subject to any requirements under the Listing Rules to obtain approval from independent shareholders. As a result, we are not required by the terms of the Notes to ensure that any such transactions are on terms that are fair and reasonable, and we will not need to deliver officers’ certificates or procure the delivery of fairness opinions of accounting, appraisal or investment banking firms to the trustee of the Notes for any such transactions.

The liquidity and price of the Notes following the offering may be volatile

The price and trading volume of the Notes may be highly volatile. Factors such as variations in our revenues, earnings and cash flows and proposals for new investments, strategic alliances and/or acquisitions, interest rates, fluctuations in price for comparable companies and government regulations and changes thereof applicable to our industry and general economic conditions nationally or internationally could cause the price of the Notes to change. Any such developments may result in large and sudden changes in the trading volume and price of the Notes. We cannot assure you that these developments will not occur in the future.

The Notes may not be a suitable investment for all investors

Each potential investor in the Notes must determine the suitability of an investment in the Notes in light of its own circumstances. In particular, each potential investor should consider, either on its own or with the help of its financial and other professional advisors, whether it: (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained in this offering memorandum; (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact such investment will have on its overall investment portfolio; (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the currency in which the potential investor’s financial activities are principally denominated; (iv) understands thoroughly the terms of the Notes and is familiar with the behavior of any relevant indices and financial markets; and (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

There may be less publicly available information about us than is available in certain other jurisdictions

There may be less publicly available information about companies listed in Hong Kong than is regularly made available by public companies in certain other countries. In addition, our financial statements are prepared and presented in accordance with HKFRS, which differs in certain significant respects from GAAP in other jurisdictions, which might be material to the financial information contained in this offering memorandum. We have not prepared a reconciliation of our consolidated financial statements and related footnotes between HKFRS and other GAAP. You should consult your own professional advisors for an understanding of the differences between HKFRS and other GAAP and how those differences might affect the financial information contained in this offering memorandum.

We will follow the applicable corporate disclosure standards for debt securities listed on the SGX-ST, and such standards may be different from those applicable to debt securities listed in certain other countries

We will be subject to reporting obligations in respect of the Notes to be listed on the SGX-ST. The disclosure standards imposed by the SGX-ST may be different from those imposed by securities exchanges in other countries or regions such as the Hong Kong. As a result, the level of information that is available may not correspond to what investors in the Notes are accustomed to.

The Notes will initially be held in book-entry form, and therefore you must rely on the procedures of the relevant clearing systems to exercise any rights and remedies

The Notes will initially only be issued in global certificate form and held through Euroclear and Clearstream. Interests in the Notes represented by the global certificate will trade in book entry form only, and notes in definitive registered form, or definitive registered notes, will be issued in exchange for book-entry interests only in very limited circumstances. Owners of book entry interests will not be considered owners or holders of the Notes. The nominee of the common depository for Euroclear and Clearstream will be the sole registered holder of the global certificate representing the Notes. Payments of principal, interest and other amounts owing on or in respect of the global certificate representing the Notes will be made to the Paying Agent, which will make payments to Euroclear and Clearstream. Thereafter, these payments will be credited to accounts of participants that hold book-entry interests in the global certificate representing the Notes and credited by such participants to indirect participants. After payment to the nominee of the common depository for Euroclear and Clearstream, we will have no responsibility or liability for the payment of interest, principal or other amounts to the owners of book entry interests. Accordingly, if you own a book-entry interest, you must rely on the procedures of Euroclear and Clearstream or, if you are not a participant in Euroclear and Clearstream, on the procedures of the participant through which you own your interest, to exercise any rights and obligations of Noteholder under the Indenture.

Unlike the holders of the Notes themselves, owners of book-entry interests will not have the direct right to act upon our solicitations for consents, requests for waivers or other actions from Noteholders. Instead, if you own a book-entry interest, you will be permitted to act only to the extent you have received appropriate proxies to do so from Euroclear and Clearstream. The procedures implemented for the granting of such proxies may not be sufficient to enable you to vote on a timely basis.

Similarly, upon the occurrence of an Event of Default under the Indenture, unless and until definitive registered notes are issued in respect of all book-entry interests, if you own a book-entry interest, you will be restricted to acting through Euroclear and Clearstream. The procedures to be implemented through Euroclear and Clearstream may not be adequate to ensure the timely exercise of rights under the Notes.

RISKS RELATING TO THE SUBSIDIARY GUARANTEES AND THE JV SUBSIDIARY GUARANTEES (IF ANY) AND THE COLLATERAL

Our initial Subsidiary Guarantors do not currently have significant operations and certain Subsidiary Guarantees may in some cases be replaced by limited-recourse guarantees

We conduct substantially all of our business operations through our PRC subsidiaries but none of our current PRC subsidiaries will provide a Subsidiary Guarantee or JV Subsidiary Guarantee either upon issuance of the Notes or at any time thereafter. No future subsidiaries that are organized under the laws of the PRC, Exempted Subsidiaries or Listed Subsidiaries (each term as defined in the “Description of the Notes”) will provide a Subsidiary Guarantee or JV Subsidiary Guarantee at any time in the future. In addition, certain of our offshore subsidiaries will not be required to guarantee the Notes if the consolidated assets of these subsidiaries (other than the Exempted Subsidiaries and Listed Subsidiaries) do not exceed 20% of our total assets. As a result, the Notes will be effectively subordinated to all the debt and other obligations, including contingent obligations and trade payables, of our PRC subsidiaries and other Non-Guarantor Subsidiaries. Moreover, the Collateral will not include the capital stock of our existing or future PRC subsidiaries and other Non-Guarantor Subsidiaries.

The initial Subsidiary Guarantors that will guarantee the Notes do not have significant operations. We cannot assure you that the initial Subsidiary Guarantors or any subsidiaries that may become Subsidiary Guarantors or JV Subsidiary Guarantors in the future will have the funds necessary to satisfy our financial obligations under the Notes if we are unable to do so.

Moreover, under the terms of the Notes, a Subsidiary Guarantee required to be provided by a subsidiary of the Company under the terms of the Notes may be replaced by a limited-recourse JV Subsidiary Guarantee following the sale or issuance to, or purchase from, a third party of an equity interest in such subsidiary or its direct or indirect majority shareholders (subject to the satisfaction of certain conditions). Recovery under the JV Subsidiary Guarantees provided by a JV Subsidiary Guarantor and its shareholders and subsidiaries are limited to an amount equal to our proportional interest in the issued share capital of such JV Subsidiary Guarantor multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal year-end of the Company. As a result, the amount that may be recovered by the Trustee pursuant to a JV Subsidiary Guarantee (compared to a Subsidiary Guarantee) is reduced, which in turn may affect your ability to recover any amounts due under the Notes.

Security over the Collateral will not be granted directly to the holders of the Notes, and the Collateral will generally be shared with creditors under certain other financings

Security over the Collateral for the obligations of the Company under the Notes and the Indenture will not be granted directly to the holders of the Notes but will be granted only in favor of the Collateral Agent. As a consequence, holders of the Notes will not have direct security and will not be entitled to take enforcement action in respect of the security for the Notes, except through the Collateral Agent, which has agreed to apply any proceeds of enforcement on such security towards such obligations.

The Collateral is shared on a *pari passu* basis by the holders of the Notes, the Existing *Pari Passu* Secured Indebtedness (as defined in the “Description of the Notes”) and any other creditors with respect to Permitted *Pari Passu* Secured Indebtedness. In addition, the Indenture also permits us to enter into certain future financings, and creditors under those future financings may share the Collateral *pari passu* with the holders of the Notes. See the section entitled “Description of the Notes — Security — Permitted *Pari Passu* Secured Indebtedness” for a further discussion of the sharing of the Collateral with creditors under future financings. If creditors under future financings opt to share the Collateral under an intercreditor agreement, a smaller portion of the proceeds from the Collateral will be available to satisfy the claims of the holders of the Notes, which could have a material adverse effect on their ability to recover sufficient proceeds to satisfy their claims under the Notes.

The Intercreditor Agreement may impact the ability of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) to pay amounts due under the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any) and the Intercreditor Agreement may limit the rights of holders of the Notes to the Collateral

The Collateral Agent is required to take action to enforce the Collateral in accordance with the instructions of the holders of the Notes and the holders (or representatives or agents) of other Permitted Pari Passu Secured Indebtedness, given under and in accordance with the Intercreditor Agreement. Any enforcement action taken by the Collateral Agent will adversely affect the Company's entitlement to receive distributions from the Collateral, which will, in turn, have an adverse impact on the Company's ability to fulfill its payment obligations under the Notes. Further, the Subsidiary Guarantors' or the JV Subsidiary Guarantors' ability to pay under the Subsidiary Guarantees or the JV Subsidiary Guarantees will be adversely affected. The ability of holders of the Notes to enforce the Collateral is restricted under the Intercreditor Agreement, as only the Collateral Agent is permitted to take enforcement actions. If an event of default occurs under the Notes, the holders of the Notes holding 25% of the outstanding amount of the Notes and the holders of other Permitted Pari Passu Secured Indebtedness may decide whether to take any enforcement action and may thereafter, through their respective trustee, representative or agent, in accordance with the Intercreditor Agreement, instruct the Collateral Agent to take enforcement action against the Collateral. By virtue of the instructions given to the Collateral Agent described above, actions that may be taken in respect of the Collateral may be adverse to holders of the Notes. In such event, the only remedy available to holders of the Notes would be to sue for payment under the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any).

The Collateral Agent, acting in its capacity as such, shall have such duties with respect to the Collateral pledged, assigned or granted pursuant to the Security Documents as are set forth in the Intercreditor Agreement. Under certain circumstances, the Collateral Agent may have obligations under the Security Documents or the Intercreditor Agreement that are in conflict with the holders of the Notes. The Collateral Agent will not be under any obligation to exercise any rights or powers conferred under the Intercreditor Agreement or any of the Security Documents for the benefit of the holders of the Notes unless such holders have offered to the Collateral Agent indemnity and/or security satisfactory to the Collateral against any loss, liability or expense.

The Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees

Under bankruptcy laws, fraudulent transfer laws, insolvency laws in the BVI or bankruptcy law, fraudulent transfer laws, insolvency or unfair preference or similar laws in Hong Kong and other jurisdictions where future Subsidiary Guarantors or JV Subsidiary Guarantors (if any) may be established or where insolvency proceeding may be commenced with respect to any such Subsidiary Guarantor or JV Subsidiary Guarantor, a guarantee could be voided, or claims in respect of a guarantee could be subordinated to all other debts of that guarantor if, among other things, the guarantor, at the time it incurred the indebtedness evidenced by, or when it gives, its guarantee:

For Subsidiary Guarantors or JV Subsidiary Guarantors (if any) incorporated in the BVI:

- incurred the debt with the intent to defraud creditors (whenever the transaction took place and irrespective of insolvency);
- either (i) put the beneficiary of the guarantee in a position which, in the event of the guarantor's insolvency, would be better than the position the beneficiary would have been in had the guarantee not been given or (ii) received no consideration, or received consideration in money or money's worth that is significantly less than the consideration supplied by the guarantor (although in either case a guarantee will only be voidable if it (i) was entered into at a time when the guarantor was insolvent or if it became insolvent

as a consequence of doing so, insolvent in this context meaning that the guarantor is unable to pay its debts as they fall due, and (ii) was given within the six months, or, if the guarantee and beneficiary are connected entities, two years, before the onset of insolvency).

For Subsidiary Guarantors or JV Subsidiary Guarantors (if any) incorporated in other jurisdictions:

- incurred the debt with the intent to hinder, delay or defraud creditors or was influenced by a desire to put the beneficiary of the guarantee in a position which, in the event of the guarantor's insolvency, would be better than the position the beneficiary would have been in had the guarantee not been given;
- received less than reasonably equivalent value or fair consideration for the incurrence of such guarantee;
- was insolvent or rendered insolvent by reason of such incurrence;
- was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital; or
- intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

The measure of insolvency for purposes of the foregoing will vary depending on the laws of the jurisdiction which are being applied. Generally, however, a guarantor would be considered insolvent at a particular time if it were unable to pay its debts as they fell due or if the sum of its debts was then greater than all of its property at a fair valuation or if the present fair saleable value of its assets was then less than the amount that would be required to pay its probable liabilities in respect of its existing debt as it became absolute and matured. We cannot assure you that such limitation will be effective in preserving the enforceability of any of the Subsidiary Guarantees or JV Subsidiary Guarantees (if any). In addition, a guarantee may be subject to review under applicable insolvency or fraudulent transfer laws in certain jurisdictions or subject to a lawsuit by or on behalf of creditors of the guarantors. In such case, the analysis set forth above would generally apply, except that the guarantee could also be subject to the claim that, since the guarantee was not incurred for the benefit of the guarantor, the obligations of the guarantor thereunder were incurred for less than reasonably equivalent value or fair consideration, and, as a result, such guarantee would be rendered void.

In an attempt to limit the applicability of insolvency and fraudulent transfer laws in certain jurisdictions, the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees (as the case may be) will be limited to the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor or JV Subsidiary Guarantor (if any) without rendering the guarantee, as it relates to such Subsidiary Guarantor or JV Subsidiary Guarantor (if any), voidable under such applicable insolvency or fraudulent transfer laws.

If a court voided a Subsidiary Guarantee or JV Subsidiary Guarantee (if any), subordinated such guarantee to other indebtedness of the Subsidiary Guarantor or JV Subsidiary Guarantor (if any) or held the Subsidiary Guarantee or JV Subsidiary Guarantee (if any) unenforceable for any other reason, holders of the Notes would cease to have a claim against that Subsidiary Guarantor or JV Subsidiary Guarantor (if any) based upon such guarantee, would be subject to the prior payment of all liabilities (including trade payables) of such Subsidiary Guarantor or JV Subsidiary Guarantor, and would solely be creditors of us and any Subsidiary Guarantor or JV Subsidiary Guarantor (if any) whose guarantee was not voided or held unenforceable. We cannot assure you that, in such an event, after providing for all prior claims, there would be sufficient assets to satisfy the claims of the holders of the Notes.

The pledge of certain Collateral may in some circumstances be voidable

The pledge of the Collateral may be voidable as a preference under insolvency or fraudulent transfer or similar laws of Hong Kong and the BVI if the creation of the pledge takes place at any time within six months prior to the onset of insolvency or, under some circumstances, within a longer period. Pledges of shares of future Subsidiary Guarantors may also be voidable as a preference under relevant insolvency or fraudulent transfer or similar laws. In addition, the pledge of certain Collateral may be voided based on the analysis set forth under “— The Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees.”

If the pledges of the Collateral were to be voided for any reason, holders of the Notes would have only an unsecured claim against us and the Subsidiary Guarantor Pledgors.

The value of the Collateral will likely not be sufficient to satisfy our obligations under the Notes and other pari passu secured indebtedness

The Collateral will consist only of the shares of the Subsidiary Guarantors. The security interest in respect of certain Collateral may be released upon the disposition of such Collateral and any proceeds from such disposition may be applied, prior to repaying any amounts due under the Notes, to repay other debt or to make investments in properties and assets that will not be pledged as additional Collateral.

The ability of the Collateral Agent to foreclose on the Collateral upon the occurrence of an Event of Default or otherwise, will be subject in certain instances to perfection and priority issues. Although procedures will be undertaken to support the validity and enforceability of the security interests, we cannot assure you that the Collateral Agent, the Trustee or holders of the Notes will be able to enforce the security interest.

The value of the Collateral in the event of a liquidation will depend upon market and economic conditions, the availability of buyers and similar factors. No independent appraisals of any of the Collateral have been prepared by or on behalf of us in connection with this offering of the Notes. Accordingly, we cannot assure you that the proceeds of any sale of the Collateral following an acceleration of the Notes would be sufficient to satisfy, or would not be substantially less than, amounts due and payable on the Notes. By their nature, some or all of the Collateral, in particular, the shares of the existing or any future Subsidiary Guarantors may be illiquid and may have no readily ascertainable market value. Likewise, we cannot assure you that the Collateral will be saleable or, if saleable, that there will not be substantial delays in its liquidation.

The Collateral is shared on a *pari passu* basis by the holders of the Notes, the Existing *Pari Passu* Secured Indebtedness (as defined in the “Description of the Notes”) and any other creditors with respect to Permitted *Pari Passu* Secured Indebtedness. Accordingly, in the event of a default on the Notes or the other secured indebtedness and a foreclosure on the Collateral, any foreclosure proceeds would be shared by the holders of secured indebtedness in proportion to the outstanding amounts of each class of secured indebtedness. The value of the Collateral securing the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors is unlikely to be sufficient to satisfy the Company’s and each of the Subsidiary Guarantor Pledgors’ obligations under the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors, and the Collateral securing the Notes and such Subsidiary Guarantees may be reduced or diluted under certain circumstances, including the issuance of Additional Notes or additional Permitted *Pari Passu* Secured Indebtedness and the disposition of assets comprising the Collateral, subject to the terms of the Indenture and the Intercreditor Agreement.

The pledge of certain Collateral may be released under certain circumstances

If we dispose of not less than 20% of the shares of a Subsidiary Guarantor, the Subsidiary Guarantees provided by such Subsidiary Guarantor and its subsidiaries, and the Collateral comprising the shares of these companies, may be released if the consolidated assets of our non-PRC subsidiaries (other than Exempted Subsidiaries and the Listed Subsidiaries) that do not guarantee the Notes do not account for more than 20% of our total assets immediately following such release. In addition, in the event the conditions applicable to the replacement of a Subsidiary Guarantee with a JV Subsidiary Guarantee are satisfied, we are permitted to release the pledge of the shares granted by such Subsidiary Guarantor, as well as the pledge of the shares granted by the subsidiaries of such Subsidiary Guarantor. We are only required to deliver a replacement share pledge for the shares that we continue to hold in such JV Subsidiary Guarantor (but not the subsidiaries of such JV Subsidiary Guarantor) following the sale of the equity interests in such Subsidiary Guarantor. As a result, in the event we sell minority equity interests in our Subsidiary Guarantors or otherwise create JV Subsidiary Guarantors in accordance with the terms of the Indenture, the Collateral will be reduced in value and scope, and holders of the Notes would be subject to increased risks.

EXCHANGE RATE INFORMATION

China

The PBOC sets and publishes daily a base exchange rate with reference primarily to the supply and demand of Renminbi against a basket of currencies in the market during the prior day. The PBOC also takes into account other factors, such as the general conditions existing in the international foreign exchange markets. From 1994 to July 20, 2005, the conversion of Renminbi into foreign currencies, including Hong Kong dollars and U.S. dollars, was based on rates set daily by the PBOC on the basis of the previous day's inter-bank foreign exchange market rates and then current exchange rates in the world financial markets. During this period, the official exchange rate for the conversion of Renminbi to U.S. dollars remained generally stable. Although the PRC government introduced policies in 1996 to reduce restrictions on the convertibility of Renminbi into foreign currencies for current account items, conversion of Renminbi into foreign currencies for capital items, such as foreign direct investment, loan principals and securities trading, still requires the approval of SAFE and other relevant authorities. On July 21, 2005, the PRC government introduced a managed floating exchange rate system to allow the value of the Renminbi to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. On the same day, the value of the Renminbi appreciated by approximately 2% against the U.S. dollar. On May 18, 2007, the PBOC enlarged the floating band for the trading prices in the inter-bank foreign exchange market of the Renminbi against the U.S. dollar from 0.3% to 0.5% around the central parity rate, effective on May 21, 2007. This allows the Renminbi to fluctuate against the U.S. dollar by up to 0.5% above or below the central parity rate published by the PBOC. The floating band was further widened to 1.0% on April 16, 2012. From July 21, 2005 to December 31, 2013, the value of the Renminbi appreciated by approximately 26.9% against the U.S. dollar. On March 17, 2014, the PBOC further widened the floating band against the U.S. dollar to 2.0%. The PRC government has since made and in the future may make further adjustments to the exchange rate system. The PBOC authorized the China Foreign Exchange Trading Center, effective since January 4, 2006, to announce the central parity exchange rate of certain foreign currencies against the Renminbi on each business day. This rate is set as the central parity for the trading against the Renminbi in the inter-bank foreign exchange spot market and the over-the-counter exchange rate for the business day. Effective since August 11, 2015, market makers are required to quote their central parity rates for Renminbi against U.S. dollar to the China Foreign Exchange Trade System daily before the market opens by reference to the closing rate of the PRC inter-bank foreign exchange market on the previous trading day in conjunction with the demand and supply conditions in the foreign exchange markets and exchange rate movements of major currencies. PBOC has further authorized the China Foreign Exchange Trade System to announce its central parity rate for Renminbi against the U.S. dollar through a weighted averaging of the quotes from the market makers after removing the highest quote and the lowest quote. PBOC announces the closing price of a foreign currency traded against the Renminbi in the inter-bank foreign exchange market after the closing of the market on each working day, and makes it the central parity for trading against the Renminbi on the following working day. The PRC government may adopt further reforms of its exchange rate system, including making the Renminbi freely convertible in the future.

The following table sets forth the noon buying rate for U.S. dollars in New York City for cable transfer in Renminbi as certified for customs purposes by the Federal Reserve Bank of New York for the periods indicated:

Hong Kong

The Hong Kong dollar is freely convertible into other currencies, including the U.S. dollar. Since October 17, 1983, the Hong Kong dollar has been linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The Basic Law of the Hong Kong Special Administrative Region of the People's Republic of China (the "Basic Law"), which came into effect on July 1, 1997, provides that no foreign exchange control policies shall be applied in Hong Kong.

The market exchange rate of the Hong Kong dollar against the U.S. dollar continues to be determined by the forces of supply and demand in the foreign exchange market. However, against the background of the fixed rate system which applies to the issuance and withdrawal of Hong Kong currency in circulation, the market exchange rate has not deviated significantly from the level of HK\$7.80 to US\$1.00. In May 2005, the Hong Kong Monetary Authority broadened the 22-year-old trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has indicated its intention to maintain the link within that rate range. Under the Basic Law, the Hong Kong dollar will continue to circulate and remain freely convertible. The Hong Kong government has also stated that it has no intention of imposing exchange controls in Hong Kong and that the Hong Kong dollar will remain freely convertible into other currencies, including the U.S. dollar. However, no assurance can be given that the Hong Kong government will maintain the link within the current rate range or at all.

The following table sets forth the noon buying rate for U.S. dollars in New York City for cable transfer in Hong Kong dollars as certified for customs purposes by the Federal Reserve Bank of New York for the periods indicated:

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after deducting the underwriting discounts and commissions and other estimated expenses payable by us in connection with this offering, will be approximately US\$297.5 million, which we plan to use to refinance certain existing indebtedness and for other general corporate purposes.

We may adjust the foregoing plans in response to changing market conditions and, thus, reallocate the use of the proceeds. Pending application of the net proceeds of this offering, we intend to invest the net proceeds in Temporary Cash Investments (as defined under “Description of the Notes — Definitions”).

CAPITALIZATION AND INDEBTEDNESS

The following table sets forth our capitalization and indebtedness as of June 30, 2017 on an actual basis and on an adjusted basis after giving effect to the issuance of the 2017 Notes and the issuance of the Notes in this offering after deducting the underwriting discounts and commissions and other estimated expenses payable by us in connection therewith. The following table should be read in conjunction with the selected consolidated financial information and the audited or reviewed consolidated financial statements and related notes included in this offering memorandum.

Notes:

- (1) Cash and cash equivalents excludes restricted cash of RMB1,107.8 million (US\$163.4 million).
- (2) Our long-term borrowings does not include capital and other commitments. As of June 30, 2017, our consolidated capital and other commitments were RMB2,576.6 million (US\$380.1 million) and we had RMB5,327.6 million (US\$785.9 million) of guarantees on mortgage facilities for certain purchasers of our properties. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Indebtedness and Contingent Liabilities — Contractual Obligations” and “— Contingent Liabilities.”
- (3) We redeemed the 2014 Notes in full on August 9, 2017.
- (4) Total capitalization equals total long-term borrowings plus total equity.

We have, since June 30, 2017, in the ordinary course of business, entered into additional financial arrangements to finance our property development and for general corporate purposes. As of January 26, 2018, our total borrowings were approximately RMB7,363.2 million (US\$1,086.1 million). These additional borrowings are not reflected in the table above.

Except as otherwise disclosed in this offering memorandum, there has been no material adverse change in our capitalization and indebtedness since June 30, 2017.

SELECTED CONSOLIDATED FINANCIAL AND OTHER DATA

The following table presents our selected consolidated financial and other data. The selected consolidated financial information for our Group as of and for the six months ended June 30, 2017 set forth below (except for EBITDA data) is derived from the unaudited condensed consolidated financial statements of our Group for such period which have been reviewed by our Group's independent auditor, PricewaterhouseCoopers, Hong Kong Certified Public Accountants, in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" and should be read in conjunction with the condensed consolidated financial statements of our Group for the six months ended June 30, 2017, including the notes thereto, which are included elsewhere in this offering memorandum. Results for an interim period are not necessarily indicative of results for the full year.

The consolidated financial statements of the Group as of and for the years ended December 31, 2015 and 2016 were audited by our Group's independent auditor, PricewaterhouseCoopers, Hong Kong Certified Public Accountants. Subsequently, the 2015 and 2016 financial information and the comparative financial information for the six months ended June 30, 2016, as contained therein, were restated to reflect the change in accounting policy with effect from January 1, 2017 when the Group changed its valuation model of investment property from cost model to fair value model, as the Directors of the Company considered that the change provides a reliable and more relevant information to users of the financial statements than the cost model. The changes in valuation model and accounting policy has been applied retrospectively in the interim condensed consolidated financial statements of the Group as at and for the six months ended June 30, 2017.

The selected consolidated financial information for the years ended December 31, 2015 and 2016 and for the six months ended June 30, 2016 has been presented in a manner consistent with the interim condensed consolidated financial statements for the six months ended June 30, 2017. The 2015 and 2016 financial information and the comparative financial information for the six months ended June 30, 2016 of the Group as contained therein (which has been restated) was neither audited nor reviewed by the independent auditor of our Group. The audited consolidated financial statements for the years ended December 31, 2015 and 2016, including the notes thereto, were included elsewhere in this offering memorandum, have not reflected the above restatements and are for reference purpose only.

The comparative financial information of the Group for the year ended and as of December 31, 2014 as contained therein has not been restated. Should such information (as included in this offering memorandum) be restated to reflect the effect of such change in valuation model, the restated amounts might be different from the financial information reported herein. Consequently, potential investors must exercise caution when using such financial information to evaluate the Issuer's financial condition and results of operations.

Our financial statements for the years ended December 31, 2014, 2015 and 2016 and the six months ended June 30, 2017 have been prepared and presented in accordance with HKFRS, which differ in certain respects from generally accepted accounting principles in other jurisdictions. The selected consolidated financial data below should be read in conjunction with the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements and the notes to those statements included elsewhere in this offering memorandum.

Notes:

- (1) EBITDA for any period consists of profit before tax less other losses or gains, and share of profit or loss of investments accounted for using the equity method and interest income, plus finance costs, capitalized interest included in cost of sales, depreciation and amortization expenses and impairment of goodwill. EBITDA is not a standard measure under HKFRS. EBITDA is a widely used financial indicator of a company's ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. EBITDA does not account for taxes, interest expense or other non-operating cash expenses. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. See "Management's Discussion and Analysis of Financial Condition and Results of Operations — Non-GAAP Financial Measures" for a reconciliation of our profit for the year under HKFRS to our definition of EBITDA. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the Indenture governing the Notes. See "Description of the Notes — Definitions" for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indenture governing the Notes.
- (2) EBITDA margin is calculated by dividing EBITDA by revenue.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the section entitled "Selected Consolidated Financial and Other Data" and our consolidated financial statements, including the notes thereto, included elsewhere in this offering memorandum. All significant intra-group transactions, balances and unrealized gains on intra-group transactions have been eliminated. Our financial statements for the years ended December 31, 2014, 2015 and 2016 have been prepared and presented in accordance with HKFRS, and our financial statements for the six months ended June 30, 2017 have been prepared and presented in accordance with HKAS, which differ in certain material respects from generally accepted accounting principles in other jurisdictions. In this section of the offering memorandum, references to "2014", "2015" and "2016" are to our financial years ended December 31, 2014, 2015 and 2016, respectively, and references to "1H2016" and "1H2017" are to the six months ended June 30, 2016 and 2017, respectively.

OVERVIEW

We are an integrated residential and commercial property developer primarily focusing on residential property development in the PRC. We have successfully established our presence in a number of key economic cities in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region, including Shenzhen, Zhongshan, Shanghai, Tianjin, Hefei, Nanchang, Jinan, Yantai and Xianyang.

We believe that we have successfully established the "Redco" brand in the cities where we have built our presence. In 2017, we were recognized as "Top 100 Comprehensive Strength Listed Real Estate Enterprise of China for 2017" (2017年中國房地產上市公司綜合實力100強) by China Real Estate Association (中國房地產業協會). In 2016, the Group was recognized as "the Most Valuable Listed Real Estate Enterprise of China for 2016" (2016 中國最具價值地產上市企業) by Guandian.cn(觀點地產新媒體). In 2015, we were recognized as "2015 Top 10 Hong Kong Listed Domestic Developers Worthy of Investment" (2015中國大陸在港上市房地產公司投資價值TOP 10) by the Enterprise Development Research Center of the State Council (國務院發展研究中心企業研究所), the Real Estate Research Institute of Tsinghua University (清華大學房地產研究所) and China Index Academy (中國指數研究院). In addition, our property projects have also received numerous awards from different organizations. Our Company has been selected as a constituent of the "Hang Seng Composite SmallCap Index of the Hang Seng Composite Index since September 4, 2017. We believe that becoming a constituent of the Hang Seng Family of Indexes represents the recognition of our business performance, stock liquidity and growth prospect by the market.

Since we commenced property development operations in 1995, we have successfully executed our multi-regional strategy and demonstrated a proven track record of success by developing in strategically selected cities that we believe possess high growth potential across the PRC. Subsequent to our initial success in Quanzhou, Fujian Province, we deliberately expanded and quickly replicated our success in strategically targeted key economic cities, including Shenzhen, Zhongshan, Shanghai, Tianjin, Hefei, Nanchang, Jinan, Yantai and Xianyang. We also established presence in Australia by jointly developing a residential community in Sydney with a recognized local developer. During the three years ended December 31, 2016 and the six months ended June 30, 2017, we recognized revenue from property development and investment projects covering certain key economic cities in China. As of June 30, 2017, we had 30 property development and investment projects with an aggregate GFA of approximately 3.8 million sq.m.

● Cities with property development projects from which we recognized revenue during 2014, 2015, 2016 and the six months ended June 30, 2017

- **The Greater Western Taiwan Straits Economic Zone**

In the Greater Western Taiwan Straits Economic Zone, we have strategically targeted the key economic city of Nanchang, Jiangxi Province. Nanchang is the provincial capital of Jiangxi Province. As of June 30, 2017, we had a land bank comprising 13 property development and investment projects in the Greater Western Taiwan Straits Economic Zone with an aggregate GFA of 1,107,994.5 sq.m.

- **The Bohai Economic Rim**

In the Bohai Economic Rim, we have property development projects in Tianjin, Jinan, Shandong Province, and Yantai, Shandong Province. Tianjin is one of the four centrally-administered municipalities in the PRC, Jinan is the provincial capital of Shandong Province and Yantai’s nominal GDP ranked second in Shandong Province in 2016. As of June 30, 2017, we had a land bank comprising nine property development and investment projects in the Bohai Economic Rim with an aggregate GFA of 1,975,691.1 sq.m.

- **The Central and Western Regions**

In the Central and Western Regions, we have property development projects in Hefei, Anhui Province, and Xianyang, Shanxi Province. Hefei is the provincial capital of Anhui Province. Under the government initiative, “Integration of Xi’an and Xianyang”, favorable governmental policies are being implemented to allow Xi’an and Xianyang to develop into an integrated central commercial hub in Western China. In 2016, the combined nominal GDP of Xi’an and Xianyang ranked first in Shaanxi Province. As of June 30, 2017, we had a land bank comprising four property development projects in the Central and Western Regions with an aggregate GFA of approximately 547,783.0 sq.m.

- **The Pearl River Delta Region**

In the Pearl River Delta Region, we have property development projects in Shenzhen, Guangdong Province and Zhongshan, Guangdong Province. Shenzhen is a first-tier city in China, and Zhongshan is a fast-growing city in East Guangdong. In 2014, 2015 and 2016, Shenzhen’s nominal GDP ranked fourth among all cities in China. As of June 30, 2017, we had a land bank comprising two property development projects in the Pearl River Delta Region with an aggregate GFA of 111,773.1 sq.m.

- **Others**

In addition to the four major regions above, we have also established our presence in Shanghai, a first-tier city in China, and Sydney, the economic and cultural center of Australia. As of June 30, 2017, we had a land bank comprising two property development projects in these two cities with an aggregate GFA of 103,124.0 sq.m.

While we continue to strengthen our market position in strategically targeted key economic cities in these regions, we intend to leverage our experience and expertise to expand our operations and replicate our success in other cities with high GDP and population growth potential where we do not have any presence currently. We believe that our strategic focus on the selected key economic cities with high growth potential will enable us to benefit from the sustained economic growth and accelerating urbanization in these cities in the coming years.

We have established diversified land acquisition strategies that complement each other, including acquisitions from third parties and listings-for-sale. We have also employed other land acquisition strategies including: (i) incorporating cultural concepts to develop properties that meet the needs of the local communities; (ii) early involvement in areas encouraged by the local governments; (iii) leveraging on our track record in developing quality property projects to acquire additional land in the same geographical area; (iv) acquisition of local property developers that have a land reserve suitable for our development strategy; and (v) incorporating the concepts of healthcare and elderly nursing to develop properties that meet the needs of the local communities.

KEY FACTORS AFFECTING OUR PERFORMANCE

Our business, results of operations and financial condition are affected by a number of factors, many of which are beyond our control. Some of the key factors include the following:

Economic growth, speed of urbanization and demand for real estate properties in the PRC

The economic growth, urbanization and rising standards of living in the PRC have been the main driving forces behind the increasing market demand for properties. The real estate industry in the PRC is significantly dependent on the PRC's overall economic growth, including the increase in the purchasing power of the consumers in the PRC and the resulting demand for properties. As we focus on residential property development in key economic cities in the PRC, we believe that China's overall economic growth and the rate of urbanization in these cities are especially important to the continued growth of our operations. The overall economic growth in the PRC and the rate of urbanization will continue to be affected by a number of macro-economic factors, including changes in the global economy as well as the macro-economic, fiscal and monetary policies of the PRC government. If we fail to respond to changes in market conditions in a timely manner, there may be a material adverse effect on our business, results of operations and financial condition.

The regulatory environment and measures affecting the real estate industry in the PRC

Our business, results of operations and financial condition have been, and will continue to be, affected by the regulatory environment in China and by PRC governmental policies and measures on property development and related industries. In recent years, the PRC government has implemented a series of measures with a view to controlling the growth of the PRC real estate market. The PRC government has taken various restrictive measures to discourage speculative investments in the real estate market and to increase the supply of affordable residential properties. From time to time, the PRC government adjusts or introduces macro-economic control policies to encourage or restrict development in the private real estate sector through regulating, among other things, land grants, pre-sale of properties, interest rates and taxation. Measures taken by the PRC government to control money supply, credit availability and fixed assets also have a direct impact on our business, and results of operations and financial condition. The PRC government may introduce initiatives which may affect our access to capital and the means by which we may finance our property development projects.

In recent years, in response to the rising property prices across the country, the PRC government announced new policies and adopted new measures to curtail speculative investments in the real estate market and imposed more stringent requirements on property developers. The new measures include, among other things, higher minimum down payment requirements, restrictions on purchase of properties and increases in bank lending rates for mortgage financings. Since a substantial portion of our customers depend on mortgage financing to purchase our properties, regulations or measures adopted by the PRC government that are intended to restrict the ability of purchasers to obtain mortgages, that limit their ability to resell their properties or that increase the cost of mortgage financing may decrease market demand for our properties and therefore have an adverse effect on our business and results of operations. In February 2013, the State Council further issued the Notice of the State Council on Continuity to Well Manage the Central Control Work of the Real Estate Market (國務院辦公廳關於繼續做好房地產市場調控工作的通知) to stabilize real estate prices, suppress investment purchasers, increase land supply for residential commercial properties, accelerate the planning and construction of affordable housing projects and improve market supervision and anticipation management. Various cities across China including Beijing and Shanghai have announced implementing measures with a view to controlling the PRC property market. Since March 2017, more cities including Nanjing, Tianjin, Xiamen and Dongguan have introduced additional measures to control growth of the price in the property market. Please refer to the section headed “Risk Factors — Risks Relating to Our Industry — Our operations are subject to extensive governmental regulations and the frequent introduction of new regulations, and we may be affected by further measures promulgated by the PRC government to slow down the growth of the property sector” in this offering memorandum for more details on the risks associated with relevant PRC laws and regulations. We expect PRC regulatory policies and measures in the real estate industry to continue to impact our business, results of operations and financial condition.

Our ability to identify and acquire quality land at competitive costs

Our business, results of operations and financial condition depend on our ability to identify and acquire quality development land at competitive costs. We expect that competition among property developers for land that is suitable for property development will continue to intensify, which may in turn drive further increases in land prices. In addition, PRC governmental land supply policies may further intensify competition for land among PRC property developers. For example, the statutory means of public tender, auction and listing-for-sale practice in respect of the grant of state-owned land use rights have contributed to increased competition for suitable land for development and, consequently, increased land acquisition costs. Such increased land acquisition costs will increase our cost of sales and have a negative impact on our gross profit margin. Furthermore, in November 2009, the PRC government raised the minimum down payment of land premium to 50.0% and required that land premium be fully paid within one year after the signing of a land grant contract, subject to limited exceptions. In March 2010, the Ministry of Land and Resources of the PRC further issued the Notice on Certain Issues on Strengthening Land Supply and Supervision of Real Estate (關於加強房地產用地供應和監管有關問題的通知). According to this notice, the lowest land grant price should not be less than 70% of the benchmark land price in which the granted land is located and the real estate developers’ bid deposit should not be less than 20% of the lowest grant price. These and future changes of policy may have a material adverse effect on our cash flows and our ability to acquire suitable land for our growth.

Timing and length of property development

Our results of operations tend to fluctuate from period to period. The number of property developments that a developer can undertake during any particular period is limited by the substantial amount of capital required to fund land acquisitions and to pay construction costs, as well as by the supply of land and other factors. Property development may take many months, or sometimes years, before any pre-sale takes place and even longer to complete. According to our accounting policy for revenue recognition, although the pre-sale of a property generates positive cash flows for us in the period in which it is made, no revenue is recognized in respect of the sale of a property until its

development has been completed and the property has been delivered to the purchaser. Please refer to the section headed “— Critical accounting policies — Revenue recognition” in this offering memorandum for more details. Since the delivery of our properties varies according to our construction timetable, our results of operations may vary significantly from period to period depending on the GFA and timing of delivery of the properties we sell. Please refer to the section headed “Risk Factors — Risks relating to our business — Our results of operations are largely dependent on the development schedules and pre-sales of our projects and may therefore fluctuate significantly from period to period, and such fluctuations make it difficult to predict our future performance.” Furthermore, our interim results may not be indicative of our annual results.

Pre-sale

Pre-sale constitutes one of the important sources of our operating cash flows during our project development process. PRC laws allow us to pre-sell properties before their completion upon satisfaction of certain requirements and require us to use the pre-sale proceeds to finance their development. Please refer to the section headed “Business — Our property development process — Sales and marketing” in this offering memorandum for further details. The amount and timing of cash inflows from pre-sale are affected by a number of factors, including the development schedule of each of our property development projects, restrictions on pre-sale imposed by the PRC government, availability and affordability of mortgage financings for our purchasers, market demand for our properties subject to pre-sale and the number of our properties available for pre-sale. In addition, reduced cash flows from pre-sale of our properties may increase our reliance on external financing, which may increase our cost and adversely affect our ability to finance our continuing property developments.

Access to and cost of financing

Property development requires substantial capital investments in land acquisition and construction, and it may take many months or years before positive cash flows can be generated. Bank borrowings have been, and are expected to continue to be, an important source of funding for our property developments. Our access to capital and cost of financing are affected by restrictions imposed from time to time by the PRC government, including any regulations or measures adopted by the PBOC that restrict bank lending, particularly those that restrict the ability of real estate developers to obtain financing. As commercial banks in the PRC link the interest rates on their loans to benchmark lending rates published by the PBOC, we expect that any increase in the benchmark lending rates will increase our borrowing costs generally. Please refer to the section headed “Risk Factors — Risks relating to our business — Our profitability and results of operations are affected by changes in interest rates” in this offering memorandum for more details.

As of December 31, 2014, 2015 and 2016 and June 30, 2017, our total borrowings (including bank borrowings and the 2014 Notes) amounted to RMB2,761.4 million, RMB3,220.5 million, RMB3,629.2 million (US\$535.3 million) and RMB4,107.3 million (US\$605.9 million), respectively. In August 2017, we fully redeemed the 2014 Notes. The increases in interest rates would not have immediate effect on our financing costs due to the capitalization of our borrowing costs in our consolidated financial statements. Upon completion of a property project and once the related properties have been delivered to buyers, the capitalized interest expenses on these properties will be recognized in the cost of sales in our consolidated statements of comprehensive income. In addition, any increases in interest rates will affect the costs of mortgage financing to potential purchasers of our properties, which in turn may affect demand for our properties.

Product mix

We derive substantially all of our revenue from sales of properties. We price our properties by taking into account various factors, including the prevailing local market prices, market conditions, the types and location of the properties, and our costs of properties sold, including construction costs. Furthermore, the price of properties in different cities can vary significantly. Therefore, our results of operations and cash flows may vary from period to period depending on the types, location and total GFA of properties delivered as well as the ASPs of these properties. For example, the relatively low GFA delivered for Sunshine Coast in Tianjin contributed to a substantial increase in revenue for 1H 2017 as compared with 1H 2016.

Price volatility of construction materials

A principal component of our cost of sales is construction costs, and historically, construction materials costs have been the primary driver of our construction costs. Construction costs fluctuate as a result of changes in the prices of key construction materials such as steel and cement.

Substantially all of the costs of construction materials have been accounted for as part of the contractor fees upon settlement with the relevant contractors. If the cost of construction materials increases beyond the agreed pre-determined percentage, we may be required to reimburse our contractors for any shortfall. Our profitability may suffer if we cannot pass on any resulting increases in construction costs to our customers. Furthermore, as we typically pre-sell our properties prior to their completion, we may be unable to pass on any increases in costs to our customers if construction costs increase subsequent to such pre-sale. Please refer to the section headed “Risk Factors — Risks relating to our business — Our actual development costs of a property development project may deviate from our initial estimations due to fluctuations in cost of construction materials or cost of labor, which could in turn have material adverse effect on our business, results of operations and financial condition” in this offering memorandum for further details.

Performance of and the terms and conditions of our arrangements with the external contractors, such as construction contractors and designers that we engage

We engage external construction contractors to provide us with construction services. We also engage external designers to provide property design services for our property development projects. While we work closely with our external contractors and monitor the quality and progress of the construction and design processes, respectively, the external contractors we choose and hire during the process can introduce a performance risk which can have an adverse effect on our results of operations. Please refer to the section headed “Risk Factors — Risks relating to our business — We rely on our external contractors for all of our construction works and if any of these contractors fail to deliver satisfactory services, our reputation, business, results of operations and financial condition may be materially and adversely affected” in this offering memorandum for further details.

Our construction costs have been affected by rising labor costs in the PRC in recent years, and we expect the trend to continue in the future. Increasing labor costs are reflected in the terms and conditions of our arrangements with external contractors, which may in turn have an adverse effect on our results of operations and financial condition. Please refer to the section headed “Risk Factors — Risks relating to our business — Our actual development costs of a property development project may deviate from our initial estimations due to fluctuations in cost of construction materials or cost of labor, which could in turn have a material adverse effect on our business, results of operations and financial condition” in this offering memorandum for further information.

CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our operating results and financial condition are based on our consolidated financial statements, which have been prepared in accordance with HKFRS or HKAS. Our operating results and financial condition are sensitive to accounting methods, assumptions and estimates. The assumptions and estimates we have used have been based on our industry experience and various factors including our management's expectations of future events which they believe to be reasonable. Actual results may differ from these estimates and assumptions. In 2014, 2015, 2016 and 1H2017, there were no significant changes in our assumptions and estimates, and we will continuously assess our assumptions and estimates going forward.

The selection of critical accounting policies, the estimates and judgments and other uncertainties affecting application of other policies and the sensitivity of reported results to changes in conditions and assumptions are factors to be considered when reviewing our consolidated financial statements. We believe that the following critical accounting policies involved the most significant estimates and judgments in the preparation of our consolidated financial statements.

Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of properties and services in the ordinary course of our activities. Revenue is shown net of discounts, and after elimination of sales within our Group.

We recognize revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of our activities as described below. We base our estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

(i) Sale of properties

We recognize revenue from sale of properties when the significant risks and rewards of the properties are transferred to the buyers, which is when the construction of the relevant properties have been completed, notification of delivery of properties have been issued to the buyers and collectability of related receivables pursuant to the sale agreements is reasonably assured. Deposits and installments received on properties sold prior to transfer of the significant risks and rewards of the properties are included as deferred revenue under current liabilities.

We account for revenue from the transfer of the right to use civil air defense projects in our property development projects for use as car parks as revenue from sale of properties.

(ii) Construction and sea reclamation service income

Revenue from construction and sea reclamation services based on the stage of completion of the construction.

(iii) Property management income

Revenue arising from property management is recognised in the accounting period in which the services are rendered.

(iv) Interest income

We recognize interest income using the effective interest method.

Properties under development for sale and completed properties for sale

We include properties under development for sale and completed properties for sale in current assets at the lower of cost and net realizable value. Development cost of property comprises construction costs, depreciation of machinery and equipment, amortization of land use rights, borrowing costs on qualifying assets and professional fees incurred during the development period. Upon completion, the properties are transferred to completed properties held for sale.

Car parks planned for civil air defense projects are accounted for as properties under development for sale or completed properties for sale, as appropriate.

Net realizable value takes into account the price ultimately expected to be realized, less applicable variable selling expenses and the anticipated costs to completion.

We classify properties under development for sale as current assets unless the construction period of the relevant property development project is expected to complete beyond normal operating cycle.

Development costs directly attributable to property development activities

We allocate land and development costs to properties under development for sale or completed properties held for sale, as appropriate. As certain of our Group's property development projects are developed and completed by phases, the budgeted development costs of the whole project are dependent on the estimate on the outcome of total development. Based on our experience and the nature of the development undertaken, our management makes estimates and assumptions concerning the future events that are believed to be reasonable under the circumstances. Given the uncertainties involved in the property development activities, the related actual results may be higher or lower than the amount estimated at the end of the reporting period. Any change in estimates and assumptions would affect our operating performance in future years. Our Directors confirm that the relevant estimates or underlying assumptions made in the past have been generally in line with actual results in 2014, 2015, 2016 and 1H2017 and that we have consistently applied these estimates or underlying assumptions in 2014, 2015, 2016 and 1H2017.

Provision for impairment of properties held or under development for sale

Our management makes provision for impairment of properties held or under development for sale based on the estimate of the recoverable amount of the properties. Given the volatility of the property market in the PRC, the actual recoverable amount may be higher or lower than the estimate made as of the end of the reporting period. Any increase or decrease in the provision would affect our Group's operating performance in future years. Our Directors confirm that the relevant estimates or underlying assumptions made in the past have been generally in line with actual results in 2014, 2015, 2016 and 1H2017 and that we have consistently applied these estimates or underlying assumptions in 2014, 2015, 2016 and 1H2017.

Current taxation and deferred taxation

Our Group is subject to taxation in the PRC and Hong Kong. Judgment is required in determining the amount of the provision for taxation and the timing of payment of the related taxation. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences would impact the income tax and deferred tax provisions in the periods in which such determination are made. Our Directors confirm that the relevant estimates or underlying assumptions made in the past have been generally in line with actual results in 2014, 2015, 2016 and 1H2017 and that we have consistently applied these of estimates or underlying assumptions in 2014, 2015, 2016 and 1H2017.

We recognize deferred tax assets relating to certain temporary differences and tax losses when our management considers that it is probable that future taxable profit would be available against which the temporary differences or tax losses can be utilized. Where the expectation is different from our original estimate, such differences would impact the recognition of deferred taxation assets and taxation in the periods in which such estimate is changed.

Land appreciation tax

Our Group is subject to land appreciation tax in the PRC. However, the implementation and settlement of these taxes vary among various tax jurisdictions in cities of the PRC, and our Group has not finalized its land appreciation taxes calculation and payments with any local tax authorities in the PRC. Accordingly, significant judgment is required in determining the amount of land appreciation. Our Group recognized these land appreciation taxes based on our management's best estimates according to the understanding of the tax rules. The final tax outcome could be different from the amounts that were initially recorded, and these differences would impact the income tax expense and deferred income tax provisions in the periods in which such taxes have been finalized with local tax authorities. Our Directors confirm that the relevant estimates or underlying assumptions made in the past have been generally in line with actual results in 2014, 2015, 2016 and 1H2017 and that we have consistently applied these estimates or underlying assumptions in 2014, 2015, 2016 and 1H2017.

Impairment of other receivables

Our Group assesses whether there is objective evidence that other receivables is impaired, such as the debtor's liquidity, solvency and business and financial risk exposures; levels of and trends in delinquencies for similar financial assets; national and local economic trends and conditions. We recognize impairment loss based on estimates of the extent and timing of future cash flows using applicable discount rates. The final outcome of the recoverability and cash flows of these receivables will impact the amount of impairment loss required. Our Directors confirm that the relevant estimates or underlying assumptions made in the past have been generally in line with actual results in 2014, 2015, 2016 and 1H2017 and that we have consistently applied these estimates or underlying assumptions in 2014, 2015, 2016 and 1H2017.

Estimated impairment of goodwill

We test annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in note 2.7 to our audited consolidated financial statements included in this offering memorandum. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates. Our Directors confirm that the relevant estimates or underlying assumptions made in the past have been generally in line with actual results in 2014, 2015, 2016 and 1H2017 and that we have consistently applied these estimates or underlying assumptions in 2014, 2015, 2016 and 1H2017.

CERTAIN KEY ITEMS AFFECTING OUR CONSOLIDATED STATEMENTS OF COMPREHENSIVE INCOME

Revenue

Our revenue represents income recognized from sales of properties, construction and sea reclamation services and property management services. In 2014, 2015, 2016 and 1H2017, we generated income primarily from developing and selling properties in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region. We expect that income from sales of properties will continue to account for substantially all of our revenue in the near future. Our revenue for any given period is largely dependent upon GFA delivered and the selling prices of the properties we deliver during such period. The GFA delivered for any given period is driven primarily by property development schedules. Average selling prices are primarily affected by market demand, the types and location of the

properties and our costs of properties sold, including construction costs. Market demand and conditions of the PRC real estate industry change from period to period and are affected by the PRC's overall economy, including the purchasing power of consumers in the PRC and the resulting demand for properties. In 2014, 2015, 2016 and 1H2017, our GFA delivered and ASP and therefore our revenue fluctuated from period to period depending on the types, location and size of the projects as well as the stage of our property development projects' development.

Consistent with industry practice, we typically enter into sales contracts with purchasers while the properties are still under development but after satisfying the conditions for pre-sale in accordance with PRC laws and regulations. Please refer to the section headed "Business — Property development process — Sales and marketing — Pre-sale" in this offering memorandum for more details. Before the criteria for the recognition of sales of properties are met, payments received from purchasers are recorded as receipts in advance, which is included in current liabilities. Please refer to the section headed "— Critical Accounting Policies — Revenue recognition" in this offering memorandum for more details.

- 2: Construction service represents the construction service provided by the Group in Jinan.

Cost of Sales

Cost of sales primarily consists of cost of properties sold, which represents costs directly associated with revenue from sales of properties recognized during the given period. For 2014, 2015, 2016 and 1H2017, cost of properties sold included construction costs, land acquisition costs and capitalized borrowing costs. Cost of sales also included business taxes and other levies.

The following table sets out information relating to our cost of sales for the periods indicated:

- (1) Average cost of properties sold per sq.m. delivered is derived by dividing cost of properties sold by GFA delivered.
- (2) Average construction costs per sq.m. delivered is derived by dividing construction costs of properties sold by GFA delivered.
- (3) Average land acquisition costs per sq.m. delivered is derived by dividing land acquisition costs of properties sold by GFA delivered.
- (4) Average capitalized borrowing costs per sq.m. delivered is derived by dividing total capitalized borrowing costs by GFA delivered.

Cost of properties sold

Cost of properties sold includes construction costs, land acquisition costs and capitalized borrowing costs. We recognize the cost of properties sold for a given period to the extent that revenue from such properties has been recognized in such period. Prior to their completion, properties under development are included in our consolidated balance sheets carried at the lower of cost and net realizable value.

Construction costs

Construction costs include all of the costs for the design and construction of a project, including payments to third-party contractors and designers and cost of construction materials. Our construction costs are affected by a number of factors such as changes in construction labor costs and construction materials costs (particularly steel and cement), location and types of properties, choice of materials, landscaping and investments in ancillary facilities.

Land acquisition costs

Land acquisition costs represent costs relating to the acquisition of the rights to occupy, use and develop land, and primarily include land premiums incurred in connection with land grants from the PRC government or land obtained in the secondary market by transfer, cooperative arrangement, corporate acquisition or otherwise. Our land acquisition costs are influenced by a number of factors, including location of property development projects, timing of acquisitions and a project's plot ratios. Land acquisition costs are also affected by our method of acquisition, whether by PRC government-organized tenders, auctions or listings-for-sale, through private sale transactions and cooperative agreements with third parties in the secondary market or through the acquisition of other companies that hold land use rights. Our land acquisition costs are also subject to changes in PRC government policies and regulations.

For 2014, 2015, 2016 and 1H2017, our land acquisition costs included demolition and resettlement costs in connection with certain land that we acquired.

Capitalized borrowing costs

We capitalize a portion of our cost of bank borrowings (including interest expense) to the extent that such cost is directly attributable to the acquisition, construction or production of a particular property project. Fluctuations in the amount and timing of such capitalization from period to period may also affect our finance costs.

Gross Profit

Gross profit represents revenue less cost of sales.

Other Gains/(Losses), net

Other gains/(losses) primarily represent gains/(losses) on disposal of property, plant and equipment.

Selling and Marketing Expenses

Selling and marketing expenses primarily include marketing and advertising cost, employee benefit expenses for our selling and marketing personnel, office and travelling expenses and other selling and marketing expenses. Our selling and marketing expenses in a given period are affected by the number of new property development projects launched in that period.

General and Administrative Expenses

General and administrative expenses primarily include employee benefit expenses for our personnel (other than our selling and marketing personnel), auditor's remuneration, office and travelling expenses, entertainment expenses, land use and real estate tax and other miscellaneous expenses. The overall increase in our general and administrative expenses in 2014, 2015, 2016 and 1H2017 was generally consistent with the overall expansion of our scale of operations.

Impairment of Goodwill

Goodwill represents certain premium paid in connection with our acquisition of equity interests in certain subsidiaries which are engaged in property development and property management in the PRC. Goodwill represents the excess of consideration transferred over the Group's interest in net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquired subsidiaries. The recoverable amount of all cash-generating units is determined based on value-in-use calculations. Impairment of goodwill is recognized when the carrying value of goodwill is in excess of its recoverable amount.

Finance Income

Finance income primarily consists of interest income from bank deposits.

Finance Costs

Finance costs primarily consist of interest expense on borrowings less interest capitalized on qualifying assets.

Share of (loss)/profit of investments accounted for using the equity method

Share of (loss)/profit of investments accounted for using the equity method represents share of (loss)/profit related to an associate and several joint ventures.

Income Tax Expense

Our income tax expense for a given year or period primarily includes EIT and LAT. Fluctuations in our effective tax rate from period to period are primarily due to changes in our LAT rates. For 2014, 2015, 2016 and 1H2017, our effective tax rate (calculated as income tax expense divided by profit before income tax) was 46.3%, 51.4%, 42.3% and 49.5%, respectively. As of June 30, 2017, we had paid or made provisions for paying all relevant taxes and did not have any disputes or unresolved issues with the relevant tax authorities.

Hong Kong Profits Tax

We have been subject to Hong Kong profits tax at a rate of 16.5% in 2014, 2015, 2016 and 1H2017. No provision for Hong Kong profits tax had been made during the same periods as we did not generate any assessable profits arising in Hong Kong.

EIT

Our subsidiaries are subject to EIT in China. Under the EIT Law and EIT Rules, the statutory tax rate for all of our PRC subsidiaries was 25.0% for 2014, 2015, 2016 and 1H2017.

LAT

Under PRC laws and regulations, our PRC subsidiaries that are engaged in the property development business are subject to LAT as determined by the local authorities in the location in which each project is located. All income from the transfer of State-owned land use rights, buildings and their attached facilities in the PRC is subject to LAT at progressive rates ranging from 30% to 60% of the appreciation value as defined in the relevant tax laws. Certain exemptions are available for the sale of ordinary residential properties if the appreciation values do not exceed 20% of the total deductible items (as defined in the relevant tax laws). Sales of commercial properties are not eligible for such exemptions. Whether a property qualifies for the ordinary residential property exemption is determined by the local government. Historically, sales of higher end residential properties and commercial properties were generally assessed at higher appreciation values, and were therefore generally subject to higher LAT rates. On December 28, 2006, the SAT issued the Notice on the Settlement Management of Land Appreciation Tax on Real Estate Enterprises (關於房地產開發企業土地增值稅清算管理有關問題的通知), which took effect on February 1, 2007. Such notice provides further clarifications to the settlement of LAT. Local provincial tax authorities can formulate their own implementation rules according to the notice and local situations. On May 12, 2009, the SAT issued the Regulations of Land Appreciation Tax Settlement Administration (土地增值稅清算管理規程) effective on June 1, 2009, which further clarify the special conditions and procedures for the settlement of LAT. On May 19, 2010, the SAT issued the Notice on Settlement of Land Appreciation Tax (關於土地增值稅清算有關問題的通知) to explain and clarify the recognition of the revenue upon the settlement of LAT and the deduction of fees incurred from property development. On May 25, 2010, the SAT issued the Notice on Strengthening the Collection Land Appreciation Tax (關於加強土地增值稅徵管工作的通知), which provides for a minimum LAT prepayment rate at 2% for provinces in eastern China region, 1.5% for provinces in the central and northeastern China regions, and 1% for provinces in the western China region. On June 2, 2013, the SAT issued the Notice of the State Administration of Taxation on Further Improving the Collection of Land Value-added Taxes (關於進一步做好土地增值稅徵管工作的通知), which requires the local taxation authorities further strengthening administration on the collection of LAT, particularly on the settlement of LAT, deductions and reduction of assessment and collection projects. On November 10, 2016, the SAT issued the Announcement on the Several Provisions on the Collection of Land Appreciation Tax after the Replacement of Business Tax with VAT (關於營改增後土地增值稅若干徵管規定的公告), which clarified several issues concerning administration of collection of LAT after replacement of business tax with VAT. We estimate and make provisions for the full amount of applicable LAT in accordance with the requirements set out in the relevant PRC tax laws and regulations. We prepay 1.0% to 5.0% of the sales and pre-sale proceeds each year as required by the local tax authorities in accordance with prevailing market practice which varies by locality and property type. During 2014, 2015, 2016 and 1H2017, we incurred LAT of RMB87.3 million, RMB149.8 million, RMB247.6 million (US\$36.5 million) and RMB166.8 million (US\$24.6 million), respectively.

RESULTS OF OPERATIONS

1H2017 Compared to 1H2016

Revenue

Our revenue increased by 30.7% to RMB3,009.9 million (US\$444.0 million) for 1H2017 from RMB2,302.5 million for 1H2016. Such increase was primarily due to the increase in our GFA delivered of the residential properties of Mix Kingdom Redco and Prince Royal Family in Hefei, Riverlake International and Bluelake County in Nanchang and Sunshine Coast in Tianjin, which was partially offset by the decrease in the GFA delivered of Royal International in Shenzhen and Phase I of Sunshine Coast in Yantai. The total GFA delivered increased by 96.4% to 425,230 sq. m. for 1H2017 from 216,561 sq. m. for 1H2016. The increase in our total revenue was also partially offset by a decrease in the recognized ASP for the properties delivered to RMB7,013 (US\$1,034.5) for 1H2017 from RMB10,576 for 1H2016, primarily due to the decrease in GFA delivered of Redco International in Shenzhen which recognized a relatively higher ASP as compared with other property development projects of the Group in 1H2016.

The following table sets out a breakdown of our revenue by segment for the periods indicated:

	For the six months ended June 30,		
	2016	2017	
	<i>(RMB)</i>	<i>(RMB)</i>	<i>(US\$)</i>
	<i>(unaudited)</i>	<i>(unaudited)</i>	
	<i>(In thousands, unaudited)</i>		
Sales of properties	2,290,383	2,983,781	440,131
Construction and sea reclamantion services	—	26,095	3,849
Property management services	12,156	—	—
	<u>2,302,539</u>	<u>3,009,876</u>	<u>443,980</u>

A summary of our segment results is set forth below:

- Sales of properties: Our segment revenue for sales of properties increased by 30.3% to RMB2,983.8 million (US\$440.1 million) for 1H2017 from RMB2,290.4 million for 1H2016. Such increase was primarily attributable to the increase in contracted sales in 1H2017.
- Construction and sea reclamantion services: Our segment revenue for construction and sea reclamantion services increased to RMB26.1 million (US\$3.8 million) for 1H2017 from nil for 1H2016. Such increase was primarily attributable to the increase in the construction services provided in Jinan.
- Property management services: We did not generate revenue from property management services in 1H2017 primarily attributable to the disposal of property management services in late 2016.

Cost of sales

Our cost of sales increased by 29.0% to RMB2,414.0 million (US\$356.1 million) for 1H2017 from RMB1,871.6 million for 1H2016. Such increase was primarily due to an increase in cost of properties sold as a result of (a) the increase in GFA delivered to 425,230 sq. m. for 1H2017 from 216,561 sq. m. for 1H2016; (b) the decrease in average land acquisition cost per sq. m. delivered to RMB1,835 (US\$270.7) for 1H2017 from RMB4,256 for 1H2016; and (c) the decrease in average construction cost per sq. m. delivered to RMB2,461 (US\$363.0) for 1H2017 from RMB3,388 for 1H2016. Such decrease in average land acquisition cost per sq. m. delivered was primarily due to the decrease in the GFA delivered of Royal International in Shenzhen with a relatively high land acquisition costs.

Gross profit

Our gross profit increased by 38.3% to RMB595.9 million (US\$87.9 million) for 1H2017 from RMB430.9 million for 1H2016. Our gross profit margin increased to 19.8% for 1H2017 from 18.7% for 1H2016. Such increase was primarily attributable to the lower average land acquisition cost and construction cost as the decrease in the GFA delivered in Royal International in Shenzhen.

Other gains, net

Our other gains, net decreased to RMB0.5 million (US\$0.1 million) for 1H2017 from RMB13.2 million for 1H2016. Such decrease was primarily attributable to the exchange losses for 1H2017.

Selling and marketing expenses

Our selling and marketing expenses increased by 51.4% to RMB89.0 million (US\$13.1 million) for 1H2017 from RMB58.8 million for 1H2016. Selling and marketing expenses mainly represent expenses incurred in the promotion of our properties and the sales commission to the sales agents. Such increase was mainly due to the increase in the marketing promotion activities for the projects and the increase in the sales agency fee as the increase in the contracted sales, which we have commenced, or will commence sales in 2017.

General and administrative expenses

Our general and administrative expenses increased by 13.0% to RMB90.4 million (US\$13.3 million) for 1H2017 from RMB80.0 million for 1H2016, primarily due to the increase in office and travelling expenses due to the increase in the number of project end cities where our project located.

Fair value gain on an investment property

Our fair value gain on an investment property represents the increase in the value on the commercial portion of the culture park which are under construction in Tianjin. Our management expects such commercial portion to be held by the Company and leased out after completion. Therefore, the cost of such commercial portion has been transferred to investment property during 1H2017 and a fair value gain was recorded.

Impairment of goodwill

We recorded impairment of goodwill of RMB28.3 million (US\$4.2 million) for 1H2017 and nil for 1H2016, respectively. Such goodwill represents certain premium paid in connection with our acquisition of an 80% equity interest in Changfeng Lianhua Real Estate Co., Ltd. (“Changfeng”), which holds Mix Kingdom Redco in Hefei. Our Directors performed impairment assessment of such goodwill and the increase in the impairment of goodwill was primarily due to an increase in the GFA delivered in Mix Kingdom during 1H2017 as compared to that of 1H2016.

Operating profit

As a result of the foregoing, our operating profit increased by 134.4% to RMB715.7 million (US\$105.6 million) for 1H2017 from RMB305.3 million for 1H2016.

Finance income

Our finance income increased by 195.9% to RMB25.3 million (US\$3.7 million) for 1H2017 from RMB8.6 million for 1H2016, primarily attributable to the increase in our finance income from loans to non-controlling interests and a joint venture in 1H2017.

Finance costs

Our finance costs increased by 12.9% to RMB3.6 million (US\$0.5 million) for 1H2017 from RMB3.2 million for 1H2016. Such increase was mainly due to the increase in interest rate of the borrowings for general corporate purposes.

Share of profit of investments accounted for using the equity method, net

Our share of profit of investments accounted for using the equity method, net amounted to RMB1.1 million (US\$0.2 million) for 1H2017 as compared to RMB2.6 million for 1H2016. Such decrease was primarily due to the increase in losses incurred for the jointly-controlled real estate development projects which were under construction during the period and partially offset by the increase in share of profit in relation to the fair value gain from the investment property held by our joint venture, Redco Industry (Jiangxi) Co., Ltd.

Profit before income tax

As a result of the foregoing, our profit before income tax increased to RMB738.4 million (US\$108.9 million) for 1H2017 from RMB313.2 million for 1H2016.

Income tax expense

Our income tax expense increased by 197.6% to RMB365.6 million (US\$53.9 million) for 1H2017 from RMB122.9 million for 1H2016. Such increase was primarily due to the increase in enterprise income tax as a result of increased profit of the Group and an increase in land appreciation tax as a result of the higher gross profit margin in Bluelake County in Nanchang and the provision of the deferred tax for the fair value gain of the investment property.

Profit for the period

As a result of the foregoing, our profit increased by 95.8% to RMB372.8 million (US\$55.0 million) for 1H2017 from RMB190.4 million for 1H2016. The profit for 1H2017 mainly arose from the profit in Greater Western Taiwan Straits Economic Zone of RMB55.1 million (US\$8.1 million), the Central and Western Regions of RMB181.2 million (US\$26.7 million), the Bohai Economic Rim of RMB159.0 million (US\$23.5 million) and the Pearl River Delta Region of RMB27.5 million (US\$4.1 million), which was partially offset by a loss in Others segment of RMB50.0 million (US\$7.4 million).

Profit for the period attributable to non-controlling interests

Profit for the period attributable to non-controlling interests decreased to RMB50.6 million (US\$7.5 million) for 1H2017 as compared with RMB64.6 million for 1H2016, mainly due to the profit from Royal International in Heifei and Sunrise Coast in Tianjin.

2016 Compared to 2015

Revenue

Our revenue increased by 56.0% to RMB5,270.1 million (US\$777.4 million) for 2016 from RMB3,378.2 million for 2015. This increase was primarily due to a 49.0% increase in our GFA delivered to 647,822 sq.m. for 2016 from 434,709 sq.m. for 2015. The increase in our GFA delivered was primarily due to the increase in GFA delivered for Royal International in Shenzhen and Bluelake County, Imperial Mansion and Imperial Metropolis in Nanchang, partially offset by a decrease in the GFA delivered for Spain Standard in Nanchang and Redco International in Jinan. Our recognized ASP for properties delivered increased to RMB7,959 for 2016 from RMB6,828 for 2015. The increase in our recognized ASP for properties delivered was primarily due to the increase in the revenue attributable to Royal International in Shenzhen.

The following table sets out a breakdown of our revenue by segment for the periods indicated:

	For the year ended December 31,		
	2015	2016	
	<i>(RMB)</i>	<i>(RMB)</i>	<i>(US\$)</i>
	<i>(unaudited)</i>	<i>(unaudited)</i>	
		<i>(In thousands)</i>	
Sales of properties	2,967,976	5,155,966	760,545
Construction and sea reclamation services	392,500	76,528	11,289
Property management services	17,741	37,596	5,546
	<u>3,378,217</u>	<u>5,270,090</u>	<u>777,380</u>

A summary of our segment results is set forth below:

- Sales of properties: Our segment revenue for sales of properties increased by 73.7% to RMB5,156.0 million (US\$760.5 million) for 2016 from RMB2,968.0 million for 2015. Such increase was primarily attributable to the increase in contracted sales in 2016.
- Construction and sea reclamation services: Our segment revenue for construction and sea reclamation services decreased by 80.5% to RMB76.5 million (US\$11.3 million) for 2016 from RMB392.5 million for 2015. Such decrease was primarily attributable to the sea reclamation services was nearly completed in 2015 and there was limited construction and sea reclamation services rendered in 2016.
- Property management services: Our segment revenue from property management services increased by 112.4% to RMB37.6 million (US\$5.5 million) for 2016 from RMB17.7 million for 2015. Such increase was primarily attributable to the increase in services provided by Yantai Zhongtai Property Services Co., Ltd. which are acquired in June 2016.

Cost of sales

Our cost of sales increased by 82.7% to RMB4,184.8 million (US\$617.3 million) for 2016 from RMB2,290.0 million for 2015. This increase was primarily due to the increase in cost of properties sold as a result of the increase in GFA delivered to 647,822 sq.m. for 2016 from 434,709 sq.m. for 2015 and the increase in average land costs per sq.m. delivered to RMB2,711 (US\$399.9 million) for 2016 from RMB917 for 2015. The increase in average land costs per sq.m. delivered was primarily due to the increase in the GFA delivered for Royal International in Shenzhen with a relatively high land acquisition costs.

Gross profit

Our gross profit slightly decreased by 0.3% to RMB1,085.3 million (US\$160.1 million) for 2016 from RMB1,088.2 million for 2015. Our gross profit margin decreased to 20.6% for 2016 from 32.2% for 2015. This decrease was primarily attributable to the lower gross profit margin for Sunshine Coast — Phase 1 in Yantai and decrease in revenue generated from the sea reclamation works in Tianjin.

Other gains, net

Our other gains, net increased to RMB171.2 million (US\$25.3 million) for 2016 from RMB31.5 million for 2015. The other gains, net were primarily attributable to the increase in exchange gains from RMB27.4 million in 2015 to RMB28.3 million (US\$4.2 million) in 2016 and gain from disposal of subsidiaries of the Company for RMB123.0 million (US\$18.1 million) in 2016.

Selling and marketing expenses

Our selling and marketing expenses increased by 33.8% to RMB146.6 million (US\$21.6 million) for 2016 from RMB109.6 million for 2015. Selling and marketing expenses mainly represent the promotion of our properties. This increase was primarily due to the increase in the marketing promotion activities for the projects which has commenced, or will commence, sales in 2016 and 2017. The ratio of selling and marketing expenses to contracted sales of the Group slightly decreased to 1.4% for 2016 from 2.7% for 2015.

General and administrative expenses

Our general and administrative expenses decreased by 3.0% to RMB164.8 million (US\$24.3million) for 2016 from RMB169.9 million for 2015. This decrease was primarily due to the decrease in the share based payment expenses due to the issue of shares of the Company in December 2015, partially offset by the increase in the employee benefit expense. The general and administrative expenses as a percentage of revenue decreased to 3.1% for 2016 from 5.0% for 2015.

Impairment of goodwill

No impairment of goodwill was recognized for 2016 whereas the impairment of goodwill amounted to RMB26.6 million for 2015. Such impairment of goodwill for 2015 represents certain premium paid in connection with our acquisition of an 80.0% equity interest in Changfeng Lianhua Real Estate Co., Ltd., which holds Mix Kingdom Redco in Hefei.

Operating profit

As a result of the above, our operating profit increased by 16.2% to RMB945.2 million (US\$139.4 million) for 2016 from RMB813.7 million for 2015.

Finance income

Our finance income increased by 1.0% to RMB15.3 million (US\$2.3 million) for 2016 from RMB15.1 million for 2015. This increase was primarily attributable to the increase in interest income from bank deposits due to the increase in the interest rate for the year.

Finance costs

Our finance costs increased by 87.4% to RMB6.4 million (US\$0.9 million) for 2016 from RMB3.4 million for 2015 which was mainly due to a 12.7% increase in the amount of borrowings for general corporate purpose.

Share of profit of investments accounted for using the equity method, net

Our share of profit of investments accounted for using the equity method represents the share of profit of investment in joint ventures of RMB5.6 million (US\$0.8 million) and the share of profit of investment in an associate of RMB1.0 million (US\$0.2 million) for 2016. It decreased by 5.7% to RMB6.6 million (US\$1.0 million) for 2016 from RMB7.0 million for 2015. The decrease was primarily due to the fair value gain from the investment property held by our joint venture, Redco Industry (Jiangxi) Co., Ltd., partially offset by the losses incurred for the non-controlled real estate development projects which are under construction for those projects during the year.

Profit before income tax

As a result of the above, our profit before income tax increased by 15.4% to RMB960.7 million (US\$141.7 million) for 2016 from RMB832.4 million for 2015.

Income tax expense

Our income tax expense decreased by 5.1% to RMB406.0 million (US\$59.9 million) for 2016 from RMB427.6 million for 2015. Such decrease was primarily due to the decrease in the deferred tax as reversal of provision for withholding tax on the unremitted earnings of our Company's PRC subsidiaries, partially offset by an increase in EIT which due to the increase in the profit of the Group.

Profit for the year

As a result of the above, our profit for the year increased by 37.1% to RMB554.8 million (US\$81.8 million) for 2016 from RMB404.8 million for 2015.

Profit for the year attributable to non-controlling interests

Profit attributable to non-controlling interests increased to a profit of RMB104.0 million (US\$15.3 million) for 2016 from a loss of RMB7.4 million for 2015. The profit attributable to non-controlling interests for 2016 was primarily due to the increase in the GFA delivered for Royal International in which we hold 51% equity interest.

2015 Compared to 2014

Revenue

Our revenue decreased by 3.6% to RMB3,378.2 million for 2015 from RMB3,502.8 million for 2014. This decrease was primarily due to a 16.8% decrease in our GFA delivered to 434,709 sq.m. for 2015 from 522,323 sq.m. for 2014. The decrease in our GFA delivered was primarily due to the decrease in GFA delivered for Redco International in Jinan, Mix Kingdom Redco, partially offset by an increase in the GFA delivered for Bluelake County in Nanchang and Sunshine Coast in Tianjin. Our ASP for properties delivered increased to RMB6,828 for 2015 from RMB6,706 for 2014. The increase in our recognized ASP for properties delivered was primarily due to the increase in the revenue attributable to Bluelake County in Nanchang.

The following table sets out a breakdown of our revenue by segment for the periods indicated:

	For the year ended December 31,	
	2014	2015
	<i>(RMB)</i>	<i>(RMB)</i>
		<i>(unaudited)</i>
		<i>(In thousands)</i>
Sales of properties	3,502,804	2,967,976
Construction and sea reclamantion services	—	392,500
Property management services	—	17,741
	<u>3,502,804</u>	<u>3,378,217</u>

A summary of our segment results is set forth below:

- Sales of properties: Our segment revenue for sales of properties decreased by 15.3% to RMB2,968.0 million for 2015 from RMB3,502.8 million for 2014. Such decrease was primarily attributable to the increase in the land cost payment in 2015.
- Construction and sea reclamantion services: Our segment revenue for construction and sea reclamantion services was RMB392.5 million for 2016. The revenue from this new segment was primarily generated from the sea reclamantion services provided in Tianjin.

- Property management services: Our segment revenue from property management services was RMB17.7 million for 2016. The revenue from this new segment was primarily generated from the newly acquired subsidiary Jiangxi Hengfeng Property Services Co., Ltd in January 2015.

Cost of sales

Our cost of sales decreased by 10.4% to RMB2,290.0 million for 2015 from RMB2,556.5 million for 2014. This decrease was primarily due to the decrease in cost of properties sold as a result of the decrease in GFA delivered to 434,709 sq.m. for 2015 from 522,323 sq.m. for 2014, partially offset by (i) the decrease in average land costs per sq.m. delivered to RMB917 for 2015 from RMB1,004 for 2014; and (ii) the decrease in average construction costs per sq.m. delivered to RMB3,062 for 2015 from RMB3,366 for 2014. The decrease in average land costs per sq.m. delivered was primarily due to the decrease in the GFA delivered for Redco International in Jinan with a relatively high land acquisition costs in 2015. The higher construction cost of Redco International in Jinan is mainly due to additional insulation works that need to be done for the outside walls of the residential properties in the cities throughout North China.

Gross profit

Our gross profit increased by 15.0% to RMB1,088.2 million for 2015 from RMB946.3 million for 2014. Our gross profit margin increased to 32.2% for 2015 from 27.0% for 2014. This increase was primarily attributable to the higher gross profit margin for Spain Standard in Nanchang and the sea reclamation works in Tianjin in 2015.

Other gains/(losses), net

Our other gains increased to RMB31.5 million for 2015 from a loss of RMB20.3 million for 2014. The other gains for 2015 were primarily attributable to the exchange gains of RMB27.4 million in 2015 and the other losses for 2014 were primarily due to an exchange loss of RMB17.9 million in 2014.

Selling and marketing expenses

Our selling and marketing expenses increased by 32.4% to RMB109.6 million for 2015 from RMB82.8 million for 2014. Selling and marketing expenses mainly represent the promotion of our properties. This increase was primarily due to the increase in the marketing promotion activities for the projects which commenced sales in 2015 and 2016. The ratio of selling and marketing expenses to contracted sales of the Group slightly increased to 2.7% for 2015 from 2.6% for 2014.

General and administrative expenses

Our general and administrative expenses increased by 37.1% to RMB169.9 million for 2015 from RMB123.9 million for 2014. This increase was primarily due to the increase in employee benefit expenses and the share based payment expenses due to the issue of shares in December 2015. The general and administrative expenses as a percentage of revenue increased to 5.0% for 2015 from 3.5% for 2014.

Impairment of goodwill

Our impairment of goodwill increased by 7.7% to RMB26.6 million for 2015 from RMB24.7 million for 2014. Such goodwill represents certain premium paid in connection with our acquisition of an 80.0% equity interest in Changfeng Lianhua Real Estate Co., Ltd which holds Mix Kingdom Redco in Hefei and 100% equity interest in Jiangxi Hengfeng Property Services Co., Ltd which engaged in the property management business.

Operating profit

As a result of the above, our operating profit increased by 17.2% to RMB813.7 million for 2015 from RMB694.4 million for 2014.

Finance income

Our finance income decreased by 12.2% to RMB15.1 million for 2015 from RMB17.2 million for 2014. This decrease was primarily attributable to the decrease in interest income from bank deposits since the Group held lower average cash balances during the year.

Finance costs

Our finance costs increased by 17.2% to RMB3.4 million for 2015 from RMB2.9 million for 2014 which mainly due to a 54.1% increase in the interest of the loan being capitalized in the properties under development, partially offset by the 53.7% increase in the interest expense due to the increase in borrowings during the year.

Share of profit of investments accounted for using the equity method, net

Our share of profit of investments accounted for using the equity method for 2015 is not comparable to that of 2014 due to the restatement of our financial information for 2015 as a result of our change of accounting policy.

Profit before income tax

As a result of the above, our profit before income tax increased by 18.3% to RMB832.4 million for 2015 from RMB703.5 million for 2014.

Income tax expense

Our income tax expense increased by 31.2% to RMB427.6 million for 2015 from RMB325.8 million for 2014. The increase was primarily due to an increase in EIT as a result of increase in profit before tax, an increase in LAT as a result of the higher gross profit margin. The increase in the effective tax rate to 51.4% for 2015 from 46.3% for 2014 was primarily attributable to the increase in LAT to RMB149.8 million for 2015 from RMB87.3 million for 2014, which was mainly due to the relatively higher average gross profit achieved from the sales of the property development projects in 2015.

Profit for the year

As a result of the above, our profit for the year increased slightly by 7.2% to RMB404.8 million for 2015 from RMB377.7 million for 2014. The profit for the year mainly arose from the profit in Greater Western Taiwan Straits Economic Zone for RMB372.9 million, Central and Western Regions for RMB63.9 million, Bohai Economic Rim for RMB124.6 million, partially offset by the loss in Pearl River Delta Region for RMB32.4 million and Others segment for RMB124.2 million.

Profit for the year attributable to the non-controlling interests

Profit attributable to non-controlling interests decreased by 124.3% to a loss of RMB7.4 million for 2015 from a profit of RMB30.5 million for 2014 as we shared the profit for 2014 from the GFA delivered for Mix Kingdom Redco in which we held a 80% equity interest, whereas for 2015, most of our loss was generated from those projects in which we had 100% equity interest.

Cash flows (used in)/generated from operating activities

Our cash used in operating activities principally comprises payments for our property development activities and land acquisitions. Our cash from operating activities is generated principally from proceeds received from pre-sale and sales of our properties.

For 1H2017, we had net cash generated from operating activities of RMB352.7 million (US\$52.0 million), which primarily comprised net cash generated from operations of RMB710.3 million (US\$104.7 million), partially offset by income tax paid of RMB357.6 million (US\$52.7 million). Our cash generated from operations prior to changes in working capital was RMB466.0 million (US\$68.7 million). Changes in working capital contributed to a net cash inflow of RMB264.3 million (US\$39.0 million), primarily due to a decrease in properties under development for sale of RMB1,304.1 million (US\$192.4 million) and an increase in restricted cash of RMB78.4 million (US\$11.6 million), partially offset by an increase in completed properties held for sale of RMB155.9 million (US\$23.0 million), an increase in trade and other receivables and prepayments of RMB51.3 million (US\$7.6 million), a decrease in trade and other payables of RMB576.7 million (US\$85.1 million) and a decrease in receipts in advance of RMB334.4 million (US\$49.3 million).

For 2016, we had net cash generated from operating activities of RMB1,645.1 million (US\$242.7 million), primarily comprising net cash generated from operations of RMB2,037.8 million (US\$300.6 million), partially offset by income tax paid of RMB392.7 million (US\$57.9 million). Our cash generated from operations prior to changes in working capital was RMB799.9 million (US\$118.0 million). Changes in working capital contributed to a net cash inflow of RMB1,238.0 million (US\$182.6 million), primarily due to a decrease in properties under development for sale of RMB2,389.9 million (US\$352.5 million) and an increase in receipts in advance of RMB1,286.6 million (US\$189.8 million), partially offset by an increase in completed properties held for sale of RMB735.4 million (US\$108.5 million), an increase in trade and other receivables and prepayments of RMB771.3 million (US\$113.8 million), a decrease in trade and other payables of RMB414.3 million (US\$61.1 million) and a decrease in restricted cash of RMB517.5 million (US\$76.3 million).

For 2015, we had net cash used in operating activities of RMB90.3 million, which primarily comprised income tax paid of RMB293.6 million, partially offset by net cash generated from operations of RMB203.3 million. Our net cash generated from operations prior to changes in working capital was RMB819.6 million. Changes in working capital contributed to a net cash outflow of RMB616.3 million, primarily due to an increase in completed properties held for sale of RMB94.7 million, an increase in properties under development for sale of RMB1,757.1 million, an increase in trade and other receivables and prepayments of RMB181.4 million and a decrease in restricted cash of RMB313.3 million, partially offset by an increase in receipts in advance of RMB1,270.1 million and an increase in trade and other payables of RMB460.2 million.

For 2014, we had net cash used in operating activities of RMB1,597.9 million, which primarily comprised net cash used in operations of RMB1,363.3 million and income tax paid of RMB234.6 million. Our net cash generated from operations before changes in working capital was RMB689.7 million. Changes in working capital contributed to a cash outflow of RMB2,053.0 million, primarily due to an increase in completed properties held for sale of RMB575.8 million, an increase in properties under development for sale of RMB909.8 million, a decrease in receipts in advance of RMB981.6 million and a decrease in restricted cash of RMB223.1 million, partially offset by a decrease in other receivables and prepayments of RMB458.4 million and an increase in trade and other payables of RMB178.9 million.

Cash flows generated from/(used in) investing activities

Our cash inflows generated from investing activities primarily reflects repayment from non-controlling interests, advance from a related party and interest received. Our cash used in investing activities primarily reflect cash used for restricted cash in connection with guaranteed deposits for the mortgage loan facilities granted by banks to purchasers of our Group's properties, cash used for term deposits with initial terms of over three months, acquisition of a subsidiary (net of cash acquired), repayment to non-controlling interests, cash used for certain investment in financial assets, capital injection to a joint venture, advance to related parties and additions of property, plant and equipment.

For 1H2017, we had net cash used in investing activities of RMB238.4 million (US\$35.2 million), which primarily consisted of prepayment for acquisition of subsidiaries of RMB139.5 million (US\$20.6 million), prepayment for purchase of property, plant and equipment of RMB97.6 million (US\$14.4 million), capital injection to an associate of RMB15.2 million (US\$2.2 million) and additions of property, plant and equipment of RMB2.9 million (US\$0.4 million), partially offset by interest received of RMB8.4 million (US\$1.2 million) and acquisitions of subsidiaries, net of cash acquired of RMB7.9 million (US\$1.2 million).

For 2016, we had net cash used in investing activities of RMB512.5 million (US\$75.6 million), which primarily consisted of payments for business combinations, net of cash acquired of RMB483.7 million (US\$71.3 million), payments for acquisition of joint ventures of RMB136.6 million (US\$20.1 million), advance to joint ventures, net of RMB48.3 million (US\$7.1 million), payment for acquisition of 10% interest in a non-wholly owned subsidiary from non-controlling interest of RMB10.0 million (US\$1.5 million), additions of property, plant and equipment of RMB4.4 million (US\$0.6 million) and advance to an associate of RMB3.5 million (US\$0.5 million), partially offset by net inflows of cash in respect of the disposal of subsidiaries of RMB72.5 million (US\$10.7 million), proceeds from capital injection from non-controlling interests of RMB66.0 million (9.7 million), proceed from disposal of 10% interest in a subsidiary from non-controlling interest of RMB19.8 million (US\$2.9 million) and interest received of RMB15.3 million (US\$2.3 million).

For 2015, we had net cash used in investing activities of RMB37.7 million, which primarily consisted of cash used for additions of property, plant and equipment of RMB26.1 million and acquisitions of subsidiaries, net of cash acquired of RMB27.5 million, partially offset by cash generated from interest received of RMB15.1 million.

For 2014, we had net cash generated from investing activities of RMB5.5 million, which primarily consisted of interest received of RMB17.2 million, partially offset by cash used for additions of property, plant and equipment of RMB12.2 million.

Cash flows generated from/(used in) financing activities

Our cash inflows from financing activities primarily reflect proceeds from bank borrowings and advance from shareholders and directors. Our cash outflows from financing activities primarily reflect repayment of bank borrowings, repayment to shareholders and directors and interest paid.

For 1H2017, we had net cash used in financing activities of RMB423.1 million (US\$62.4 million), which was primarily due to repayment of bank borrowings of RMB707.4 million (US\$104.3 million), advance to a related party RMB13.3 million (US\$2.0 million), net advance to non-controlling interests of RMB742.1 million (US\$109.5 million), net advance to joint ventures of RMB2.0 million (US\$0.3 million), advance to an associate of RMB3.6 million (US\$0.5 million), and interest paid of RMB140.4 million (US\$20.7 million), partially offset by proceeds from bank borrowings of RMB1,183.0 million (US\$174.5 million) and capital injection from non-controlling interests of RMB2.8 million (US\$0.4 million).

For 2016, we had net cash used in financing activities of RMB416.1 million (US\$61.4 million), which was primarily due to repayment of bank borrowings of RMB2,396.0 million (US\$353.4 million), payments to non-controlling interests of RMB203.4 million (US\$30.0 million), repayment to a related party of RMB161.1 million (US\$23.8 million), repayment to a joint venture of RMB6.0 million (US\$0.9 million), interest paid of RMB300.3 million (US\$44.3 million) and dividend paid of RMB24.0 million (US\$3.5 million), partially offset by proceeds from bank borrowings of RMB2,674.7 million (US\$394.5 million).

For 2015, we had net cash generated from financing activities of RMB865.2 million, which was primarily due to proceeds from bank borrowings of RMB2,253.6 million, issue of new shares of RMB632.4 million, repayment from non-controlling interests of RMB 10.2 million, advance from non-controlling interests RMB165.8 million, advance from a related party RMB161.1 million, and advance from a joint venture of RMB 10.3 million, partially offset by repayment of bank borrowings of RMB1,909.2 million, repayment to a related party of RMB5.0 million, interest paid of RMB374.3 million, and dividend paid of RMB79.6 million.

For 2014, we had net cash generated from financing activities of RMB1,716.0 million, which was primarily due to proceeds from bank borrowings of RMB2,082.5 million, issue of new shares of RMB748.7 million, issue of senior notes of RMB745.9 million, repayment from non-controlling interests of RMB 8.1 million, advance from non-controlling interests RMB7.8 million, repayment from shareholders and directors of RMB132.5 million and contributions from non-controlling interests of a subsidiary of RMB43.6 million, partially offset by repayment of bank borrowings of RMB1,521.9 million, repayment to a joint venture of RMB 58.6 million, interest paid of RMB243.6 million and dividend paid of RMB230.0 million.

Cash and Cash Equivalents

As of December 31, 2014, 2015 and 2016 and June 30, 2017, we had cash and cash equivalents of RMB951.5 million, RMB1,689.1 million, RMB2,417.2 million (US\$356.6 million) and RMB2,102.5 million (US\$310.1 million), respectively, which consisted of cash at bank and on hand.

Restricted Cash

As of December 31, 2014, 2015 and 2016 and June 30, 2017, we had restricted cash of RMB355.4 million, RMB668.8 million, RMB1,186.3 million (US\$175.0 million) and RMB1,107.8 million (US\$163.4 million), respectively. Our restricted cash comprised (i) guaranteed deposits for the mortgage loan facilities granted by banks to purchasers of the Group's properties, (ii) guaranteed

deposits for constructions of properties from certain property development companies of the Group that are required to place certain amount of presale proceeds of properties in designated bank accounts in accordance with relevant regulations issued by local State-Owned Land and Resource Bureau, and (iii) other bank deposits that are restricted in use as collateral for banking facilities of the Group.

Note:

(1) We issued US\$125,000,000 13.75% senior notes due 2019 on August 1, 2014. The 2014 Notes were redeemed in full on August 9, 2017.

Our borrowings in 2014, 2015, 2016 and 1H2017 were denominated in both Renminbi, US dollar and Hong Kong dollar. As of December 31, 2014, 2015 and 2016 and June 30, 2017, our total outstanding borrowings (including bank borrowings and the 2014 Notes) amounted to RMB2,761.4 million, RMB3,220.5 million, RMB3,629.2 million (US\$535.3 million) and RMB4,107.3 million (US\$605.9 million), respectively. In August 2017, we fully redeemed the 2014 Notes. The overall increase in our borrowings was primarily due to the increasing needs to finance our property developments as we expanded the scale of our operations.

The following table sets out the maturity profiles of our borrowings as of the dates indicated:

Subsequent to June 30, 2017, we have, from time to time, in the ordinary course of business, entered into additional loan agreements to finance our property developments or for general corporate purposes. For a description of our material indebtedness, see “Description of Other Material Indebtedness.”

Contingent Liabilities

Guarantees on mortgage facilities

In 2014, 2015, 2016 and 1H2017, we had arranged for bank financing for certain purchasers of our Group’s properties and provided guarantees to secure obligations of such purchaser for repayments. Such guarantees will terminate upon the earlier of (i) the transfer of the building ownership certificate to the purchaser; or (ii) the satisfaction of mortgage loans by the purchasers of the properties.

Pursuant to the terms of the guarantees, upon default of mortgage payments by these purchasers, we would be responsible to repay the outstanding mortgage principal together with accrued interest and penalties owed by the defaulting purchasers to the banks and our Group would be entitled to take over the legal title and possession of the related properties. Our Group’s guarantee period starts from the date of grant of mortgage. Our Directors consider that the likelihood of default of payments by the purchasers is minimal and therefore the financial guarantee measured at fair value is immaterial. The following table shows our total mortgage guarantees as of the dates indicated:

	As of December 31,				As of June 30,

Our directors confirm that we did not experience any material default on mortgage guarantees in 2014, 2015, 2016 and 1H2017.

As of June 30, 2017, we provided mortgage guarantees amounting to RMB5,327.6 million (US\$785.9 million) in respect of mortgage loans granted to purchasers of our developed properties. In addition, there were certain corporate guarantees provided by some of the Group’s subsidiaries for certain other subsidiaries in respect of borrowings as of June 30, 2017. The Directors consider that the subsidiaries are sufficiently financially resourced to fulfil their obligations.

Off-Balance Sheet Commitments and Arrangements

Except for the contingent liabilities disclosed above, as of June 30, 2017, we did not have any outstanding loan capital issued or agreed to be issued, bank overdrafts, loans, debt securities, borrowings or other similar indebtedness, liabilities under acceptances (other than normal trade bills), acceptance credits, debentures, mortgages, charges, finance leases or hire purchase commitments, guarantees or other contingent liabilities.

CONTRACTUAL OBLIGATIONS

As of December 31, 2014, 2015 and 2016 and June 30, 2017, we had the following commitments that are contracted but not provided in respect of land acquisition and property development expenditures:

QUANTITATIVE AND QUALITATIVE DISCLOSURE OF FINANCIAL RISKS

We are, in the ordinary course of our business, exposed to a variety of financial risks, including market risk, credit risk and liquidity risk. Our Group's overall risk management program focuses on unpredictability of financial markets and seeks to minimize the relevant potential adverse effects on our Group's performance.

Market Risks

We are exposed to various types of market risks, including foreign exchange risk and cash flow interest rate risk.

Foreign exchange risk

We mainly operate in the PRC, with most of our transactions settled in the Renminbi. Foreign exchange risk would arise when future commercial transactions or recognized assets and liabilities are denominated in a currency that is not the functional currency. We are exposed to foreign exchange risk primarily with respect to the Hong Kong dollar and the United States dollar.

As of December 31, 2014, 2015 and 2016 and June 30, 2017, certain of our cash and bank balances were denominated in the Hong Kong dollar and the United States dollar.

As of December 31, 2014, 2015 and 2016 and June 30, 2017, we were exposed to foreign exchange risk primarily with respect to certain of our borrowings which were denominated in the Hong Kong dollar and US dollar. The Renminbi experienced certain depreciation and appreciation against the Hong Kong dollar and US dollar during the years, which was the major reason for the exchange differences recognized by us in 2014, 2015, 2016 and 1H2017. Future appreciation or depreciation of the Hong Kong dollar and US dollar against the Renminbi will affect our results of operations and financial position.

Cash flow interest rate risk

Our cash flow interest rate risk is mainly due to our bank borrowings. Borrowings of variable rates expose our Group to cash flow interest rate risk. We have not hedged our cash flow interest rate risk. Our management does not anticipate significant impact to our interest-bearing assets resulting from changes in interest rates, because the interest rates of bank deposits are not expected to change significantly.

Credit Risk

Our credit risk arises from bank deposits and other receivables. All our bank deposits are placed with banks with sound credit ratings to mitigate the risk. We do not hold any collateral as security. For other receivables, financial assets at fair value through profit and loss, amounts due from related parties and amounts due from non-controlling interests, we assess the credit quality of the counterparties by taking into account their financial position, credit history and other factors. Our management also regularly review the recoverability of these receivables and follow up on the disputes or amounts overdue, if any. Our Directors are of the opinion that the risk of default by counterparties is low.

We typically provide guarantees to banks in connection with our customers' borrowing of mortgage loans to finance their purchase of properties for an amount up to 70% of the total purchase price of the property. If a purchaser defaults on the payment of its mortgage loan during the guarantee period, the bank holding the guarantee may demand us to repay the outstanding amount under the loan and any interest accrued thereon. Under such circumstances, we are able to retain the customers' deposit and resell the property to recover any amounts paid by us to the bank. In this regard, our Directors consider that our credit risk is significantly reduced.

Liquidity Risk

The capital intensive nature of our business operations exposes us to liquidity risk. In managing our liquidity risk, we regularly and closely monitor our current and expected liquidity requirements to maintain our rolling cash flow at a level which is considered adequate by our management to finance our operations and to maintain sufficient cash to meet our business development requirements.

Our management has periodically prepared cash flow projections and we have a number of alternative plans to offset the potential impact on our business development and current operations, should there be circumstances in which the anticipated cash flow may be affected by any unexpected changes in the economic conditions of the PRC. Our Directors consider that we will be able to maintain sufficient financial resources to meet our needs.

Inflation

According to the National Bureau of Statistics of China, China's overall national inflation rate, as represented by the general consumer price index, was approximately 1.5%, 1.6% and 2.1%, respectively, for 2014, 2015 and 2016. Recent inflation and deflation have not materially affected our business, despite relatively significant increases in inflation since December 31, 2016. Deflation could adversely affect our business, as it might be a disincentive for prospective purchasers to purchase our properties.

NON-GAAP FINANCIAL MEASURES

We use EBITDA to provide additional information about our operating performance. EBITDA refers to our earnings before the following items:

- finance income/costs;
- amortization of intangible assets and land use rights;
- impairment of goodwill;
- share of loss of a joint venture;
- income tax expense; and
- depreciation.

EBITDA is not a standard measure under HKFRS. As the property development business is capital intensive, capital expenditure requirements and levels of debt and interest expenses may have a significant impact on the profit for the year of companies with similar operating results. Therefore, we believe the investor community commonly uses this type of financial measure to assess the operating performance of companies in our market sector.

As a measure of our operating performance, we believe that the most directly comparable HKFRS measure to EBITDA is profit for the year. We operate in a capital intensive industry. We use EBITDA in addition to profit for the year because profit for the year includes many accounting items associated with capital expenditures, such as depreciation, as well as non-operating items, such as amortization of intangible assets and interest income and interest expense. These accounting items may vary between companies depending on the method of accounting adopted by a company. By minimizing differences in capital expenditures and the associated depreciation expenses as well as reported tax positions, intangible assets amortization and interest income and expense, EBITDA provides further information about our operating performance and an additional measure for comparing our operating performance with other companies' results. Funds depicted by this measure may not be available for debt service due to covenant restrictions, capital expenditure requirements and other commitments.

The following table reconciles our profit for the year under HKFRS to our definition of EBITDA for the periods indicated.

Our definition of EBITDA should not be considered in isolation or construed as an alternative to profit for the year or as an indicator of operating performance or any other standard measure under HKFRS. Our definition of EBITDA does not account for taxes and other non-operating cash expenses. Our EBITDA measures may not be comparable to similarly titled measures used by other companies. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the Indenture governing the Notes. See “Description of the Notes — Definitions” for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indenture governing the Notes.

OVERVIEW OF THE PRC ECONOMY

China has experienced significant economic growth since the adoption of the reform and opening-up policy by the PRC government in 1978. China's nominal GDP grew at a CAGR of 12.6% from 2008 to 2013, reaching approximately RMB56,885 billion in 2013 and making China one of the fastest growing economies in the world.

The table below sets out selected economic statistics for China for the years indicated:

	2008	2009	2010	2011	2012	2013	2014	2015	2016

Before the global financial crisis in 2008, China's nominal GDP grew at a CAGR of approximately 18.3% between 2003 and 2008. Following the global financial crisis in 2008, China further strengthened its economy by loosening macroeconomic policies and launching its RMB4 trillion stimulus package in 2008. Starting in 2010, in order to cope with rising inflation and unbalanced economic growth, China implemented a series of economic austerity measures to slow down its overheated economy by adjusting interest rates, bank deposit reserve ratio and austerity measures for the housing market. From 2014 to 2016, China's real GDP grew at an annual growth rate of approximately 8.9%, 8.3% and 8.1% respectively.

The PRC's annual real GDP growth rate target set by the PRC government in recent years has been 6.5% between 2016 and 2020. However, as mentioned above, the actual real GDP growth rate of the country consistently surpassed the targeted level from 2015 to 2016.

In March 2013, the PRC government announced a real GDP growth rate target of 6.5% for 2017. After years of high but unbalanced economic growth, the PRC government has set a more moderate annual growth rate target which aims to improve the quality of economic growth and to promote economic restructuring as a way to sustain longer-term growth.

OVERVIEW OF THE REAL ESTATE MARKET OF THE PRC

Recent developments of real estate policies in the PRC

In order to avoid over-heating of the real estate market, the PRC government has promulgated various restrictive measures to stabilize housing prices. For details of recent developments of real estate policies in the PRC, please refer to the section headed “Regulation — Measures on stabilizing housing price” in this offering memorandum.

Key growth drivers of the real estate market in the PRC

In addition to the ongoing housing reform and the overall growth of the PRC economy, the key factors driving the growth of the real estate market in the PRC include increases in disposable income and rapid urbanization.

The table below sets out selected economic statistics of the PRC for the years indicated:

Furthermore, demand for real estate property is also driven by the emergence and growth of the mortgage lending market in China. Due to this favorable market environment, investment in real estate development in China rose from approximately RMB3,120 billion in 2008 to approximately RMB10,258 billion in 2016, representing a CAGR of approximately 16.0%.

The table below sets out selected data relating to the property market in the PRC for the years indicated:

The average selling price of commodity properties sold in China increased from approximately RMB3,800 per sq.m. in 2008 to approximately RMB7,476 per sq.m. in 2016, while the average selling price of residential properties increased from approximately RMB3,576 per sq.m. in 2008 to approximately RMB7,203 per sq.m. in 2016.

Development of the Western Taiwan Straits Economic Zone

On May 6, 2009, the State Council promulgated the Several Opinions in relation to Supporting Fujian Province to Accelerate the Development of the Western Taiwan Straits Economic Zone (Guo Fa [2009] No. 24) (關於支持福建省加快建設海峽西岸經濟區的若干意見(國發[2009] 24號)), pursuant to which the PRC government intends to accelerate the development of the Western Taiwan Straits Economic Zone in order to boost the nation's coastal economy as a whole, channel overseas capital to western and central China and to forge stronger economic cooperation with Taiwan.

The Western Taiwan Straits Economic Zone includes Fuzhou, Xiamen, Zhangzhou, Quanzhou, Putian, Sanming, Nanping, Longyan and Ningde in Fujian Province; Wenzhou, Lishui, Quzhou in Zhejiang Province; Shantou, Meizhou, Chaozhou, Jieyang in Guangdong Province; and Shangrao, Yingtan, Fuzhou, Ganzhou in Jiangxi Province.

Over the past few years the Economic Zone has focused on port logistics to largely improve its basic infrastructure and cargo-handling capacity through restructuring and central management. We believe that Fujian Province and neighboring Jiangxi Province are the key constituents of the Western Taiwan Straits Economic Zone. Adjacent to the Taiwan Straits, we believe that these two provinces are well positioned to act as the hub of the Western Taiwan Straits Economic Zone linking together the Pearl River Delta and the Yangtze River Delta as well as the vast area of Central China.

For 2016, per capita GDP of Fujian Province reached RMB73,951, while per capita disposable income of urban households reached RMB36,014, representing a growth of 8.8% and 8.2% over 2015, respectively. For 2016, per capita GDP of Jiangxi Province reached RMB40,106 and per capita disposable income reached RMB28,673, representing a growth of 9.2% and 8.2% over 2015, respectively. We believe that the strong economic performance will lead to increasing demand in the property market in the region.

For purposes of this offering memorandum, we have defined the Greater Western Taiwan Straits Economic Zone to include Fujian Province, Jiangxi Province, Wenzhou, Lishui and Quzhou in Zhejiang Province and Shantou, Meizhou, Chaozhou and Jieyang in Guangdong Province.

Development of the Bohai Economic Rim

The Bohai Economic Rim consists of three provinces and two municipalities surrounding the Bohai Rim area, namely Beijing, Tianjin municipality, Hebei province, Shandong Province and Liaoning Province. On December 21, 2010, the State Council promulgated the Notice in relation to the Issuance of the National Plan for Priority Development Zones (Guo Fa [2010] No. 46) (國務院關於印發全國主體功能區規劃的通知(國發[2010] 46號)), pursuant to which the PRC government aims to develop the Bohai Economic Rim into the gateway for international trade and commerce and the leading economic engine in Northern China, constituting one of China's three major economic regions with development priority, with the other two being the Pearl River Delta and the Yangtze River Delta.

In 2017, the State Council has approved the guideline on the development of the Bohai Economic Rim, which urges the construction of major infrastructures to build a modern network of transportation, energy, water resources and information. Local governments will mainly focus on upgrade of industries. We believe that Tianjin municipality and bordering Shandong Province possess great economic growth potential that is conducive to a robust real estate market. For 2016, per capita GDP of Tianjin Municipality reached RMB115,053 and per capita disposable income of urban households reached RMB37,110, representing a growth rate of 6.6% and 8.8% over 2015, respectively. For 2016, per capita GDP of Shandong Province reached RMB67,706 and per capita disposable income of urban households reached RMB34,012, representing a growth of 5.5% and 7.8% over 2015, respectively.

Development of the Central and Western Regions

The Central and Western regions encompass vast areas of inland China, and have been targeted by the central government for the implementation of major economic reform and development policies. On August 31, 2010, the State Council issued the Guiding Opinions of the State Council on Central and Western Regions' Undertaking of Industrial Transfer (Guo Fa [2010] No. 28) (國務院關於中西部地區承接產業轉移的指導意見(國發[2010] 28號)), providing guidelines for the migration of industries towards the Central and Western Regions with the aim of promoting further urbanization and economic growth. On February 13, 2012, the State Council circulated the Official Reply of the State Council on the 12th Five-Year Plan for the Large-Scale Development of the Western Regions (Guo Fa [2012] No. 8) (國務院關於西部大開發“十二五”規劃的批覆(國發[2012] 8號)), setting out the plan for long-term sustainable economic development and the goal of achieving a GDP growth rate higher than that of the national average. On August 27, 2012, the State Council further promulgated the Several Opinions of the State Council on Vigorous Implementation of the Strategy of Promoting the Rise of the Central Region (Guo Fa [2012] No. 43) (國務院關於大力實施促進中部地區崛起戰略的若干意見(國發[2012] 43號)), pursuant to which the PRC government intends to continue economic policy support for the region. On January 5, 2017, the Stake Council circulated the Official Reply on the 13th Five-Year Plan for the Large-Scale Development of the Western Regions (Guo Han[2017]No. 1)(國務院關於西部大開發“十三五”規劃的批復(國函[2017]1號)) to provide further support for development of the region in various aspects such as taxation, project development, financing, etc. From 2000 to 2016, the Chinese government invested RMB6.35 trillion in 300 major projects, mostly in infrastructure and energy, in western regions. In 2016 alone, RMB743.8 billion was invested in 30 major projects in western regions, according to the National Development and Reform Commission.

We believe that the Central and Western Regions have benefited and will continue to benefit from policy support from the central government with the aim of nurturing long-term economic growth and promoting urbanization, which will help unlock growth potential in the real estate market of these regions.

Development of Sydney

Sydney is the economic and cultural center of Australia. It is made up of 658 suburbs, 40 local government areas and 15 contiguous regions. Sydney has an advanced market economy with strengths in finance, manufacturing and tourism. It is promoted as one of Asia Pacific's leading financial hubs due to a significant concentration of multinational corporations.

According to the Australian Bureau of Statistics, Sydney had a population of approximately 5.0 million at the end of 2016. In 2016, its GDP reached approximately A\$371 billion, representing a per capita GDP of A\$73,740. The table below sets forth selected economic indicators relating to Sydney for the years indicated:

Subject to the Supplementary Circular of the Office of Shenzhen Municipal People's Government on Further Implementation of the Circular by State Council for Strict Control on Excessive Growth of Housing Price (關於進一步貫徹落實國務院文件精神堅決遏制房價過快上漲的補充通知) (Shen Fu Ban [2010] No.82) promulgated and implemented by the Shenzhen municipal people's government on September 30, 2010, a household with a local registered residence of Shenzhen shall only be allowed to purchase up to two houses in Shenzhen, while a household without a local registered residence of Shenzhen is only allowed to purchase one house, if the latter could provide tax payment proof or social insurance payment proof evidencing at least 12 months of continuous payment. Any household who falls into any of the following cases is not allowed to purchase any house in Shenzhen temporarily: (i) any household with a local registered residence of Shenzhen who already owned two or more houses, or (ii) any household without a local registered residence of Shenzhen who already owned one or more houses, or (iii) any household without a local registered residence of Shenzhen who could not provide eligible tax payment proof or social insurance payment proof.

Pursuant to the Circular of the Office of Shenzhen People's Government on Further Improvement of Control over Our Real Estate Market to Guarantee the Annual Target of Controlling New Housing Price (深圳市人民政府辦公廳關於進一步做好我市房地產市場調控工作確保年度新建房價控制目標的通知) (Shen Fu Ban [2011] No.30) promulgated and implemented by the Shenzhen municipal people's government on March 29, 2011, the tax payment proof provided by any household without a local registered residence of Shenzhen at the time of house purchase must fulfill the condition of continuous payment in the recent 12 months or more (excluding delayed payment). For the social insurance payment proof provided by any household without a local registered residence at the time of house purchase, it must satisfy one of the following conditions: (i) the continuous payment of pension and medical insurance in the recent 12 months or more; (ii) the continuous payment of pension and work injury insurance in the recent 12 months or more; (iii) the continuous payment of medical insurance and work injury insurance in the recent 12 months or more.

On October 31, 2013, the Shenzhen Central Sub-branch of the PBOC promulgated the Notice of Adjusting the Differentiated Credit Extension Policies Based on Housing Types in Shenzhen City (關於調整深圳市差別化住房信貸政策的通知), which raises the percentage of the minimum down payment for second-house purchase from 60% to 70% of the total purchase price effective as of November 6, 2013.

In March 2016, the General Office of Shenzhen municipal government issued the Opinion of Perfecting Housing Security System and Improving the Stable and Healthy Development of Real Estate Market (關於完善住房保障體系促進房地產市場平穩健康發展的意見), pursuant to which the minimum down payment ratio for the mortgage loans is 30% for purchasers without any residential housing in Shenzhen and any record of residential property loans in the past two years, and the minimum down payment ratio for the mortgage loans is 40% for (1) purchasers having no residential housing in Shenzhen but with record of residential property loans in the past two years; or (2) purchasers having one residential property in Shenzhen without existing housing loans.

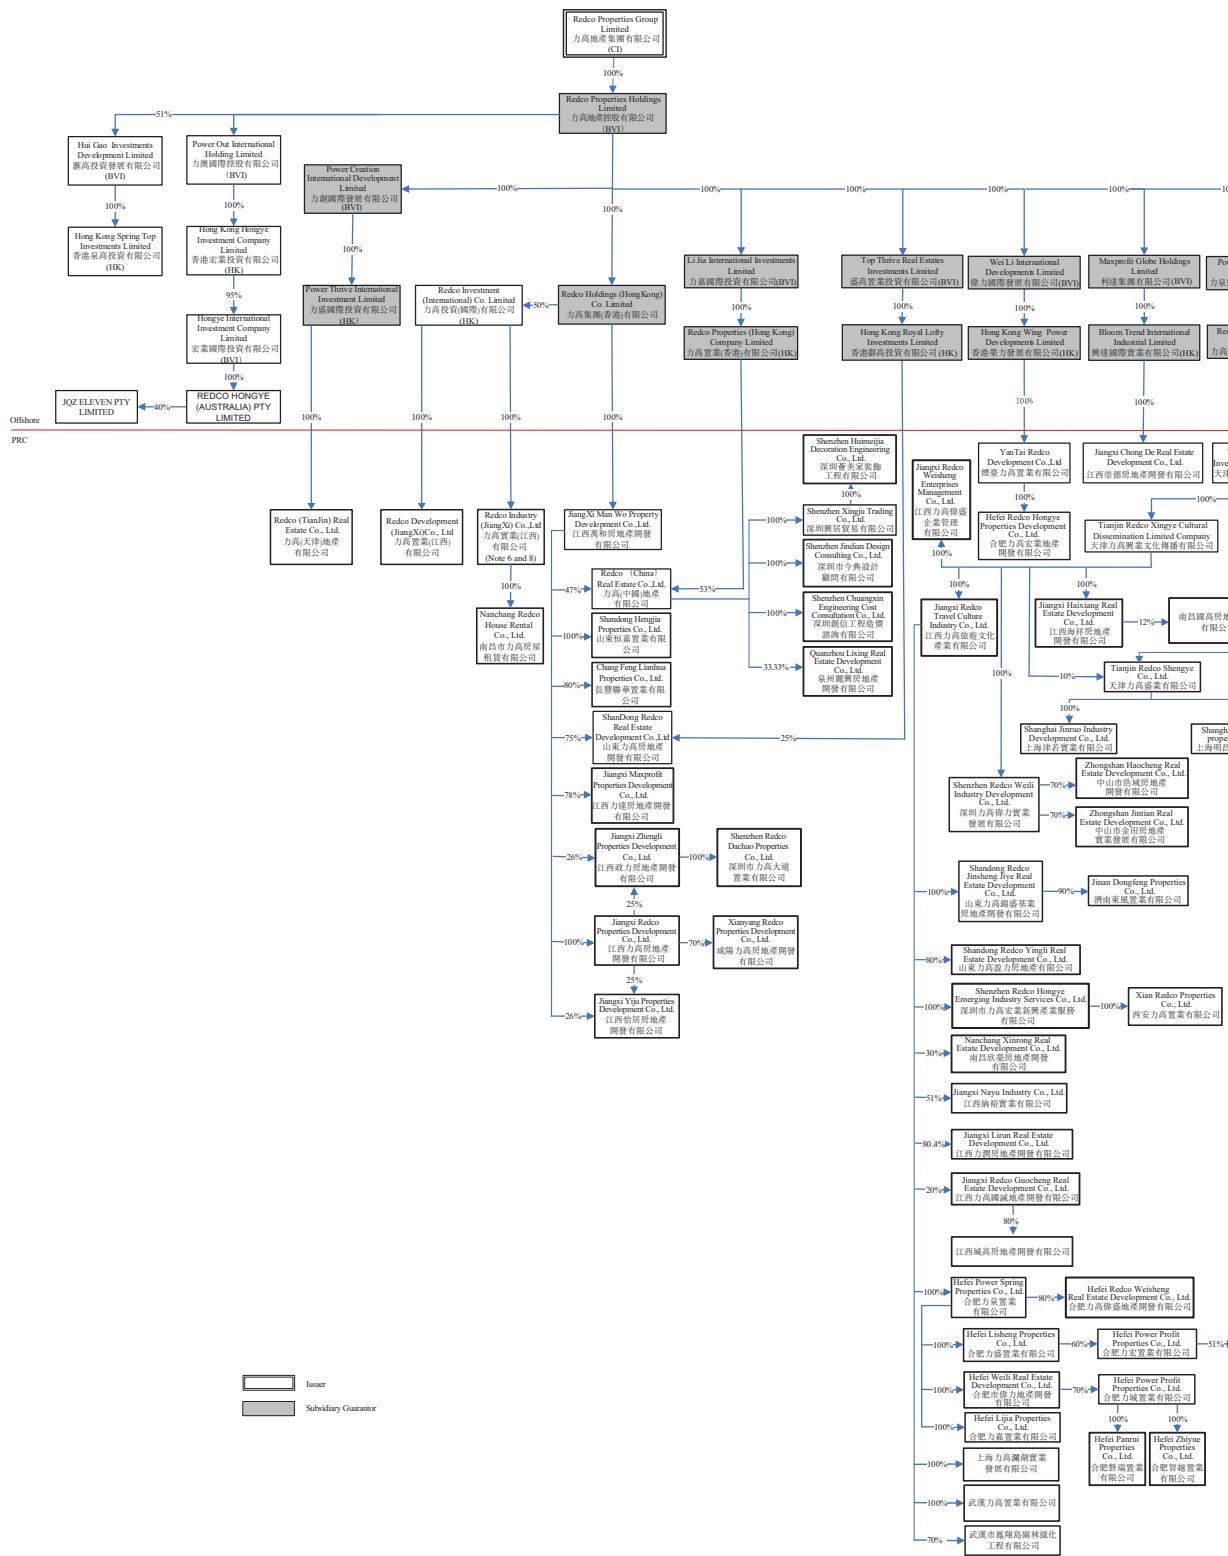

Competition in the real estate market of the PRC

We believe that the real estate market in the PRC is highly fragmented. Competition in the real estate market in the PRC has intensified over the past few years. Industry participants in different cities in the PRC include national, regional and local real estate developers. We compete with other real estate developers on the basis of a number of factors, including product quality, service quality, price, financial resources, brand recognition, ability to acquire land and other factors. As a China Top 100 real estate developer, we primarily compete with other China Top 100 real estate developers who focus on residential property development in the PRC. Our competitors may have more experience and resources than we do. We believe that the real estate market in the PRC still has large growth potential. We believe major barriers to enter into these markets include a potential new entrant's

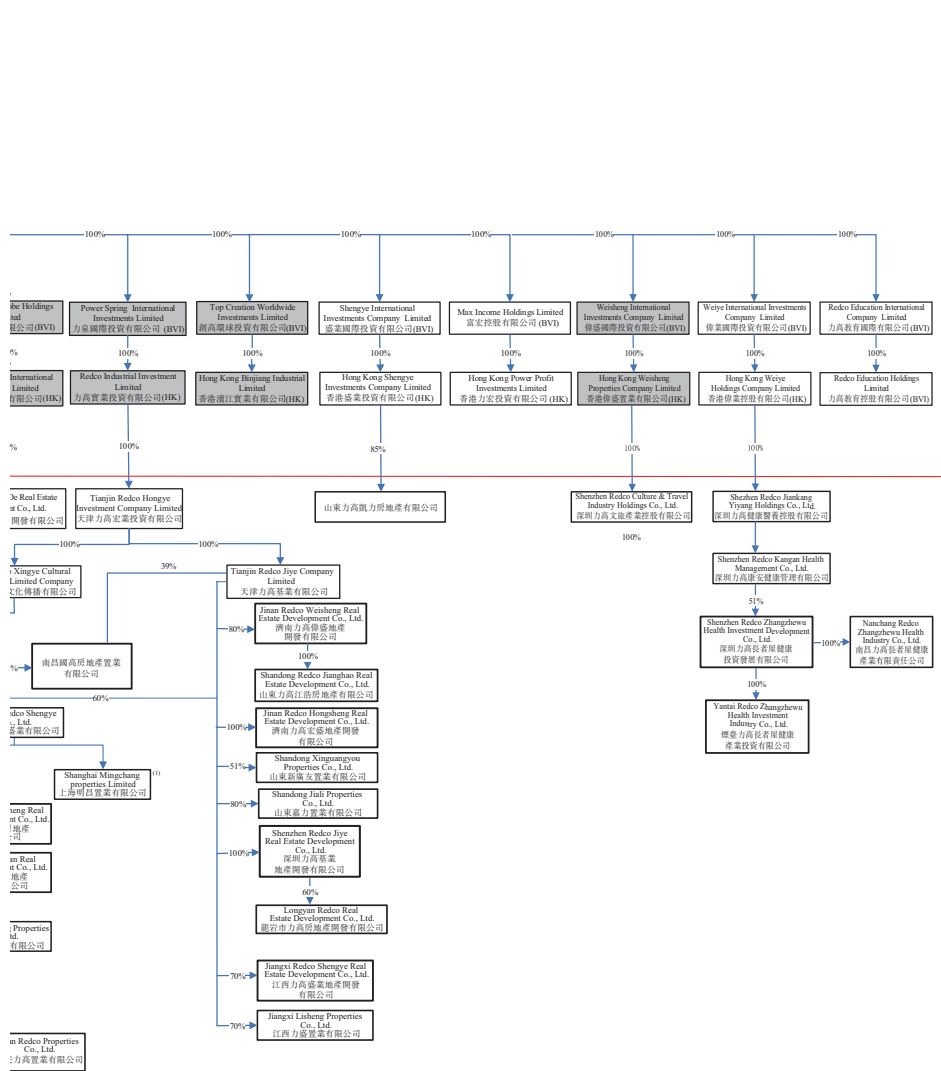

limited knowledge of local property market conditions and limited brand recognition in these markets. We believe that, with our solid experience in real estate development since we commenced property development operations in 1995, our strategic focus on cities with high GDP growth and population growth potential, our reputable brand name and our effective management team, we are able to react promptly and effectively to challenges in the PRC property market. Please refer to the section headed “Business — Competition” in this offering memorandum for further details on the competitive landscape of the real estate market in the PRC.

CORPORATE STRUCTURE

BUSINESS

OVERVIEW

We are an integrated residential and commercial property developer primarily focusing on residential property development in the PRC. We have successfully established our presence in a number of key economic cities in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region, including Shenzhen, Zhongshan, Shanghai, Tianjin, Hefei, Nanchang, Jinan, Yantai and Xianyang.

We believe that we have successfully established the “Redco” brand in the cities where we have built our presence. In 2017, we were recognized as “Top 100 Comprehensive Strength Listed Real Estate Enterprise of China for 2017” (2017年中國房地產上市公司綜合實力100強) by China Real Estate Association (中國房地產業協會). In 2016, the Group was recognized as “the Most Valuable Listed Real Estate Enterprise of China for 2016” (2016 中國最具價值地產上市企業) by Guandian.cn(觀點地產新媒體). In 2015, we were recognized as “2015 Top 10 Hong Kong Listed Domestic Developers Worthy of Investment” (2015中國大陸在港上市房地產公司投資價值TOP 10) by the Enterprise Development Research Center of the State Council (國務院發展研究中心企業研究所), the Real Estate Research Institute of Tsinghua University (清華大學房地產研究所) and China Index Academy (中國指數研究院). In addition, our property projects have also received numerous awards from different organizations. Our Company has been selected as a constituent of the “Hang Seng Composite SmallCap Index of the Hang Seng Composite Index since September 4, 2017. We believe that becoming a constituent of the Hang Seng Family of Indexes represents the recognition of our business performance, stock liquidity and growth prospect by the market.

Since we commenced property development operations in 1995, we have successfully executed our multi-regional strategy and demonstrated a proven track record of success by developing in strategically selected cities that we believe possess high growth potential across the PRC. Subsequent to our initial success in Quanzhou, Fujian Province, we deliberately expanded and quickly replicated our success in strategically targeted key economic cities, including Shenzhen, Zhongshan, Shanghai, Tianjin, Hefei, Nanchang, Jinan, Yantai and Xianyang. We also established presence in Australia by jointly developing a residential community in Sydney with a recognized local developer. During the three years ended December 31, 2016 and the six months ended June 30, 2017, we recognized revenue from property development and investment projects covering certain key economic cities in China. As of June 30, 2017, we had 30 property development and investment projects with an aggregate GFA of approximately 3.8 million sq.m.

● Cities with property development projects from which we recognized revenue during 2014, 2015, 2016 and the six months ended June 30, 2017

- **The Greater Western Taiwan Straits Economic Zone**

In the Greater Western Taiwan Straits Economic Zone, we have strategically targeted the key economic city of Nanchang, Jiangxi Province. Nanchang is the provincial capital of Jiangxi Province. As of June 30, 2017, we had a land bank comprising 13 property development and investment projects in the Greater Western Taiwan Straits Economic Zone with an aggregate GFA of 1,107,994.5 sq.m.

- **The Bohai Economic Rim**

In the Bohai Economic Rim, we have property development projects in Tianjin, Jinan, Shandong Province, and Yantai, Shandong Province. Tianjin is one of the four centrally-administered municipalities in the PRC, Jinan is the provincial capital of Shandong Province and Yantai's nominal GDP ranked second in Shandong Province in 2016. As of June 30, 2017, we had a land bank comprising nine property development and investment projects in the Bohai Economic Rim with an aggregate GFA of 1,975,691.1 sq.m.

- **The Central and Western Regions**

In the Central and Western Regions, we have property development projects in Hefei, Anhui Province, and Xianyang, Shanxi Province. Hefei is the provincial capital of Anhui Province. Under the government initiative, "Integration of Xi'an and Xianyang", favorable governmental policies are being implemented to allow Xi'an and Xianyang to develop into an integrated central commercial hub in Western China. In 2016, the combined nominal GDP of Xi'an and Xianyang ranked first in Shaanxi Province. As of June 30, 2017, we had a land bank comprising four property development projects in the Central and Western Regions with an aggregate GFA of approximately 547,783.0 sq.m.

- **The Pearl River Delta Region**

In the Pearl River Delta Region, we have property development projects in Shenzhen, Guangdong Province and Zhongshan, Guangdong Province. Shenzhen is a first-tier city in China, and Zhongshan is a fast-growing city in East Guangdong. In 2014, 2015 and 2016, Shenzhen's nominal GDP ranked fourth among all cities in China. As of June 30, 2017, we had a land bank comprising two property development projects in the Pearl River Delta Region with an aggregate GFA of 111,773.1 sq.m.

- **Others**

In addition to the four major regions above, we have also established our presence in Shanghai, a first-tier city in China, and Sydney, the economic and cultural center of Australia. As of June 30, 2017, we had a land bank comprising two property development projects in these two cities with an aggregate GFA of 103,124.0 sq.m.

While we continue to strengthen our market position in strategically targeted key economic cities in these regions, we intend to leverage our experience and expertise to expand our operations and replicate our success in other cities with high GDP and population growth potential where we do not have any presence currently. We believe that our strategic focus on the selected key economic cities with high growth potential will enable us to benefit from the sustained economic growth and accelerating urbanization in these cities in the coming years.

We have established diversified land acquisition strategies that complement each other, including acquisitions from third parties and listings-for-sale. We have also employed other land acquisition strategies including: (i) incorporating cultural concepts to develop properties that meet the needs of the local communities; (ii) early involvement in areas encouraged by the local governments; (iii) leveraging on our track record in developing quality property projects to acquire additional land in the same geographical area; (iv) acquisition of local property developers that have a land reserve suitable for our development strategy; and (v) incorporating the concepts of healthcare and elderly nursing to develop properties that meet the needs of the local communities.

For example, we successfully incorporated the cultural concept of the Mazu goddess (媽祖) to acquire land in Tianjin, a coastal city in the Bohai Economic Rim. Through Mr. Wong's strong ties with various Mazu cultural organizations, we gained deep insights into the importance of Mazu culture in Tianjin. Leveraging on such knowledge and in line with the Tianjin local government's desire to facilitate Mazu culture and economic development in Taiwan and the PRC, we formed a joint venture company with the largest Mazu worshipping temple in Taiwan to acquire our first parcels of land in coastal Tianjin for our Sunshine Coast and Land Lot Nos. A1 and A2 projects.

OUR COMPETITIVE STRENGTHS

We believe that we have the following competitive strengths:

We have demonstrated a proven track record of multi-regional success by focusing on key economic cities in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region

We have demonstrated a track record of success in the execution of our multi-regional business model since we commenced property development operations in 1995. Among property developers in China, we believe that we were an early adopter of a multi-regional expansion strategy. Subsequent to our initial success in Quanzhou, Fujian Province, we made the deliberate strategic decision to expand our business in 1999 to other cities where we had identified opportunities.

In our recent expansion, we strategically targeted key economic cities in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region. These include the municipality of Tianjin, Shanghai and Shenzhen, provincial capital cities such as Nanchang, Hefei and Jinan, as well as other cities in these regions such as Zhongshan, Xianyang and Yantai. With high GDP and population growth potential, these cities present profitable opportunities for property development. We believe that we will continue to benefit from the favorable macroeconomic environment in the PRC, including sustained economic growth and accelerating urbanization in the cities that we have strategically targeted. Generally, we have focused on developing mid-to-high-end properties, which we believe meet the needs of the growing middle class in these cities looking to either purchase their first homes or upgrade their living environment.

Our relatively early expansion into various cities in these regions has allowed our management to gain valuable experience in the course of overcoming the multitude of challenges associated with developing properties across multiple regions and cities. Over the years, we have accumulated extensive knowledge of the mechanisms of developing a new market as well as the business environment and particularities of each of the local markets we have entered into. We have also developed extensive working relationships with the respective local governments and business partners, including reputable design firms such as AECOM and Belt Collins. We believe that such knowledge and relationships will serve as a solid foundation to support the execution of our multi-regional strategy as we expand.

We have acquired quality land bank at competitive costs

We have established diversified land acquisition strategies that complement each other. We believe these land acquisition strategies have enabled us to acquire land at competitive costs. In 2014, 2015, 2016 and the six months ended June 30, 2017, our average land acquisition cost per sq.m. delivered represented 15%, 13%, 35% and 27%, respectively, of our average selling price for the respective periods.

Historically, we primarily acquired land through acquisition from third parties and listings-for-sale. We believe that we have generally been able to acquire land from original project owners who typically were able to make land acquisitions at an early stage when land costs were relatively low. We have also employed diversified land acquisition strategies to acquire land at competitive costs by selectively engaging in property development projects that we believe are compatible with local government policies or other local interests. In particular, our land acquisition strategies include: (i) incorporating cultural concepts to develop properties that meet the needs of the local communities; (ii) early involvement in areas encouraged by the local governments; (iii) leveraging on our track record in developing quality property projects to acquire further land in the same geographical area; (iv) acquisition of local property developers that have a land reserve suitable for our development strategy; and (v) incorporating the concepts of healthcare and elderly nursing to develop properties that meet the needs of the local communities.

For example, we successfully introduced the cultural concept of the Mazu goddess to acquire land in Tianjin. Mazu is considered the most influential and widely worshiped goddess of the sea among coastal Chinese people. Through Mr. Wong’s strong ties with Mazu cultural associations, we gained deep insights into the importance of Mazu culture to Tianjin, a coastal city in the Bohai Economic Rim. Leveraging such knowledge and in line with the Tianjin local government’s desire to facilitate Mazu culture and economic development in Taiwan and the PRC, we formed a joint venture company with the largest Mazu worshipping temple in Taiwan to acquire our first parcels of land in coastal Tianjin for our Sunshine Coast and Land Lot Nos. A1 and A2 projects.

We also succeeded in acquiring land at competitive costs through early involvement in areas encouraged by the respective local governments in Yantai and Jinan. We believe that such early involvement has enabled us to gain valuable insights into the relevant land in terms of growth potential, costs and development plans of local governments.

Moreover, we successfully leveraged on our track record in developing quality property projects to acquire further land in the same geographical area. We believe that our past success in building quality property developments in a targeted city demonstrates our commitment to growing together with the city, thereby placing us in a competitive position to acquire further land for development.

Furthermore, we obtained the land for Nanchang Imperial Mansion and Nanchang Imperial Metropolis by acquiring local property development companies that held such land at that time. We believe that acquiring land through acquisition of local developers that hold suitable land reserve will expand the scope of land we can acquire for property development and make us better able to find the right site. We also plan to acquire land by incorporating the concepts of healthcare and elderly nursing to develop properties that meet the needs of local communities and to implement our strategy to provide full-cycle services to home buyers.

Set forth below is a summary of our land bank in terms of GFA in the respective regions as of June 30, 2017:

Region	Total GFA
	<i>(sq.m.)</i>
The Greater Western Taiwan Straits Economic Zone	1,107,994.5
The Bohai Economic Rim	1,975,691.1
The Central and Western Regions	547,783.0
Pearl River Delta Region.	111,773.1
Others	103,124.0
Total	3,846,365.7

We believe that our proven track record of diversified land acquisition strategies will enable us to execute similar strategies to acquire land at competitive costs in our future development.

We have been successful in establishing the “Redco” brand in the cities where we have built up our presence

We believe that we have successfully established the “Redco” brand in the cities where we have built our presence. In 2017, we were recognized as “Top 100 Comprehensive Strength Listed Real Estate Enterprise of China for 2017” (2017年中國房地產上市公司綜合實力100強) by China Real Estate Association (中國房地產業協會). In 2016, the Group was recognized as “the Most Valuable Listed Real Estate Enterprise of China for 2016” (2016 中國最具價值地產上市企業) by Guandian.cn (觀點地產新媒體). In 2015, we were recognized as “2015 Top 10 Hong Kong Listed Domestic Developers Worthy of Investment” (2015中國大陸在港上市房地產公司投資價值TOP 10) by the Enterprise Development Research Center of the State Council (國務院發展研究中心企業研究所), the Real Estate Research Institute of Tsinghua University (清華大學房地產研究所) and the China Index Academy (中國指數研究院).

We believe that our strong and growing reputation is partly attributable to our emphasis on the design and quality of our property development projects. We aim to maximize the value of each parcel of land by constructing properties suiting its particular features as well as local preferences. Over the years, we have engaged a number of professional design firms for our projects. We believe that our collaboration with these reputable design firms enhances the quality of design of our property projects which in turn boosts the recognition of our “Redco” brand. We have also leveraged the landmark properties we have built to enhance our brand image. A prime example is our Crowne Plaza Nanchang Riverside Hotel, the first international five-star hotel in Jiangxi Province, which is located adjacent to our Crown International project in Nanchang. We believe that the reputation of the hotel enhances not only the image of our residential and commercial properties in the Crowne International project, but also the image of our other developments in the city of Nanchang.

Our property development projects have received recognitions for their quality and designs. For example, Bluelake County in Shandong was recognized as “Charming and Fashion Real Estate Community in Shandong” (山東地產魅力時尚社區) in 2016 by Shandong Daily (山東商報) for being a well-known, well received and stylish property project; and the Sunshine Coast in Yantai was recognized as “2016 Property Received the Most Attention in Yantai” (2016年煙台最受關注樓盤) by Ythouse.com (煙台房地產網) owing to its personalized design, attention to details and quality construction materials. Please refer to the section headed “— Awards and Recognitions” in this offering memorandum for further details regarding awards and recognitions received by our property development projects.

Our standardized property designs and business protocols allow us to swiftly capture new market opportunities in the key economic cities

We have accumulated over the years a diverse portfolio of standardized property designs and business protocols that give us the flexibility to expand quickly in the key economic cities that we have targeted. In particular, we have been focusing on three well-defined property series: (i) city-center apartment developments; (ii) integrated multi-purpose developments with residential and commercial properties; and (iii) “ecological-city” styled residential developments comprising multi-story apartments and high-rise residential apartments and ancillary facilities. We actively fine-tune the concepts and designs for each individual project so that we consistently maintain the quality of our product offerings. Please refer to the section headed “— Our property development projects — Property series” in this offering memorandum for further details regarding our property series. We believe that our standardized property designs and business protocols allow us to swiftly capture new market opportunities in the key economic cities.

We have implemented prudent financial management policies with diversified financing channels

We have been able to maintain our financial performance through prudent financial management. We have implemented various financial policies to maintain adequate cash flow. We closely monitor our capital structure, assets and indebtedness, actively explore diversified financing sources, including bank loans, equity and debt financing, to control financing costs and maintain a prudent gearing ratio. As of December 31, 2014, 2015 and 2016 and June 30, 2017, our net gearing ratio, calculated as net debt (total borrowings less cash and bank balance (including cash and cash equivalent and restricted cash)), divided by total capital (calculated as total equity plus net debt), was approximately 41.6%, 23.0%, 0.8% and 18.7%, respectively.

We have established cooperative relationships with, and received loans and financings from, major PRC and international banks. See “Description of Other Material Indebtedness and Other Obligations” for details. Through our initial public offering in 2014 and the offering of the 2014 Notes and the 2017 Notes, we were able to further diversify our financing sources and obtain funding through accessing the domestic and international capital markets.

We also take a prudent approach towards investment. We have established comprehensive investment management procedures. We set our budget for capital expenditure and submit our capital expenditure plan to our board of directors for review and approval. When making an investment decision, we consider various factors, including investment return, integration and synergies with our existing core business, improvement of overall business performance and management of risks.

We believe our multiple financing channels will provide us with flexibility to fund our operations and enhance our liquidity position. We believe that our prudent financial policies will enable us to further expand in our target markets, provide us with greater flexibility in capital management and help us achieve sustainable long-term growth.

We provide full life-cycle services to clients leveraging the brand recognition

We provide full life-cycle services in response to various customer needs to enhance the value and competitiveness of our property development projects. We build the elements of healthcare, cultural tourism and education into our property development projects to achieve synergies across the value chain. We have established a one-stop education eco-system which provides education resources and services to customers of all ages, with a coverage from kindergarten to university of the third age. We integrate tourist attractions and commercial properties with the residential projects we develop to expand our sources of revenue. To better attract and serve elderly customers, we provide healthcare consultation services and comprehensive medical care services at our community-based healthcare management centers. By creating a caring neighborhood culture, we believe we can get a higher average selling price and a better profit margin, as well as further strengthen our “Redco” brand.

We have a management team with strong execution capabilities and extensive industry experience

We believe that the strong execution capabilities of our management team have been instrumental in executing our business strategies and achieving our current market position. Our management team have an average of 15 years of industry experience. The executive Directors of our Board have served our Group for over a decade, which facilitates the promotion of common corporate values and operating philosophy. Our management team comprises professionals with expertise in a wide range of fields, including real estate development, planning, design, engineering, finance, project investment, operations and marketing and sales. Throughout the years, we have endeavored to recruit and train employees who we believe have potential to contribute to the growth of our Company.

OUR BUSINESS STRATEGIES

Within the next five years, we aim to become (i) one of the top 100 real estate developers in the PRC and (ii) an integrated developer with regional brand recognition and leading market shares in the cities where we have put efforts in development. We believe that we can achieve the aforesaid objectives by executing the following strategies:

Further expand our business operations in the key economic cities in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region as well as other regions in China

We have located our projects in strategically targeted key economic cities in the Greater Western Taiwan Straits Economic Zone, the Bohai Economic Rim, the Central and Western Regions and the Pearl River Delta Region. We will continue to strengthen our market position in these cities while further expanding our operations by:

- leveraging our experience and expertise in the cities where we have established our presence as well as our understanding of our target customers and our strong relationships with local governments and business partners, to acquire new parcels of land and develop new projects in these cities;
- seeking to enter into the property markets in other cities with high GDP and population growth potential in the three regions where we currently do not have any presence; and
- identifying and capturing new business opportunities in the other regions of the PRC, including first-tier and second-tier cities in the Yangtze River Delta Region and the Pearl River Delta Region.

Please refer to the section headed “— Projects with framework agreements or letters of intent signed” in this offering memorandum for further details.

Continue our diversified land acquisition strategies with a view to allocating financial resources to what we believe to be the most profitable opportunities

We intend to continue to follow our diversified land acquisition strategies. We intend to continue prioritizing our financial resources towards what we believe to be the most profitable opportunities by selectively targeting land that we believe has high growth potential and acquiring such land at competitive costs. In particular, we intend to continue to leverage our experience with land acquisition strategies such as: (i) incorporating cultural concepts to develop properties that meet the needs of the local communities, in particular, the cultural concept of the Mazu goddess; (ii) early involvement in areas encouraged by the local government; (iii) leveraging our past success in developing quality property projects to acquire further land in the same geographical area; (iv) acquisition of local property developers that have a land reserve suitable for our development strategy; and (v) incorporating the concepts of healthcare and elderly nursing to develop properties that meet the needs of the local communities.

As part of our expansion, we may also make strategic investment and acquisitions that complement our operations.

Continue to focus primarily on residential property development while achieving an optimal and diversified portfolio by developing a higher proportion of commercial property development projects

Historically, we focused primarily on residential properties. We intend to continue to further diversify our product mix by engaging in a higher proportion of commercial property development projects in the coming years. We intend to continue developing landmark properties such as high-grade office buildings and hotels at prime locations, which we believe will enhance the image of our “Redco” brand. We intend to sell most of our commercial property projects to support the expansion of our operations while strategically retaining high quality commercial properties as investment properties for generating rental income. We believe that diversifying our product mix will enhance our ability to expand and will enable us to effectively respond to any macro-economic policy affecting the PRC residential property sector.

Further strengthen our “Redco” brand by providing quality products to our customers and continuing to engage in projects that entail the construction of landmark properties

We believe that we have established a reputation for well-designed high quality properties as demonstrated by recognitions such as For example, Bluelake County in Shandong was recognized as “Charming and Fashion Real Estate Community in Shandong” (山東地產魅力時尚社區) in 2016 by Shandong Daily (山東商報) for being a well-known, well received and stylish property project; and the Sunshine Coast in Yantai was recognized as “2016 Property Received the Most Attention in Yantai” (2016年煙台最受關注樓盤) by Ythouse.com (煙台房地產網) owing to its personalized design, attention to details and quality construction materials. We intend to solidify such reputation in the cities where we have established a presence as well as our other strategically targeted cities. We intend to remain focused on creative architectural planning and innovative product designs to provide superior value to our customers, which we believe will in turn enhance our reputation. We also intend to expand our collaborations with reputable design firms to further enhance the recognition of our “Redco” brand. Furthermore, we aim to engage in more projects that entail building landmark properties such as well-recognized hotels or office buildings at prime locations, and we believe such projects would enhance recognition of our “Redco” brand. We also plan to continue to organize promotional events such as economic forums to promote our “Redco” brand.

Provide services satisfying demand along the full lifecycle of home buyers

In order to satisfy the increasingly diversified service demands, we will develop and provide more featured services and enhance the overall community experience of home buyers. We will continue to provide community support, education and community medical services for the elderly for the convenience of residents. Moreover, we will continue to upgrade our one-stop education eco-system and provide all-age education services from kindergarten to university of the third age. In addition to the existing featured services, we will stay attentive to the needs of home buyers and further expand our scope of services. We aim to create a hospitable community environment and a caring community culture, to preserve and increase the property value, enhance our competitiveness and boost our brand awareness.

Continue to recruit, retain and motivate a talented workforce

We believe that our employees are invaluable assets. In order to support our growth and expansion, we aim to attract and recruit employees with a wide range of expertise including real estate development, project planning, design, finance and marketing and sales. We emphasize the long-term development of a quality workforce and the alignment of the interests of our workforce with those of our Company. We will continue to recruit, retain and motivate a talented workforce by offering our staff performance-based compensation packages, on-the-job training programs, opportunities to advance and a strong corporate culture that promotes the interests of all stakeholders including shareholders, employees and the society at large.

Recent Development

Issue of the 2017 Notes

On November 15, 2017, we entered into the 2017 Indenture pursuant to which we issued an aggregate principal amount of US\$250,000,000 7.0% senior notes due 2018. The 2017 Notes are listed on the SGX-ST. As of the date of this offering memorandum, the entire principal amount of the 2017 Notes remains outstanding. See “Capitalization and Indebtedness” and “Description of Other Material Indebtedness — 2017 Notes.”

Disposal of Interest in Shanghai Mingchang Properties Limited

On December 19, 2017, the Vendor, a subsidiary of the Company incorporated in the PRC, entered into the Agreement with the Purchaser, a company established in the PRC which is principally engaged in investment holding and independent of the Company, in relation to the disposal of a 100% equity interest in the Target Company. As of the date of the Agreement, the Target Company was a 90%-owned subsidiary of the Vendor which was principally engaged in property development. The consideration for the disposal is approximately RMB671,798,000 (subject to adjustment) to be paid in two instalments on the dates stipulated in the Agreement. Approximately RMB67,179,800, representing 10% of the consideration, has been paid by the Purchaser to the Vendor. Completion is conditional upon the satisfaction of certain conditions precedents stipulated in the Agreement, including, among others, the completion of the acquisition by the Vendor of the 10% equity interest in the Target Company held by an independent minority shareholder. Completion will take place within two business days (as defined in the Agreement) after the registration of the transfer of the 100% equity interest in the Target Company to the Purchaser in accordance with the applicable laws. Upon completion, the Target Company will cease to be a subsidiary of the Company and its financial results will cease to be consolidated with the results of the Group.

OUR PROPERTY DEVELOPMENT PROJECTS

As of June 30, 2017, our property portfolio comprised 30 property development and investment projects under various stages of development in various cities in the Bohai Economic Rim (Tianjin, Jinan and Yantai), the Greater Western Taiwan Straits Economic Zone (Nanchang), the Central and Western Regions (Hefei and Xianyang), the Pearl River Delta Region (Shenzhen and Zhongshan) and the other region (Shanghai).

We mainly categorize our residential properties as follows:

- multi-story apartments (多層洋房住宅) — which are typically buildings with four to seven stories;
- low-rise apartments (小高層住宅) — which are typically buildings with eight to 18 stories;
- high-rise apartments (高層住宅) — which are typically buildings with 19 to 33 stories; and
- townhouses (聯排住宅) — which are typically houses with no more than three stories connected to each other.

Property Series

We categorize our property development projects into five series depending on the features of the property for the purpose of delineating the different positioning of each project. Key features of each of our property series are set forth below:

- Aristocratic series (君禦系): combining residential and commercial space and serviced by transportation facilities;
- Lake series (瀾湖系): combining various features to increase the living standard of customers;
- Sunshine series (陽光系): targeting the market of improved type of properties with splendid view of the nearby coast;
- TOP series (TOP系): targeting the market of improved type of properties and located near precious natural environment; and
- Complex series (綜合體): integrating multiple functions of urban living with commercial and residential properties.

Classification of our Property Developments projects

Since some of our property development projects comprise multiple-phase developments, a single project may include different phases falling into any one or more of the above categories.

The names of our property development projects used in this offering memorandum are those project names which we have used, or intend to use, to market our properties. Some of the names of our property development projects may be different from the names registered with the relevant authorities. Some of the names are subject to approval by the relevant authorities and are therefore subject to change. The English names of our property projects are for reference and marketing purposes only.

In this offering memorandum, the figures for land site area and the information setting out the construction period of our property development projects are based on the relevant documents issued by the PRC government, survey reports or our own internal records, as applicable.

The following figures are based on our internal records, internal estimates and business plans: (i) figures for saleable GFA pre-sold, planned GFA and GFA without land use rights certificates; and (ii) information regarding estimated construction commencement date, estimated pre-sale commencement date, estimated construction completion date, development costs incurred and future development costs to be incurred. The actual figures and construction or pre-sale schedules may differ in the future in material respects from our current estimates.

A property is considered to be sold after we have executed the relevant pre-sales contract, completed construction works in respect of the property and delivered the property to our customer. A property is considered to be pre-sold after we have executed the relevant pre-sales contract but have not yet delivered the property to our customer. A property is considered to be delivered to our customer when our customer has signed the written confirmation of the delivery of the property. Our customers are required to acknowledge receipt of delivery of properties in accordance with the terms under their respective sale and purchase agreements.

Summary Information Regarding Our Property Projects

We have obtained all the relevant land use rights certificates for our completed properties and properties under development. As of the date of this offering memorandum, the land premiums for all of our property projects have been paid in full.

PROJECTS WITH FRAMEWORK AGREEMENTS OR LETTERS OF INTENT SIGNED

In addition to our existing property development projects, we are actively exploring opportunities for additional property development projects in the PRC. As of the date of this offering memorandum, we entered into the following framework agreements or letters of intent for the purpose of acquiring parcels of land in Tianjin, Yantai and Xianyang for potential future development as follows:

Location	Counterparty(ies)	Planned use	Site area	Permitted GFA	Estimated attributable interest to our Group
Parcels of land in Gaoxin District, Yantai, Shandong Province	Management Committee of Yantai Hi-tech Industrial Development Zone (煙台高新技術產業園區管理委員會) and Villagers Committee of Beizhai Village of Mashan Sub-district Office in Yantai Hi-tech Industrial Development Zone (煙台高新技術產業園區馬山街道辦事處北寨村村民委員會)	Residential	706.1 mu (approximately 471,000.0 sq.m.)	1,200,000.0 sq.m.	100%

Notwithstanding the agreements or letters of intent we entered into, we are required to go through the public tender, auction or listing-for-sale procedures (as the case may be) under the relevant PRC rules and/or obtain relevant government approvals before we can obtain the land use rights with respect to the land parcels under such agreements or letters of intent. As such, there is no assurance that we will be successful in securing the land grant contracts and obtaining the relevant land use rights certificates or the relevant approvals. Please refer to the section headed “Risk Factors — Risks relating to our business — We may not be able to obtain land use rights of parcels of land with respect to which framework agreements or letters of intent have been entered into, and as a result, there may be a material adverse effect on our business, results of operation and financial condition” in this offering memorandum for further details.

RESETTLEMENT OPERATIONS

We engage in property development projects whereby either we or the original land use rights owner are responsible for resettlement operations including compensation and resettlement of affected local residents, demolition of existing structures and clearing of land of the relevant areas. For 2014, 2015, 2016 and the six months ended June 30, 2017, we had not encountered any material difficulties with respect to our resettlement operations. Please refer to the section headed “Risk Factors — Risks relating to our business — we engage in resettlement operations that involve the resettlement of existing residents and the resettlement process may be delayed or not be completed as planned, and as a result our land acquisition and development process may be materially and adversely affected” in this offering memorandum. Details of our resettlement project are set out below.

Yantai Beizhai Village Resettlement Project

With a view to acquiring land in Beizhai Village in Yantai, Shandong Province, in March 2013, Yantai Redco Development entered into cooperation agreements with the villagers committee of Beizhai Village (the “Beizhai Villagers Committee”) in respect of parcels of land with an aggregate site area of 706.1 mu (or 471,000.0 sq.m.) and an aggregate GFA of 1,083,600.0 sq.m. (the “Beizhai Village Land”). It was agreed that if Yantai Redco Development successfully acquires the Beizhai Village Land in the subsequent public tender, listing-for-sale or auction, it shall provide the Beizhai Villagers Committee with units with an aggregate GFA of 355,900.0 sq.m. to be constructed on such land, 95,500 sq.m. of which is for resettlement housing and the remaining 260,400 sq.m. is for commercial and residential use. The Beizhai Villagers Committee shall be responsible for site clearing operations including the demolition of existing structures, entering into resettlement agreements with the affected villagers and the distribution of such resettlement housing to the affected villagers in accordance with the relevant guidelines of the local government. Accordingly, we are not required to enter into and have not entered into any resettlement agreements with the affected local residents. In December 2013, Yantai Redco Development further entered into a supplemental agreement with the Beizhai Villagers Committee, pursuant to which it agreed that in the event that Yantai Redco Development is unable to obtain all of the Beizhai Village Land, the resettlement housing to be constructed and delivered to the Beizhai Villagers Committee by Yantai Redco Development should be adjusted in proportion to the size of the land acquired by Yantai Redco Development.

In March 2013, Yantai Redco Development entered into an agreement with the Management Committee of Yantai Hi-tech Industrial Development Zone (the “Management Committee”), the relevant governmental authority responsible for the administration of Beizhai Village, which provided that a portion of the Beizhai Village Land with a site area of 606 mu would be listed for sale in various stages and at the land grant price of no more than RMB2.1 million per mu. The agreement further provided that the land grant premium paid by Yantai Redco Development upon each listing-for-sale of the relevant parcels of land will be partially refunded. The first parcel of land, which meets listing-for-sale requirements, with a site area of 77 mu would be listed for sale shortly after the signing of such agreement. In September 2013, we successfully acquired the parcel of land through listing-for-sale and entered into the land grant contract in respect of a parcel of land with a site area of 51,693.7 sq.m. (approximately 77 mu) and a planned GFA of 183,727.5 sq.m. at the land grant

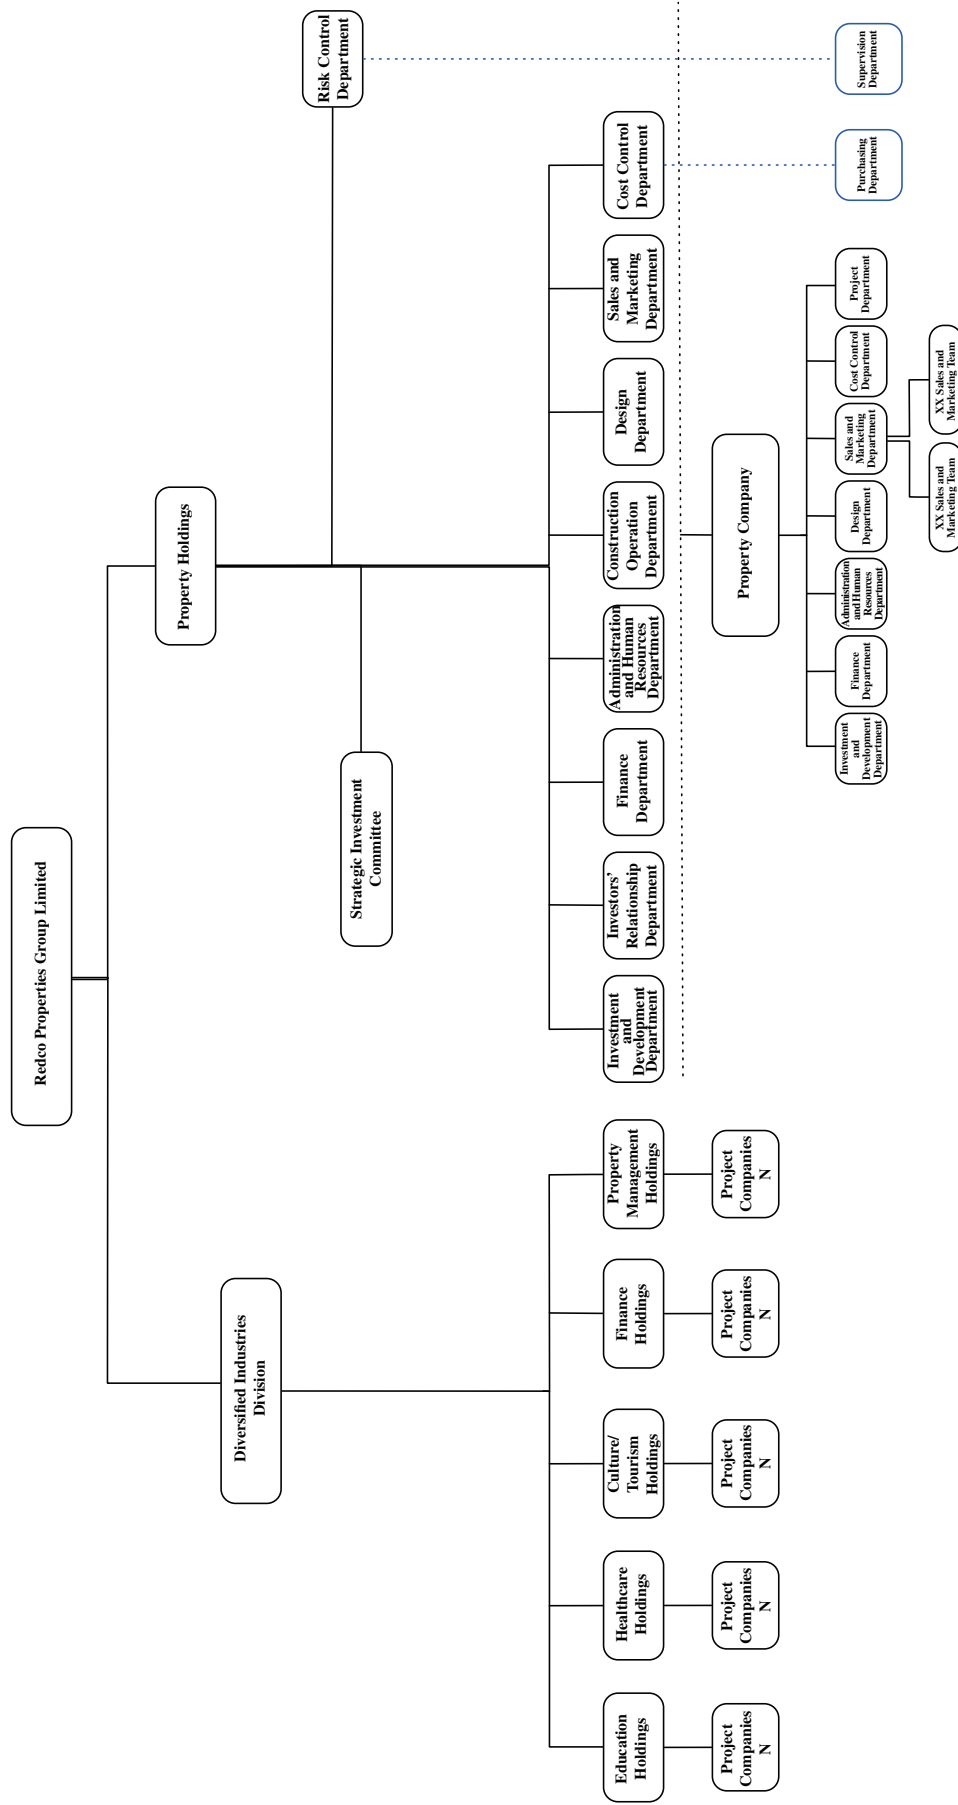

premium of RMB205.8 million, which has been settled in full. This parcel of land forms Phase I of our Sunshine Coast project in Yantai. We commenced to construct resettlement housing with an aggregate GFA of 95,500 sq.m. for the affected villagers of Beizhai Village on such land in accordance with the said agreements in the first quarter of 2014 and expect to complete the construction in the third quarter of 2016.

In September 2013, Yantai Redco Development entered into an agreement with the Management Committee, whereby it was agreed that the Management Committee will conduct site clearing operations in respect of a portion of the Beizhai Village Land with a site area of 606 mu in order to prepare the relevant land for subsequent listing-for-sale. Yantai Redco Development agreed to provide a sum of RMB110.0 million (the “Site Clearing Fees”) to the Management Committee to finance its site clearing operations. The Site Clearing Fees shall be returned to Yantai Redco Development without interest upon the full settlement of the land grant premium to be paid by the successful bidder at the subsequent listing-for-sale. The Management Committee further guaranteed that Yantai Redco Development would be granted land use rights in respect of the Beizhai Village Land. We intend to participate in the listing-for-sale process in respect of such remaining portion of the Beizhai Village Land, which, if successful, will be used as future phases of Sunshine Coast in Yantai.

As of June 30, 2017 we paid an amount of RMB40.0 million as part of the Site Clearing Fees which has been accounted for as other receivables, and acquired three parcels of land with RMB497.2 million. Under the various agreements entered into with the Beizhai Villagers Committee and the Management Committee, the major obligations of Yantai Redco Development include: (i) payment of the Site Clearing Fees or deposits in accordance with the terms of the relevant agreements, (ii) participation in the subsequent public tender, listing-for-sale or auction, and (iii) upon successfully obtaining land use rights in respect of the Beizhai Village Land, construction and delivery of resettlement housing and other housing in accordance with the relevant agreements.

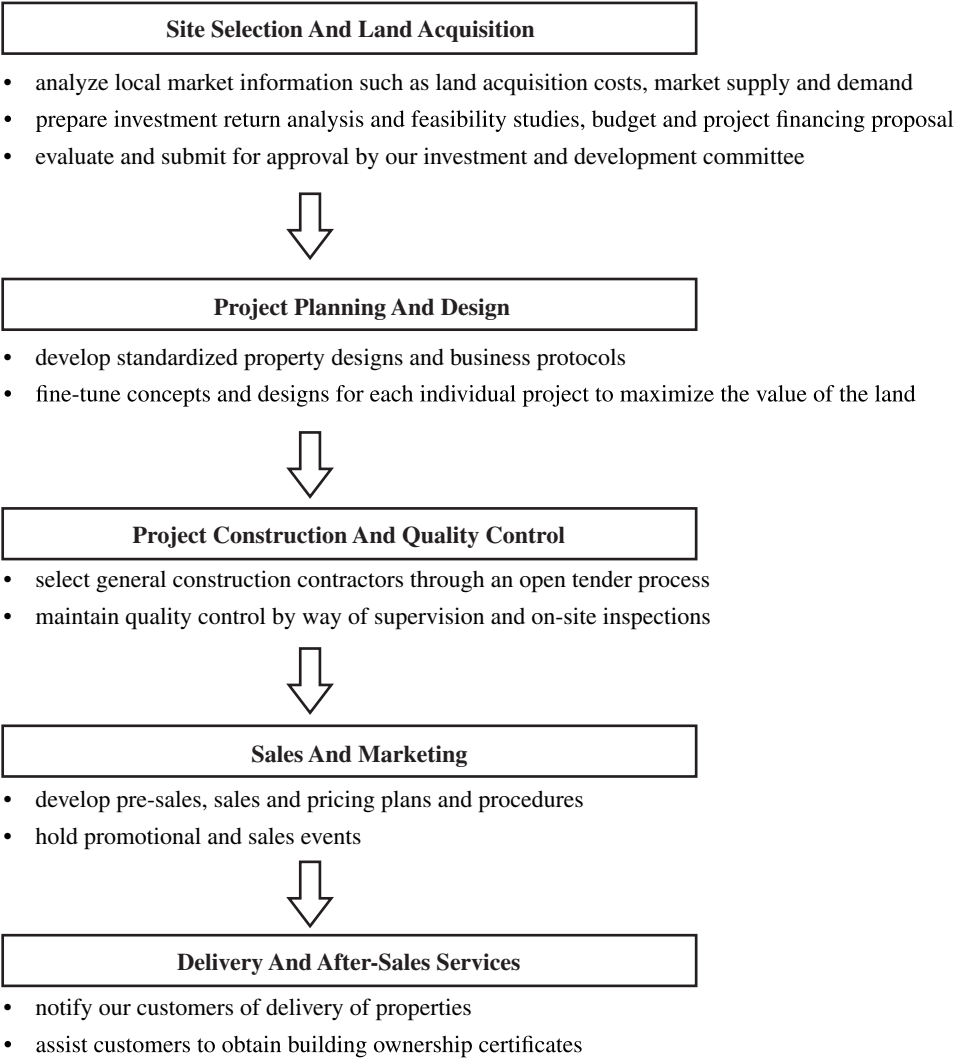

OUR PROPERTY DEVELOPMENT MANAGEMENT

The following chart sets forth the management and reporting structure of our Group:

We have detailed procedures, well-established organizational structure and tailored policies setting out clear reporting pipelines and responsibilities with a view to facilitating efficient communications, prompt decision-making and responsiveness to changing market conditions. We have established various departments for our Property Holdings, including the Investment and Development Department (投資發展中心), Investors' Relationship Department (投資者關係部), Administration and Human Resources Department (行政及人力中心), the Finance Department (財務管理中心), the Design Department (設計管理中心), the Construction Operation Department (工程運營中心), the Cost Control Department (成本控制中心) and the Sales and Marketing Department (營銷管理中心) to oversee and coordinate different aspects of our operations. Our headquarters and our regional project companies work closely together on developing property development projects.

OUR PROPERTY DEVELOPMENT PROCESS

City and Site Selection

Our investment and development committee (投資發展委員會) meets on a monthly basis and is responsible for identifying and evaluating a range of regions or cities in the PRC for potential development, and approving site selection decisions. Our investment and development committee comprises our executive Directors and senior management from each of our Investment and Development Division, our Financial Department, our Cost Control Department, our Sales and Marketing Department, our Design Department and our Legal Division. In order for the investment and development committee to make an informed decision, we conduct due diligence on the local

markets regarding land acquisition costs, pricing trends and market supply and demand, following which we prepare investment return analysis and feasibility studies regarding the positioning of our property development projects, budget and project financing proposal. We also engage third-party research companies to analyze the merits of new cities we plan to enter into, especially where the particular proposed property development project features significantly in our expansion into a new market. Representatives of our regional companies also participate in the monthly meetings of our investment and development committee to report their findings on regional land acquisition opportunities.

We consider various factors in our city and site selection including: (a) general socio-economic conditions such as economic growth, population, market supply and demand and the purchasing power of local residents; (b) any preferential governmental policies, such as areas identified by the PRC government as the key development areas; (c) the site area and location, such as its proximity to downtown and availability of public transport and amenities; (d) in respect of the acquisition of land from third-party project owners, whether there are any legal risks or technical difficulties identified; (e) the estimated project development, financing and marketing timetable; (f) the estimated investment return; and (g) whether the potential site fits our Group's strategic planning.

Land Acquisition

We have established diversified land acquisition strategies that complement each other. We primarily acquire land through acquisition from third parties and listings-for-sale from the PRC government in accordance with relevant PRC laws and regulations. We believe that over the years we have generally been able to acquire land from original project owners who typically were able to make land acquisitions at an early stage when land costs were relatively low. Please refer to the section headed "Regulation" in this offering memorandum for further details of the applicable PRC laws and regulations relating to land acquisition.

We have also employed land acquisition strategies to acquire land at competitive costs by selectively engaging in property developments that we believe are compatible with local government policies or other local interest. In 2014, 2015, 2016 and the six months ended June 30, 2017, we have acquired land through (i) incorporating cultural concepts to develop properties that meet the needs of the local communities; (ii) early involvement in areas encouraged by the local governments; (iii) leveraging our past track record in developing quality property development projects to acquire further land in the same geographical area; (iv) acquisition of local property developers that have a land reserve suitable for our development strategy; and (v) incorporating the concepts of healthcare and elderly nursing to develop properties that meet the needs of the local communities.

For example, we successfully incorporated the cultural concept of the Mazu goddess to acquire land in Tianjin. Generally considered the most influential and widely worshipped goddess of the sea in China, Mazu is at the center of a host of beliefs and customs, including oral traditions, religious ceremonies and folk practices, throughout China's coastal areas. Mazu is believed to have lived in the tenth century on an island off the Chinese mainland, where she dedicated herself to helping her fellow townspeople, and died attempting to rescue the survivors of a shipwreck. Local residents built a temple in her honour and began to venerate her as a goddess. The Mazu belief and customs have been inscribed in 2009 on the Representative List of the Intangible Cultural Heritage of Humanity of the United Nations Educational, Scientific and Cultural Organization, and are recognized as an important cultural bond that promotes family harmony, social concord and social identity among local residents living in coastal China. Through Mr. Wong's strong ties with Mazu culture associations, we gained deep insights into the importance of Mazu culture to Tianjin, a coastal city in the Bohai Economic Rim. Leveraging such knowledge and in line with the Tianjin local government's desire to facilitate Mazu culture and economic development in Taiwan and the PRC, we formed a joint venture company

with the largest Mazu worshipping temple in Taiwan to acquire our first parcels of land in coastal Tianjin for the construction of our Sunshine Coast and Land Lot Nos. A1 and A2 projects. We believe the creativeness of incorporating cultural concepts to facilitate land acquisition is a testament to our management's originality and vision.

We also succeeded in acquiring land at competitive costs through early involvement in areas encouraged by the respective local governments in Jinan and Yantai. We believe that such early involvement has enabled us to gain valuable insights into the relevant land in terms of growth potential, costs and development plans of local governments.

Moreover, we have also leveraged on our past track record in developing quality property development projects to acquire further land in the same geographical area. We believe that our past track record in building quality property developments in a targeted city enhances our brand recognition and demonstrates our commitment to growing together with the city, thereby placing us in a competitive position to acquire further land for development.

Furthermore, we obtained the land for Nanchang Imperial Mansion and Nanchang Imperial Metropolis by acquiring local property development companies that held such land at that time. We believe that acquiring land through acquisition of local developers that hold suitable land reserve will expand the scope of land we can acquire for property development and make us better able to find the right site. We also plan to acquire land by incorporating the concepts of healthcare and elderly nursing to develop properties that meet the needs of local communities and to implement our strategy to provide full-cycle services to home buyers.

Project Planning and Design

Over the years, we have accumulated a diverse portfolio of business protocols and standardized property designs for our property developments. In particular, we have been focusing on five clear product lines consisting of a variety of themed residential properties: (i) the Aristocratic series, (ii) the Lake series, (iii) the Sunshine series, (iv) the TOP series and (v) the Complex series. To maintain the quality of our product offerings, we engage third-party professional design firms to formulate detailed project designs and construction plans while we actively fine-tune the concepts and designs for each individual project in order to maximize the value of the land. During our selection of design firms, we would consider a number of factors including our past cooperation experience, track record, prices quoted and estimated design cycle. In the past, we have cooperated with a number of reputable design firms such as AECOM and Belt Collins.

Project Construction

Appointment of Construction Contractors

We outsource construction works of all our property development projects to qualified third-party general construction contractors. Such construction works include, among other things, foundation digging, general construction and installation of equipment. The general construction contractors of our property developments are selected through an open tender process. The tender process is managed by the Cost Control Department and the Construction Operation Department of our headquarters and the respective regional companies. We conduct due diligence procedures on our contractors, such as inspecting their credentials and paying site visits of their offices and property projects, and only those contractors who have passed such due diligence procedures are invited to participate in the tender. In selecting the winning bid, we typically consider the contractor's professional qualifications, technical capabilities, industry reputation, track record and prices tendered. During 2014, 2015, 2016 and the six months ended June 30, 2017, we engaged a number of general construction contractors and maintained stable business relationships ranging from two to

seven years with them. We also entered into memoranda of cooperation with four of our construction contractors. The memoranda of cooperation have a term of three years with no commitment to renew upon expiry. Under the memoranda of cooperation, the parties have agreed to establish communication channels and meet regularly with a view to facilitating business cooperation.

Under typical agreements with our contractors, we make installment payments to contractors according to progress of construction works. The percentage of each stage payment varies from project to project according to the terms stipulated in the relevant contract. Our contracts with contractors typically provide for the retention of a certain percentage (such as 5%) of the total payment as quality assurance retention amount. Depending on the type of construction works involved, such retention amount is released to the contractor upon the expiry of the relevant quality assurance period, which is generally two years.

In 2014, 2015, 2016 and the six months ended June 30, 2017, all of our general construction contractors and sub-contractors are independent third parties.

Our construction contractors are responsible for the procurement of substantially all of our construction materials. Please refer to the sections headed “— Project construction — Procurement” and “— Suppliers and Customers” in this offering memorandum for further details.

Quality Control and Construction Supervision

We require our contractors to comply with the relevant PRC laws and regulations relating to construction quality as well as our internal quality control standards and specifications. The construction department of our project companies, by itself or together with construction contractors and certified third-party construction supervision companies engaged by us, monitor the on-site progress regularly and conduct monthly inspections and reviews to ensure the quality and safety of construction works. The Construction Operation Department at our headquarters maintain close contact with the construction operation department of our project companies and conduct both regular and random site inspections so as to ensure that construction plans and rectification works are conducted in a timely and effectively manner. The cost control department and design department of our project companies are responsible for monitoring the cost and design aspects of the property development project. Our construction operation teams at both our headquarters and project company levels comprise qualified engineers and construction technicians with industry experience ranging from two to 25 years.

During the tender process, we typically require the construction contractor to set out the composition of the management team of the property development project, and any change in the composition of the management team after winning the bid is subject to our prior consent. In order to ensure that the property development project meets the construction completion schedule and quality and safety requirements, we may also request the construction contractor to change its management personnel if we consider their performance unsatisfactory. Under our typical contracts, contractors are subject to warranties stipulated in the relevant contracts in respect of construction works completion schedule and the quality of works in accordance with the relevant PRC laws and regulations. Our contractors are also required to pay fines in the event of a delay and bear the costs of rectifying any defects.

During 2014, 2015, 2016 and the six months ended June 30, 2017, we did not have any material disputes with any of our contractors.

Procurement

Our contractors are responsible for procuring substantially all of the construction materials such as steel and cement for our property development projects. We typically provide our specifications regarding construction materials to contractors and require contractors to set out the brands or manufacturers of construction materials in tender documents. Our contractors are required to submit a report setting out all the construction materials intended to be procured for our prior approval. We are entitled to deduct from the total contract sum any costs incurred in the procurement of unapproved construction materials. We may also purchase certain specialized building materials such as doors, windows and elevators directly from designated reputable and reliable brands or manufacturers to ensure quality. Payment methods vary in the procurement of different construction materials, and payment is typically settled in stages within ten days of completion of a certain stage of installation works. When selecting suppliers, we would consider their technical qualifications and accreditations, track record, financial condition, average supply cycle and quality of construction materials. Upon completion of each property development project, we conduct an evaluation of our suppliers to decide whether to continue procuring construction materials from them. For construction materials procured by our contractors, the risk of price fluctuations is absorbed by them so long as the fluctuations are within a certain percentage of the contract price (such as 5%). In the event that the price exceeds the agreed percentage, we may be required to reimburse our contractors for any shortfall. Please refer to the section headed “Risk Factors — Risks relating to our business — Our actual development costs of a property development project may deviate from our initial estimations due to fluctuations in cost of construction materials or cost of labor, which could in turn have a material adverse effect on our business, results of operations and financial condition” in this offering memorandum. Our construction materials are primarily purchased from suppliers in the PRC. During 2014, 2015, 2016 and the six months ended June 30, 2017, we did not experience any shortage or delay in the supply of construction materials that had had a material adverse effect on our business operations.

We have also entered into framework agreements with several suppliers for the supply of electric cables of different specifications with reputable suppliers, all being Independent Third Parties. The framework agreements have a term of one year, renewable upon the parties’ mutual agreement one month prior to the expiry of the term. Under the framework agreements, we are required to source electric cables used in our property development projects solely from these suppliers. We are not subject to any minimum purchase commitment. No adjustments can be made if market price fluctuates within 5% of the contract price. If market price fluctuates by more than 5% of the contract price, the parties may agree to adjust the contract price accordingly. The framework agreement may be terminated upon, among other things, a material breach by either party if such breach was not rectified within ten days of service of notice of rectification by the other party.

Sales and Marketing

Sales and Marketing Plan

The sales and marketing teams of our project companies study local market information and formulate pre-sales, sales and pricing plans and procedures for approval by the Sales and Marketing Department of our headquarters. We determine our per unit sales price with reference to the sales price of market comparables, market conditions and our development costs. Our sales and marketing personnel are incentivized by performance-based compensation packages to contribute to the success of our property development projects.

We have established a membership club, Redco Club (力高會), for our customers. Members are entitled to enjoy deductions to the purchase price of their properties. For pre-sales of some of our property development projects, we also offer customized incentives through our referral programs.

We hold promotional and sales events at our property development project premises and invite potential customers to visit exhibit units. Customers of some of our property development projects are entitled to enjoy discounts and free property management services. We also organize promotional events such as economic forums to increase public awareness of our “Redco” brand.

Pre-sale

In line with market practice in the PRC, we normally commence pre-sales of our property development projects before completion of the entire project. Our pre-sales typically comprise multiple phases in accordance with our marketing strategies and plans. Relevant PRC laws and regulations require property developers to fulfill certain conditions, including but not limited to payment of the land grant premium and obtaining the relevant land use rights certificate, construction works planning permit, construction works commencement permit and pre-sale permit before the commencement of pre-sales. For further details of the laws and regulations governing pre-sale, please refer to the section headed “Regulation — Sale of commodity properties” in this offering memorandum.

Our pre-sale contracts are prepared in accordance with applicable PRC laws and regulations. Purchasers are typically required to pay deposits in several installments according to the schedule stipulated in the sales contract. The amount of deposit to be paid and the circumstances in which deposits may be forfeited are stipulated in relevant pre-sales contracts. In accordance with the requirements of applicable PRC laws and regulations, we provide warranties on the quality of properties we construct or sell to our customers for periods no shorter than that for quality warranties we receive from our construction contractors under the relevant construction contracts, being generally two to five years. Please refer to the section headed “Risk Factors — Risks relating to our business — We rely on our external contractors for all of our construction works and if any of these contractors fail to deliver satisfactory services, our reputation, business, results of operations and financial condition may be materially and adversely affected” in this offering memorandum for further details regarding the associated risks.

Cancelled contracted sales are sales transactions cancelled after the signing of pre-sales contracts but before the delivery of completed properties. So far as our Directors are aware, cancelled contracted sales in 2014, 2015 and 2016 and the six months ended June 30, 2017 were primarily due to personal reasons. Our Directors further confirm that the cancelled contracted sales did not have a material adverse effect on the financial condition of our Company.

In 2014, 2015, 2016 and the six months ended June 30, 2017, we did not experience any significant delays in obtaining the required certificates and permits for the pre-sale of our properties. Save as disclosed in the section headed “Risk Factors — Risks relating to Our Business — We may fail to obtain, or experience material delays in obtaining, requisite certificates, licenses, permits or governmental approvals for our property development operations, and as a result our development plans, business, results of operations and financial condition may be materially and adversely affected” in this offering memorandum, we have complied with all relevant and applicable PRC laws and regulations governing property pre-sales in the PRC in all material respects, and have obtained all necessary permits, certificates and approvals prior to the commencement of pre-sales activities.

For 2014, 2015, 2016 and the six months ended June 30, 2017, the amount of pre-sales by our Group (the “Contracted Sales”) was approximately RMB3.2 billion, RMB4.1 billion, RMB10.1 billion and RMB5.0 billion (US\$0.7 billion), respectively.

Payment Arrangements

Our customers may choose to pay the purchase price of our properties by one lump sum payment or by mortgage financing. Customers choosing to settle the purchase price by one lump sum payment will be required to fully settle the purchase price shortly after the execution of the sales contract. Customers choosing to settle the purchase price of residential properties by mortgage financing shall,

according to the terms stipulated in the relevant sales contract, normally pay a down payment of no less than 30% of the purchase price upon the execution of the sales contract in accordance with the applicable PRC laws and regulations. Depending on the processing time required by mortgagee banks, the balance of the purchase price will typically be paid by the mortgagee bank shortly after the date of execution of the sales contract.

In line with market price in the PRC, we have arrangements with various banks for the provision of mortgage financing and where required, provide our customers with guarantees as security for mortgage loans. The terms of such guarantees typically last until the transfer of the building ownership certificate to the purchaser, or the satisfaction of mortgage loans by the relevant purchaser. As a guarantor, if the purchaser defaults in payment, we are obligated to repay all outstanding amounts owed by the purchaser to the mortgagee bank under the loan. We do not conduct credit checks on our customers but rely on credit checks conducted by relevant banks.

As of December 31, 2014, 2015 and 2016 and June 30, 2017, our outstanding guarantees in respect of the mortgages for certain purchasers of our properties amounted to RMB2,801.1 million, RMB3,409.7 million, RMB5,100.3 million (US\$752.3 million) and RMB5,327.6 million (US\$785.9 million), respectively. In 2014, 2015, 2016 and the six months ended June 30, 2017, we encountered eight incidents of default by purchasers, which involved an aggregate default payment of RMB7.4 million. Please refer to the sections headed “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Indebtedness and contingent liabilities — Contingent liabilities — Guarantees on mortgage facilities” and “Risk Factors — Risk relating to our business — We provide guarantees for mortgage loans of our customers and may become liable to mortgagee banks if our customers default on their mortgage loans” in this offering memorandum for further details.

Delivery and After-sales Services

Delivery of Completed Properties

We endeavor to deliver completed properties to our customers on a timely basis in accordance with the terms of the sales contracts. We closely monitor the progress of construction works at our projects under development. If we fail to deliver the completed properties within the stipulated timeframe due to our default, we may be liable to pay a certain percentage of the purchase price as penalty in accordance with the terms of the relevant sales contracts. Under current PRC laws and regulations, we are required to obtain a completion certificate before delivering properties to our customers. Please refer to the section headed “Regulation” in this offering memorandum for further information. After a property development project has passed the requisite completion and acceptance inspections, we shall notify and make arrangements with our customers in respect of the inspection and delivery of properties. Under our typical sales contracts, customers failing to accept delivery of properties within ten to 15 days from the date of notification shall be deemed to have accepted delivery of our properties. We also undertake under our sales contracts to deliver individual building ownership certificates for our properties and such process is typically completed within six months from the date of delivery. We may also be liable to compensate our customers for any delay in the delivery of individual building ownership certificates. In 2014, 2015, 2016 and the six months ended June 30, 2017, we did not experience any significant delays in the completion of our property development projects or delivery of relevant title documents after sale.

In 2014, 2015, 2016 and the six months ended June 30, 2017, we had received reports from purchasers regarding defects in properties delivered, and such defects had been rectified by the relevant contractors in accordance with their warranty provisions of the relevant contracts. Our Directors confirm that we were not liable to pay any compensation in connection with defects in properties delivered.

After-sales services

Our Sales and Marketing Department is responsible for our after-sales customer services. Our customer service personnel provide after-sales services such as assisting customers to obtain building ownership certificates and handling customers complaints. Our customers may also join our Redco Club to participate in our activities and obtain first-handed information regarding our new property development projects.

PROPERTY MANAGEMENT SERVICES

In 2014, 2015, and the 11 months ended November 30, 2016, we provided property management services to manage our and external property development projects through Shenzhen Youju Meijia Property Services Co., Ltd. (深圳優居美家物業服務有限公司) (“Shenzhen Youju Meijia”) and its subsidiaries. We disposed of part of our equity interest in Shenzhen Youju Meijia on December 1, 2016, and ceased providing property management service since the same date. Certain of our property development projects are managed by independent property management companies.

PROPERTIES USED BY US

We have leased properties owned by independent third parties and our connected person for use as office premises. As of June 30, 2017, we had leased properties with an aggregate floor area of 7,985 sq.m.

PROJECT FINANCING

In 2014, 2015, 2016 and the six months ended June 30, 2017, we financed our property development projects primarily through proceeds from pre-sales and sales of our properties and bank borrowings. As of June 30, 2017, our total outstanding borrowings amounted to RMB4,107.3 million (US\$605.9 million). Our bank loans are primarily provided by major commercial banks in the PRC. Please refer to the section headed “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Indebtedness and contingent liabilities” in this offering memorandum for further details of our indebtedness and borrowings.

Our ability to raise capital for our property development projects is affected by economic and regulatory measures introduced by the PRC government to stabilize the property market in the PRC. In particular, any decisions to raise the reserve ratio by the PBOC will limit the amount available to commercial banks for lending, and limit our ability to obtain financing from commercial banks. Please refer to the section headed “Risk Factors — Risk relating to our industry — We may not have adequate financing, whether through bank loans or other arrangements, to fund our property developments, and such capital resources may not be available on commercially reasonable terms, or at all” in this offering memorandum for further details.

Diversifying our financing channels

We plan to further develop and diversify our financing channels, such as through equity offerings, bond offering and bank loans. We expect that more diversified sources of financing will strengthen our financial capability, enable us to consider a wider range of favorable land acquisition opportunities as they arise and thus enhance shareholders’ return.

SUPPLIERS AND CUSTOMERS

Suppliers

In 2014, 2015, 2016 and the six months ended June 30, 2017, our five largest suppliers, primarily comprising construction companies which are our contractors and each an independent third party, accounted for 38.1%, 58.8%, 28.8% and 34.1% of our total costs of sales, respectively, and our single largest supplier accounted for 13.5%, 33.1%, 17.1% and 16.5%, respectively, of our total costs of sales during the same periods.

Customers

We primarily target customers from the growing middle class who are looking to either purchase their first homes or upgrade their living environment. In 2014, 2015, 2016 and the six months ended June 30, 2017, our five largest customers accounted for 2.8%, 3.1%, 2.4% and 1.5% of our revenue, respectively, and our single largest customer accounted for 0.8%, 1.7%, 0.8% and 0.5%, respectively, of our revenue during the same periods.

All of our five largest customers for the six months ended June 30, 2017 are independent third parties and individual purchasers of our properties, whom bought the relevant properties either for self-use or investment purposes.

COMPETITION

The PRC property industry is highly fragmented and competitive. As a China Top 100 listed real estate developer, we primarily compete with other China Top 100 real estate developers focusing on the development of residential properties in the PRC. We compete on a broad range of factors, including product quality, service quality, price, financial resources, brand recognition, ability to acquire land and other factors. In recent years, property developers from the PRC and overseas have entered the property development markets in the cities where we have operations, resulting in increased competition for land available for development. Moreover, the PRC government has implemented a series of policies to control the growth and curtail the overheating of, and foreign investment in, the PRC property sector. We believe major entry barriers into the PRC property development industry include a potential entrant's limited knowledge of local property market conditions and limited brand recognition in these markets. We believe that the PRC real estate industry still has large growth potential. We believe that, with our solid experience in real estate development since 1995, our strategic focus on cities with high GDP growth and population growth potential, our reputable brand name and our effective management team, we are able to respond promptly and effectively to challenges in the PRC property market. There is no assurance that we will be able to continue competing effectively in our industry. Please refer to the section headed "Risk Factors — Risks relating to our industry — Intensified competition may materially and adversely affect our business, results of operations and financial condition."

INTELLECTUAL PROPERTY RIGHTS

As of the date of this offering memorandum, we had four trademarks which were registered in the PRC and one trademark which was registered in Hong Kong. We believe that we did not suffer from any infringement of our intellectual property rights by any third parties or violate any intellectual property rights of third parties in 2014, 2015, 2016 and the six months ended June 30, 2017.

INSURANCE

According to applicable PRC laws and regulations, property developers are not required to maintain insurance coverage in respect of their property development operations. We typically require the construction contractors of our property development projects to purchase construction in progress insurance for our projects under development. We have not maintained insurance in respect of litigation risks, business termination risks, product liability or important personnel of our Group, as such is not required under the applicable PRC laws and regulations. Our Directors consider that the insurance coverage of our Group is adequate and in line with the industry norm. There is a risk that we may incur uninsured losses, damage or liabilities. For further information, please refer to the section headed “Risk Factors — Risks relating to our business — We may not have adequate insurance coverage to cover our potential liability or losses, and as a result our business, results of operations and financial condition may be materially and adversely affected” in this offering memorandum.

EMPLOYEES

As of June 30, 2017, we employed a total of 814 direct, full-time employees. Substantially all of our employees are located in the PRC. The following tables shows a breakdown of our employees by function:

Employee Type	Total Number of Direct Employees	Percentage of Total Direct Employees
Senior management	53	6.5%
Legal and information technology	36	4.4%
Administrative and human resources	123	15.1%
Finance	104	12.8%
Investment and development	41	5.0%
Cost control.	70	8.6%
Design.	57	7.0%
Construction operation.	108	13.3%
Sales and marketing	222	27.3%
Total	<u>814</u>	<u>100%</u>

We believe that our employees are among the most valuable assets of our Group and have contributed to the success of our Group. We provide both in-house and external training to our employees to enhance their knowledge of our corporate culture, our property development projects, sales techniques and information technology skills, and provide training to individual employees according to their respective job description.

Since our inception, we have not experienced any significant turnover of staff or any disruption to our business operations due to labor disputes. Our directors consider that we have maintained a good relationship with our employees. There had been no complaints or claims from employees that materially and adversely affected our business operations in 2014, 2015, 2016 and the six months ended June 30, 2017.

HEALTH, WORK SAFETY, SOCIAL AND ENVIRONMENTAL MATTERS

Environmental Matters

We are subject to a number of environmental and safety laws and regulations in the PRC including the PRC Environmental Protection Law (中華人民共和國環境保護法), the PRC Prevention and Control of Noise Pollution Law (中華人民共和國環境噪聲污染防治法), the PRC Environmental Impact Assessment Law (中華人民共和國環境影響評價法) and the Administrative Regulations on Environmental Protection for Development Projects (建設項目環境保護管理條例). Please refer to the section headed “Regulation — Environmental protection” in this offering memorandum for details of these laws and regulations. Pursuant to these laws and regulations, we have engaged independent third-party environmental consultants to conduct environmental impact assessments at all of our construction projects, and such environmental impact assessments were submitted to relevant governmental authorities for approval before commencement of development. Upon completion of construction works, we are required to apply for an examination and acceptance with respect to environmental matters from the relevant governmental authorities. Only property development projects which have passed such examination and acceptance can be delivered.

Under our typical construction contracts, we require our contractors to strictly comply with relevant environmental and safety laws and regulations. We inspect the construction sites regularly and require our contractors to immediately rectify any default or non-compliance identified. We also provide training to our employees regarding environmental issues from time to time.

In 2014, 2015, 2016 and the six months ended June 30, 2017, we incurred RMB1.9 million, RMB5.6 million, RMB5.8 million (US\$0.9 million) and RMB1.3 million (US\$0.2 million), respectively, as cost for compliance with applicable environmental rules and regulations. As of the date of this offering memorandum, we had not encountered any material issues in passing inspections conducted by the relevant environmental authorities upon completion of our property development projects. In 2014, 2015, 2016 and the six months ended June 30, 2017, no fines or penalties were imposed on us for non-compliance of PRC environmental laws and regulations, and we had obtained all required approvals in relation to the environmental impact reports, where applicable, for our projects under development.

Social, Health and Work Safety

In respect of social responsibilities, in particular health, safety and social insurance, we have entered into employment contracts with our employees in accordance with the applicable PRC laws and regulations.

We maintain social welfare insurance for our full-time employees in the PRC, including pension insurance, medical insurance, personal injury insurance, unemployment insurance and maternity insurance, in accordance with relevant PRC laws and regulations.

Our employees’ manual contains policies and procedures regarding work safety and occupational health issues. We provide our employees with annual medical checks and safety training, and our construction sites are equipped with safety gloves, boots and hats. Our Administrative and Human Resources Department is responsible for recording and handling work accidents as well as maintaining health and work safety compliance records.

In 2014, 2015, 2016 and the six months ended June 30, 2017, we did not encounter any material safety accident, there were no claims for personal or property damages and no compensation was paid to employees in respect of claims for personal or property damages.

LEGAL PROCEEDINGS

As a property developer in the PRC, we are subject to arbitration, litigation or administrative proceedings, disputes or claims in the ordinary course of our business. In 2014, 2015, 2016 and the six months ended June 30, 2017, we were involved in legal or other disputes with contractors and purchasers. Each of these proceedings was, in our view, immaterial in terms of its impact on our results of operations and financial condition. As of the date of this offering memorandum, we have not been involved in any actual or threatened arbitration, litigation or administrative proceedings which had or could be expected to have a material adverse effect on our reputation, business, results of operations and financial condition.

REGULATION

SUMMARY OF PRINCIPAL PRC LAWS AND REGULATORY PROVISIONS

The following is a summary of the principal PRC laws, regulations, policies and administrative directives to which we are subject.

ESTABLISHMENT OF A REAL ESTATE DEVELOPMENT ENTERPRISE

According to the PRC Law on Administration of Urban Real Estate (中華人民共和國城市房地產管理法), or the Urban Real Estate Law, promulgated by the NPC on July 5, 1994, effective on January 1, 1995 and amended on August 30, 2007, a real estate development enterprise is defined as an enterprise that engages in the development and sale of real estate for the purpose of making profits. Under the Regulations on Administration of Development and Operations of Urban Real Estate (城市房地產開發經營管理條例), or the Development Regulations, promulgated and implemented by the State Council on July 20, 1998 and amended on January 8, 2011, an enterprise that is to engage in development of real estate must satisfy the following requirements:

- its registered capital must be RMB1.0 million or more; and
- it must have four or more full-time professional real estate/construction technicians and two or more full-time accounting officers, each of whom should hold relevant qualification certificates.

The Development Regulations also stipulate that the local government of a province, autonomous region or provincial-level municipality may, based on local circumstances, impose more stringent requirements on the registered capital and the number of professional personnel of a real estate development enterprise.

Pursuant to the Development Regulations, to establish a real estate development enterprise, the developer shall apply for registration with SAIC. The developer shall also report its establishment to the real estate development authority in the location of its registration, within 30 days of the receipt of its business license.

On September 9, 2015, the State Council promulgated the Notice to Adjust and Promote the System of Capital Fund for Investment Projects in Fixed Assets (關於調整和完善固定資產投資項目資本金制度的通知), according to which the minimum capital ratio is 20% for affordable housing and ordinary commodity residential projects, and 25% for other property projects.

FOREIGN-INVESTED REAL ESTATE DEVELOPMENT ENTERPRISE

Pursuant to the Development Regulations, where a foreign-invested enterprise is to be established to engage in the development and sale of real estate, it must also comply with the relevant requirements under the PRC laws and administrative regulations regarding foreign-invested enterprises and apply for approvals relating to foreign investments in China.

Under the Catalog of Guidance on Foreign Investment Industrial (Revised in 2011) (外商投資產業指導目錄), or the Foreign Investment Catalog, promulgated by MOFCOM and NDRC on December 24, 2011, effective on January 30, 2012,

- the development of a whole parcel of land (limited to equity joint ventures and cooperative joint ventures) as well as the construction and operation of high-end hotels, premium office buildings, international conference, exhibition centers, the secondary market transactions in real estate sector and real estate intermediaries or agents fall within the category of industries in which foreign investment is subject to restrictions;

- the construction and operation of villa falls under the category of industries in which foreign investment is prohibited; and
- other real estate developments fall within the category of industries in which foreign investment is permitted.

However, such restriction measures imposed upon FRIEEs were deleted by the Foreign Investment Catalog amended in 2015.

Subject to the approval by the relevant foreign investment regulatory authorities, a foreign investor intending to engage in the development and sale of real estate in China may establish an equity joint venture, a cooperative joint venture or a wholly foreign owned enterprise by the foreign investor in accordance with the PRC laws and regulations governing foreign-invested enterprises.

On July 11, 2006, the Ministry of Construction, MOFCOM, NDRC, PBOC, SAIC and SAFE jointly issued the Circular on Standardizing the Admittance and Administration of Foreign Capital in the Real Estate Market (關於規範房地產市場外資准入和管理的意見), or the 171 Opinion, which states that, among other things, a foreign entity or individual investing in the PRC property other than for self-use, must apply for the establishment of a FIREE in accordance with the applicable PRC laws and can only conduct operations within the authorized business scope. The 171 Opinion attempts to impose additional restrictions on the establishment and operation of a FIREE by measures including regulating the amount of registered capital as a percentage of total investment in certain circumstances, limiting the validity of a FIREE or the transfer of its projects and prohibiting the borrowing of money from domestic and foreign lenders where, among other things, the registered capital is not paid up, land use rights are not obtained, or the capital fund is less than 35% of the total investment amount in the intended development project. In addition, the 171 Opinion also limits the ability of certain foreign individuals to purchase residential properties in China.

On May 23, 2007, MOFCOM and SAFE jointly issued the Circular on Further Strengthening and Regulating the Approval and Supervision on Foreign Direct Investment in Real Estate Sector (關於進一步加強、規範外商直接投資房地產業審批和監管的通知), or Circular 50, which states that, among other things, foreign investment in the real estate sector in the PRC relating to high-grade properties should be strictly controlled. According to Circular 50, before applying for the establishment of FIREEs, (i) both the land use rights certificates and property ownership certificates should have been obtained or (ii) contracts for obtaining land use rights and property ownership rights should be entered into. Also, acquisitions of domestic real estate entities and foreign investment in real estate sector in a way of a round-trip investment channel should be strictly regulated, and foreign investors may not bypass approval procedures through changes in actual controlling persons. In addition, existing foreign-invested enterprises need to obtain approval before expanding their business operations into the real estate sector and existing FIREEs need to obtain new approval in case they wish to expand their existing real estate business operations. SAFE authorities and banks authorized to conduct foreign exchange business should not effectuate foreign exchange settlements or sales regarding capital account items to those entities failing to file with the MOFCOM or failing to pass the joint annual reviews of foreign-invested enterprises. For those FIREEs, which are wrongfully approved by local authorities for their establishment, (i) the MOFCOM will carry out investigation, order punishment and corrections, and (ii) SAFE authorities should not carry out foreign exchange registrations for these entities.

The Notice on the Distribution of the List of the First Group of Foreign-Invested Real Estate Projects Filed with MOFCOM (關於下發第一批通過商務部備案的外商投資房地產項目名單的通知) issued by SAFE on July 10, 2007 (“Notice 130”), which restricts the ability of FIREEs to raise funds through foreign debt, was abolished on May 13, 2013 by the Notice on Distributing the Provisions on Foreign Exchange Administration over Direct Investment Made by Foreign Investors in China and Its Supporting Documents (國家外匯管理局關於印發《外國投資者境內直接投資外匯管理規定》及配套文件的通知) (“No. 21 Notice”) which was promulgated by SAFE on May 10, 2013. However, most of the restriction measures on the foreign debt of FIREEs stipulated in Notice 130 have been reflected

in the Measures for the Administration of Foreign Debt Registration (外債登記管理辦法) (“No. 19 Notice”) issued by SAFE on April 28, 2013. According to No. 19 Notice, local branches of SAFE must not register any foreign debt of a FIREE if it obtained approval certificate from competent commercial departments and filed with MOFCOM on or after June 1, 2007.

In connection with the filing requirement, on June 18, 2008, the MOFCOM issued the Notice on Properly Archiving the Filings for Foreign Investment in Real Estate Sector (關於做好外商投資房地產業備案工作的通知). According to the notice, since July 1, 2008, the MOFCOM entrusts its provincial level branch to review the filing materials with respect to FIREEs and check and confirm the legality, authenticity and accuracy of the materials. The MOFCOM will archive the filing after receiving the archival form duly completed and submitted by the provincial level branches. The notice also requires that the establishment (including the increase of registered capital) of an enterprises with foreign investment must comply with the principle of one project company engaging in one approved real estate project only.

Moreover, on November 22, 2010, the General Office of MOFCOM promulgated the Notice on Strengthening Administration of the Approval and Registration of Foreign Investment in Real Estate Industry (關於加強外商投資房地產業審批備案管理的通知), which provides that, among other rights, in the case that a real estate enterprise is established within the PRC with oversea capital, it is prohibited to purchase and/or sell real estate properties completed or under construction within the PRC for arbitrage purposes. The local MOFCOM authorities are not permitted to approve investment companies to engage in the real estate development and management.

On June 24, 2014, MOFCOM and SAFE jointly issued the Notice on Improving the Registration of Foreign Investment in Real Estate (關於改進外商投資房地產備案工作的通知) to simplify the procedures of registration of foreign investment in real estate. On November 11, 2015, MOFCOM and SAFE jointly issued the Circular on Further Improving the Record-filing for Foreign Investments in Real Estate (關於進一步改進外商投資房地產備案工作的通知) to cancel the online record filing-procedure maintained by MOFCOM.

On August 19, 2015, MOHURD and other authorities jointly promulgated the Circular on Adjusting Policies on the Market Access and Administration of Foreign Investment in the Real Estate Market (關於調整房地產市場外資准入和管理有關政策的通知), which removed the special requirement of ratio of registered capital to total investment imposed on FIREEs. The Circular further removed the requirement that the registered capital of FIREEs shall be paid in full before such FIREE may apply for domestic loans or offshore loans.

According to the Decision of Amending Four Laws including the Wholly Foreign-owned Enterprises Law of the PRC (全國人民代表大會常務委員會關於修改《中華人民共和國外資企業法》等四部法律的決定) promulgated by the Standing Committee of the NPC on September 3, 2016, the establishment of foreign-invested enterprise and its subsequent changes should be filed with relevant authorities instead of obtaining approvals from relevant commerce authorities, except for the foreign-invested enterprise which are subject to the special administrative measures regarding foreign investment. The Provisional Measures for Filing Administration of Establishment and Changes of Foreign-Invested Enterprises (外商投資企業設立及變更備案管理暫行辦法), which was promulgated by MOFCOM On October 8, 2016, and amended on July 30, 2017, further detailed the relevant filing procedures.

QUALIFICATIONS OF A REAL ESTATE DEVELOPMENT ENTERPRISE

Under the Provisions on Administration of Qualification of Real Estate Developers (房地產開發企業資質管理規定), or the Provisions on Administration of Qualifications, promulgated by Ministry of Construction and implemented on March 29, 2000, a real estate development enterprise must apply for registration of its qualification according to the Provisions on Administration of Qualifications.

An enterprise may not engage in the development and sale of properties without a qualification classification certificate for real estate development. Ministry of Construction oversees the qualifications of real estate developers with national operations, and local Ministry of Construction authorities at or above the county level oversee the qualifications of local real estate developers.

In accordance with the Provisions on Administration of Qualifications, the qualification of a real estate development enterprise is classified into four classes: class 1, class 2, class 3 and class 4. Different classes of qualifications should be examined and approved by corresponding authorities.

- Class 1 qualifications are subject to preliminary examination by Ministry of Construction authorities at the provincial level and the final approval of Ministry of Construction. A class 1 real estate developer is not restricted as to the scale of its real estate projects and may undertake a real estate development anywhere in the country.
- Class 2 or lower qualifications are regulated by Ministry of Construction authorities at the provincial level subject to delegation to lower level government agencies. A real estate developer of class 2 or lower may undertake a project with a total GFA of less than 250,000 sq.m. subject to confirmation by Ministry of Construction authorities at the provincial level.

Under the relevant PRC laws and regulation, the real estate development authorities will examine applications for registration of qualifications submitted by real estate developers by considering the professional personnel in their employment, financial condition and operating results. A real estate developer that passes the qualification examination will be issued a qualification certificate of the relevant class by the qualification examination authority. A developer within any specific qualification classification may only engage in the development and sale of real estate within its approved scope of business and may not engage in business which is limited to another classification.

For a newly established real estate developer, the competent authorities will issue a provisional qualification certificate, if it is an eligible developer, within 30 days of receipt by the authority of the application. The provisional qualification certificate will be effective for one year since its issuance, and MOHURD authorities may extend the validity to a period of no longer than 2 years considering the actual business situation of the enterprise. The real estate developer should apply for qualification of classification to the relevant authorities within one month before expiration of its provisional qualification certificate.

Pursuant to the Provisions on Administration of Qualifications, the qualification of a real estate developer should be subject to annual inspection. The construction authority under the State Council or its entrusted institution is responsible for carrying out the annual inspection of the qualification of class 1 real estate developers. Procedures for annual inspection of developers of class 2 or lower qualifications shall be formulated by the construction authorities under the people's government of the relevant province, autonomous region or provincial-level municipality.

On January 26, 2011, the General Office of the State Council issued the Notice on Further Promoting the Adjustment and Control of Real Estate Market (國務院辦公廳關於進一步做好房地產市場調控工作有關問題的通知), pursuant to which the qualification certificates and the sources of capital of real estate development enterprises will be censored. If a real estate development enterprise fails to obtain a construction permit and fails to start construction two years after the land is provided, the land will be confiscated and fines will be imposed accordingly.

DEVELOPMENT OF A REAL ESTATE PROJECT

Commencement of Development of a Property Project

According to the Administrative Measures for the Approving and Filing of Foreign-Funded Projects (外商投資項目核准和備案管理辦法), promulgated by the NDRC on May 17, 2014 and amended on December 27, 2014, Foreign-funded projects shall be subject to management by approval of or filing with relevant authorities. Pursuant to Catalog of Investment Projects Subject to the Approval of Governments of the year 2016 (政府核准的投資項目目錄(2016年本)), or the Catalog of Approval, promulgated by the State Council on December 12, 2016, for investment in the construction of fixed-asset investment projects listed in the Catalogue of Approval, the enterprises must report to relevant authorities for approval. Where enterprises invest in the construction of projects beyond Catalogue of Approval, such projects shall be subject to filing procedures.

According to the Several Opinions of the State Council on Further Strengthening the Utilization of Foreign Investment (關於進一步做好利用外資工作的若干意見), promulgated by the State Council on April 6, 2010, and the Notice on Devolution of Authority for Foreign Investment Projects (關於做好外商投資項目下放核准權限工作的通知), promulgated by NDRC on May 4, 2010, except where approval by the relevant departments under the State Council is required by the Foreign Investment Catalog, foreign investment in encouraged and permitted industries with a total investment of US\$300 million or less must be examined and approved by NDRC branches at the provincial level. Pursuant to the Notice on Issues related to Devolution of Authority of Examination and Approval of Foreign Investment (關於下放外商投資審批權限有關問題的通知), promulgated by MOFCOM on June 10, 2010, MOFCOM branches at the provincial level are responsible for the examination and approval of establishment and modifications of foreign-invested enterprises in encouraged or permitted industries with a total investment of less than US\$300 million and with a total investment of less than US\$50 million in restricted industries.

Grant of Land Use Rights

In April 1988, NPC amended the PRC Constitution (中華人民共和國憲法) to permit the transfer of land use rights for value. And in December 1988, NPC amended the Land Administration Law (土地管理法) to permit the transfer of land use rights for value. The acquisition of state-owned land use rights from relevant government authorities is commonly referred to as the primary market, and the acquisition of land use rights from entities which hold land use rights granted by relevant government authorities is commonly referred to as the secondary market.

In March 2007, NPC adopted the Property Rights Law of the People's Republic of China (中華人民共和國物權法), or the Property Rights Law, which became effective on October 1, 2007. According to the Property Rights Law, when the term of the right to use construction land for residential (but not other) purposes expires, it will be renewed automatically. Unless it is otherwise prescribed by any law, the owner of construction land use rights has the right to transfer, exchange, use such land use rights as equity contributions or collateral for financing. If the state reclaims the properties owned by entities or individuals, it must compensate the property owner in accordance with laws and regulations and protect the lawful rights and interests of the owners.

Under the Interim Regulations of the People's Republic of China on Grant and Assignment of the Use Right of State-owned Urban Land (中華人民共和國城鎮國有土地使用權出讓和轉讓暫行條例), or the Interim Regulations on Grant and Assignment, promulgated by the State Council in May 1990, China adopted a system to grant and assign the rights to use state-owned land. A land user must pay a land premium to the state as consideration for the grant of the right to use a land site within a specified period of time, and land user may assign, lease out, mortgage or otherwise commercially exploit the land use rights within the terms of use. Under the Urban Real Estate Law and the Interim Regulations on Grant and Assignment, the land administration authority at the city or county level may enter into a land grant contract with land user to provide for the grant of land use rights. Land user must pay the land premium as provided by the land grant contract. After payment in full of the

land premium, land user may register the land use rights for a site intended for real estate development. Land use rights may be obtained through grant, except for land intended for purposes subject to premium-free allocation by the PRC government pursuant to the PRC laws and regulations. Government-allocated land is not allowed to be transferred unless the transfer is approved by the relevant PRC government authorities and the land premium as determined by the relevant PRC government authorities has been paid.

Under the Regulations on Grant of State-Owned Land Use Rights by Agreement (協議出讓國有土地使用權規定) promulgated by MLR on June 11, 2003, except for the project that must be granted through public tender, auction and listing-for-sale as required by the relevant laws and regulations, land-use rights may be granted via transfer agreements, and the land premium for the transfer agreements of the state-owned land use rights must not be lower than 70% of the benchmark land price.

Under current PRC laws and regulations on land administration, land for real estate development may be obtained only by grant except for land-use right obtained through allocation. Under the Regulations on the Grant of State-Owned Land Use Right through Public Tender, Auction and Listing-for-Sale (招標拍賣掛牌出讓國有建設用地使用權規定), issued by MLR on April 3, 2002 and as amended in September 2007, land for industry and commercial use, tourism, entertainment and commodity housing development or on which there are two or more intended land users must be granted by way of public tender, public auction or listing-for-sale. The procedures are as follows:

- The land authority under the government of the city and county, as the grantor, must make an announcement at least 20 days prior to the date of the proposed competitive bidding, public auction or listing-for-sale. The announcement must include basic particulars such as land parcel, qualification requirement of the bidder and auction applicants, methods and criteria on confirming the winning tender or winning bidder, and other conditions such as the deposit of the bid.
- The grantor must conduct a qualification verification of the bidding applicants and auction applicants, inform the applicants who satisfy the requirements set out in the announcement and invite them to attend the competitive bidding, public auction or listing-for-sale.
- After determining the winning tender or the winning bidder by the competitive bidding, public auction or listing-for-sale, the grantor and the winning tender or winning bidder must then enter into a confirmation. The grantor should return the bidding or tender deposit to other bidding or auction applicants.
- The grantor and the winning tender or winning bidder must enter into a land grant contract according to the time and venue set out in the confirmation. The deposit of the bid paid by the winning tender or winning bidder will be used to set off part of the land premium of the state-owned land use rights.
- The winning tender or winning bidder should apply for the land use rights registration after paying off the land premium in full under the land grant contract. The local governments at or above the county level will issue the land use rights certificates.

According to the Law of the People's Republic of China on the Administration of Urban Real Estate (中華人民共和國城市房地產管理法), promulgated by NPC on July 5, 1997 and amended on August 30, 2007, upon signing of the land grant contract, the grantee is required to pay the land premium pursuant to the terms of the contract and the contract is then submitted to the relevant local land and resource authorities for the issuance of the land use right certificate, and the land use right certificates may not be issued in proportion to the land premium paid under the land grant contract. Upon expiration of the term of grant, the grantee may apply for renewal of the term. If such application is approved, a new contract shall be entered into to renew the grant, and a grant premium shall be paid.

On April 1, 2017, the MOHURD and the MLR jointly issued the Circular of Relevant Work on Strengthening the Recent Administration and Control of Housing and Land Supply (關於加強近期住房及用地供應管理和調控有關工作的通知), which provides, among others, that local authorities should adopt examination and approval procedure to insure that property developers use legitimate self-owned funds to acquire lands.

Pre-examination of the Construction Sites

When carrying out the feasibility study for a construction project, the construction entity or the developer must make a preliminary application for construction on the relevant site to the relevant land administration authorities in accordance with the Measures for Administration of Examination and Approval for Construction Land (建設用地審查報批管理辦法) promulgated by MLR in March 1999, as amended in November 2010 and November 2016, and the Measures for Administration of Preliminary Examination of Construction Project Land (建設項目用地預審管理辦法) promulgated by MLR in July 2001, as amended in October 2004, November 2008 and November 2016. After receiving the preliminary application, the land administration authorities will carry out preliminary examinations of various aspects of the construction project in compliance with the overall zoning plans and land supply policy of the government, and will issue a preliminary approval in respect of the project site if its examination proves satisfactory. The land administration authorities at the relevant city or county level will sign a land grant contract with land user and issue an approval to the construction entity or the developer.

Planning for a Real Estate Project

Under the Measures for Control and Administration of Grant and Assignment of Right to Use Urban State-owned Land (城市國有土地使用權出讓轉讓規劃管理辦法) promulgated by MOHURD in December 1992, as amended in January 2011, the grantee under a land grant contract, i.e. a real estate developer, must further apply for a permit for construction site planning from the relevant municipal planning authority. After obtaining such permit, a real estate developer will organize the necessary planning and design work. Planning and design proposals in respect of a real estate development project are again subject to relevant reporting and approval procedures required under the Law of the People's Republic of China on Urban and Rural Planning (中華人民共和國城鄉規劃法) promulgated by the NPC in October 2007, effective as of January 1, 2008 and amended on April 24, 2015, and local statutes on municipal planning. Before the construction of buildings, structures, roads, pipelines and other construction projects, the construction entity must apply to the planning administration authorities at the municipal or county level for a construction works planning permit. Upon approval by the authorities, a permit for construction works planning will be issued by the relevant municipal planning authority.

However, if a construction project is conducted without obtaining the planning permit on construction project or by violating the provisions of the planning permit on construction project, the competent department of urban and rural planning of the local government at or above the county level shall order it to stop construction. If it is still possible for the construction entity or individual to take measures to eliminate the impact on the implementation of urban and rural planning, the department shall order it or him to correct within a certain time limit and impose a fine of not less than 5% but no more than 10% of construction cost; if it is impossible to take measures to eliminate the impact, the department shall order the construction entity or individual to dismantle the building or structure within a certain time limit or confiscate the real objects or the relevant income when impossible to dismantle it, and may also impose a fine of not more than 10% of construction cost.

Expropriation of and Compensation for Housing on State-owned Land

In accordance with the Regulations for the Expropriation of and Compensation for Housing on State-owned Land (國有土地上房屋徵收與補償條例) promulgated by the State Council and implemented in January 2011, with regard to the expropriation of the housing of entities and individuals on the State-owned land, the owners of the housing being expropriated shall be offered a fair compensation for the need of public interest.

Compensation offered by governments at municipal and county levels that make housing expropriation decision to parties with housing being expropriated includes: (i) compensation for the value of the housing being expropriated; (ii) compensation for relocation and temporary settlement caused by expropriation of housing; and (iii) compensation for the loss arising from the suspension of production and operation caused by expropriation of housing.

The amount of compensation for value of housing being expropriated shall not be less than market price of the real estate similar to it on the announcement date of the housing expropriation decision. The value of housing being expropriated shall be appraised and determined by a real estate price appraisal institution with corresponding qualification according to the housing expropriation appraisal measures. A party that objects to the value of the housing being expropriated appraised and determined may apply to the real estate price appraisal institution for review of the appraisal. A party that objects to the review result may apply to the real estate price appraisal expert committee for authentication.

The parties with housing being expropriated may choose monetary compensation, or may choose to exchange the property right of housing. If the parties with housing being expropriated choose to exchange the property right of housing, governments at municipal and county levels shall provide housing used for the exchange of property right, and calculate and settle the difference between the value of housing being expropriated and the value of housing used for the exchange of property right. If residential housing of an individual is expropriated due to renovation of old urban district and individual chooses to exchange for the property right of housing in the area being renovated, governments at municipal and county levels that make the housing expropriation decision shall provide the housing in the area being renovated or the nearby area.

Construction of a Real Estate Project

When the construction site has been properly prepared and is ready for the commencement of construction works, a developer must apply for a permit for commencement of works from construction authorities at or above the county level according to the Measures for Administration of Granting Permission for Commencement of Construction Works (建築工程施工許可管理辦法) promulgated by MOHURD in June 2014 and effective in October 2014.

According to the Notice regarding Strengthening and Regulating the Administration of Newly-commenced Projects (國務院辦公廳關於加強和規範新開工項目管理的通知) issued by the General Office of the State Council on November 17, 2007, before commencement of construction, all kinds of projects shall fulfill certain conditions, including, among other things, compliance with national industrial policy, development plan, land supply policy and market access standard, completion of all approval and filing procedures, compliance with zoning plan in terms of site and planning, completion of proper land use procedures and obtaining proper environmental valuation approvals and construction permit or report.

Completion of a Real Estate Project

According to the Regulation on the Quality Management of Construction Projects (建設工程質量管理條例) promulgated and implemented by the State Council on January 30, 2000 and amended on October 7, 2017, the Measures for Reporting Administration of Acceptance Examination upon Completion of Housing Construction Projects and Municipal Infrastructure (房屋建築和市政基礎設施工程竣工驗收備案管理辦法) promulgated by MOHURD on October 19, 2009, and the Provisions on Acceptance Examination upon Completion of Housing Construction and Municipal Infrastructure Projects (房屋建築和市政基礎設施工程竣工驗收規定) promulgated by MOHURD on December 2, 2013, upon completion of construction of a project, a property developer must apply for the acceptance examination to the property development authority under government at the county level or above and report details of the acceptance examination, upon which a “Record of Acceptance

Examination upon Project Completion” will be issued. A real estate development project may not be delivered until and unless it has satisfactorily passed the necessary acceptance examination. Where a property project is developed in phases, an acceptance examination may be carried out for each completed phase.

In August 2008, the State Council issued the Regulations on Energy Efficiency for Civil Buildings (民用建築節能條例), which regulates energy consumption and utilization efficiency of civil buildings. According to this regulation, the design and construction of new buildings must meet the statutory criteria on energy efficiency for buildings. A project which fails to meet such criteria may not receive approval for commencement of construction or completion acceptance.

IDLE LAND

According to the Measures on the Disposal of Idle Land (閒置土地處置辦法) promulgated by MLR on April 28, 1999, as amended in June 2012, a parcel of land can be defined as idle land under any of the following circumstances:

- the developer fails to commence development and construction of land after one year from the construction commencement date as stipulated in the state-owned construction land use rights grant contract or in the land allocation decision;
- the development and construction of the land has begun, but the area developed and constructed is less than one third of the total area to be developed or the invested amount is less than 25% of the total amount of investment, and development and construction has been continuously suspended for one year.

If the construction works have not yet started after one year from the prescribed date of commencement, an idle land fee of 20% of the land grant premium or allocation price may be imposed on the land user. If the construction works have not begun after two years from the prescribed date of commencement, the right to use the land can be taken back by the state without any compensation. However, the above sanctions may not apply if the delay in commencement of construction is caused by force majeure or acts of government.

On September 8, 2007, MLR promulgated the Notice on Strengthening the Handling of Idle Land (關於加大閒置土地處置力度的通知). This Notice provides the principles of dealing with idle land. The Grant of State-owned Land Use Right can only be transferred after the payment of compensation for land, settlement and completion of the land development at an earlier stage. The notice also prescribes that the State-owned Land Use Right Certificate shall not be issued before the land grant premium for acquisition of land has been paid in full, nor be issued separately according to the ratio of payment of land grant premium.

On January 3, 2008, the State Council issued a Notice on Promoting the Economic Use of Land (關於促進節約集約用地的通知) with respect to the collection of additional land premium, establishment of a land utilization priority planning scheme and the formulation of a system for assessing the optimal use of land and other measures. The notice calls for the full and effective use of existing construction land and the preservation of farm land. The notice also emphasizes the enforcement of the current rules on assessing idle land fees at a rate equal to 20% of the land premium for any land left idle for over one year but less than two years. The notice also establishes an additional land premium surcharges on idle land and authorizes MLR to formulate regulations to implement such surcharges. The notice further urges financial institutions to exercise caution when they process loan applications from property developers that have failed to commence construction, to complete development of at least one-third of the land area or to invest at least 25% of the total investment within one year of the construction date provided in the land grant contract. The notice indicates that the relevant governmental authorities will formulate and issue additional rules and regulations on these matters.

MLR issued a Notice on Restricting the Administration of Construction Land and Promoting the Use of Approved Land (關於嚴格建設用地管理促進批而未用土地利用的通知) in August 2009, which reiterates the above rules on idle land.

MEASURES ON LAND SUPPLY AND MANAGEMENT

In September 2003, MLR promulgated the Notice on Strengthening the Land Supply Management and Promoting the Sustainable Sound Development of Real Estate Market (關於加強土地供應管理促進房地產市場持續健康發展的通知), as amended in December 2010, which provides that land supply for luxury commodity housing must be strictly controlled.

According to the Opinions on Certain Issues relating to Voluntary Examination and Rectifying of Land Market (關於進一步治理整頓土地市場秩序中自查自糾若干問題的處理意見) promulgated by MLR on October 13, 2003, land must be restored to its original use if the development of such land fails to comply with the overall land use requirements, unless such land has been developed for construction and restoration is impossible to achieve, in which case the overall land use requirements shall be modified so the respective amount of basic farmland, cultivated land and land for building will remain unchanged. Similarly, restoration of land to farmland or to its original use is required when a land development project lacks construction feasibility or is short of project funding, even though a proper approval is in place. Idle land that has been supplied for construction purposes shall be disposed of according to relevant stipulation governing idle land. However, exceptions are allowed when pre-approval has been granted by local authorities, or if a project development contract has been executed and between local authorities and developers prior to July 1, 2002. On March 31, 2004, MLR together with the Ministry of Supervision promulgated the Notice of Enforcing and Supervising the Transfer of Operative Land Use Rights through Tenders, Bidding and Public Auction (關於繼續開展經營性土地使用權招標拍賣掛牌出讓情況執法監察工作的通知), which expressly required that after August 31, 2004, no transfer of land use rights will be allowed in the form of agreement in the name of issues left over from the past.

On May 30, 2006, MLR promulgated an Urgent Notice on Currently Strengthening Further Strict Land Management (關於當前進一步從嚴土地管理的緊急通知), which provides that land grant for real estate development must be conducted via invitation for bids, auction and listing, and land supply for low to medium-priced and/or small to medium-sized ordinary commercial residential housing (including affordable housing) and for low-rental residential housing must be given priority, and land supply for low-density and/or large-sized residential housing must be strictly restricted. In addition, the notice provides that land supply for new villa project must be suspended.

The Urgent Notice on Further Governing and Rectifying Land Market and Strengthening Administration of Land (關於深入開展土地市場治理整頓嚴格土地管理的緊急通知) issued by State Council on April 29, 2004 restated the principle of basic farmland protection and the strict administration of the approval process for construction land.

On August 31, 2006, the State Council issued the Notice on Issues relating to Strengthening of Land Control (關於加強土地調控有關問題的通知), which provides for the administration of receipt and disbursement of land premiums, tax policies modification relating to construction land, and establishment of a publicity system for price standards with respect to granted state-owned land use rights.

On September 30, 2007, MLR issued the Notice on Implementation of the State Council's Certain Opinions on Resolving Difficulties in Housing of Urban Low-Income Family and Further Strengthening the Macro-control of Land Supply (關於認真貫徹《國務院關於解決城市低收入家庭住房困難的若干意見》進一步加強土地供應調控的通知) as amended on December 3, 2010, to further enhance the control of land supply, which stipulates that the supply of the land to be developed for low-rent housing, economic housing and housing at low or medium price and of small or medium size must be no less than 70% of the total residential land supply of the current year; the land and resources authorities must control the area of each parcel of land and increase the number of parcels of land to be supplied, in order to prevent the hoarding of land by property developers. Property developers must develop their land according to the terms of the relevant land grant contracts. Generally, the development period of each parcel of land may not exceed three years.

In order to control the land market and promote reasonable land utility, the MLR, the MOF and the PBOC jointly promulgated the Administrative Measures on Land Reserve (土地儲備管理辦法) on November 19, 2007, which regulates the land development and reserve by land reserve entities and affiliates of the land authorities at city or county level, before the land authorities grant land use rights according to relevant laws and regulations. The enterprises must be selected through public tender to conduct the preliminary land development involving road development, supply of water, power and gas, telecommunications, lighting, landscaping and land leveling etc. according to applicable laws and regulations.

On November 18, 2009, the MOF, MLR, PBOC, the Ministry of Supervision and the National Audit Office jointly issued the Notice on Further Strengthening the Management of Revenue and Expenditure from Land Granting (關於進一步加強土地出讓收支管理的通知) to require a minimum down payment of 50% of the land premium relating to land purchases from the PRC government. The notice also provides that the installment period stipulated in the relevant land grant contracts may not exceed one year generally, provided that, for special projects, upon collective approval by the relevant government authorities, the installment period stipulated in the relevant land grant contracts can be two years. Developers will not be permitted to buy new land if they fail to pay such land premium in time in full. The new rules also forbid local governments from giving discounts to developers or allowing developers to delay payments except as stipulated by the State Council.

MLR promulgated the Notice on Problems Regarding Strengthening Control and Monitor of Real Estate Land Supply (關於加強房地產用地供應和監管有關問題的通知) on March 8, 2010. According to this notice, the land provision for affordable housing, redevelopment of shanty towns and small/medium residential units for occupier owner should be no less than 70% of total residential construction land supply, and the land supply for large residential units will be strictly controlled and land supply for villa projects will be banned. This notice also requires that the lowest land grant price should not be less than 70% of the benchmark land price in which the granted land is located and the real estate developers' bid deposit should not be less than 20% of the lowest grant price. The land grant contract must be executed within 10 working days after the land transaction is confirmed. The minimum down payment of the land premium should be 50% and must be paid within one month after the execution of the land grant contract. The remaining payment must be paid in accordance with the land grant contract, but not later than one year. If the land grant contract is not executed in accordance with the requirements above, the land may not be delivered and the deposit may not be returned. If no land premium is paid after the execution of the land grant contract, the land must be withdrawn.

On September 21, 2010, MLR and MOHURD jointly promulgated the Notice of Further Strengthening Control and Regulation of Land and Construction of Property Development (關於進一步加強房地產用地和建設管理調控的通知), which stipulates, among other things, that: (i) at least 70% of land designated for construction of urban housing must be used for affordable housing, housing for resettlement of shanty towns and small to medium-sized ordinary commercial housing; in areas with high housing prices, the supply of land designated for small to medium-sized, price-capped housing must be increased; (ii) developers and their controlling shareholders (as defined under PRC laws) are prohibited from participating in land biddings before the rectification of certain misconduct, including (1) illegal transfer of land use rights; (2) failure to commence required construction within one year from the delivery of land under land grant contracts due to such developers' own reasons; (3) non-compliance with the land development requirements specified in land grant contracts; and (4) crimes such as swindling land by forging official documents and illegal land speculation; (iii) developers are required to commence construction within one year from the date of delivery of land under the relevant land grant contract and complete construction within three years of commencement; (iv) development and construction of projects of low-density and large-sized housing must be strictly limited and the plot ratio of the planned GFA to the total site area of residential projects must be more than 1:1; and (v) the grant of two or more bundled parcels of lands and undeveloped land is prohibited.

In December 2010, MLR promulgated the Notice on Strict Implementation of Policies regarding Regulation and Control of Real Property Land and Promotion of the Healthy Development of Land Markets (關於嚴格落實房地產用地調控政策促進土地市場健康發展有關問題的通知), which provides, among other things, that: (i) cities and counties that have less than 70% of their residential land supply designated for affordable housing, housing for redevelopment of shanty towns or small/medium residential units must not provide land for large-sized and high-end housing before the end of this year; (ii) land and resource authorities in local cities and counties will report to MLR and provincial land and resource authorities, respectively regarding land with a premium rate of more than 50%; (iii) land designated for affordable housing which is used for property development against relevant policies or involved illegal income will be confiscated and the relevant land use rights will be withdrawn. Moreover, changing the plot ratio without approval is strictly prohibited.

In January 2011, the State Council issued the Notice on Issues relating to Further Regulating the Control of Property Market (國務院辦公廳關於進一步做好房地產市場調控工作有關問題的通知) which specifies that if a real estate developer fails to obtain the construction permits or fails to commence the construction within two years from the designation of land for real estate development, the granted land use rights will be forfeited and an idle land penalty will be imposed. A real estate developer is further restricted from transferring land and real estate development projects if the amount of real estate development investment (excluding the land grant fee) incurred is less than 25% of the total investment amount in respect of the subject project. MLR issued the Notice of Diligently Carrying out Real Estate Land Use Management and Regulation (關於做好2012年房地產用地管理和調控重點工作的通知) on February 15, 2012, requiring land users to submit written reports to land and resources departments at the time of or prior to project commencement and completion.

Base on the Urgent Notice to Further Tighten Up Real Property Land Administration and Consolidate the Achievement of Macroeconomic Control of Real Property Market (關於進一步嚴格房地產用地管理鞏固房地產市場調控成果的緊急通知), which was jointly promulgated by the MLR and the MOHURD and effective on July 19, 2012, all local governments shall strictly enforce the macroeconomic policy on real property market. The grant of real property land shall not exceed the upper limit of area and the grant of two or more bundled parcels of land or undeveloped lands is prohibited. The plot ratio of residential land shall not be less than one. Residential construction

projects shall be commenced within one year from the land title delivery date which stipulated in the land allocation decision or land grant contract, and shall be completed within three years from the date of commencement. Inspection of land bidders' qualification shall be strictly implemented to preclude bank loans from being used to pay for the land premium. The competent authority of land and resources shall forbid the land users from participating the land bidding for a certain period if the land users: (1) fail to pay land premium in time; (2) leave the land idle; (3) reserve lands for future development or speculation; (4) commit to a construction scale beyond its actual development capacity; or (5) fail to perform land use contract.

On September 6, 2012, MLR promulgated the Notice on Strictly Carrying out Land Use Standards and Vigorously Promoting the Economical and Intensive Use of Land (國土資源部關於嚴格執行土地使用標準大力促進節約集約用地的通知), which provides, among other things, that: (i) if lands for construction are in the Catalogue of Prohibited Land Project, or fail to comply with the requirements in the Catalogue of Restricted Land Project, i.e. fail to comply with industrial project control index requirement in investment intensity, plot ratio, building coefficient, administrative office and living service area ratio and green ratio, or total area of land of engineering construction projects or area of land of one or several functional partitions exceed land quota control limit, or parcel area and plot ratio fail to meet the residential requirements, then the project shall not apply for land approval, supply and use; (ii) for commercial lands like industrial, commercial, tourism, entertainment, and commercial residential land, which must be granted by tender, auction and listing, municipal and county land and resources departments must state explicitly the control requirement and use standards for such land when formulating land grant plan and land grant documents, implement national regulations and publish the standards to the public.

According to the Provisions on the Economic and Intensive Use of Land (節約集約利用土地規定), which was promulgated by the MLR on May 22, 2014 and effective since September 1, 2014, land users and land premium for commercial lands shall be determined by bidding. Land premium for compensable use of land shall not be less than lowest price standard for use of land stipulated by the State. Land premium shall not be reduced or relieved in any way, such as exchanging projects with land, returning fees after collecting, granting subsidies or rewards.

On April 1, 2017, the MOHURD and the MLR jointly issued the Circular of Relevant Work on Strengthening the Recent Administration and Control of Housing and Land Supply (關於加強近期住房及用地供應管理和調控有關工作的通知), which provides, among others, that local government should adjust land supply on the basis of the inventory turnover cycle of the commercial residential property. If the cycle is longer than 36 months, no land shall be supplied; if the cycle lasts from 18 months to 36 months, land supply shall be reduced; if the cycle lasts from six months to 12 months, land supply shall be increased; if the cycle is shorter than six months, land supply shall be increased significantly. In addition, the circular stipulates that local authorities should adopt examination and approval procedure to insure that property developers use legitimate self-owned funds to acquire lands.

SALE OF COMMODITY PROPERTIES

Under the Measures for Administration of Sale of Commodity Properties (商品房銷售管理辦法) promulgated by the Ministry of Construction in April 2001, sale of commodity houses may include both sales before the completion of the properties, or pre-sale, and sales after the completion of the properties.

Any pre-sale of commodity buildings must be conducted in accordance with the Measures for Administration of Pre-sale of Urban Commodity Properties (城市商品房預售管理辦法), or the Urban Pre-sale Regulation, promulgated by the Ministry of Construction in November 1994, as amended in August 2001 and July 2004, and other related regulations. The pre-sale regulations provide that any pre-sale of commodity properties is subject to specified procedures. According to the current PRC laws and regulations, a presale permit must be in place before a commodity building may be put to

pre-sale. Specifically, a developer intending to sell a commodity building before its completion must apply to the real estate development authorities for a pre-sale permit. The pre-sale proceeds of commodity buildings must be used to develop the relevant project so pre-sold. A commodity building may be sold before completion only if:

- the land premium has been paid in full for the grant of the land use rights involved and a land use rights certificate has been properly obtained;
- a construction works planning permit and a construction permit have been properly obtained;
- the funds invested in the development of the commodity buildings put to pre-sale represent 25% or more of the total investment in the project and the progress of works and the completion and delivery dates have been properly ascertained; and
- a pre-sale permit has been obtained through pre-sale registration.

Commodity buildings may be put to post-completion sale and delivery after they have passed the completion examination and satisfy the various preconditions for such sale. Before the post-completion sale of a commodity building, the developer must, among other things, submit the real estate development project manual and other documents relating to the project evidencing the satisfaction of the preconditions for post-completion sale to the real estate development authority for its record.

According to the Urban Real Estate Law and the Urban Pre-sale Regulation, for the pre-sale of a commodity property, the developer must sign a contract on the pre-sale of the commodity property with the purchaser. The developer must, within 30 days of signing the contract, apply for registration and record of the contract for pre-sale of commodity property at the relevant departments of the county-level governments. Property administrative departments are required to use network information technology to gradually implement a web-based registration of pre-sale contracts.

On May 9, 2005, the General Office State Council issued the Circular on Forwarding the Opinion of MOHURD and Other Department on Doing Well on Stabilizing Residential Property Prices (國務院辦公廳轉發建設部等部門關於做好穩定住房價格工作的意見的通知) which provides the following with respect to commodity property pre-sales and sales:

- The purchaser of a pre-sold commodity property is prohibited from transferring such property that is still under construction. Before a pre-sold commodity property is completed and delivered and the purchaser obtains the individual property ownership certificate, the property administrative department must not give effect to any transfer of the commodity property. If there is discrepancy between the name of the applicant for property ownership and the name of the purchaser in the sales contract, the property ownership registration administration must not record the application of property ownership; and
- A real name identification system must be applied to house purchase and an immediate record filing network system for pre-sale contracts of commodity buildings must be established.

On April 13, 2010, MOHURD issued the Notice on Further Enhancing the Supervision of the Real Estate Market and Perfecting the Pre-sale System of Commodity Houses (關於進一步加強房地產市場監管完善商品住房預售制度的有關問題的通知). Pursuant to the notice, without the pre-sale approval, the commodity properties are not permitted to be pre-sold and the real estate developers are not allowed to charge the buyer any deposit or pre-payment or payment of the similar nature. In addition, the notice urges local governments to enact regulations on sale of completed commodity properties in light of the local conditions, and encourages property developers to engage in the practice of selling completed commodity properties.

Pursuant to the Administration of sale of commodity properties (商品房銷售管理辦法) promulgated by the Ministry of Construction on April 4, 2001 which became effective on June 1, 2001, a property developer shall not sell uncompleted commercial properties through after-sale lease guarantee or by any such means in covert forms. After-sale lease guarantee stipulated in the aforementioned regulatory measures refers to that a property developer sells commodity houses by making commitment to lease back or assist buyers in renting out commercial properties within a certain period after sale. A property developer may not sell commercial properties by means of cost-returned sale or any such means in disguised forms. The cost-returned sale in these measures refers to an arrangement under which a property developer sells commercial properties and refunds periodically to the purchaser certain portions of the sales proceeds.

On March 16, 2011, the NDRC promulgated the Regulations on Clearly Marking Price in the Sale of Commodity Houses (商品房屋銷售明碼標價規定), according to which the sale of commodity housing shall mark prices on a per unit basis, and show to the public the collection of handling fees and property management charges. A commodity house operator shall not charge any additional fees other than those clearly marked during the property sale. After the price of a commodity house is clearly marked, the developer may reduce the price or provide discounts, however, any increase in price shall be re-filed with the competent authority for record. These regulations also apply to the selling of second hand property by real estate agents.

According to the Circular on Further Regulating Operations of Real Estate Developers to Safeguard the Real Estate Market Order (關於進一步規範房地產開發企業經營行為維護房地產市場秩序的通知) promulgated by MOHURD on October 10, 2016, real estate developers conducting improper operations will be subject to investigation and punishment according to the law. Improper operations include releasing and spreading false housing information and advertisements, maliciously pushing higher and artificially inflating housing prices through fabricating or spreading information on rising housing price, and other operations.

LEASING OF BUILDINGS

The Measures for Administration of Lease of Commodity Housing (商品房屋租賃管理辦法) promulgated by the MOHURD on December 1, 2010 and implemented on February 1, 2011, requires parties to a leasehold arrangement of a property shall register the leasing agreement with property administrative authorities within 30 days after entering into such leasing agreement under local government at the city or county level where the property is situated. In addition, enterprise may be imposed a fine of RMB1,000 to RMB10,000 and individuals of RMB1,000 or less if they do not register leasing agreement within time limit required by competent authorities.

MORTGAGE OF REAL ESTATE

Under the Urban Real Estate Law, the Guarantee Security Law of the People's Republic of China (中華人民共和國擔保法) promulgated by the NPC on June 30, 1995 and implemented on October 1, 1995, when a mortgage is created on a property legally obtained, such mortgage must be simultaneously created on the land use rights of the land on which the property is situated. The land use rights of state-owned lands acquired through means of grant, when being mortgaged, the properties on the land must also be mortgaged at the same time. The mortgager and the mortgagee must sign a mortgage contract in writing. According to Measures on the Administration of Mortgage

of Urban Real Estate (城市房地產抵押管理辦法) promulgated by the Ministry of Construction of PRC on August 15, 2001, within 30 days after a property mortgage contract is signed, the parties to the mortgage must register the mortgage with the property administrative authority at the location where the property is situated. A property mortgage contract will become effective on the date of registration of the mortgage. If a mortgage is created on the property in respect of which a building ownership certificate has been obtained, the registration authority must make an entry under the “third party rights” item on the original building ownership certificate and then issue a certificate of third party rights to the mortgagee. If a mortgage is created on the commodity property put to pre-sale or under construction, the registration authority will record the details on the mortgage contract. If construction of a property is completed during the term of a mortgage, the parties involved must re-register the mortgage of the property after issuance of the certificates evidencing the ownership of the property.

The Property Rights Law further widens the scope of assets that can be mortgaged, allowing for any asset associated with property rights to be mortgaged as collateral unless a specific prohibition under another law or regulation applies.

LOAN FOR REAL ESTATE

The PBOC issued the Circular on Further Strengthening the Management of Loans for Property Business (關於進一步加強房地產信貸業務管理的通知) on June 5, 2003 to specify the requirements for banks to provide loans for the purposes of residential development, individual home mortgage and individual commodity properties as follows:

- The property loan by commercial banks to property enterprises must be granted only by the item of property development rather than cash flow loan item or other loan item. Any kind of loan cannot be granted for the projects which do not have land-use rights certificates, construction land planning permits, construction works planning permits and construction permits;
- Property loans may be granted to property enterprises who are qualified for property development, rank high in credibility and have no overdue payment for construction. Such loans must be given in full support of residential housing projects which conform to the purchasing capacity of families with medium-to-low income, and must be properly restricted where projects involve building properties of large size and/or cover large area, such as luxury commodity houses and villas. For property enterprises with commodity houses of high vacancy rate and debt ratio, strict approval procedures must be applied to their new property development loans and their activities must also be subject to close monitoring;
- Commercial banks may not grant loans to property developers to pay off land premium;
- Commercial banks may only provide housing loans to individual buyers when the main structural buildings have been topped out. When a borrower applies for individual home loans for his first residential unit, the first installment remains to be 20%. In respect of his loan application for additional purchase of residential unit(s), the percentage of the first installment must be increased; and
- When a borrower applies for a mortgage loan for an individual commercial use building, the mortgage ratio may not be more than 60%. In addition, the term of loan may not be more than 10 years and the commodity building must be duly completed and accepted after the relevant governmental inspection.

The first installment requirement was subsequently increased to 30% of the property price for residential units with a unit floor area of 90 sq.m. or more, effective on March 26, 2005. See “— Measures on Stabilizing Housing Price” below.

In a Circular on Facilitating the Continuously Healthy Development of Property Market (關於促進房地產市場持續健康發展的通知) issued by the State Council in August 2003, a series of measures were adopted by the government to control the property market. They included, among others, strengthening the construction and management of low-cost affordable houses, increasing the supply of ordinary commodity houses and controlling the construction of high quality commodity houses. Besides, the government also staged a series of measures on the lending for residential development. They included, among others, strengthening efforts in housing provident fund collection and the granting of loans, improving the guarantee mechanism of individual home loans and strengthening the monitoring over property loans. It is expected that the circular will have a positive effect on the development of the PRC property market in the long run by facilitating a continuously healthy growth of the property market in China.

Pursuant to the Guidance on Risk Management of Property Loans of Commercial Banks (商業銀行房地產貸款風險管理指引) issued by the CBRC on August 30, 2004, any property developer applying for property development loans must have at least 35% of capital required for the development.

According to the Notice of the PBOC on the Adjustment of Commercial Bank Housing Credit Policies and the Interest Rate of Excess Reserve Deposit (中國人民銀行關於調整商業銀行住房信貸政策和超額存款準備金存款利率的通知), promulgated by the PBOC on March 16, 2005, from March 17, 2005, in the cities and areas where the price of houses grows too quickly, the first installment of individual home loans increases from 20% to 30%. The commercial banks can independently determine the specific cities or areas under such adjustment according to special situations in different cities or areas.

In September 2007, the PBOC and the CBRC promulgated a Circular on Strengthening the Administration of Commercial Real Estate Credit Loans (關於加強商業性房地產信貸管理的通知). The circular aims to tighten the control over real-estate loans from commercial banks to prevent excessive credit granting. The measures adopted include:

- for a commercial property buyer, (i) increasing the minimum amount of down payment to 50% of the purchase price of the underlying property, (ii) increasing the minimum mortgage loan interest rate to 110% of the relevant PBOC benchmark lending interest rate, (iii) limiting the terms of such bank loans to no more than 10 years, although the commercial banks are allowed flexibility based on its risk assessment;
- for a purchaser of commercial/residential dual-purpose properties, increasing the minimum amount of down payment to 45% of the purchase price of the underlying property, with the other terms to be decided by reference to commercial properties;
- prohibiting commercial banks from providing loans to real-estate developers who have been found by relevant government authorities to be hoarding land and properties;
- prohibiting commercial banks from lending to property developers solely for the payment of land premiums; and
- commercial properties purchased by loans must have been completed and passed completion acceptance inspection.

On December 5, 2007, PBOC and CBRC jointly issued the Supplemental Circular on Strengthening the Management of Commercial Real-estate Credit Loans (關於加強商業性房地產信貸管理的補充通知), which clarifies that the times of property mortgage loans should be calculated on a family basis, including the borrower and his spouse and minor child.

On October 22, 2008, PBOC promulgated the Notice on Several Issues regarding the Expansion of Downward Floating Interest Rate for Commercial Individual Housing Loans (關於擴大商業性個人住房貸款利率下浮幅度等有關問題的通知) which provides that, as of October 27, 2008, the ratio of down payments will be modified. The minimum interest rate for commercial individual housing loans will be 70% of the benchmark loan interest rate and the minimum down payment ratio will be adjusted to 20%. Related matters are as follows:

- Loan interest rate and down payment ratio granted by the financial institutions to their clients shall be determined based on the following factors whether or not it is the first time for the borrower to buy the house, whether or not the house is used for self occupancy, whether or not the house type and GFA conform to an ordinary residential house, and other risk factors such as the borrower's credit record and repayment capacity.
- Financial institutions may provide preferential treatments on loan interest rate and down payment ratio to residents for their first purchase of ordinary self-occupied houses and improved ordinary self-occupied houses. For non-self-occupied houses and non-ordinary residential houses, financial institutions may properly raise the loan conditions.
- As to commercial individual housing loans granted, financial institutions shall determine the interest rate for the outstanding portion thereof, in accordance with Section 1 of this notice, on the basis of reasonable assessment of loan risks and according to the original loan contracts. The down payment ratio under the original loan contracts shall remain effective.
- The policy that the borrower's monthly expenditure on repayment of housing loans shall not exceed 50% of his/her monthly income remains unchanged.

The Notice on Promoting Economic Use of Land through Finance (關於金融促進節約集約用地的通知) issued on July 29, 2008, emphasizes that the financial institutions should tighten their financing for construction projects, municipal infrastructures and industrial land use projects, rural collective construction land use projects, and commercial real estate projects. The commercial banks are prohibited from granting loans to property developers for payment of land premium and to the property projects such as the followings:

- construction projects that fall into the category of prohibited land use projects;
- property development projects on land earmarked for use as rural collective construction land; and
- property development projects where the relevant land has been idle for two years or more.

On September 29, 2010, PBOC and CBRC jointly issued the Notice on Relevant Issues regarding the Improvement of Differential Mortgage Loan Policies (關於完善差別化住房信貸政策有關問題的通知), according to which, the minimum down-payment has been raised to 30% of or all first home purchases, and commercial banks throughout China are required to suspend mortgage loans for purchases of a customer's third or additional residential property. For a mortgage on the second residential property, the down-payment must not be less than 50% of the purchase price and the interest rates must not be less than 1.1 times the base rate. All banks are prohibited from lending for the purposes of new development projects by property companies that have a record of speculating on idle land, changing the land use and nature, delaying development time, manipulating market prices or performing other non-compliant conducts.

On November 2 2010, the Ministry of Finance, the MOHURD, the CBRC and the PBOC jointly issued the Notice on Regulations of Policies Concerning Personal Housing Provident Fund Loan (關於規範住房公積金個人住房貸款政策有關問題的通知), which provides that where personal housing provident fund loan is used to buy the first ordinary self-use house and the GFA is no more than 90

sq.m., the down-payment proportion shall not be lower than 20%; where the GFA is more than 90 sq.m., the down-payment proportion shall not be lower than 30%. On January 11, 2011, the State Council issued the Notice Concerning Further Strengthening the Macroeconomic Control of the Real Property Market (關於進一步做好房地產市場調控工作有關問題的通知), according to which, the minimum down payment is raised to 60% for second-house purchases with the minimum lending interest rate at 110% of the benchmark rate.

On February 26, 2013, the General Office of the State Council promulgated the Notice to Further Enhance the Regulation and Control of the Real Estate Market (關於繼續做好房地產市場調控工作的通知), which provides, among other things, that in cities where the housing prices are increasing at an excessively high rate, the local counterparts of the PBOC may further increase down payment ratio and interest rates for loans to purchase second residential properties in accordance with the price control policies and targets of the corresponding local governments.

On September 29, 2014, the PBOC and the CBRC jointly issued the Notice on Further Improving Financial Services for Residential Property (關於進一步做好住房金融服務工作的通知), which stipulates that (i) the minimum mortgage loan interest rate for first-time purchasers of residential property is 70% of the benchmark lending interest rate; (ii) where a household that owns a residential property and has paid off its existing mortgage loan applies for a new mortgage loan to purchase another residential property to improve living conditions, the bank may apply the aforesaid mortgage loan policy for first-time purchasers of residential property; and (iii) in cities that have lifted restrictions on the purchase of residential property by residents or those that have not imposed such restrictions, when a household that owns two residential properties or more and has paid off its existing mortgage loans applies for a new mortgage loan to purchase another residential property, the bank is required to assess the credit profile of the borrower, taking into consideration the solvency and credit standing of the borrower and other factors, to decide the down payment ratio and loan interest rate. In view of the local urbanization plan, banks may provide mortgage loans to non-local residents that meet the conditions required by the related policies.

On March 30, 2015, the PBOC, the CBRC and the MOHURD jointly issued the Notice Concerning the Issues of the Policy of Personal Housing Loan (關於個人住房貸款政策有關問題的通知). The notice lowers the minimum down payment to 40% of the property price for households that own a residential property and have not paid off their existing mortgage loan applying for a new mortgage loan to buy a second residential property to improve its living conditions.

On August 27, 2015, the MOHURD, the Ministry of Finance and the PBOC jointly issued the Notice on the Adjustment of the Rate of the Minimum Down Payment for Personal Housing Loans from Housing Provident Fund (關於調整住房公積金個人住房貸款購房最低首付款比例的通知). The notice lowers the minimum down payment rate payable by households from 30% to 20% when such households, which own a residential property and have settled the housing loans, apply for loans from the housing provident fund for a second residential property to improve living conditions.

On February 1, 2016, the PBOC and CBRC jointly issued the Notice on the Adjustment of Individual Housing Loans Policies (關於調整個人住房貸款政策有關問題的通知). The notice provides that, in cities where restriction on the purchase of residential property is not imposed, the minimum down payment is 25% of the property price for a household applying for personal housing commercial loans to purchase its first ordinary residential property, which may be further decreased by 5% by local authorities. For existing residential property household owners which have not fully repaid the previous loan and are obtaining further personal housing commercial loan to purchase an additional ordinary residential property for the purpose of improving living conditions, the minimum down payment ratio shall be not less than 30%.

REAL ESTATE MANAGEMENT

According to the Regulation on Property Management (物業管理條例) enacted by the State Council on June 8, 2003, effective September 1, 2003, and as amended on August 26, 2007 and on February 6, 2016, the government implements a qualification scheme system in monitoring the property service enterprises. Under the Measures for the Administration of Qualifications of Property Service Enterprises (物業服務企業資質管理辦法) promulgated by the MOHURD in March 2004 and amended in November 2007, a property service enterprise must apply for assessment of its qualification by the relevant qualification approval authorities. An enterprise which passes such a qualification assessment will be issued a qualification certificate. No enterprise may engage in property service without completion of such qualification assessment conducted by the relevant government authorities with a qualification certificate obtained.

According to the above MOHURD measures, the qualification of a property service enterprise is classified into three classes. Property service enterprises with class one qualification may undertake various real estate management projects. Property service enterprises with class two qualification may undertake the property management business of residential projects of less than 300,000 sq.m. and the non-residential projects of less than 80,000 sq.m. Property service enterprises with class three qualifications may undertake the property management business of residential projects of less than 200,000 sq.m. and non-residential projects under 50,000 sq.m. MOHURD is responsible for the issuance and administration of class one qualification certificates. The MOHURD authorities at provincial level governments are responsible for the issuance and administration of class two qualification certificates. Designated MOHURD or similar authorities at lower governments are charged with the issuance and administration of class three qualification certificates.

Qualifications of property service enterprises are subject to inspections on an annual basis. Such annual inspections on the property service enterprises of varied classes of qualifications are conducted by the corresponding MOHURD authorities with jurisdiction of initial qualification examination and approval.

In accordance with the above-mentioned Regulation on Property Management and the Property Rights Law, owners in a property project may engage or dismiss its property management company with the consent of more than half of the owners who in the aggregate hold more than 50% of the total non-communal area of the project.

INSURANCE OF A PROPERTY PROJECT

There are no mandatory provisions under the PRC laws, regulations and government rules which require a real estate developer to take out insurance policies for its real estate developments.

MEASURES ON STABILIZING HOUSING PRICE

The General Office of the State Council promulgated a Circular on Stabilizing Housing Price (關於切實穩定住房價格的通知) in March 2005, introducing measures to be taken to restrain the housing price from increasing too fast and to promote a stable development of the real estate market. In April 2005, the Ministry of Construction, NDRC, the MOF, the MLR, the PBOC, the SAT and the CBRC jointly issued the Opinions on Stabilizing Housing Prices (關於做好穩定住房價格工作的意見) with the following guidance:

- where the housing price is growing too fast, while the supply of ordinary commodity houses at medium or low prices and low-cost affordable houses is insufficient, the housing construction should mainly involve projects of ordinary commodity houses at medium or low prices and low cost affordable houses. The construction of low-density, high quality houses should be strictly controlled. The relevant local government authorities are

authorized to impose conditions on planning and design such as building height, plot ratio and green space and to impose such requirements as sale price, type and GFA as preconditions on land assignment. The local governments are also required to strengthen their supervision of real estate developments in their jurisdiction.

- Where the price of land for residential use and the price for residential housing are growing too fast, the proportion of land supply for residential use to the total land supply should be appropriately raised, and the land supply for the construction of ordinary commodity houses at medium or low prices and low-cost affordable houses should be especially increased. Land supply for villa construction should continue to be suspended, and land supply for high quality housing property construction should be strictly restricted.
- Commencing from June 1, 2005, a business tax upon transfer of a residential house by an individual within two years from his/her purchase will be levied on the gain from such sale. For an individual to transfer an ordinary residential house after two years from his/her purchase, the business tax will be exempted. For an individual to transfer a property other than an ordinary residential house after two years from his/her purchase, the business tax will be levied on the difference between the price of such sale and the original purchase price.
- Ordinary residential houses with medium or small GFAs and at medium or low prices may be granted preferential treatment such as planning permits, land supply, credit and taxation. Houses enjoying these preferential policies must satisfy all the following conditions in principle: the plot ratio is above 1.0, the GFA of one single unit is less than 120 square meters, and the actual transfer price is lower than 120% of the average transfer price of comparable houses at comparable locations. The local governments at the provincial level may, based on their actual local circumstances, formulate specific standards for ordinary residential houses that may enjoy the preferential policies.
- Transfer of uncompleted commodity properties by any pre-sale purchaser is forbidden.

In addition, purchasers are required to buy properties in their real names. Any commodity property pre-sale contract must also be filled with the relevant government agencies electronically immediately after its execution.

On May 24, 2006, the General Office of the State Council issued the Notice on Forwarding the Opinions of the Ministry of Construction and Other Departments on Adjusting the Housing Supply Structure and Stabilizing the Housing Prices (國務院辦公廳轉發建設部等部門關於調整住房供應結構穩定住房價格意見的通知). The regulations on the property credit of this are as follows:

- Strictly impose credit conditions on property development. In order to suppress property development enterprises from storing up land housing resources by use of bank loans, commercial banks shall not provide loans to those property enterprises that fail to meet loan conditions, for example, having a project capital less than 35%. For property development enterprises that have much idle land and vacant commodity properties, the commercial banks shall, in light of the principle of prudential operations, be stricter in controlling the renewal of loans or any form of revolving credit. The commercial banks shall not accept any commodity property that has been idle for more than three years as collateral for loans; and
- From June 1, 2006, the proportion of initial payment of individual housing mortgage loans shall not be lower than 30%. However, considering the demands for housing by the medium and low-income population, the purchase of self-used housing with loans with gross floor area no more than 90 square meters is still subject to the provisions of the initial payment of housing at 20%.

In December 2008, the State Council issued the Opinions on Promoting the Healthy Development of Real Estate Market (關於促進房地產市場健康發展的若干意見). The opinion provides that in order to expand domestic demand and encourage purchase of ordinary residential housing, residents who purchase ordinary self-occupied housing for the first-time by borrowing a mortgage loan must enjoy preferential policies in relation to loan interest rates and down payment. For residents who have already borrowed a mortgage loan and purchased self-occupied housing for the first time, if the GFA per person of that first housing is lower than the local average, such residents may still enjoy the preferential policies in relation to loan interest rates and down payment when they purchase a second self-occupied house. For any other application on mortgage loans for purchasing a second or subsequent housing unit, the interest rate must be determined by the commercial banks based on the benchmark interest rate and the banks' risk assessments.

On January 7, 2010, the State Council issued a Circular on Facilitating the Stable and Healthy Development of Property Market (關於促進房地產市場平穩健康發展的通知), which adopted a series of measures to strengthen and improve the regulation of the property market, stabilize market expectation and facilitate the stable and healthy development of the property market. These include, among others, measures to increase the supply of affordable housing and ordinary commodity housing, provide guidance for the purchase of property, restrain speculation of properties, and strengthen risk prevention and market supervision. Additionally, it explicitly requires a family (including a borrower, his or her spouse and children under 18), who have already purchased a residence through mortgage financing and have applied to purchase a second or more residences through mortgage financing, to pay a minimum down payment of 40% of the purchase price.

In April 2010, the State Council issued the Notice on Resolutely Curbing the Soaring of Housing Prices in Some Cities (關於堅決遏制部分城市房價過快上漲的通知), which increases (i) the amount of down payment to 30% of the property price for the purchase of the first property over 90 sq. m.; (ii) the amount of down payment to 50% of the property price for the purchase of the second property and the mortgage interest rate to be no less than 1.1 times the benchmark rate in China and (iii) the amount of down payment and the mortgage interest rate for additional properties significantly as determined by the banks in accordance with their risk management policies.

On September 29, 2010, the MOF, the SAT and MOHURD jointly issued the Notice on Adjustments to Deed Tax and Individual Income Tax on Real Estate Transactions (關於調整房地產交易環節契稅個人所得稅優惠政策的通知), according to which, the deed tax will be reduced to 50% on the purchase of an ordinary residence for a family (including the purchaser, his/her spouse and children under 18) purchasing their first residence that is also the only housing belonging to the family; in such a case, if the unit floor area is less than 90 sq.m., the deed tax will be at 1%. Purchaser of a residence within one year after his/her sale of former residence will not enjoy the same individual income tax exemption.

On January 26, 2011, the General Office of the State Council issued the Notice on Further Strengthening Regulation and Control of Real Property Markets (關於進一步做好房地產市場調控工作有關問題的通知) requiring, among other restrictive measures: (i) a minimum down payment of at least 60% of the total purchase price with a minimum mortgage lending interest rate of 110% of the benchmark rate published by PBOC for the purchase of a second residential property; and (ii) in municipalities directly under the central government, cities listed on state plans, provincial capitals, and cities where the housing prices are overly high or increasing at an excessively high rate (the "Specified Cities"), local residents (including their spouses and minor children) with two or more residential properties, non-local residents with one or more residential properties and non-local residents that are unable to provide documentation certifying payment of local tax or social security for a specified time period, are not permitted to purchase any (further) residential properties located in the Specified Cities.

In connection with the aforesaid notices issued by the State Council, various municipal governments where we have been developing real estate projects have promulgated measures to further control the property markets in their respective cities which include:

Nanchang

On January 20, 2011, the Nanchang municipal government issued the Notice on the Further Implementation of the Supplemental Opinions on General Real Estate Control Policies and Help the Stable and Health Growth of the Real Estate Market (關於進一步貫徹落實國家宏觀調控政策促進房地產市場平穩健康有序發展的補充意見的通知), under which each household is allowed to purchase only one new residential properties in the five downtown areas of the city since February 1, 2011.

On February 20, 2011, Nanchang municipal government further issued Opinions on Nanchang Municipal's Implementation of State Counsel's Notice on Further Conduct Real Estate Market Control Work (南昌市貫徹落實國務院辦公廳關於進一步做好房地產市場調控工作有關問題的意見), under which the minimum down payment in respect of mortgage loans on purchase of the second residential properties is 60% of the purchase price and the applicable mortgage rate must be at least 1.1 times the relevant benchmark lending rate. In addition, properties are not allow to sell to the Nanchang resident households who have already purchased two or more residential properties or non-Nanchang resident households who have purchased one or more residential properties or non-Nanchang resident households who are not able to provide a local tax payment certificate or social security certificate for more than one year.

Jinan

On January 21, 2011, Jinan municipal government issued the Notice on Further Implementation of the Real Estate Control Policies and Help the Stable and Health Growth of the Real Estate Market (關於進一步貫徹落實房地產調控政策促進房地產市場健康平穩發展的通知), under which the minimum down payment in respect of mortgage loans on purchase of the residential properties is 30% of the purchase price. For the resident households who purchase the second residential properties, the minimum down payment in respect of mortgage loans increased to 50% of the purchase price and the applicable mortgage rate must be at least 1.1 times the relevant benchmark lending rate. In addition, each Jinan or non-Jinan resident household is allowed to purchase only one new residential property in the seven downtown areas of the Jinan city until December 31, 2011.

On February 17, 2011, the General Office of Shandong Province government issued the Notice on Implementation of the Guo Ban Fa [2011] No.1 and Further Improving and Strengthening the Real Estate Control Policies (關於貫徹國辦發[2011]1號文件進一步改進和加強房地產市場調控的通知). Pursuant to the Notice, in principle, no properties are not allowed to sell to the Jinan resident households who have already purchased two or more residential properties or non-Jinan resident households who have purchased one or more residential properties or non-Jinan resident households who are not able to provide a local tax payment certificate or social security certificate for more than one year.

Tianjin

On February 18, 2011, the General Office of Tianjin municipal government issued the Notice on Implementation of the Spirit of the Document of the General Office of the State Council and Further Carrying Out Well the Real Estate Control Policies In Our City (關於貫徹國務院辦公廳文件精神進一步做好我市房地產市場調控工作實施意見的通知). Pursuant to the Notice, the minimum down payment in respect of mortgage loans on purchase of the second residential properties is 60% of the purchase price and the applicable mortgage rate must be at least 1.1 times the relevant benchmark lending rate. Moreover, the Tianjin resident households who have already purchased one residential property, non-Tianjin residents who are able to provide one year's tax payment and social security payment are allowed to purchase only one residential property. No properties are not allow to sell to

the Tianjin resident households who have already purchased two or more residential properties or non-Tianjin resident households who have purchased one or more residential properties or non-Tianjin resident households who are not able to provide a local tax payment certificate or social security certificate for more than one year.

Quanzhou

On March 25, 2011, the Quanzhou municipal government office issued the Notice on Implementation Opinions of Further Carrying Out Well the Real Estate Control Work (關於進一步做好房地產市場調控工作的實施意見), pursuant to which, the minimum down payment in respect of mortgage loans on purchase of the second residential properties is 60% of the purchase price and the applicable mortgage rate must be at least 1.1 times the relevant benchmark lending rate, the minimum down payment in respect of housing provident fund mortgage loans on purchase of the second residential properties is 50% of the purchase price and the applicable mortgage rate must be at least 1.1 times the relevant benchmark lending rate.

Shenzhen

Pursuant to the Circular of the Office of Shenzhen People's Government on Further Improvement of Control over Our Real Estate Market to Guarantee the Annual Target of Controlling New Housing Price (深圳市人民政府辦公廳關於進一步做好我市房地產市場調控工作確保年度新建房價控制目標的通知) (Shen Fu Ban [2011] No.30) promulgated and implemented by the Shenzhen municipal government on March 29, 2011, the tax payment proof provided by any household without a local registered residence of Shenzhen at the time of home purchase must fulfill the condition of continuous payment in the recent 12 months or more (excluding delayed payment). For the social insurance payment proof provided by any household without a local registered residence at the time of home purchase, it must satisfy one of the following conditions: (i) the continuous payment of pension and medical insurance in the recent 12 months or more; (ii) the continuous payment of pension and work injury insurance in the recent 12 months or more; or (iii) the continuous payment of medical insurance and work injury insurance in the recent 12 months or more.

On October 31, 2013, the Shenzhen Central Sub-branch of the PBOC promulgated the Notice of Adjusting the Differentiated Credit Extension Policies Based on Housing Types in Shenzhen City (關於調整深圳市差別化住房信貸政策的通知), which raises the percentage of the minimum down payment for second-home purchases from 60% to 70% of the total purchase price from November 6, 2013. The notice also reiterates the relevant national differentiated credit extension policies based on housing types, namely the minimum down payment shall be 30% of the purchase price of the first commodity residential property, and commercial banks shall suspend granting mortgage loans to families that purchase a third or further residential property.

On January 27, 2011, the MOF and SAT jointly issued the Notice on Adjusting the Business Tax Policies upon Transferring Residential Properties by Individuals (關於調整個人住房轉讓營業稅政策的通知). Pursuant to the notice, business tax will be levied upon the transfer of a residential property by an individual within five years from the date of purchase and the business tax to be levied will be calculated based on the full amount of the sale proceeds. For an individual transferring a non-ordinary residential property after five years from the date of purchase, the business tax to be levied will be calculated based on the difference between the sale proceeds and the purchase price. An individual transferring an ordinary residential house after five years from the date of purchase will be exempt from the business tax.

The State Council General Office of the PRC promulgated the Notice on Further Regulation and Control of Real Estate Market (關於繼續做好房地產市場調控工作的通知) on February 26, 2013, introducing six policy measures to control the real estate market, including: (i) improving the accountability system for stabilization of house prices; (ii) strictly controlling over house purchase for speculation; (iii) increasing the supply of ordinary residential houses and the land supply for residential houses; (iv) accelerating the planning and construction of subsidized housing projects; (v) tightening the market regulations and forecast management; (vi) accelerating the establishment and optimization of the long-term mechanism for the healthy development of the real estate market.

The highlights of the measure for “control over house purchase for speculation” under the notice are as follows:

- Continuous enforcement of stringent restrictions on commodity housing purchases;
- For cities with soaring house prices, the local branches of the PBOC may further increase the proportion of down payments and interest rates for second-home buyers according to the price control targets and policy requirements for newly-constructed commodity housing of the local governments;
- The taxation department and the housing and urban-rural development department shall work closely together to impose person income tax on the sales of self-owned houses. A tax rate of 20% on the proceeds from the transfer shall be strictly levied upon verification of the value of the houses based on tax collection and housing registration data.

The notice also stipulated that if the number of small- and medium-sized units of a general commodity housing project accounted for more than 70% of the total units to be constructed, the banking financial institutions shall give priority to the financing need of the development of the project subject to credit conditions. In addition, the local authorities shall strengthen the pre-sale fund management and improve their regulatory systems. For overpriced pre-sale commodity housing projects in breach of the guidance of the housing and urban-rural development department or the regulations on pre-sale fund, the approval and issuance of the pre-sale permits may be suspended.

In connection with the aforesaid notices issued by the State Council on February 26, 2013, municipal governments of various cities where we have current property development projects have promulgated measures to further control the respective local real estate markets as follows:

Nanchang

On November 23, 2013, the General Office of Nanchang municipal government issued the Opinions on Further Conduct Real Estate Market Control Work (關於進一步做好房地產市場調控工作的意見), introducing six policy measures to control the real estate market of Nanchang City: (i) increasing the land supply for residential houses; (ii) accelerating the construction of ordinary residential houses to ensure effective supply; (iii) controlling unconscionable housing consumption; (iv) guiding the property developers to price their properties rationally; (v) promoting the construction of subsidized housing projects; and (vi) strengthening the regulation of the real estate market.

The specific measures for “controlling unconscionable housing consumption” under the opinions include:

- the Nanchang branches of the PBOC will further increase the proportion of down payments for second-home buyers according to price control targets and policy requirements of Nanchang City; and

- on the basis of continuous enforcement of stringent restrictions on commodity housing purchases, the period of a local tax payment certificate or social security certificate for non-Nanchang resident households who are permitted to purchase any residential properties is increased from one year to two years.

In December 2013, the Nanchang Central Sub-branch of the PBOC promulgated the Notice of Adjusting the Differentiated Credit Extension Policies Based on Housing Types in Nanchang City (關於調整南昌市差別化住房信貸政策的通知), which raises the percentage of the minimum down payment for second-home purchases from 60% to 70% of the total purchase price from December 15, 2013. The notice also reiterates the relevant national differentiated credit extension policies based on housing types, namely the minimum down payment shall be 30% of the purchase price of the first commodity residential property, and commercial banks shall suspend granting mortgage loans to families that purchase a third or further residential property.

In October 2016, the General Office of Nanchang municipal government issued the Several Opinions on Facilitating the Continuous Stable and Healthy Development of the Real Estate Market (關於促進我市房地產市場持續平穩發展的若干意見), which introduces a quota policy of housing purchase within specific region, sets the minimum down payment ratio in respect of commercial mortgage loans for the first home purchasers to 30%, and suspends the mortgage loans lending to non-resident households for second residential housing purchases or to any third residential housing purchasers.

In March 2017, the General Office of Nanchang municipal government issued the Notice of Further Improving Control over the Residential Real Estate Market (關於進一步做好房地產住宅市場調控工作的通知), which places further restrictions on the mortgage loans.

In September 2017, the General Office of Nanchang municipal government issued the Notice of Further Strengthening Control over the Residential Real Estate Market (關於進一步加強房地產住宅市場調控工作的通知), which provides that from September 23, 2017, all newly traded residential properties in the whole Nanchang city shall not be transferred again within 2 years after obtaining the property ownership certificate.

Tianjin

On March 31, 2013, the General Office of Tianjin municipal government issued the Implementation Opinions on Further Conducting Tianjin's Real Estate Market Control Work (關於進一步做好我市房地產市場調控工作的實施意見), which includes the implementation of opinions on strict control over purchase of properties for speculation and continuous enforcement of differential policy for housing credit. Specifically, the relevant governmental authority should strictly execute a preliminary examination and re-examination of the qualification for households purchasing their residence and the number of the properties the households have purchased. Moreover, banking and financial institutions should strictly execute the policies for second housing credit and continue to suspend the housing credit for purchasers of their third or more properties.

Hefei

On March 30, 2013, the Hefei municipal government issued the Notices on the Relevant Issues of the Price Control Target in 2013 for Newly-built Residential Housing in Hefei City (關於2013年度全市新建商品住房價格控制目標等有關問題的通知), which adopted a series of measures to control the residential housing price, including among others: (i) increasing the supply of ordinary residential houses and the land supply for residential houses; (ii) accelerating the construction of subsidized housing projects; (iii) strengthening the regulation of transaction order of residential housing; and (iv) strictly executing the policy of clear pricing for the sales of commodity housing.

In September 2016, the General Office of Hefei municipal government issued the Opinion of Further Improving Stable and Healthy Development of the Real Estate Market (關於進一步促進我市房地產市場平穩健康發展的實施意見), which restricts any non-resident households with one or more residential properties in Tianjin to purchase another residential property within specific areas of the city.

In March 2017, the General Office of Hefei municipal government issued the Opinion of Further Improving Control over the Real Estate Market (關於進一步深化我市房地產市場調控工作的實施意見), which blocks non-residential second home purchasers, residential third home purchasers, and any unmarried or divorced persons holding at least one residential property to purchase another residential property in Tianjin city except Binhai New District.

Shenzhen

The Notice of the General Office of People's Government of Shenzhen City on Continuing Adjustment and Control of Property Markets (深圳市人民政府辦公廳關於繼續做好房地產市場調控工作的通知) (Shen Fu Ban [2013] No.12) issued and implemented on March 28, 2013 sets forth specific measures for carrying out the Circular of the General Office of the State Council on the Further Strengthening the Macroeconomic Controls on the Real Estate Market (國務院辦公廳關於繼續做好房地產市場調控工作的通知), including among others: (i) strengthening the levy of tax on property; (ii) strictly implementing differentiated credit extension policies based on housing types; (iii) strictly enforcing the purchase restrictions imposed on commodity housing; and (iv) further strengthening the market regulation and expectation management of the property market.

In March 2016, the General Office of Shenzhen municipal government issued the Opinion of Perfecting Housing Security System and Improving the Stable and Healthy Development of Real Estate Market (關於完善住房保障體系促進房地產市場平穩健康發展的意見), pursuant to which the minimum down payment ratio for the mortgage loans is 30% for purchasers without any residential housing in Shenzhen and any record of residential property loans in the past two years, and the minimum down payment ratio for the mortgage loans is 40% for (1)purchasers having no residential housing in Shenzhen but with record of residential property loans in the past two years; or (2) purchasers having one residential property in Shenzhen without existing housing loans.

MAJOR TAXES APPLICABLE TO PROPERTY DEVELOPERS

Enterprise Income Tax

According to the EIT Law, a uniform income tax rate of 25% is currently applied to foreign-invested and wholly foreign owned enterprises in China as well as PRC enterprises. Furthermore, the EIT Law provides that an income tax rate of 20% will normally be applicable to dividends payable to non-PRC enterprise investors to the extent derived from sources within mainland China, unless there exists a tax treaty between China and the relevant jurisdictions in which such non-PRC enterprise shareholders reside, in which case the relevant tax may be reduced or exempted pursuant to the tax treaty. However, pursuant to the Implementation Rules on the Enterprise Income Tax (企業所得稅法實施條例) promulgated by the State Council on December 6, 2007 and effective on January 1, 2008, a reduced withholding tax rate of 10% will be applicable to any dividend payable by foreign-invested enterprises to their non-PRC enterprise investors. In addition, pursuant to the Arrangement between Mainland China and Hong Kong for the Avoidance of Double Taxation and Prevention of Fiscal Evasion with respect to Taxes on Income (內地和香港特別行政區關於對所得避免雙重徵稅和防止偷漏稅的安排) signed on August 21, 2006 and applicable in Hong Kong to income derived in any year of assessment commencing on or after April 1, 2007 and in mainland China to any year commencing on or after January 1, 2007, a company incorporated in Hong Kong will be subject to withholding income tax at a rate of 5% on dividends it receives from its PRC subsidiaries if it holds a 25% or more of equity interest in each such PRC subsidiary at the time of the distribution, or 10% if it holds less than a 25% equity interest in that subsidiary. The eligibility for the reduced treaty rate is subject to limitations.

In addition, under the EIT Law, enterprises established under the laws of jurisdictions outside China with their “*de facto* management bodies” located within mainland China may be considered PRC resident enterprises and therefore subject to PRC enterprise income tax at the rate of 25% on their worldwide income. The EIT Law provides that “*de facto* management body” of an enterprise is the organization that exercises substantial and overall management and control over the production, employees, books of accounts and properties of the enterprise.

The EIT Law also provides a five-year transition period starting from its effective date of January 1, 2008 for those enterprises which were established before the promulgation date of the EIT Law and which were entitled to a preferential lower income tax rate under the previously effective tax laws or regulations. The income tax rate of such enterprises will gradually transit to the uniform tax rate of 25% within the transition period. On December 26, 2007, the State Council issued the Circular on Implementing the Transitional Preferential Policies for the Enterprise Income Tax (關於實施企業所得稅過渡優惠政策的通知), under which, for enterprises established before March 16, 2007 and entitled to a preferential income tax rate of 15% under the effective tax laws or regulations prior to the promulgation date of the EIT Law, the transitional income tax rate should be 18%, 20%, 22%, 24% and 25% respectively in 2008, 2009, 2010, 2011 and 2012.

According to the Notice on the Prepayment of Enterprise Income Tax of the Real Estate Development Enterprises (關於房地產開發企業所得稅預繳問題的通知) issued by the SAT on April 11, 2008, effective on January 1, 2008 and amended on January 4, 2011, where a real estate development enterprise prepays the corporate income tax by quarter (or month) according to the current actual profit, for the incomes generated from the advance sale prior to the completion of such development products as the dwelling houses, commercial houses and other buildings, fixtures, supporting establishments etc., which are developed and built by the real estate development enterprise, the tax prepayment thereof must be paid by calculating the estimated profit, which is calculated by quarter (or month) according to the preset estimated profit rate and incorporated into the total profit, and it must be readjusted according to the actual profit after the development products are completed and the tax costs are settled.

On March 6, 2009, the SAT issued the Notice on the Measures Dealing with Income Tax of Enterprise Engaged in Real Estate Development (房地產開發經營業務企業所得稅處理辦法) effective on January 1, 2008, which specifically stipulates the rules regarding tax dealing cost of income, tax dealing of cost deduction, verification of calculated tax cost and tax dealing on certain item with respect to the real estate development enterprise according to the EIT Law and its implementation rules.

On August 24, 2009, the SAT issued the Notice Regarding the Publishing of the Administrative Measures for Non-residents to Enjoy the Treatment Under Taxation Treaties (Trial) (關於印發《非居民享受稅收協定待遇管理辦法(試行)》的通知), effective on October 1, 2009, and its supplemental regulation promulgated and effective on June 21, 2010, which provide that prior approvals from the relevant local tax authorities are required before a non-resident taxpayer may enjoy any benefits under the relevant taxation treaties.

On May 12, 2010, the SAT promulgated the Notice on the Confirmation of Completion Conditions for Development of Products by Property Development Enterprises (關於房地產開發企業開發產品完工條件確認問題的通知), which provides that a property will be deemed as completed when its delivery procedures (including move-in procedures) have commenced or when the property is in fact put in use. Property developers must conduct the settlement of cost in time and calculate the amount of corporate income tax for the current year.

Business Tax and Value Added Tax (“VAT”)

Pursuant to the Interim Regulations of the PRC on Business Tax (中華人民共和國營業稅暫行條例) promulgated by the State Council on December 13, 1993 and implemented on January 1, 1994 and as amended on November 10, 2008, and the Detailed Rules for the Implementation of the Interim Regulation of the PRC on Business Tax (中華人民共和國營業稅暫行條例實施細則) issued and implemented by the MOF on December 25, 1993 and as amended on December 15, 2008 and October 28, 2011, services in China are subject to business tax. Taxable services include sale of real property in China. The business tax rate is from 3% to 20% depending on the type of services provided. Sale of real properties and other improvements on the land attract a business tax at the rate of 5% of the turnover of the selling enterprise payable to the relevant local tax authorities.

On March 30, 2015, the MOF and the SAT jointly issued the Notice on Adjusting the Policy of Business Tax on Re-sale of Personal Residential Properties (關於調整個人住房轉讓營業稅政策的通知), under which business tax is imposed on (i) the full amount of the transfer price upon the transfer of any residential property by an individual owner within two years from the purchase of the residential property; (ii) the difference between the transfer price and the original purchase price upon the transfer of any non-ordinary residential property by an individual owner of more than five years from the purchase of the residential property. Business tax is exempted for ordinary residential properties if the transfer occurs after two years from the purchase of the residential property.

Pursuant to the Interim measures on the Management of Value Added Tax of Self-developed Real Estate Project by the Sale of Real Estate Developers (房地產開發企業銷售自行開發的房地產專案增值稅徵收管理暫行辦法) issued on March 31, 2016 and effective on May 1, 2016 by SAT, “self-development” means infrastructure facilities and building erected on the land with land use rights which are developed by a real estate development company (“taxpayer”). These measures are also applicable to a development completed by a taxpayer after such project is taken over. The applicable rate of VAT is 11%. Nevertheless, for taxpayer conducting old real estate projects and who have chosen to apply the simplified tax method, the simplified rate of 5% will be applied in calculating the prepaid VAT. Once the simplified tax method is chosen, it will be applicable for 36 months. “Old real estate projects” generally refer to real estate projects with commencement dates of construction stated in the construction permits prior to April 30, 2016.

Based on the Decision of the State Council to Repeal the Interim Regulation of the People’s Republic of China on Business Tax and Amend the Interim Regulation of the People’s Republic of China on Value-Added Tax, issued by the State Council on November 19, 2017, the Business Tax is no longer applicable, and the VAT rate would be 11% for taxpayers providing transportation, postal, basic telecommunications, construction, or immovable leasing services, selling immovable or transferring the rights to use land, among other things.

Land Appreciation Tax (“LAT”)

According to the requirements of the Provisional Regulations of the PRC on Land Appreciation Tax (中華人民共和國土地增值稅暫行條例) (the “Land Appreciation Tax Provisional Regulations”) which was promulgated by the State Council on December 13, 1993 and effected on January 1, 1994, and as amended on January 8, 2011 and the Detailed Implementation Rules on the Provisional Regulations of the PRC on Land Appreciation Tax (中華人民共和國土地增值稅暫行條例實施細則) (the “Land Appreciation Tax Detailed Implementation Rules”) which was promulgated by the MOF and came into effect on January 27, 1995, any appreciation gain from a transfer of property is subject to LAT. LAT must be charged at four levels of progressive rates: 30% for the appreciation amount not more than 50% of the sum of deductible items; 40% for the appreciation amount more than 50% but

not more than 100% of the sum of deductible items; 50% for the appreciation amount more than 100% but not more than 200% of the sum of deductible items; and 60% for the appreciation amount more than 200% of the sum of deductible items. The related deductible items aforesaid include the following:

- amount paid for obtaining the land use rights;
- costs and expenses for development of land;
- costs and expenses of new buildings and ancillary facilities, or estimated prices of old buildings and constructions;
- related tax payable for transfer of property; and
- other deductible items as specified by the MOF.

According to the requirements of the Land Appreciation Tax Provisional Regulations, the Land Appreciation Tax Detailed Implementation Rules and the Notice on the Levy and Exemption of Land Appreciation Tax for Development and Transfer Contracts Signed before January 1, 1994 (關於對1994年1月1日前簽訂開發及轉讓合同的房地產徵免土地增值稅的通知) issued by the MOF and the SAT on January 27, 1995, LAT shall be exempted under any of the following circumstances:

- taxpayers construct ordinary standard residents for sale (i.e. the residents built in accordance with the local standard for general civilian used residential properties. Deluxe apartments, villas, resorts etc. are not under the category of ordinary standard residence) and the appreciation amount does not exceed 20% of the sum of deductible items;
- property is taken back and repossessed according to laws due to the construction requirements of the state;
- due to redeployment of work or improvement of living standard, individuals transfer self-used residential property, in which they have been living for 5 years or more, subject to tax authorities' approval;
- transfers of real properties under property transfer contracts signed before January 1, 1994, regardless of when the properties are transferred;
- if the property development contracts were signed before January 1, 1994 or the project proposal has been approved and that capital was injected for development in accordance with the conditions agreed, the LAT shall be exempted if the properties are transferred within 5 years after January 1, 1994 for the first time. The date of signing the contract shall be the date of signing the Sale and Purchase Agreement. Particular properties projects which are approved by the government for the development of the whole lot of land and long-term development, of which the properties are transferred for the first time after the 5-year tax-free period, the tax-free period may be appropriately prolonged subject to the approval of the MOF and the SAT.

After the issuance of the Land Appreciation Tax Provisional Regulations and the Land Appreciation Tax Detailed Implementation Rules, due to the longer period for property development and transfer, many districts, while they were implementing the regulations and rules, did not force the property development enterprises to declare and pay the LAT. Therefore, the MOF, the SAT, Ministry of Construction and the MLR had separately and jointly issued several notices to restate the following: after the assignments are signed, the taxpayers should declare the tax to the local tax

authorities where the property is located, and pay LAT in accordance with the amount as calculated by the tax authority and the time as required. For those who fail to acquire proof of payment or exemption from LAT from the tax authorities, the property administration authority shall not process the relevant title change procedures, and shall not issue the property title certificate.

The SAT issued the Notice on Improvement of the Administration of the Collection of Land Appreciation Tax (關於認真做好土地增值稅徵收管理工作的通知) on July 10, 2002 to require local tax authorities to modify their management system of LAT collection and operational details, to formulate and implement a sound taxpaying declaration system for LAT, to modify the methods of prepayment for the pre-sale of properties. The notice also pointed out that either for the properties development contract which were signed before January 1, 1994 or where the project proposal has been approved and capital was injected for development, the privilege policy for LAT exemption for the properties that are transferred for the first time is expired, and such tax shall be levied again. This requirement is restated in the Notice on Strengthening of Administration of the Collection of Land

Appreciation Tax (關於加強土地增值稅管理工作的通知) and Notice of State on Further Strengthening of Administration Work in relation to the Collection of Land Appreciation Tax and Land Use Tax in Cities and Towns (關於進一步加強城鎮土地使用稅和土地增值稅徵收管理工作的通知) issued separately on August 2, 2004 and August 5, 2004 by the SAT. These two Notices also required that the system of tax declaration and tax sources registration in relation to the LAT should be further established and perfected.

On August 1, 2006, the local bureau of Shenzhen issued the Notice on Relevant Issues regarding Deductible Items for Land Appreciation Tax (關於土地增值稅扣除項目有關問題的通知), which mainly specifies the issues such as the deductible items for LAT and the tax payable for the sale of remaining units of properties.

On March 2, 2006, the MOF and the SAT issued the Notice on Several Matters on Land Appreciation Tax (關於土地增值稅若干問題的通知) to clarify the relevant issues regarding LAT as follows:

- Due to certain LAT exemption available to the sale of ordinary residential properties built by taxpayers and to the transfer of ordinary residential properties by individual owners, the notice sets out the standards for ordinary residential properties;
- The notice also provides that, where any developer develops ordinary residential properties as well as commercial properties, the land appreciation amount must be separately calculated and verified;
- As to the advance collection and settlement of LAT, the notice requires all local LAT collection departments to design their LAT prepayment rate in a scientific and reasonable manner, and to adjust it on a timely basis according to the appreciation of the property, the local market development and the specific property categories, such as ordinary residential properties, non-ordinary residential properties and commercial properties. The notice also require that LAT settlement be conducted upon the completion of a property project in a timely manner, with any overpayment refunded and underpayment made up;
- As to any LAT that has not been prepaid within the advance collection period, the overdue fines must be imposed and collected as of the day following the expiration of the prescribed advance collection period according to the relevant provisions of the LAT laws and regulations; and

- As to any property project that has been completed and in receipt of certificate of completion, and the saleable GFA of the project that has been transferred constitutes more than 85% of the total saleable GFA, the tax authorities may require the relevant taxpayer to complete the settlement of LAT on the transferred properties in proportion to the income generated from, and items of deduction relating to, the transferred properties, with the specific LAT settlement procedures to be provided by local tax authorities at provincial-level governments.

On December 28, 2006, the SAT issued the Notice on the Administration of the Settlement of Land Appreciation Tax of Property Development Enterprises (關於房地產開發企業土地增值稅清算管理有關問題的通知), which came into effect on February 1, 2007. Pursuant to the notice, a property developer must settle the LAT payment in full with the relevant tax authorities at the applicable LAT rates with respect to its property projects that have come to meet the LAT settlement criteria. For projects developed in stages, LAT must also be settled in stages. LAT must be settled if (i) the property project has been completed and fully sold; or (ii) the property developer has transferred the whole incomplete property project to another party; or (iii) the underlying land use rights with respect to a property project has been transferred. In addition, the relevant tax authorities may require the developer to settle the LAT if any one of the following criteria is met: (i) for completed property projects, the sold GFA represents more than 85% of total saleable GFA or, if such proportion is less than 85%, the remaining saleable GFA is subject to leasing arrangements or is used by the developer; (ii) the property project has not been completely sold for more than three years after obtaining the pre-sale permit or the certificate of completion; (iii) the developer is applying for cancellation of its tax registration without having settled the relevant LAT; and (iv) other situations stipulated by the local provincial tax authorities.

The notice also provides that, if a property developer has committed any of the following acts, the tax authorities are required to levy and collect LAT at a rate no lower than the LAT pre-payment rate of enterprises with a similar development scale and income level in the locality: (i) failure to maintain its accounting books required by the laws and regulations; (ii) destruction of its accounting books without authorization or failure to provide its tax information; (iii) its accounting books are not in proper order, with its supporting income and cost vouchers damaged and incomplete, so as to make it difficult to determine the sales revenue or the proper amount of deductible items; (iv) failure to complete the LAT settlement within the prescribed period, and such failure is not cured within the period required by the relevant tax authorities; or (v) the basis for tax calculation as submitted is obviously lower than supportable. Local tax authorities at the provincial level may formulate their implementation rules according to the notice and local circumstances.

On May 12, 2009, the SAT issued the Administrative Rules for the Settlement of Land Appreciation Tax (土地增值稅清算管理規程), which became effective on June 1, 2009. The rules reiterate the LAT settlement requirements, and further stipulate procedures for the examination and verification with respect to the LAT settlement to be followed by the tax authorities.

On May 19, 2010, the SAT promulgated the Notice on Issues Regarding Land Appreciation Tax Settlement (關於土地增值稅清算有關問題的通知), which provides further clarifications and guidelines on LAT settlement, revenue recognition, deductible expenses, timing of assessment and other related issues.

On May 25, 2010, the SAT issued the Notice on Strengthening the Collection Land Appreciation Tax (關於加強土地增值稅徵管工作的通知), which provides for a minimum LAT prepayment rate at 2% for provinces in eastern China region, 1.5% for provinces in the central and northeastern China regions, and 1% for provinces in the western China region. The notice also delegates to the local tax authorities to determine the applicable LAT prepayment rates based on the types of the properties in their respective regions.

On June 2, 2013, the SAT issued the Notice of the State Administration of Taxation on Further Improving the Collection of Land Value-added Taxes (關於進一步做好土地增值稅徵管工作的通知), which requires the local taxation authorities further strengthening administration on the collection of LAT, in particular, the administration on the settlement of LAT, strict examination of deductions and reduction of assessment and collection projects.

On November 10, 2016, the SAT issued the Announcement on the Several Provisions on the Collection of Land Appreciation Tax after the Replacement of Business Tax with VAT (關於營改增後土地增值稅若干徵管規定的公告), which clarified several issues concerning administration of collection of LAT after replacement of business tax with VAT, including confirmation of LAT taxable income, confirmation of LAT taxable income from any conduct deemed as the sale of a real estate property after the replacement of business tax with VAT, the deduction of taxes related to real estate transfer, calculation issues concerning the land VAT settlement, confirmation of invoices for building installation project expenses, and calculation of deductible items at the time of transfer of old houses.

Deed Tax

Pursuant to the Interim Regulations of the PRC on Deed Tax (中華人民共和國契稅暫行條例) promulgated by the State Council on July 7, 1997 and implemented on October 1, 1997, a transferee, whether an individual or otherwise, of the title to a piece of land or a building in China is obligated to pay deed tax. The rate of deed tax ranges from 3% to 5% to be determined by the governments at the provincial level and reported to the MOF and the SAT for the record.

According to the Reply Regarding the Clarification of Taxation Basis of Deed Tax in Relation to Transfer of State-Owned Land Use Rights (關於明確國有土地使用權出讓契稅計稅依據的批復) implemented by the SAT on October 27, 2009, for the transfer of state-owned land use rights, the taxation price of deed tax shall be the total economic interests paid by the transferee for obtaining the subject land use rights. For the state-owned land the use rights of which are obtained by way of tender, auction and invitation for bidding, the taxation basis of deed tax shall be the total price of the land deal without deducting the early-stage land development expenses of the early stage.

On September 29, 2010, the SAT, the Ministry of Finance and the MOHURD issued the Notice on Adjustments of the Deed Tax and Personal Income Tax Preferential Policies in Real Estate Transaction (關於調整房地產交易環節契稅個人所得稅優惠政策的通知), which provides that where an individual purchases a common house which is the sole house for the household (the family members include the purchaser, his/her spouse and minor child (children), same below) to live in, deed tax thereon shall be levied at a reduced half rate. Where an individual purchases a common house of 90 sq.m. or less, which is the sole house for the household to live in, the deed tax shall be reduced and levied at the rate of 1%. The tax authority shall inquire about the deed tax payment record of a taxpayer. In respect of individual purchase of common houses that fails to satisfy the above provisions, no preferential tax policies set out above may be enjoyed.

Urban Land Use Tax

Under the Supplementary Notice Concerning Imposition of Education Surcharge (關於教育費附加徵收問題的補充通知) issued by the State Council on October 12, 1994, the education surcharge is currently not applicable to foreign-invested enterprises.

According to the Circular Concerning Unification of Municipal Maintenance Tax and Education Surcharge for Foreign Investment and Domestic Enterprises and Individuals (關於統一內外資企業和個人城市維護建設稅和教育費附加制度的通知) issued by State Council on October 18, 2010, the education surcharge will be applicable to foreign-invested enterprises since December 1, 2010.

ENVIRONMENTAL PROTECTION

The laws and regulations governing the environmental protection for real estate developments in China include the PRC Environmental Protection Law (中華人民共和國環境保護法), the PRC Prevention and Control of Noise Pollution Law (中華人民共和國環境噪聲污染防治法), the PRC Environmental Impact Assessment Law (中華人民共和國環境影響評價法) and the Administrative Regulations on Environmental Protection for Development Projects (建設項目環境保護管理條例).

Pursuant to these laws and regulations, depending on the impact of the project on the environment, an environmental impact report, an environmental impact analysis table or an environmental impact registration form must be submitted by a developer before the relevant authorities grant approval for the commencement of construction of the real estate development. In addition, upon completion of the real estate development, the relevant environmental regulatory authorities will also inspect the property project to ensure compliance with the applicable environmental protection standards and regulations before the property project may be delivered to the purchasers.

LABOR PROTECTION AND SOCIAL INSURANCE

According to the Labor Law (勞動法), which was promulgated by the NPC on July 5, 1994 and amended on August 27, 2009, an employer shall develop and improve its rules and regulations to safeguard the rights of its workers. An employer shall develop and improve its labor safety and health system, stringently implement national protocols and standards on labor safety and health, conduct labor safety and health education for workers, guard against labor accidents and reduce occupational hazards. Labor safety and health facilities must comply with relevant national standards. An employer must provide workers with the necessary labor protection gear that complies with labor safety and health conditions stipulated under national regulations, as well as provide regular health checks for workers that are engaged in operations with occupational hazards. Laborers engaged in special operations shall have received specialized training and obtained the pertinent qualifications. An employer shall develop a vocational training system. Vocational training funds shall be set aside and used in accordance with national regulations and vocational training for workers shall be carried out systematically based on the actual conditions of the company.

The Law on Labor Contract (勞動合同法), which was promulgated by the NPC on June 29, 2007 and amended on December 28, 2012, and the Implementation Regulations on Labor Contract Law (勞動合同法實施條例) (Order No.535 of the State Council), which was promulgated on September 18, 2008 and became effective since the same day, regulate both parties through a labor contract, namely the employer and the employee, and contain specific provisions involving the terms of the labor contract. It is stipulated under the Law on Labor Contract and the Implementation Regulations on Labor Contract Law that a labor contract must be made in writing. An employer and an employee may enter into a fixed-term labor contract, an un-fixed term labor contract, or a labor contract that concludes upon the completion of certain work assignments, after reaching agreement upon due negotiations. An employer may legally terminate a labor contract and dismiss its employees after reaching agreement upon due negotiations with the employee or by fulfilling the statutory conditions. Pursuant to the Law on Labor Contract, labor contracts concluded prior to the enactment of the said law and subsisting within the validity period of the said law shall continue to be honored. With respect to a circumstance where a labor relationship has already been established but no formal contract has been made, a written labor contracts shall be entered into within one month from the effective date of the Law on Labor Contract law.

According to the Temporary Regulations on the Collection and Payment of Social Insurance Premium (社會保險費徵繳暫行條例), the Regulations on Work Injury Insurance (工傷保險條例), the Regulations on Unemployment Insurance (失業保險條例) and the Trial Measures on Employee Maternity Insurance of Enterprises (企業職工生育保險試行辦法), enterprises in the PRC shall provide benefit plans for their employees, which include basic pension insurance, unemployment insurance, maternity insurance, work injury insurance and basic medical insurance. An enterprise

must provide social insurance by processing social insurance registration with local social insurance agencies, and shall pay or withhold relevant social insurance premiums for or on behalf of employees. The Law on Social Insurance (社會保險法) (No.35 of the President), which was promulgated on October 28, 2010 has consolidated pertinent provisions for basic pension insurance, unemployment insurance, maternity insurance, work injury insurance and basic medical insurance, and has elaborated in detail the legal obligations and liabilities of employers who do not comply with relevant laws and regulations on social insurance.

According to the Regulations on the Administration of Housing Provident Fund (住房公積金管理條例), which was promulgated on April 3, 1999 and amended on March 24, 2002, housing provident fund contributions paid up in deposit by an individual employee and housing provident fund contributions paid up in deposit by his or her employer shall belong to the individual employee.

FOREIGN EXCHANGE CONTROLS

Under the PRC Foreign Currency Administration Rules (中華人民共和國外匯管理條例) promulgated in 1996 and revised in 1997 and as amended in 2008 and various regulations issued by SAFE and other relevant PRC government authorities, Renminbi is convertible into other currencies for the purpose of current account items, such as trade related receipts and payments and the payment interest and dividend. The foreign currency payments received under current account may be retained pursuant to the relevant regulations. Payments of current-account items may be remitted in foreign currencies without prior approval from the relevant SAFE authorities by complying with certain procedural requirements. The foreign currency receipts and remittances under current account should have a genuine and legitimate basis, and financial institutions processing such transactions must verify the authenticity of the relevant transaction documents and their consistency with the foreign currency receipts or remittances. However, to keep or convert any foreign currency payment under capital account requires pre-approval from the relevant SAFE authorities, unless specifically exempted under applicable regulations. If a regulatory pre-approval is not specifically required, payment of capital-account items may be remitted in foreign currency directly to financial institutions, provided that valid documentation is presented. Foreign exchange transactions involving foreign direct investment, foreign debts and outbound investment in securities and derivatives are subject to limitations and require approvals from the relevant SAFE authorities.

On October 21, 2005, SAFE issued Circular No. 75. According to Circular No. 75, a special purpose company refers to an offshore company established or indirect controlled by PRC residents for the special purpose of carrying out equity financing (including convertible debts financing) through their assets or equity interest in PRC domestic enterprises. Prior to establishing or assuming control of a special purpose company overseas, each PRC resident, whether a natural or legal person, must complete the overseas investment foreign exchange registration procedures with the relevant local SAFE branch. Circular No. 75 applies retroactively. These PRC residents must also amend the registration with the relevant SAFE branch in the following circumstances: (i) the PRC residents contribute the equity interests or assets of a domestic company into the special purpose company or engage in the overseas equity financing of the special purpose company after such contributions; (ii) there is a material change in the capital of the special purpose company. Under Circular 75 and relevant rules and regulations, failure to comply with the foreign exchange registration procedures may result in restrictions being imposed on the foreign exchange activities of the violator, including restrictions on the payment of dividends and other distributions to its offshore parent company, and may also subject the violators penalties under the relevant PRC foreign exchange administration regulations.

On July 4, 2014, Circular No. 75 was abolished and replaced by Circular No. 37. According to Circular No. 37, the scope for the special purpose company has been extended, referring to an offshore company established or indirectly controlled by PRC residents, whether a natural or legal person, for the purpose of investment and financing through the onshore or offshore assets and interests legally held by them. Prior to make capital contribution to the special purpose company, each PRC resident must complete the overseas investment foreign exchange registration procedures with the relevant local SAFE branch. It is also necessary to amend the registration with the relevant SAFE branch where there are changes in basic information of the registered special purpose company or other material changes such as increase or decrease in such individual PRC resident's capital, share transfer or swap, merger or split. Failure to comply with Circular No. 37 may subject the violators penalties under the PRC Foreign Exchange Administration Regulations (中華人民共和國外匯管理條例).

The notice on Regulating Issues Relevant to Administration of Foreign Exchange in Real Estate Market (關於規範房地產市場外匯管理有關問題的通知) jointly issued by SAFE and the MOHURD on September 1, 2006, provided: (i) where a FIREE fails to pay registered capital in full or to acquire a land use rights certificate or to make its capital funding for a development project amounting to 35% of the total investment to the project, SAFE authorities will not handle its foreign debt registration or approve its settlement of foreign exchange funds; (ii) where a foreign institution or individual fails to pay the transfer price in a lump sum with its/his own fund, SAFE authorities will not process the registration of foreign exchange proceeds from transfer of equities; (iii) the domestic and foreign investors of a FIREE may not enter into an agreement or undertaking that promises a fixed return in any form to any party, or SAFE authorities will not process the foreign exchange registration or registration modification for the FIREE, and (iv) the funds in the foreign exchange account in the name of a foreign investor in a domestic bank shall not be used for the property development or operation of the FIREE.

On August 29, 2008, SAFE issued the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Investment Enterprises (關於完善外商投資企業外匯資本金支付結匯管理有關業務操作問題的通知), or Circular 142. Pursuant to Circular 142, Renminbi amounts converted by a foreign-invested enterprise from its foreign exchange capital contribution may only be used for the activities within the approved business scope of such foreign-invested enterprise and may not be used for domestic equity investment or acquisition unless otherwise allowed by PRC laws or regulations.

On May 12, 2014, SAFE issued the Circular 29. According to Circular 29, the Provisions of Foreign Exchange Administration of Cross-Border Guarantees (跨境擔保外匯管理規定) (the "Cross-Border Guarantees Provisions") and Practice Guidance of Foreign Exchange Administration of Cross-Border Guarantees (跨境擔保外匯管理操作指引) (the "Cross-Border Guarantees Guidance") became effective on June 1, 2014, and 12 regulations and rules regarding the foreign guarantee regime in China were abolished at the same time. However, Measures for the Administration of Foreign Guarantees by Institutions within China (境內機構對外擔保管理辦法), which were promulgated by PBOC in 1996, will remain effective.

According to the Cross-Border Guarantees Provisions, cross-border guarantee covers the following three types of guarantee:

- Onshore guarantee for offshore debt ("內保外貸") where the guarantor is incorporated within China while both the debtor and the creditor are incorporated outside China.
- Offshore guarantee for onshore debts ("外保內貸") where the guarantor is incorporated outside China while both the debtor and the creditor are incorporated within China.
- Other forms of cross-border guarantees.

Subject to several limited situations requiring SAFE approval according to the Circular 29, the execution and performance of the guarantee contract for cross-border guarantee will not be subject to SAFE's prior approval. Instead, post-registration with SAFE will be the main administrative measure for the cross-border guarantee. In the case of onshore guarantee for offshore debt, the onshore guarantor shall register with SAFE within 15 working days upon execution of the guarantee contract, and shall register changes with SAFE within 15 working days upon certain amendments to the guarantee contract or to the key clauses in the underlying debt contract. In the case of offshore guarantee for onshore debt, the creditor must be an onshore financial institution and the debtor must be an onshore nonfinancial institution with guarantee target and form fulfilling legal requirements. There are also some restrictions on the use of the offshore loan backed up by onshore guarantee in the case of onshore guarantee for offshore debt, such as the debtor is not allowed to directly or indirectly transfer such offshore funds back to China by way of the arrangement of loan, equity investment or securities investment within China without SAFE's approval. Specific approval by SAFE is required if the debtor plans to use the offshore loan for any restricted purposes. After the guaranty obligation under the guarantee agreement has been performed by the offshore guarantor and before the onshore debtor has fully paid off the debt owed to the offshore guarantor, without SAFE's approval, the onshore debtor is not allowed to enter into a new agreement which is backed up by an offshore guarantee for such debtor's onshore debt; or, if the new offshore guarantee for such debtor's onshore debt has been entered into yet the funds have not been fully withdrawn by such an onshore debtor, such an onshore debtor shall be temporarily suspended the withdrawal of any funds under that loan agreement. Further, Circular 29 makes it clear that SAFE's approval, registration, filing or other administration requirements thereof shall not be a condition precedent for the cross-border guarantee contract to take effect.

Pursuant to the Cross-Border Guarantees Guidance, whoever fails to comply with the Provisions and other relevant provisions when engaging in cross-border guarantees will be punished by the foreign exchange authority under the Regulation of the People's Republic of China on Foreign Exchange Administration (中華人民共和國外匯管理條例).

On March 30, 2016, the SAFE issued the Notice on the Reform of the Administration of Foreign Exchange Registered Capital Settlement for Foreign-Invested Enterprises (關於改革外商投資企業外匯資本金結匯管理方式的通知) effective from June 1, 2015, under which a reform on the administration of foreign exchange capital settlement for foreign-invested enterprises is carried out in China and foreign-invested enterprises may make equity investments within China by utilizing the CNY funds converted from their foreign exchange registered capital. On June 9, 2016, SAFE issued the Notice to Reform and Regulate the Administration Policies of Foreign Exchange Capital Settlement (關於改革和規範資本專案結匯管理政策的通知) to further reform foreign exchange capital settlement nationwide.

INTELLECTUAL PROPERTY

According to the Law on Trademark (商標法) which was promulgated by the State Council on August 23, 1982 and amended on August 30, 2013, and the Implementation Regulations on the Trademark Law (商標法實施條例) which was promulgated on August 3, 2002, the registered trademarks include commodity trademarks, service trademarks, collective trademarks and certification trademarks. The Trademark Office under the SAIC is responsible for the nationwide registration and administration of trademarks. Trademarks are granted on a term of ten years. Twelve months prior to the expiration of the ten-year term, an applicant can renew the application and reapply for trademark protection.

Any of the following acts may be regarded as an infringement of the exclusive right to use a registered trademark: use of a trademark that is identical with a registered trademark of the same type of commodity as the trademark registrant's without the authorization of the trademark registrant; using a trademark that is similar to a registered trademark on the same goods, or using a trademark that is identical with or similar to the registered trademark on similar goods without the licensing of the registrant of the registered trademark, which is likely to cause confusion; sale of a commodity infringing upon the exclusive right to use the registered trademark; counterfeiting or making, without authorization, representations of a registered trademark, or sale of such representation of a registered trademark; change of any trademark of a registrant without the registrant's consent, and selling goods bearing such replaced trademark on the market; providing, intentionally, convenience for activities infringing upon others' exclusive right of trademark use, and facilitating others to commit infringement on the exclusive right of trademark use; and otherwise infringing upon another person's exclusive right to use a registered trademark and cause damages. Trademark license agreements must be filed with the Trademark Office under the SAIC or one of its regional counterparts. The licensor shall supervise the quality of the commodities on which the trademark is used, and the licensee shall guarantee the quality of such commodities.

DESCRIPTION OF OTHER MATERIAL INDEBTEDNESS

To fund our existing property projects and to finance our working capital requirements, we have entered into loan agreements with various financial institutions. As of June 30, 2017, our total outstanding external borrowings (including bank borrowings and the 2014 Notes) amounted to RMB4,107.3 million (US\$605.9 million). In August 2017, we fully redeemed the 2014 Notes. Set forth below is a summary of the material terms and conditions of these loans and other indebtedness. Since June 30, 2017, we have entered into additional financial arrangements in the ordinary course of business to finance our property development and for general corporate purposes. See “Capitalization and Indebtedness.”

PRC BANK LOAN AGREEMENTS

Certain of our PRC subsidiaries have entered into loan agreements with various PRC banks, including but not limited to China Minsheng Bank, Industrial Bank, Bank of East Asia, Guangdong Huaxing Bank and China Bohai Bank. These PRC bank loans include project loans to finance the construction of our projects and loans to finance our working capital requirements. They have terms ranging from four months to five years. As of June 30, 2017, the aggregate outstanding amount under these PRC bank loans totaled approximately RMB2,102.3 million (US\$310.1 million). Our PRC bank loans are typically secured by land use rights and properties as well as guaranteed by the Company and/or certain of our PRC subsidiaries.

Interest

The principal amounts outstanding under these PRC bank loans generally bear interest at floating rates calculated by reference to the relevant bank’s benchmark interest rate *per annum*. Floating interest rates are generally subject to review by the banks annually. Interest payments are payable either monthly or quarterly and must be made on each payment date as provided in the particular loan agreement. As of June 30, 2017, the weighted average interest rate on the aggregate outstanding amount of these PRC bank loans was 7.5% *per annum*.

Covenants

Under these PRC bank loans, many of our subsidiary borrowers have agreed, among other things, not to take the following actions without first obtaining the lenders’ prior consent:

- create encumbrances on any part of their property or assets or deal with their assets in a way that may adversely affect their ability to repay the loans;
- grant guarantees to any third parties that may adversely affect their ability to repay the loans;
- make any major changes to their corporate structures, such as entering into joint ventures, mergers, spin-off and acquisitions and reorganizations or change their status, such as liquidation and dissolution;
- alter the nature or scope of their business operations in any material respect;
- incur additional debts that may adversely affect their ability to repay the loans;
- prepay the loans;
- transfer part or all of their liabilities under the loans to a third party;
- reduce their registered capital; and
- remit dividends to the shareholders during the term of the loans.

Events of Default

These PRC bank contain certain customary events of default, including insolvency, material adverse change in the collateral and breaches of the terms of the loan agreements. The banks are entitled to terminate their respective agreements and/or demand immediate repayment of the loans and any accrued interest upon the occurrence of an event of default.

Guarantee and Security

Our Company and certain of our PRC subsidiaries have entered into guarantee agreements with the PRC banks in connection with some of these PRC bank loans pursuant to which these subsidiaries have guaranteed all liabilities of the subsidiary borrowers under these PRC bank loans. Further, as of June 30, 2017, RMB2,102.3 million (US\$310.1 million) of these PRC bank loans were secured by land use rights and/or other assets and properties of the subsidiary borrowers and/or our other PRC subsidiaries, including equity interests in one of our PRC subsidiaries.

Dividend Restriction

Pursuant to these loan agreements, one of our PRC subsidiaries, Hefei Redco Weisheng Real Estate Development Co., Ltd., has agreed not to distribute any dividend without the lender's prior written consent if such loan is still outstanding. For the six months ended June 30, 2017, Hefei Redco Weisheng Real Estate Development Co., Ltd. did not generate any revenue or profit to the Group.

OFFSHORE BANK LOAN AGREEMENTS

We or certain of our subsidiaries have entered into loan agreements with various offshore banks. As of June 30, 2017, the aggregate outstanding amount under the offshore bank loans was RMB1,172.9 million (US\$173.0 million).

2015 BOC Bank Facility

On August 20, 2015, Redco Investment (International) Co. Limited, as borrower, signed a facility letter with Bank of China (Hong Kong) Limited ("BOC (HK)"), as lender, in connection with a term loan facility of HK\$490,000,000 (US\$62,776,248). Such facility was obtained and drawn down by the Group.

Interest

Interest on the 2015 BOC Bank Facility is computed at *2.75% per annum* over HIBOR, payable at the end of each interest period.

Maturity and Prepayment

The 2015 BOC Bank Facility will be due five years from the date of drawdown. The borrower may prepay the 2015 BOC Bank Facility with not less than 30 days' prior written notice to the lender.

Guarantee and Security

The 2015 BOC Bank Facility is secured by a subordination deed entered into by the borrower and corporate guarantees provided by certain of our subsidiaries and an associated company for unlimited amount.

Intercreditor Agreement

In order to secure the obligations under the 2014 Notes, the Company and the subsidiary guarantors under the indenture entered on August 1, 2014 (the “2014 Indenture”) among the Company, Citicorp International Limited as trustee for the 2014 Notes and the subsidiary guarantors named therein (the “2014 Subsidiary Guarantors”) pledged the capital stock of all such 2014 Subsidiary Guarantors for the benefit of the holders of the 2014 Notes (the “Shared Collateral”). The Shared Collateral may be released or reduced in the event of certain asset sales and certain other circumstances.

On March 20, 2015, the Company, the subsidiary guarantor pledgors from time to time listed in Schedule I thereto, the Collateral Agent, the trustee for the 2014 Notes for the benefit of holders of the 2014 Notes and the facility agent for the 2015 BOC Bank Facility entered into an intercreditor agreement (as amended from time to time, the “Intercreditor Agreement”). The Intercreditor Agreement provides that the security interests created by the Shared Collateral will be shared on a *pari passu* basis among (i) the holders of the 2014 Notes, (ii) the lender under the 2015 BOC Bank Facility and (iii) any holder of permitted *pari passu* secured indebtedness or their representatives who become parties to the Intercreditor Agreement. The 2014 Notes were fully redeemed in August 9, 2017, and as a result, the trustee for the 2014 Notes has been removed as a secured party under the Intercreditor Agreement.

Collateral

The obligations under the 2015 BOC Bank Facility are secured by the Shared Collateral. See “— 2016 HSB Syndicated Facility — Collateral.” and “— 2017 HSB Syndicated Facility — Collateral.”

2016 HSB Syndicated Facility

On September 9, 2016, the Company, as borrower, signed a facility letter with BOC (HK), Hang Seng Bank Limited, Nanyang Commercial Bank, Limited, and the Bank of East Asia, Limited, as lenders, in connection with a term loan facility of HK\$1,014.7 million (US\$130.0 million), which was subsequently increased to HK\$1,131.0 million (US\$145.0 million). Such facility was obtained and drawn down by the Group.

Interest

Interest on the 2016 HSB Syndicated Facility is computed at 4% *per annum* over LIBOR, payable at the end of each interest period.

Maturity and Prepayment

The 2016 HSB Syndicated Facility will be due three years from the date of drawdown. We may prepay the 2016 HSB Syndicated Facility with not less than seven days’ prior written notice.

Guarantee and Security

The 2016 HSB Syndicated Facility is secured by a subordination deed entered into by the borrower and corporate guarantees provided by certain of our subsidiaries and associated companies for unlimited amount.

Collateral

The obligations under the 2016 HSB Syndicated Facility are secured by the Shared Collateral. See “— 2015 BOC Bank Facility — Collateral”.

2017 HSB Syndicated Facility

On July 20, 2017, the Company, as borrower, signed a facility letter with BOC (HK), China Minsheng Banking Corp. Ltd. Hong Kong Branch, Industrial Bank Co., Ltd. Hong Kong Branch, Chiyu Banking Corporation Limited, Hang Seng Bank Limited, Nanyang Commercial Bank, Limited, Nanyang Commercial Bank (China) Limited Shenzhen Branch, the Bank of East Asia, Limited, and Wing Lung Bank, Limited, as lenders, in connection with a term loan facility of HK\$1,576.7 million (US\$202.0 million), which was subsequently increased to HK\$1,614.6 million (US\$207.0 million). Such facility was obtained and drawn down by the Group.

Interest

Interest on the 2017 HSB Syndicated Facility is computed at 4% *per annum* over LIBOR, payable at the end of each interest period.

Maturity and Prepayment

The 2017 HSB Syndicated Facility will be due three years from the date of drawdown. We may prepay the 2017 HSB Syndicated Facility with not less than seven days' prior written notice.

Guarantee and Security

The 2017 HSB Syndicated Facility is secured by a subordination deed entered into by the borrower and corporate guarantees provided by certain of our subsidiaries and an associated company for unlimited amount.

Collateral

The obligations under the 2017 HSB Syndicated Facility are secured by the Shared Collateral. See “— 2015 BOC Bank Facility — Collateral” and “— 2016 HSB Syndicated Facility — Collateral.”

2017 Notes

On November 15, 2017, we entered into the 2017 Indenture pursuant to which we issued an aggregate principal amount of US\$250,000,000 7.0% senior notes due 2018. The 2017 Notes are listed on the SGX-ST. As of the date of this offering memorandum, the entire principal amount of the 2017 Notes remains outstanding.

Guarantee

The obligations pursuant to the 2017 Notes are guaranteed by certain of our existing subsidiaries (the “2017 Subsidiary Guarantors”) other than those organized under the laws of the PRC. We refer to these guarantees as the 2017 Subsidiary Guarantees. Under certain circumstances and subject to certain conditions, a 2017 Subsidiary Guarantee required to be provided by one of our subsidiaries may be replaced by a limited-recourse guarantee (a “2017 JV Subsidiary Guarantee”). We refer to the subsidiaries providing 2017 JV Subsidiary Guarantees as 2017 JV Subsidiary Guarantors. Each of the 2017 Subsidiary Guarantors, jointly and severally, guarantees the due and punctual payment of the principal, any premium and interest on, and all other amounts payable under, the 2017 Notes.

Collateral

In order to secure the obligations under the 2017 Notes, the Company agreed, for the benefit of the holders of the 2017 Notes, to pledge, or cause the 2017 Subsidiary Guarantor Pledgors to pledge, as the case may be, the capital stock of each 2017 Subsidiary Guarantor (collectively, the “2017 Collateral”) in order to secure the obligations of the Company under the 2017 Notes and each initial 2017 Subsidiary Guarantor Pledgor under its Subsidiary Guarantee. The 2017 Collateral may be

released or reduced in the event of certain asset sales and certain other circumstances. In addition, the 2017 Collateral will be shared on a *pari passu* basis by the holders of the 2017 Notes and the holders of other secured indebtedness, including the lenders under certain of our offshore facilities and any other creditors with respect to permitted *pari passu* secured indebtedness.

Interest

The 2017 Notes bear an interest rate of 7.0% per annum, payable in arrears on May 15, 2018 and November 14, 2018.

Covenants

Subject to certain conditions and exceptions, the 2017 Indenture and each of the related 2017 Subsidiary Guarantees contain certain covenants, restricting us and each of the related restricted subsidiaries from, among other things:

- incurring or guaranteeing additional indebtedness and issuing disqualified or preferred shares;
- declaring dividends on capital stock or purchasing or redeeming capital stock;
- making investments or other specified restricted payments;
- issuing or selling capital stock of the related restricted subsidiaries;
- guaranteeing indebtedness of the related restricted subsidiaries;
- selling assets;
- creating liens;
- entering into sale and leaseback transactions;
- engaging in any business other than permitted business;
- entering into agreements that restrict the related restricted subsidiaries' ability to pay dividends, transfer assets or make intercompany loans;
- entering into transactions with shareholders or affiliates; and
- effecting a consolidation or merger.

Events of Default

The 2017 Indenture contains certain customary events of default, including default in the payment of principal or of any premium on the 2017 Notes when such payments become due and payable, default in payment of interest which continues for 30 consecutive days, and other events of default. If an event of default occurs and is continuing, the trustee under the 2017 Indenture or the holders of at least 25% of the outstanding 2017 Notes may declare the principal of the 2017 Notes plus a premium (if any) and any accrued and unpaid interest to be immediately due and payable. Upon the occurrence of certain specified events of default, the principal of, premium (if any) and accrued and unpaid interest on the outstanding 2017 Notes will automatically become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder.

Change of Control

Upon the occurrence of certain events of change of control and a rating decline, we will make an offer to repurchase all outstanding 2017 Notes at a purchase price equal to 101% of their principal amount plus accrued and unpaid interest, if any, to the date of repurchase.

Maturity and Redemption

The maturity date of the 2017 Notes is November 14, 2018. At any time and from time to time prior to November 14, 2018, we may, with the proceeds from sales of certain types of the Company's shares, redeem up to 35% of the aggregate principal amount of the 2017 Notes at a redemption price equal to 107% of the principal amount of the 2017 Notes, plus accrued and unpaid interest, if any, to the redemption date, provided that at least 65% of the aggregate principal amount of the 2017 Notes originally issued remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related equity offering. Additionally, if we or a 2017 Subsidiary Guarantor under the 2017 Indenture becomes obligated to pay certain additional amounts as a result of certain changes in, or amendment to, specified tax law, we may redeem the 2017 Notes at a redemption price equal to 100% of the principal amount of the 2017 Notes, plus any accrued and unpaid interest, subject to certain exceptions.

Intercreditor Agreement

On November 15, 2017, Citicorp International Limited, as trustee under the 2017 Notes, executed a supplement to the intercreditor agreement dated March 20, 2015 to become a secured party under the intercreditor agreement and to share the collateral thereunder on a *pari passu* basis with the lenders under certain of our offshore facilities and any holders of permitted *pari passu* secured indebtedness or their agent or trustee who become parties to the intercreditor agreement.

DESCRIPTION OF THE NOTES

For purposes of this “Description of the Notes,” the term “Company” refers only to Redco Properties Group Limited (力高地產集團有限公司), and any successor obligor on the Notes, and not to any of its Subsidiaries. Each Subsidiary of the Company which Guarantees the Notes is referred to as a “Subsidiary Guarantor,” and each such Guarantee is referred to as a “Subsidiary Guarantee.” Each Subsidiary of the Company that in the future provides a JV Subsidiary Guarantee (as defined below) is referred to as a “JV Subsidiary Guarantor.”

The Notes are to be issued under an indenture (the “Indenture”), to be dated as of February 28, 2018, among the Company, the Subsidiary Guarantors, and Citicorp International Limited, as trustee (the “Trustee”).

The following is a summary of the material provisions of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement and the Security Documents. This summary does not purport to be complete, and is subject to, and is qualified in its entirety by reference to all of the provisions of the Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement and the Security Documents. It does not restate those agreements in their entirety. Whenever particular sections or defined terms of the Indenture not otherwise defined herein are referred to, such sections or defined terms are incorporated herein by reference. Copies of the Indenture will be available on or after the Original Issue Date at the corporate trust office of the Trustee at 39/F, Champion Tower, 3 Garden Road, Central, Hong Kong.

Brief Description of the Notes

The Notes are:

- general obligations of the Company;
- senior in right of payment to any existing and future obligations of the Company expressly subordinated in right of payment to the Notes;
- at least *pari passu* in right of payment with the Existing *Pari Passu* Secured Indebtedness and all other unsecured, unsubordinated Indebtedness of the Company (subject to any priority rights of such unsecured, unsubordinated Indebtedness pursuant to applicable law);
- guaranteed by the Subsidiary Guarantors and the JV Subsidiary Guarantors, if any, on a senior basis, subject to the limitations described below under the caption “— The Subsidiary Guarantees and the JV Subsidiary Guarantees” and in “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral”;
- effectively subordinated to the other secured obligations of the Company (if any, other than Permitted *Pari Passu* Secured Indebtedness), the Subsidiary Guarantors and the JV Subsidiary Guarantors, to the extent of the value of the assets serving as security therefor (other than the Collateral); and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries (as defined below).

In addition, on the Original Issue Date, subject to the limitations described in “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral,” the Notes will be secured by a pledge of the Collateral as described below under the caption “— Security” and will:

- be entitled to the benefit of a lien on the Collateral (subject to any Permitted Liens) and shared on a *pari passu* basis pursuant to the Intercreditor Agreement with holders of the Existing *Pari Passu* Secured Indebtedness and holders of the Permitted *Pari Passu* Secured Indebtedness; and
- rank effectively senior in right of payment to unsecured obligations of the Company and the Subsidiary Guarantor Pledgors with respect to the value of the Collateral pledged by the Company and the Subsidiary Guarantor Pledgors securing the Notes (subject to any priority rights of such unsecured obligations pursuant to applicable law).

The Notes will mature on February 27, 2019, unless earlier redeemed pursuant to the terms thereof and the Indenture.

The Notes will bear interest at 6.375% per annum from the Original Issue Date or from the most recent interest payment date to which interest has been paid or duly provided for, payable in arrears on August 28, 2018 and February 27, 2019 (each an “Interest Payment Date”), Interest on the Notes will be paid to Holders of record at the close of business on August 13, 2018 and February 12, 2019 immediately preceding an Interest Payment Date (each, a “Record Date”), notwithstanding any transfer, exchange or cancellation thereof after a Record Date and prior to the immediately following Interest Payment Date. Interest on the Notes will be calculated on the basis of a 360-day year comprised of twelve 30-day months. So long as the Notes are held in global form, each payment in respect of the Global Note will be made to the person shown as the holder of the Notes in the Register at the close of business (of the relevant clearing system) on the Clearing System Business Day before the due date for such payments, where “Clearing System Business Day” means a weekday (Monday to Friday, inclusive) except December, 25 and January, 1.

Except as described under “Optional Redemption,” “Redemption for Taxation Reasons” and otherwise provided in the Indenture, the Notes may not be redeemed prior to maturity (unless they have been repurchased by the Company).

In any case in which the date of the payment of principal of, premium on or interest on the Notes is not a Business Day, then payment of such principal, premium or interest need not be made on such date but may be made on the next succeeding Business Day. Any payment made on such Business Day shall have the same force and effect as if made on the date on which such payment is due and no interest on the Notes shall accrue for the period after such date.

The Indenture allows additional Notes to be issued from time to time (the “Additional Notes”), subject to certain limitations described under “— Further Issues.” Unless the context requires otherwise, references to the “Notes” for all purposes of the Indenture and this “Description of the Notes” include any Additional Notes that are actually issued.

The Notes will be issued only in fully registered form, without coupons, in denominations of US\$200,000 and integral multiples of US\$1,000 in excess thereof. No service charge will be made for any registration of transfer or exchange of Notes, but the Company may require payment of a sum sufficient to cover any transfer tax or other similar governmental charge payable in connection therewith.

All payments on the Notes will be made by wire transfer in U.S. dollars by the Company at the office or agency of the Company maintained for that purpose (which initially will be the specified office of the Paying Agent currently located at c/o Citibank, N.A., Dublin Branch, 1 North Wall Quay, Dublin 1, Ireland), and the Notes may be presented for registration of transfer or exchange at such office; *provided* that, if the Notes are in definitive form and the Company is acting as its own paying agent, at the option of the Company, payment of interest may be made by check mailed to the address of the Holders as such address appears in the Note register maintained by the Note Registrar or by wire transfer. Interest payable on the Notes held through Euroclear or Clearstream will be available to Euroclear or Clearstream participants (as defined herein) on the Business Day following payment thereof.

The Subsidiary Guarantees and the JV Subsidiary Guarantees

The initial Subsidiary Guarantors that will execute the Indenture on the Original Issue Date will consist of all of the Company's Restricted Subsidiaries other than (i) those Restricted Subsidiaries organized under the laws of the PRC (the "PRC Non-Guarantor Subsidiaries") and (ii) Initial Other Non-Guarantor Subsidiaries.

The Subsidiary Guarantors are holding companies that do not have significant operations. None of the existing or future Restricted Subsidiaries organized under the laws of the PRC will provide a Subsidiary Guarantee or JV Subsidiary Guarantee on the Original Issue Date or at any time in the future. Although the Indenture contains limitations on the amount of additional Indebtedness that Non-Guarantor Subsidiaries may incur, the amount of such additional Indebtedness could be substantial. In the event of a bankruptcy, liquidation or reorganization of any Non-Guarantor Subsidiary, such Non-Guarantor Subsidiary will pay the holders of its debt and its trade creditors before it will be able to distribute any of its assets to the Company.

In the case of a Restricted Subsidiary (i) that is, or is proposed by the Company or any of its Restricted Subsidiaries to be, established or acquired after the Original Issue Date, (ii) that is incorporated in any jurisdiction other than the PRC and (iii) in respect of which the Company or any of its Restricted Subsidiaries (x) is proposing to sell, whether through the sale of existing Capital Stock or the issuance of new Capital Stock, no less than 20% of the Capital Stock of such Restricted Subsidiary or (y) is proposing to purchase the Capital Stock of an entity and designate such entity as a Restricted Subsidiary, the Company may, concurrently with or after the consummation of such sale or purchase, provide a JV Subsidiary Guarantee (as defined below) instead of a Subsidiary Guarantee for (a) such Restricted Subsidiary and (b) the Restricted Subsidiaries of such Restricted Subsidiary that are organized in any jurisdiction other than the PRC, if the following conditions, in the case of both (a) and (b), are satisfied:

- as of the date of execution of the JV Subsidiary Guarantee (as defined below), no document exists that is binding on the Company or any of the Restricted Subsidiaries that would have the effect of (a) prohibiting the Company or any of the Restricted Subsidiaries from providing such JV Subsidiary Guarantee or (b) requiring the Company or any of the Restricted Subsidiaries to deliver or keep in place a guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee;
- such sale or issuance of Capital Stock is made to, or such purchase of Capital Stock is purchased from, an Independent Third Party at a consideration that is not less than (in the case of a sale or issuance) or no more than (in the case of a purchase) the Fair Market Value of such Capital Stock;
- all capital contributions (by way of transfer of cash or other property or any payment for property or services for the use of others or otherwise) to be made into a JV Subsidiary Guarantor from the date of the sale of existing Capital Stock or issuance of new Capital Stock or purchase of Capital Stock as referred to above, shall be made directly or by contribution of assets or services having an equivalent Fair Market Value by (i) the Company and its Restricted Subsidiaries and (ii) such Independent Third Party in proportion to their respective direct or indirect ownership percentages of the Capital Stock of such JV Subsidiary Guarantor or on a basis more favorable to the Company;
- concurrently with providing the JV Subsidiary Guarantee, the Company shall or shall cause such JV Subsidiary Guarantor to deliver to the Trustee:
 - (i) (A) a duly executed Guarantee of such JV Subsidiary Guarantor (the "JV Subsidiary Guarantee") and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC (other than Exempted Subsidiaries and Listed Subsidiaries), and (B) a duly executed supplemental indenture to the Indenture

pursuant to which such JV Subsidiary Guarantor will guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;

- (ii) an Officers' Certificate certifying a copy of the Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and
- (iii) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantees are valid, binding and enforceable against the JV Subsidiary Guarantors providing such JV Subsidiary Guarantees (subject to customary qualifications and assumptions).

As of June 30, 2017, the Company and its consolidated subsidiaries had total bank borrowings of approximately RMB3,275.3 million (US\$483.1 million), approximately RMB1,174.0 million (US\$173.2 million) of which were secured bank borrowings of the Company or a Subsidiary Guarantor.

As of June 30, 2017, the Non-Guarantor Subsidiaries had total bank borrowings of approximately RMB2,101.3 million (US\$310.0 million) and the Non-Guarantor Subsidiaries had capital commitments of approximately RMB2,574.1 million (US\$379.7 million) and contingent liabilities of approximately RMB5,327.6 million (US\$785.9 million).

The Subsidiary Guarantee of each Subsidiary Guarantor:

- is a general obligation of such Subsidiary Guarantor;
- is effectively subordinated to the secured obligations of such Subsidiary Guarantor, to the extent of the value of the assets (other than the Collateral) serving as security therefor;
- is senior in right of payment to all future obligations of such Subsidiary Guarantor expressly subordinated in right of payment to such Subsidiary Guarantee;
- ranks at least pari passu with the Existing Pari Passu Secured Indebtedness and all other unsecured and unsubordinated Indebtedness of such Subsidiary Guarantor (subject to any priority rights of such unsecured and unsubordinated Indebtedness pursuant to applicable law); and
- is effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

If any is provided, the JV Subsidiary Guarantee of each JV Subsidiary Guarantor:

- will be a general obligation of such JV Subsidiary Guarantor;
- will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be enforceable only up to the JV Entitlement Amount;
- will be effectively subordinated to the secured obligations of such JV Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;

- will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be limited to the JV Entitlement Amount, and will be senior in right of payment to all future obligations of such JV Subsidiary Guarantor expressly subordinated in right of payment to such JV Subsidiary Guarantee; and
- will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be limited to the JV Entitlement Amount, and will rank at least *pari passu* with all other unsecured and unsubordinated Indebtedness of such JV Subsidiary Guarantor (subject to any priority rights of such unsecured and unsubordinated Indebtedness pursuant to applicable law).

The Company will cause each of its future Restricted Subsidiaries (other than Persons organized under the laws of the PRC, Exempted Subsidiaries and Listed Subsidiaries), as soon as practicable (and in any event within 30 days) after such Person becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary or a Listed Subsidiary (as the case may be), to execute and deliver to the Trustee a supplemental indenture to the Indenture pursuant to which such Restricted Subsidiary will Guarantee the payment of the Notes as either a Subsidiary Guarantor or a JV Subsidiary Guarantor. Notwithstanding the foregoing sentence, the Company may elect to have any Restricted Subsidiary organized under laws outside the PRC not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee at the time such entity becomes a Restricted Subsidiary or ceases to be an Exempted Subsidiary or a Listed Subsidiary (such Restricted Subsidiaries, the “New Non-Guarantor Subsidiaries,” and together with the Initial Other Non-Guarantor Subsidiaries, the “Other Non-Guarantor Subsidiaries”); *provided* that, after giving effect to the consolidated assets of such Restricted Subsidiary, the Consolidated Assets of all Restricted Subsidiaries organized outside the PRC (other than Exempted Subsidiaries and Listed Subsidiaries) that are neither Subsidiary Guarantors nor JV Subsidiary Guarantors do not account for more than 20% of the Total Assets of the Company.

Each Restricted Subsidiary that guarantees the Notes after the Original Issue Date other than a JV Subsidiary Guarantor is referred to as a “Future Subsidiary Guarantor” and upon execution of the applicable supplemental indenture to the Indenture will be a “Subsidiary Guarantor.” The Other Non-Guarantor Subsidiaries, together with the PRC Non-Guarantor Subsidiaries, the Exempted Subsidiaries and the Listed Subsidiaries, are referred to herein as the “Non-Guarantor Subsidiaries.”

Although the Indenture contains limitations on the amount of additional Indebtedness that Restricted Subsidiaries organized under the laws of the PRC may incur, the amount of such additional Indebtedness could be substantial. In the event of a bankruptcy, liquidation or reorganization of any Non-Guarantor Subsidiary, the Non-Guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to the Company.

In addition, subject to the limitations described in “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral,” the Subsidiary Guarantee of each Subsidiary Guarantor Pledgor:

- will be entitled to the benefit of a security interest in the Collateral (subject to any Permitted Liens) pledged by such Subsidiary Guarantor Pledgor, as described below under the caption “— Security” shared on a *pari passu* basis pursuant to the Intercreditor Agreement with holders of the Existing Pari Passu Secured Indebtedness and holders of the Permitted Pari Passu Secured Indebtedness; and
- will rank effectively senior in right of payment to the unsecured obligations of such Subsidiary Guarantor Pledgor with respect to the value of the Collateral securing such Subsidiary Guarantee (subject to any priority rights of such unsecured obligations pursuant to applicable law).

The JV Subsidiary Guarantee of each JV Subsidiary Guarantor will not be secured.

Under the Indenture, and any supplemental indenture to the Indenture, as applicable, each of the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) will jointly and severally Guarantee the due and punctual payment of the principal of, premium, if any, and interest on, and all other amounts payable under, the Notes; *provided* that, any JV Subsidiary Guarantee, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, will be limited to the JV Entitlement Amount. The Subsidiary Guarantors and JV Subsidiary Guarantors will (1) agree that their respective obligations under the Subsidiary Guarantees and JV Subsidiary Guarantees, as the case may be, will be enforceable irrespective of any invalidity, irregularity or unenforceability of the Notes or the Indenture and (2) waive their right to require the Trustee to pursue or exhaust its legal or equitable remedies against the Company prior to exercising its rights under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be. Moreover, if at any time any amount paid under a Note or the Indenture is rescinded or must otherwise be repaid or restored, the rights of the Holders under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, will be reinstated with respect to such payment as though such payment had not been made. All payments under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, are required to be made in U.S. dollars.

Under the Indenture, and any supplemental indenture to the Indenture, as applicable,

- each Subsidiary Guarantee will be limited to an amount not to exceed the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor without rendering the Subsidiary Guarantee, as it relates to such Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally; and
- each JV Subsidiary Guarantee will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be limited to an amount which is the lower of (i) the JV Entitlement Amount and (ii) an amount not to exceed the maximum amount that can be guaranteed by the applicable JV Subsidiary Guarantor without rendering the JV Subsidiary Guarantee, as it relates to such JV Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

If a Subsidiary Guarantee or JV Subsidiary Guarantee were to be rendered voidable, it could be subordinated by a court to all other Indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, and, depending on the amount of such Indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guarantee or a JV Subsidiary Guarantor's liability on its JV Subsidiary Guarantee, as the case may be, could in each case be reduced to zero.

The obligations of each Subsidiary Guarantor under its Subsidiary Guarantee and the enforceability of the Collateral granted in respect of the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors may be limited, or possibly invalid, under applicable laws. Similarly, the obligations of each JV Subsidiary Guarantor under its JV Subsidiary Guarantee may be limited, or possibly invalid, under applicable laws. See "Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees."

Release of the Subsidiary Guarantees or JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor and a JV Subsidiary Guarantee given by a JV Subsidiary Guarantor may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon a defeasance as described under “— Defeasance — Defeasance and Discharge;”
- upon the designation by the Company of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, as an Unrestricted Subsidiary in compliance with the terms of the Indenture;
- upon the sale, merger or disposition of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, in compliance with the terms of the Indenture (including the covenants under the captions “— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries,” “— Certain Covenants — Limitation on Asset Sales” and “— Consolidation, Merger and Sale of Assets”) resulting in such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, no longer being a Restricted Subsidiary, so long as (1) such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, is simultaneously released from its obligations in respect of any of the Company’s other Indebtedness or any Indebtedness of any other Restricted Subsidiary and (2) the proceeds from such sale, merger or disposition are used for the purposes permitted or required by the Indenture;
- in the case of a Subsidiary Guarantee, upon the replacement of a Subsidiary Guarantee with a JV Subsidiary Guarantee; or
- in the case of a Subsidiary Guarantor that becomes a New Non-Guarantor Subsidiary, in compliance with the terms of the Indenture.

In the case of a Subsidiary Guarantor with respect to which the Company or any of its Restricted Subsidiaries is proposing to sell or has sold, whether through the sale of existing Capital Stock or the issuance of new Capital Stock, no less than 20% of the Capital Stock of such Subsidiary Guarantor, the Company may concurrently with or after the consummation of such sale or issuance of Capital Stock, (a) request the Trustee to release the Subsidiary Guarantees provided by such Subsidiary Guarantor and each of its Restricted Subsidiaries organized under laws outside the PRC, and upon such release such Subsidiary Guarantor and its Restricted Subsidiaries organized under laws outside the PRC will become New Non-Guarantor Subsidiaries (such that each New Non-Guarantor Subsidiary will no longer Guarantee the Notes) and (b) request the Collateral Agent to (i) discharge the pledge of the Capital Stock granted by each such New Non-Guarantor Subsidiary and (ii) discharge the pledge of Capital Stock made by the Company or any Subsidiary Guarantor over the Capital Stock it owns in each such New Non-Guarantor Subsidiary (in each case under (a) and (b), without any requirement to seek the consent or approval of the Holders of the Notes), *provided* that, after the release of such Subsidiary Guarantees, the Consolidated Assets of all Restricted Subsidiaries organized under laws outside the PRC (other than Exempted Subsidiaries and Listed Subsidiaries) that are neither Subsidiary Guarantors nor JV Subsidiary Guarantors (including the New Non-Guarantor Subsidiaries) do not account for more than 20% of the Total Assets. A Subsidiary Guarantee of a Subsidiary Guarantor may only be released pursuant to this paragraph if as of the date of such proposed release, no document exists that is binding on the Company or any of the Restricted Subsidiaries that would have the effect of (x) prohibiting the Company or any of the Restricted Subsidiaries from releasing such Subsidiary Guarantee or (y) requiring the Company or such Subsidiary Guarantor to deliver or keep in place a guarantee of other Indebtedness of the Company by such Subsidiary Guarantor.

Each of the Trustee and the Collateral Agent shall comply with a request referred to in (a) or (b) above if the conditions precedent to such release set forth in the Indenture have been complied with, as evidenced by an Officers' Certificate from the Company to that effect, and the Trustee and the Collateral Agent shall take all actions necessary to effect and evidence such release in accordance with the terms of the Indenture.

Replacement of Subsidiary Guarantees with JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor may be released following the sale or issuance by the Company or any of its Restricted Subsidiaries of Capital Stock in (a) such Subsidiary Guarantor or (b) any other Subsidiary Guarantor that, directly or indirectly, owns a majority of the Capital Stock of such Subsidiary Guarantor, in each case where such sale or issuance, whether through the sale of existing shares or the issuance of new shares, is for no less than 20% of the issued Capital Stock of the relevant Subsidiary Guarantor, *provided* that the following conditions are satisfied or complied with:

- as of the date of such proposed release, no document exists that is binding on the Company or any of the Restricted Subsidiaries that would have the effect of (a) prohibiting the Company or any of the Restricted Subsidiaries from releasing such Subsidiary Guarantee, (b) prohibiting the Company or any of the Restricted Subsidiaries from providing a JV Subsidiary Guarantee, or (c) requiring the Company or any of the Restricted Subsidiaries to deliver or keep in force a replacement guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee;
- such sale has been made to an Independent Third Party at a consideration that is not less than the Fair Market Value of such Capital Stock;
- all capital contributions (by way of transfer of cash or other property or any payment for property or services for the use of others or otherwise) to be made into a JV Subsidiary Guarantor from the date of the sale of existing Capital Stock or issuance of new Capital Stock as referred to above, shall be made directly or by contribution of assets or services having an equivalent Fair Market Value by (i) the Company and its Restricted Subsidiaries and (ii) such Independent Third Party that purchased or subscribed for Capital Stock in the JV Subsidiary Guarantor in proportion to their respective direct or indirect ownership percentages of the Capital Stock of such JV Subsidiary Guarantor or on a basis more favorable to the Company;
- concurrently with the release of such Subsidiary Guarantee, the Company shall or shall cause such JV Subsidiary Guarantor to deliver to the Trustee:
 - (i) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not organized under the laws of the PRC (other than Exempted Subsidiaries and Listed Subsidiaries) and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor will Guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (ii) an Officers' Certificate certifying a copy of a Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by a majority of the disinterested members of the Board of Directors; and

- (iii) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantee is valid, binding and enforceable against the JV Subsidiary Guarantor providing such JV Subsidiary Guarantee (subject to customary qualifications and assumptions).

Notwithstanding the foregoing paragraph, any such sale or issuance of the Capital Stock of the relevant Subsidiary Guarantor (including where such sale results in the relevant Subsidiary Guarantor ceasing to be a Restricted Subsidiary) will need to comply with the other covenants set forth in the Indenture, including, without limitation, the “Limitation on Asset Sales” and “Limitation on Restricted Payments” covenants.

Any Net Cash Proceeds from the sale or issuance of such Capital Stock shall be applied by the Company (or any Restricted Subsidiary) in accordance with the “Limitation on Asset Sales” covenant.

As of the date of the Indenture, all of the Company’s Subsidiaries will be “Restricted Subsidiaries.”

Under the circumstances described below under the caption “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries,” the Company will be permitted to designate certain of its Subsidiaries as “Unrestricted Subsidiaries.” The Company’s Unrestricted Subsidiaries will generally not be subject to the restrictive covenants in the Indenture. The Company’s Unrestricted Subsidiaries will not Guarantee the Notes.

Security

The Company has pledged, or caused the initial Subsidiary Guarantor Pledgors to pledge, as the case may be, the Capital Stock of all of the initial Subsidiary Guarantors (subject to Permitted Liens and the Intercreditor Agreement) on the Original Issue Date in order to secure the obligations of the Company and the Subsidiary Guarantors under the Existing Pari Passu Secured Indebtedness, the Notes and the Subsidiary Guarantees and the Permitted Pari Passu Secured Indebtedness.

The initial Subsidiary Guarantor Pledgors are Redco Properties Holdings Limited (力高地產控股有限公司), Power Creation International Development Limited (力創國際發展有限公司), Maxprofit Globe Holdings Limited (利達集團有限公司), Power Spring International Investments Limited (力泉國際投資有限公司), Top Thrive Real Estates Investments Limited (盛高置業投資有限公司), Li Jia International Investments Limited (力嘉國際投資有限公司), Top Creation Worldwide Investments Limited (創高環球投資有限公司), Wei Li International Developments Limited (偉力國際發展有限公司) and Weisheng International Investments Company Limited (偉盛國際投資有限公司).

None of the Capital Stock of the Non-Guarantor Subsidiaries will be pledged on the Original Issue Date or at any time in the future. In addition, none of the Capital Stock of any future Restricted Subsidiary that may be organized under the laws of the PRC will be pledged at any time in the future. None of the JV Subsidiary Guarantors will provide a Security Document pledging the Capital Stock of its direct or indirect Subsidiaries as security in favor of the Collateral Agent.

The Company has also agreed, for the benefit of the Holders, to pledge, or cause each Subsidiary Guarantor to pledge, the Capital Stock owned directly by the Company or such Subsidiary Guarantor of any Person that becomes a Restricted Subsidiary (other than any Non-Guarantor Subsidiary and its Subsidiaries) after the Original Issue Date, as soon as reasonably practicable (but in any event within 30 days) after such Person has become a Restricted Subsidiary or has ceased to be an Exempted Subsidiary or a Listed Subsidiary, as the case may be, to secure (subject to Permitted Liens and the Intercreditor Agreement) the obligations of the Company under the Notes and the Indenture, and of such Subsidiary Guarantor under its Subsidiary Guarantee, in the manner described above.

Each Subsidiary Guarantor that pledges Capital Stock of a Restricted Subsidiary after the Original Issue Date is referred to as a “Future Subsidiary Guarantor Pledgor” and, upon giving such pledge, will be a “Subsidiary Guarantor Pledgor.”

The Collateral will be shared on a *pari passu* basis pursuant to the Intercreditor Agreement by and among the holders of the Notes, the holders of the Existing Pari Passu Secured Indebtedness and the holders of other Permitted Pari Passu Secured Indebtedness. Accordingly, in the event of a default on the Notes or the other secured indebtedness and a foreclosure on the Collateral, any foreclosure proceeds would be shared by the holders of secured indebtedness in proportion to the outstanding amounts of each class of secured indebtedness.

The value of the Collateral securing the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors (as reduced by the obligations owed to other secured creditors under the Intercreditor Agreement) is unlikely to be sufficient to satisfy the Company's and each of the Subsidiary Guarantor Pledgors' obligations under the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors (as reduced by the obligations owed to other secured creditors under the Intercreditor Agreement), and the Collateral securing the Notes and such Subsidiary Guarantee (as reduced by the obligations owed to other secured creditors under the Intercreditor Agreement) may be reduced or diluted under certain circumstances, including the issuance of Additional Notes and other Permitted Pari Passu Secured Indebtedness and the disposition of assets comprising the Collateral, subject to the terms of the Indenture and the Intercreditor Agreement. See “— Release of Security” and “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The value of the Collateral will likely not to be sufficient to satisfy our obligations under the Notes and other *pari passu* secured indebtedness.”

No appraisals of the Collateral have been prepared in connection with this offering of the Notes. There can be no assurance that the proceeds of any sale of the Collateral, in whole or in part, pursuant to the Indenture, the Intercreditor Agreement, and the Security Documents following an Event of Default, would be sufficient to satisfy amounts due on the Notes or the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors (as reduced by the obligations owed to other secured creditors under the Intercreditor Agreement). By its nature, some or all of the Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, there can be no assurance that the Collateral would be sold in a timely manner or at all.

So long as no Payment Default has occurred and is continuing, and subject to the terms of the Security Documents and the Indenture, the Company and the Subsidiary Guarantor Pledgors, as the case may be, will be entitled to exercise any and all voting rights and to receive, retain and use any and all cash dividends, stock dividends, liquidating dividends, non-cash dividends, shares or stock resulting from stock splits or reclassifications, rights issues, warrants, options and other distributions (whether similar or dissimilar to the foregoing) in respect of Capital Stock constituting Collateral.

Permitted Pari Passu Secured Indebtedness

On or after the Original Issue Date, the Company and any Subsidiary Guarantor Pledgor may create Liens on the Collateral *pari passu* with the Lien for the benefit of the Holders to secure Indebtedness of the Company (including Additional Notes) or any Subsidiary Guarantor and any Pari Passu Subsidiary Guarantee with respect to such Indebtedness (such Indebtedness of the Company or any Subsidiary Guarantor and any such Pari Passu Subsidiary Guarantee, collectively referred to as “Permitted Pari Passu Secured Indebtedness”); *provided* that (1) the Company or such Subsidiary Guarantor was permitted to Incur such Indebtedness under the covenant described under “— Limitation on Indebtedness”; (2) the holders of such Indebtedness (or their trustee, representative or agent), other than with respect to Additional Notes, become party to the Intercreditor Agreement referred to below; and (3) the Company and such Subsidiary Guarantor Pledgor deliver to the Trustee and the Collateral Agent (as defined below) an Opinion of Counsel and an Officers' Certificate with respect to corporate and collateral matters in connection with the Security Documents, stating that either (x) all necessary actions have been taken with respect to the recording, registering and filing of the Security Documents, financing statements or other instruments necessary to make effective the Liens intended to be created by the Security Documents or (y) no such action is necessary to make such Lien effective. The Trustee and/or the Collateral Agent, as the case may be, will be permitted

and authorized, without the consent of any Holder, to effectuate any amendments to the Security Documents, the Intercreditor Agreement, or the Indenture and take any other action necessary to permit the creation and registration of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness in accordance with this paragraph and the terms of the Indenture (including, without limitation, the appointment of any collateral agent under the Intercreditor Agreement referred to below to hold the Collateral on behalf of the Holders, the holders of the Existing Pari Passu Secured Indebtedness and the holders of Permitted Pari Passu Secured Indebtedness).

Except for certain Permitted Liens and the Permitted Pari Passu Secured Indebtedness, the Company and its Restricted Subsidiaries will not be permitted to Incur any other Indebtedness secured by all or any portion of the Collateral without the consent of each Holder of the Notes then outstanding.

Intercreditor Agreement

The Company, the initial Subsidiary Guarantor Pledgors, the Collateral Agent, Citicorp International Limited as trustee with respect to the 2014 Notes and the 2015 HSB Facility Agent entered into an intercreditor agreement dated as of March 20, 2015 (as such may be amended, modified or supplemented through the Original Issue Date, the “Intercreditor Agreement”) pursuant to which certain rights and interests with respect to the Collateral are regulated and a mechanism for future holders of Permitted Pari Passu Secured Indebtedness to become bound and be entitled to receive a *pro rata* entitlement to and equal priority in the Collateral is created. The 2016 HSB Facility Agent, the 2017 HSB Facility Agent and the trustee for the 2017 Notes acceded to the Intercreditor Agreement prior to the Original Issue Date. The Company fully redeemed the 2014 Notes in August 2017.

On the Original Issue Date, the Trustee shall execute a supplement to the Intercreditor Agreement pursuant to which the holders of the Notes (through the Trustee) will share equal priority and *pro rata* entitlement in and to the Collateral.

Prior to or concurrently with the first Incurrence of any Permitted Pari Passu Secured Indebtedness (other than Additional Notes), the holders of such Permitted Pari Passu Secured Indebtedness (or their trustee, representative or agent will accede to the Intercreditor Agreement.

By accepting the Notes, each Holder shall be deemed to have consented to the accession to of the Intercreditor Agreement and any amendments or modifications thereto required under the Indenture.

Enforcement of Security

The first-priority Lien (subject to any Permitted Lien and the Intercreditor Agreement) securing the Notes and the Subsidiary Guarantees of the Subsidiary Guarantor Pledgors will be granted to the Collateral Agent for itself and for the benefit of the Holders, the Trustee and any other Creditor Representatives.

Citicorp International Limited will act as the Collateral Agent under the Intercreditor Agreement and the Security Documents. The Collateral Agent, subject to the Intercreditor Agreement, will hold such Liens over the Collateral granted pursuant to the Security Documents and the Intercreditor Agreement with sole authority as directed by the written instruction of the Creditor Representatives (as defined herein) to exercise remedies under the Security Documents. The Trustee has agreed to act as secured party on behalf of the Holders under the applicable Security Documents, to follow the written instructions provided to it by the Holders under the Indenture and to carry out certain other duties.

The Indenture, the Intercreditor Agreement and/or the Security Documents principally provide that, at any time while the Notes are outstanding, the Collateral Agent has the right to manage,

perform and enforce the terms of the Security Documents relating to the Collateral and to exercise and enforce privileges, rights and remedies thereunder according to its direction, including to take or retake control or possession of such Collateral and to hold, prepare for sale, process, lease, dispose of or liquidate such Collateral, including, without limitation, following the occurrence of an Event of Default under the Indenture.

The Intercreditor Agreement will provide that the Collateral Agent will enforce the Collateral in accordance with a written instruction by any Creditor Representative to do so if it does not receive any conflicting instruction, and in the case of conflicting instructions delivered by two or more Creditor Representatives, the Collateral Agent will only enforce the Collateral upon receiving written instructions from the Creditor Representatives representing a majority of the outstanding principal amount of the Indebtedness under the Debt Documents. See “Risk Factors — Risks Relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees and the Collateral — The Intercreditor Agreement may impact the ability of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) to pay amounts due under the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any) and the Intercreditor Agreement may limit the rights of holders of the Notes to enforce the Collateral.”

All payments received and all amounts held by the Collateral Agent in respect of the Collateral under the Security Documents will be, subject to the Intercreditor Agreement, applied as follows:

First, to the Collateral Agent to the extent necessary to reimburse the Collateral Agent for any unpaid fees, costs and expenses (including reasonable expenses of its counsel) properly incurred in connection with the collection or distribution of such amounts held or realized or in connection with expenses properly incurred in enforcing all available remedies under the Intercreditor Agreement, and the Security Documents and preserving the Collateral and all amounts for which the Collateral Agent is entitled to indemnification under the Intercreditor Agreement, and the Security Documents;

Second, to the extent not reimbursed under the above paragraph, ratably to the Trustee and other Creditor Representatives, to the extent necessary to reimburse the foregoing persons for any unpaid fees, costs and expenses (including expenses of any paying agents, transfer agents, registrars or other agents in connection therewith appointed in connection with the foregoing and reasonable expenses of counsel) reasonably incurred under the Indenture, the Existing Pari Passu Secured Indebtedness, the Security Documents and the agreements governing any Permitted Pari Passu Secured Indebtedness (or any other document in connection with the foregoing that such paying agents, transfer agents, registrars or other agents are party to) in connection with the collection or distribution of such amounts held or realized or in connection with expenses reasonably incurred in enforcing all available remedies under the Debt Documents, the Intercreditor Agreement, the Security Documents and preserving the Collateral and all indemnification payments for which the foregoing persons are entitled to under the Debt Documents, the Intercreditor Agreement and the Security Documents;

Third, ratably to each of the Trustee for the benefit of the Holders and, to the extent applicable, to other Creditor Representatives (to the extent not paid pursuant to the paragraphs above), inclusive of any reasonable fees and expenses of the foregoing persons and the principal, interest and premium thereon and for the benefit of the holders thereof in accordance with the terms of the relevant Debt Documents; and

Fourth, any surplus remaining after such payments will be paid to the Company, the Subsidiary Guarantor Pledgors or to whomever may be lawfully entitled thereto.

The Collateral Agent may decline to expend its own funds, foreclose on the Collateral or exercise remedies available if it does not receive indemnification and/or security to its satisfaction. In addition, the Collateral Agent’s ability to foreclose on the Collateral may be subject to lack of perfection, the consent of third parties, prior Liens and practical problems associated with the realization of the Collateral Agent’s Liens on the Collateral. Neither the Trustee, the Collateral Agent nor any of their respective officers, directors, employees, attorneys or agents will be responsible or

liable for the existence, genuineness, value or protection of any Collateral securing the Notes, for the legality, enforceability, effectiveness or sufficiency of the Security Documents or the Intercreditor Agreement, for the creation, perfection, continuation, priority, sufficiency or protection of any of the Liens, or for any defect or deficiency as to any such matters, or for any failure to demand, collect, foreclose or realize upon or otherwise enforce any of the Liens or Security Documents or any delay in doing so.

The Security Documents provide that the Company and the Subsidiary Guarantor Pledgors will indemnify the Collateral Agent for all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind imposed against the Collateral Agent arising out of the Intercreditor Agreement, or the Security Documents except to the extent that any of the foregoing are finally judicially determined to have resulted from the gross negligence, fraud or willful misconduct of the Collateral Agent.

This section, “— Enforcement of Security”, shall be subject to any amendments to the Security Documents or the Indenture to permit the creation of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness in accordance with “— Permitted Pari Passu Secured Indebtedness” above.

Release of Security

The security created in respect of the Collateral granted under the Security Documents may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon defeasance and discharge of the Notes as provided below under the caption “— Defeasance — Defeasance and Discharge;”
- upon dispositions of any of the Collateral in compliance with the covenants under the captions “— Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries” or “— Limitation on Asset Sales” or in accordance with the provision under the caption “— Consolidation, Merger and Sale of Assets;”
- with respect to security granted by a Subsidiary Guarantor Pledgor, upon the release of the Subsidiary Guarantee of such Subsidiary Guarantor Pledgor in accordance with the terms of the Indenture;
- in connection with and upon execution of a JV Subsidiary Guarantee to replace a Subsidiary Guarantee, with respect to all pledges of Capital Stock granted by such JV Subsidiary Guarantor in its direct and indirect Subsidiaries, and in accordance with the terms of the Indenture;
- with respect to security granted by any Subsidiary Guarantor and security over the Capital Stock of any Subsidiary Guarantor, upon such Subsidiary Guarantor becoming a New Non-Guarantor Subsidiary;
- with respect to any pledge over any Capital Stock of any Subsidiary Guarantor or JV Subsidiary Guarantor, upon the release of the Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, of such Subsidiary Guarantor or JV Subsidiary Guarantor, and in accordance with the terms of the Indenture; or
- with respect to any pledge over any Capital Stock of any Subsidiary Guarantor or JV Subsidiary Guarantor, upon the designation by the Company of such Subsidiary Guarantor or JV Subsidiary Guarantor as an Unrestricted Subsidiary, and in accordance with the terms of the Indenture.

Further Issues

Subject to the covenants described below and in accordance with the terms of the Indenture, the Company may, from time to time, without notice to or the consent of the Holders, create and issue Additional Notes having the same terms and conditions as the Notes (including the benefit of the Subsidiary Guarantees and the JV Subsidiary Guarantees, if any) in all respects (or in all respects except for the issue date, issue price and the first payment of interest on them and, to the extent necessary, certain temporary securities law transfer restrictions) (a “Further Issue”) so that such Additional Notes may be consolidated and form a single class with the previously outstanding Notes and vote together as one class on all matters with respect to the Notes; *provided* that the issuance of any such Additional Notes shall then be permitted under the “Limitation on Indebtedness and Preferred Stock” covenant described below.

Optional Redemption

At any time and from time to time following the occurrence of the NDRC Registration, the Company may redeem the Notes, in whole or in part, at a redemption price equal to 101% of the principal amount of the Notes, together with accrued and unpaid interest, if any, to (but not including), the redemption date. The Company will give not less than 15 days’ nor more than 30 days’ notice of any redemption.

At any time and from time to time prior to February 27, 2019, the Company may at its option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes plus the Applicable Premium as of, and accrued and unpaid interest, if any, to (but not including) the redemption date. The Company will give not less than 15 days’ nor more than 30 days’ notice of any redemption. Neither the Trustee nor the Paying Agent is responsible for calculating or verifying the Applicable Premium.

At any time and from time to time prior to February 27, 2019, the Company may redeem up to 35% of the aggregate principal amount of the Notes with the Net Cash Proceeds of one or more sales of Common Stock of the Company in an Equity Offering at a redemption price of 106.375% of the principal amount of the Notes redeemed, plus accrued and unpaid interest, if any, to (but not including) the redemption date; *provided* that at least 65% of the aggregate principal amount of the Notes originally issued on the Original Issue Date remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

Selection and Notice

The Company will give not less than 15 days’ nor more than 30 days’ notice of any redemption to the Holders and the Trustee. If less than all of the Notes are to be redeemed at any time, the Notes for redemption will be selected as follows:

- (1) if the Notes are listed on any securities exchange or are held through a clearing system, in compliance with the requirements of the principal securities exchange on which the Notes are listed (if any) or the requirements of the clearing system; or
- (2) if the Notes are not listed on any securities exchange, on a pro rata basis, by lot or by such method as the Trustee in its sole and absolute discretion deems fair and appropriate unless otherwise required by law or by applicable securities exchange or clearing system requirements.

A Note of US\$200,000 in principal amount or less shall not be redeemed in part. If any Note is to be redeemed in part only, the notice of redemption relating to such Note will state the portion of the principal amount to be redeemed. A new Note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note. On and after the redemption date, interest will cease to accrue on the Notes or portions of them called for redemption.

Repurchase of Notes Upon a Change of Control Triggering Event

Not later than 30 days following a Change of Control Triggering Event, the Company will make an Offer to Purchase all outstanding Notes (a “Change of Control Offer”) at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to (but not including) the Offer to Purchase Payment Date.

The Company has agreed in the Indenture that it will timely repay all Indebtedness or obtain consents as necessary under, or terminate, agreements or instruments that would otherwise prohibit a Change of Control Offer required to be made pursuant to the Indenture. Notwithstanding this agreement of the Company, it is important to note that if the Company is unable to repay (or cause to be repaid) all of the Indebtedness, if any, that would prohibit repurchase of the Notes or is unable to obtain the requisite consents of the holders of such Indebtedness, or terminate any agreements or instruments that would otherwise prohibit a Change of Control Offer, it would continue to be prohibited from purchasing the Notes. In that case, the Company’s failure to purchase tendered Notes would constitute an Event of Default under the Indenture.

Certain of the events constituting a Change of Control Triggering Event under the Notes will also constitute an event of default under certain debt instruments of the Company and its Subsidiaries. Future debt of the Company may also (1) prohibit the Company from purchasing Notes in the event of a Change of Control Triggering Event; (2) provide that a Change of Control Triggering Event is a default; or (3) require repurchase of such debt upon a Change of Control Triggering Event. Moreover, the exercise by the Holders of their right to require the Company to purchase the Notes could cause a default under other Indebtedness, even if the Change of Control Triggering Event itself does not, due to the financial effect of the purchase on the Company. The Company’s ability to pay cash to the Holders following the occurrence of a Change of Control Triggering Event may be limited by the Company’s and the Subsidiary Guarantors’ then-existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Notes. See “Risk Factors — Risks Relating to the Notes — We may not be able to repurchase the Notes upon a Change of Control Triggering Event.”

The phrase “all or substantially all”, as used with respect to the assets of the Company in the definition of “Change of Control,” will likely be interpreted under applicable law of the relevant jurisdictions and will be dependent upon particular facts and circumstances. As a result, there may be a degree of uncertainty in ascertaining whether a sale or transfer of “all or substantially all” the assets of the Company has occurred.

Notwithstanding the above, the Company will not be required to make a Change of Control Offer following a Change of Control Triggering Event if a third party makes the Change of Control Offer in the same manner at the same time and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

Except as described above with respect to a Change of Control Triggering Event, the Indenture does not contain provisions that permit the Holders to require that the Company purchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

The Trustee shall not be required to take any steps to ascertain whether a Change of Control Triggering Event or any event which could lead to a Change of Control Triggering Event has occurred and shall not be liable to any person for any failure to do so.

No Mandatory Redemption or Sinking Fund

There will be no mandatory redemption or sinking fund payments for the Notes.

Additional Amounts

All payments of principal of, and premium (if any) and interest on the Notes or under the Subsidiary Guarantees and JV Subsidiary Guarantees (if any) will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or within any jurisdiction in which the Company, a Surviving Person (as defined under the caption “— Consolidation, Merger and Sale of Assets”) or an applicable Subsidiary Guarantor or JV Subsidiary Guarantor is organized or resident for tax purposes (or any political subdivision or taxing authority thereof or therein) (each, as applicable, a “Relevant Jurisdiction”), or the jurisdiction through which payments are made or any political subdivision or taxing authority thereof or therein (each, together with a Relevant Jurisdiction, a “Taxing Jurisdiction”), unless such withholding or deduction is required by law or by regulation or governmental policy having the force of law. In the event that any such withholding or deduction is so required, the Company, a Surviving Person or the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, will pay such additional amounts (“Additional Amounts”) as will result in receipt by the Holder of each Note of such amounts as would have been received by such Holder had no such withholding or deduction been required, except that no Additional Amounts shall be payable:

- (1) for or on account of:
 - (a) any tax, duty, assessment or other governmental charge that would not have been imposed but for:
 - (i) the existence of any present or former connection between the Holder or beneficial owner of such Note and the Taxing Jurisdiction, other than merely holding such Note or the receipt of payments thereunder or under a Subsidiary Guarantee or JV Subsidiary Guarantee, including, without limitation, such Holder or beneficial owner being or having been a national, domiciliary or resident of such Taxing Jurisdiction or treated as a resident thereof or being or having been physically present or engaged in a trade or business therein or having or having had a permanent establishment therein;
 - (ii) the presentation of such Note (in cases in which presentation is required) more than 30 days after the later of the date on which the payment of the principal of, premium, if any, and interest on, such Note became due and payable pursuant to the terms thereof or was made or duly provided for, except to the extent that the Holder thereof would have been entitled to such Additional Amounts if it had presented such Note for payment on any date within such 30-day period;
 - (iii) the failure of the Holder or beneficial owner to comply with a timely request of the Company, a Surviving Person, any Subsidiary Guarantor or any JV Subsidiary Guarantor, addressed to the Holder, to provide information concerning such Holder’s or beneficial owner’s nationality, residence, identity or connection with any Taxing Jurisdiction, if and to the extent that due and timely compliance with such request is required under the tax laws of such jurisdiction in order to reduce or eliminate any withholding or deduction as to which Additional Amounts would have otherwise been payable to such Holder;
or
 - (iv) the presentation of such Note (in cases in which presentation is required) for payment in the Taxing Jurisdiction, unless such Note could not have been presented for payment elsewhere;
 - (b) any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other governmental charge;

- (c) any tax, assessment, withholding or deduction required by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (“FATCA”), any current or future Treasury Regulations or rulings promulgated thereunder, any law, regulation or other official guidance enacted in any jurisdiction implementing FATCA, any intergovernmental agreement between the United States and any other jurisdiction to implement FATCA, or any agreement with the U.S. Internal Revenue Service under FATCA; or
 - (d) any combination of taxes, duties, assessments or other governmental charges referred to in the preceding clauses (a), (b), (c) and (d); or
- (2) to a Holder that is a fiduciary, partnership or person other than the sole beneficial owner of any payment to the extent that such payment would be required to be included in the income under the laws of a Taxing Jurisdiction, for tax purposes, of a beneficiary or settlor with respect to the fiduciary, or a member of that partnership or a beneficial owner who would not have been entitled to such Additional Amounts had that beneficiary, settlor, partner or beneficial owner been the Holder thereof.

Whenever there is mentioned in any context the payment of principal of, and any premium or interest on, any Note or under any Subsidiary Guarantee or JV Subsidiary Guarantee, such mention shall be deemed to include payment of Additional Amounts provided for in the Indenture to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

Redemption for Taxation Reasons

The Notes may be redeemed, at the option of the Company or a Surviving Person with respect to the Company, as a whole but not in part, upon giving not less than 30 days’ nor more than 60 days’ notice to the Holders and the Trustee (which notice shall be irrevocable), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest (including any Additional Amounts), if any, to the date fixed by the Company or the Surviving Person, as the case may be, for redemption (the “Tax Redemption Date”) if, as a result of:

- (1) any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of a Relevant Jurisdiction affecting taxation; or
- (2) any change in the existing official position or the stating of an official position regarding the application or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction),

which change or amendment becomes effective (or in the case of an official position, is announced) (i) with respect to the Company or any initial Subsidiary Guarantor, on or after the Original Issue Date, or (ii) with respect to any Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, on or after the date such Future Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person becomes a Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, with respect to any payment due or to become due under the Notes or the Indenture, the Company, a Surviving Person or a Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, is, or on the next Interest Payment Date would be, required to pay Additional Amounts, and such requirement cannot be avoided by the taking of reasonable measures by the Company, a Surviving Person, a Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be; *provided* that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Company, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, would be obligated to pay such Additional Amounts if a payment in respect of the Notes were then due.

Prior to the mailing of any notice of redemption of the Notes pursuant to the foregoing, the Company or a Surviving Person, as the case may be, will deliver to the Trustee at least 30 days but not more than 60 days before a redemption date:

- (1) an Officers' Certificate stating that such change, amendment or stating of an official position referred to in the prior paragraph has occurred, describing the facts related thereto and stating that such requirement cannot be avoided by the Company or such Surviving Person, as the case may be, taking reasonable measures available to it; and
- (2) an Opinion of Counsel or an opinion of a tax consultant, in either case of recognized standing with respect to tax matters of the Relevant Jurisdiction, stating that the requirement to pay such Additional Amounts results from such change, amendment or stating of an official position referred to in the prior paragraph.

The Trustee shall and is entitled to accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent described above, in which event it shall be conclusive and binding on the Holders.

Any Notes that are redeemed will be cancelled.

Certain Covenants

Set forth below are summaries of certain covenants contained in the Indenture.

Limitation on Indebtedness and Preferred Stock

- (1) The Company will not, and will not permit any Restricted Subsidiary to, Incur any Indebtedness (including Acquired Indebtedness), and the Company will not permit any Restricted Subsidiary to issue Preferred Stock, *provided* that the Company and any Subsidiary Guarantor may Incur Indebtedness (including Acquired Indebtedness) and any Restricted Subsidiary (other than a Subsidiary Guarantor) may Incur Permitted Subsidiary Indebtedness if, after giving effect to the Incurrence of such Indebtedness and the receipt and application of the proceeds therefrom, (x) no Default has occurred and is continuing and (y) the Fixed Charge Coverage Ratio would be not less than 2.5 to 1.0. Notwithstanding the foregoing, the Company will not permit any Restricted Subsidiary to Incur any Disqualified Stock (other than Disqualified Stock held by the Company or a Subsidiary Guarantor, so long as it is so held).
- (2) Notwithstanding the foregoing, the Company and, to the extent provided below, any Restricted Subsidiary may Incur each and all of the following ("Permitted Indebtedness"):
 - (a) Indebtedness under the Notes (excluding any Additional Notes and any Permitted Pari Passu Secured Indebtedness of the Company) and each Subsidiary Guarantee and JV Subsidiary Guarantee;
 - (b) Any Pari Passu Subsidiary Guarantees by any Subsidiary Guarantor or any JV Subsidiary Guarantor;
 - (c) Indebtedness of the Company or any Restricted Subsidiary (x) outstanding on the Original Issue Date excluding Indebtedness permitted under clause (d), or (y) Incurred pursuant to agreements that have been entered into on or prior to the Original Issue Date in the aggregate principal amount at any time not to exceed US\$30 million; *provided* that such Indebtedness of Restricted Subsidiaries shall be included in the calculation of Permitted Subsidiary Indebtedness (other than any such Indebtedness described in clauses (a) and (b) above and clauses (d), (f), (g), (m) and (o) below);

- (d) Indebtedness of the Company or Indebtedness or Preferred Stock of any Restricted Subsidiary owed to or held by the Company or any Restricted Subsidiary; *provided* that (i) any event which results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of such Indebtedness or Preferred Stock (other than to the Company or any Restricted Subsidiary) shall be deemed, in each case, to constitute an Incurrence of such Indebtedness not permitted by this clause (d) and (ii) if the Company is the obligor on such Indebtedness and none of the Subsidiary Guarantors and the JV Subsidiary Guarantors are the obligee on such Indebtedness, such Indebtedness must be unsecured and expressly be subordinated in right of payment to the Notes, and if a Subsidiary Guarantor or a JV Subsidiary Guarantor is the obligor on such Indebtedness and none of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors are the obligee on such Indebtedness, such Indebtedness must be unsecured and expressly subordinated in right of payment to the Subsidiary Guarantee of such Subsidiary Guarantor or the JV Subsidiary Guarantee of such JV Subsidiary Guarantor, as the case may be; *provided* further that, any Preferred Stock issued by a Subsidiary Guarantor or a JV Subsidiary Guarantor and held by the Company or another Restricted Subsidiary must by the terms thereof or by operation of law be subordinated in right of payment to the Subsidiary Guarantee of such Subsidiary Guarantor or the JV Subsidiary Guarantee of such JV Subsidiary Guarantor, as the case may be;
- (e) Indebtedness (“Permitted Refinancing Indebtedness”) issued in exchange for, or the net proceeds of which are used to refinance or refund, replace, exchange, renew, repay, defease, discharge or extend (collectively, “refinance” and “refinances” and “refinanced” shall have a correlative meaning), then outstanding Indebtedness (or Indebtedness that is no longer outstanding but that is refinanced substantially concurrently with the Incurrence of such Permitted Refinancing Indebtedness) Incurred under the immediately preceding paragraph (1) or clauses (a), (b), (c), (h), (n), (p), (q), (r), (s), (t), (u) or (v) of this paragraph (2) and any refinancings thereof in an amount not to exceed the amount so refinanced (plus premiums, accrued interest, fees and expenses); *provided* that (i) Indebtedness the proceeds of which are used to refinance the Notes or Indebtedness that is *pari passu* with, or subordinated in right of payment to, the Notes or a Subsidiary Guarantee or a JV Subsidiary Guarantee shall only be permitted under this clause (e) if (A) in case the Notes are refinanced in part or the Indebtedness to be refinanced is *pari passu* with the Notes or a Subsidiary Guarantee or a JV Subsidiary Guarantee, as the case may be, such new Indebtedness, by its terms or by the terms of any agreement or instrument pursuant to which such new Indebtedness is outstanding, is expressly made *pari passu* with, or subordinate in right of payment to, the remaining Notes or such Subsidiary Guarantee or such JV Subsidiary Guarantee, as the case may be, or (B) in case the Indebtedness to be refinanced is subordinated in right of payment to the Notes or a Subsidiary Guarantee or a JV Subsidiary Guarantee, as the case may be, such new Indebtedness, by its terms or by the terms of any agreement or instrument pursuant to which such new Indebtedness is issued or remains outstanding, is expressly made subordinate in right of payment to the Notes or such Subsidiary Guarantee or such JV Subsidiary Guarantee, as the case may be, at least to the extent that the Indebtedness to be refinanced is subordinated to the Notes or such Subsidiary Guarantee or such JV Subsidiary Guarantee, (ii) such new Indebtedness, determined as of the date of Incurrence of such new Indebtedness, does not mature prior to the Stated Maturity of the Indebtedness to be refinanced, and the Average Life of such new Indebtedness is at least equal to the remaining Average Life of the Indebtedness to be refinanced, (iii) in no event may Indebtedness of the Company, or any Subsidiary Guarantor or any JV Subsidiary Guarantor be refinanced pursuant to this clause by means of any Indebtedness of any Restricted Subsidiary that is neither a Subsidiary Guarantor nor a JV Subsidiary Guarantor, and (iv) in no event may Indebtedness of the Company or

any Subsidiary Guarantor be refinanced pursuant to this clause by means of any Indebtedness of any JV Subsidiary Guarantor (provided that this sub-clause (iv) shall not prohibit the replacement of a Subsidiary Guarantee by a JV Subsidiary Guarantee if otherwise permitted by the Indenture);

- (f) Indebtedness Incurred by the Company or any Restricted Subsidiary pursuant to Hedging Obligations entered into in the ordinary course of business and designed solely to protect the Company or any of its Restricted Subsidiaries from fluctuations in interest rates, currencies or the price of commodities and not for speculation;
- (g) Pre-Registration Mortgage Guarantees by the Company or any Restricted Subsidiary;
- (h) Indebtedness Incurred by the Company or any Restricted Subsidiary for the purpose of financing (x) all or any part of the purchase price of assets, real or personal property (including the lease purchase price of land use rights) or equipment to be used in the ordinary course of business by the Company or a Restricted Subsidiary in the Permitted Business, including any such purchase through the acquisition of Capital Stock of any Person that owns such assets, real or personal property or equipment which will, upon acquisition, become a Restricted Subsidiary, or (y) all or any part of the purchase price or the cost of development, construction or improvement of assets, real or personal property (including the lease purchase price of land use rights) or equipment to be used in the ordinary course of business by the Company or such Restricted Subsidiary in the Permitted Business; *provided* that in the case of clauses (x) and (y), (A) the aggregate principal amount of such Indebtedness shall not exceed such purchase price or cost, (B) such Indebtedness shall be Incurred no later than 180 days after the acquisition of such property or completion of such development, construction or improvement and (C) on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness Incurred under this clause (h) (together with refinancings thereof and the aggregate principal amount outstanding of Indebtedness and Preferred Stock Incurred under clauses (p), (q)(y), (s), (t), (u) and (v) below and the refinancings thereof, but excluding any Contractor Guarantee or Guarantee Incurred under such clauses and this clause (h) to the extent the amount of such Contractor Guarantee or Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 30% of Total Assets;
- (i) Indebtedness Incurred by the Company or any Restricted Subsidiary constituting reimbursement obligations with respect to workers' compensation claims or self-insurance obligations or bid, performance or surety bonds (in each case other than for an obligation for borrowed money);
- (j) Indebtedness Incurred by the Company or any Restricted Subsidiary constituting reimbursement obligations with respect to letters of credit or trade guarantees or similar instruments issued in the ordinary course of business to the extent that such letters of credit or trade guarantees or similar instruments are not drawn upon or, if drawn upon, to the extent such drawing is reimbursed no later than the 30 days following receipt by the Company or such Restricted Subsidiary of a demand for reimbursement;
- (k) Indebtedness arising from agreements providing for indemnification, adjustment of purchase price or similar obligations, or from Guarantees or letters of credit, surety bonds or performance bonds securing any obligation of the Company or any Restricted Subsidiary pursuant to such agreements, in any case, Incurred in connection with the disposition of any business, assets or Restricted Subsidiary, other than Guarantees of Indebtedness Incurred by any Person acquiring all or any portion of such business, assets or Restricted Subsidiary for the purpose of financing such

acquisition; *provided* that the maximum aggregate liability in respect of all such Indebtedness in the nature of such Guarantee shall at no time exceed the gross proceeds actually received from the sale of such business, assets or Restricted Subsidiary;

- (l) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business; *provided* that such Indebtedness is extinguished within five Business Days of Incurrence;
- (m) Guarantees by the Company or any Restricted Subsidiary of Indebtedness of the Company or any Restricted Subsidiary that was permitted to be Incurred by another provision of this covenant, subject to the "Limitation on Issuances of Guarantees by Restricted Subsidiaries" covenant;
- (n) Indebtedness of the Company or any Restricted Subsidiary with a maturity of one year or less used by the Company or any Restricted Subsidiary for working capital; *provided* that the aggregate principal amount of Indebtedness permitted by this clause (n) at any time outstanding (together with refinancings thereof) does not exceed US\$50 million (or the Dollar Equivalent thereof);
- (o) Indebtedness of the Company or any Restricted Subsidiary constituting an obligation to pay the deferred purchase price of Capital Stock of a Person pursuant to a Staged Acquisition Agreement, to the extent that such deferred purchase price is paid within 12 months after the date the Company or such Restricted Subsidiary enters into such Staged Acquisition Agreement; *provided* that such Person is either a Restricted Subsidiary or would become a Restricted Subsidiary upon completion of the transactions under such Staged Acquisition Agreement;
- (p) Indebtedness Incurred or Preferred Stock or Disqualified Stock issued by any Restricted Subsidiary arising from any Investment made by a Financial Company Investor in a Restricted Subsidiary, and Indebtedness of the Company or a Restricted Subsidiary constituting a Guarantee by, or grant of a Lien on the assets of, the Company or a Restricted Subsidiary in favor of a Financial Company Investor with respect to the obligation to pay a guaranteed or preferred return to such Financial Company Investor on Capital Stock of a Restricted Subsidiary held by such Financial Company Investor, *provided* that on the date of such Incurrence of all such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness and Preferred Stock Incurred under this clause (p) (together with refinancings thereof and the aggregate principal amount outstanding of Indebtedness that was Incurred under clause (h) above and clauses (q)(y), (s), (t), (u) and (v) below and the refinancings thereof, but excluding any Contractor Guarantee or Guarantee Incurred under such clauses and this clause (p) to the extent the amount of such Contractor Guarantee or Guarantee is otherwise reflected in such aggregate principal amount), does not exceed an amount equal to 30% of Total Assets;
- (q) (x) Bank Deposit Secured Indebtedness Incurred by the Company or any Restricted Subsidiary; *provided* that on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness Incurred under this clause (q)(x) (together with refinancings thereof, but excluding any Contractor Guarantee or Guarantee Incurred under this clause (q)(x) to the extent the amount of such Contractor Guarantee or Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 12.5% of Total Assets; or (y) Bank Deposit Secured Indebtedness Incurred by the Company or any Restricted Subsidiary; *provided* that (i) such Bank Deposit Secured

Indebtedness is not permitted under clause (q)(x) above and (ii) on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate of all Indebtedness Incurred under this clause (q)(y) (together with refinancing thereof and the aggregate principal amount outstanding of Indebtedness and Preferred Stock Incurred under clauses (h) and (p) above and clauses (s), (t), (u) and (v) below and the financings thereof, but excluding any Contractor Guarantee or Guarantee Incurred under such clauses and this clause (q)(y) to the extent the amount of such Contractor Guarantee or Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 30% of Total Assets;

- (r) Indebtedness of the Company or any Restricted Subsidiary in an aggregate principal amount outstanding at any time (together with financings thereof) not to exceed US\$50 million (or the Dollar Equivalent thereof);
- (s) Indebtedness Incurred by the Company or any Restricted Subsidiary constituting a Guarantee of Indebtedness of any Person (other than a Restricted Subsidiary) by the Company or such Restricted Subsidiary, *provided* that on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate of all Indebtedness Incurred under this clause (s) (together with refinancing thereof and the aggregate principal amount outstanding of Indebtedness and Preferred Stock Incurred under clauses (h), (p) and (q)(y) above and clauses (t), (u) and (v) below and the financings thereof, but excluding any Contractor Guarantee or Guarantee Incurred under such clauses and this clause (s) to the extent the amount of such Contractor Guarantee or Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 30% of Total Assets;
- (t) Acquired Indebtedness of any Restricted Subsidiary Incurred and outstanding on the date on which such Restricted Subsidiary became a Restricted Subsidiary (other than Indebtedness Incurred (i) to provide all or any portion of the funds utilized to consummate the transaction or series of transactions pursuant to which a Person becomes a Restricted Subsidiary or (ii) otherwise in contemplation of a Person becoming a Restricted Subsidiary or any such acquisition); *provided* that on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness Incurred pursuant to this clause (t) (together with refinancing thereof and the aggregate principal amount outstanding of Indebtedness and Preferred Stock Incurred under clauses (h), (p), (q)(y) and (s) above and clauses (u) and (v) below and the financings thereof, but excluding any Contractor Guarantee or Guarantee Incurred under such clauses and this clause (t) to the extent the amount of such Contractor Guarantee or Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 30% of Total Assets.
- (u) Indebtedness of the Company or any Restricted Subsidiary constituting an obligation to pay the deferred purchase price of Capital Stock of a Person pursuant to a Minority Interest Staged Acquisition Agreement, to the extent that such deferred purchase price is paid within 12 months after the date the Company or such Restricted Subsidiary enters into such Minority Interest Staged Acquisition Agreement; *provided* that on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness Incurred under this clause (u) (together with financings thereof and the aggregate principal amount outstanding of Indebtedness that was Incurred under clauses (h), (p), (q)(y), (s) and (t) above and clause (v) below and the financings thereof, but excluding any

Contractor Guarantee or Guarantee Incurred under such clauses and this clause (u) to the extent the amount of such Contractor Guarantee or Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 30% of Total Assets; and

- (v) (x) Indebtedness Incurred by the Company or any Restricted Subsidiary which is secured by Investment Properties or long term assets, and Guarantees thereof by the Company or any such Restricted Subsidiary or (y) Capitalized Lease Obligations, or Attributable Indebtedness with respect to a Sale and Leaseback Transaction that would otherwise be permitted under the section entitled “Limitation on Sale and Leaseback Transactions”, Incurred by any PRC Restricted Subsidiary; *provided* that on the date of the Incurrence of such Indebtedness and after giving effect thereto, the aggregate principal amount outstanding of all such Indebtedness Incurred under this clause (v) (together with refinancings thereof and the aggregate principal amount outstanding of Indebtedness that was Incurred under clauses (h), (p), (q)(y), (s), (t) and (u) above and the refinancings thereof, but excluding any Contractor Guarantee or Guarantee Incurred under such clauses and this clause (v) to the extent the amount of such Contractor Guarantee or Guarantee is otherwise reflected in such aggregate principal amount) does not exceed an amount equal to 30% of Total Assets.
- (3) For purposes of determining compliance with this “Limitation on Indebtedness and Preferred Stock” covenant, in the event that an item of Indebtedness meets the criteria of more than one of the types of Indebtedness described above, including under the proviso in the first paragraph, the Company, in its sole discretion, shall classify, and from time to time may reclassify, such item of Indebtedness in one or more types of Indebtedness described above.
- (4) Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that may be Incurred pursuant to this covenant will not be deemed to be exceeded with respect to any outstanding Indebtedness due solely to the result of fluctuations in the exchange rates of currencies, *provided* that such Indebtedness was permitted to be Incurred at the time of such Incurrence.

Limitation on Restricted Payments

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly (the payments or any other actions described in clauses (1) through (4) below being collectively referred to as “Restricted Payments”):

- (1) declare or pay any dividend or make any distribution on or with respect to the Company’s or any of its Restricted Subsidiaries’ Capital Stock (other than dividends or distributions payable or paid in shares of the Company’s Capital Stock (other than Disqualified Stock or Preferred Stock) or in options, warrants or other rights to acquire such shares) held by Persons other than the Company or any Wholly Owned Restricted Subsidiary;
- (2) purchase, call for redemption or redeem, retire or otherwise acquire for value any shares of Capital Stock of the Company or any Restricted Subsidiary (including options, warrants or other rights to acquire such shares of Capital Stock) or any direct or indirect parent of the Company held by any Persons other than the Company or any Wholly Owned Restricted Subsidiary other than (i) the purchase of Capital Stock of a Restricted Subsidiary pursuant to a Staged Acquisition Agreement or (ii) the purchase of Capital Stock of the Company or a Restricted Subsidiary held by any Financial Company Investor;

- (3) make any voluntary or optional principal payment, or voluntary or optional redemption, repurchase, defeasance, or other acquisition or retirement for value, of Indebtedness that is subordinated in right of payment to the Notes or any of the Subsidiary Guarantees or any of the JV Subsidiary Guarantees (excluding any intercompany Indebtedness between or among the Company and any of its Wholly Owned Restricted Subsidiaries); or
- (4) make any Investment, other than a Permitted Investment;

if, at the time of, and after giving effect to, the proposed Restricted Payment:

- (a) a Default has occurred and is continuing or would occur as a result of such Restricted Payment;
- (b) the Company could not Incur at least US\$1.00 of Indebtedness under the proviso in the first paragraph of the covenant under the caption “— Limitation on Indebtedness and Preferred Stock;” or
- (c) such Restricted Payment, together with the aggregate amount of all Restricted Payments made by the Company and its Restricted Subsidiaries after the Measurement Date, shall exceed the sum of:
 - (i) 50% of the aggregate amount of the Consolidated Net Income of the Company (or, if the Consolidated Net Income is a loss, minus 100% of the amount of such loss) accrued on a cumulative basis during the period (taken as one accounting period) beginning on April 1, 2014 and ending on the last day of the Company’s most recently ended fiscal quarter for which consolidated financial statements of the Company (which the Company shall use its reasonable best efforts to compile in a timely manner) are available (which may include internal consolidated financial statements); *plus*
 - (ii) 100% of the aggregate Net Cash Proceeds received by the Company after the Measurement Date as a capital contribution to its common equity or from the issuance and sale of its Capital Stock (other than Disqualified Stock) to a Person who is not a Restricted Subsidiary of the Company, including any such Net Cash Proceeds received upon (A) the conversion of any Indebtedness (other than Subordinated Indebtedness) of the Company into Capital Stock (other than Disqualified Stock) of the Company, or (B) the exercise by a Person who is not a Restricted Subsidiary of the Company of any options, warrants or other rights to acquire Capital Stock of the Company (other than Disqualified Stock) in each case excluding the amount of any such Net Cash Proceeds used to redeem, repurchase, defease or otherwise acquire or retire for value any Subordinated Indebtedness or Capital Stock of the Company; *plus*
 - (iii) the amount by which Indebtedness of the Company or any of its Restricted Subsidiaries is reduced on the Company’s consolidated balance sheet upon the conversion or exchange (other than by a Restricted Subsidiary of the Company) subsequent to the Measurement Date of any Indebtedness of the Company or any of its Restricted Subsidiaries convertible or exchangeable into Capital Stock (other than Disqualified Stock) of the Company (less the amount of any cash, or the Fair Market Value of any other property, distributed by the Company upon such conversion or exchange); *plus*
 - (iv) an amount equal to the net reduction in Investments (other than reductions in Permitted Investments) that were made after the Measurement Date in any Person resulting from (A) payments of interest on Indebtedness, dividends or repayments of loans or advances by such Person, in each case to the Company or any Restricted Subsidiary (except, in each case, to the extent any such payment or proceeds are

included in the calculation of Consolidated Net Income) after the Measurement Date, (B) the unconditional release of a Guarantee provided by the Company or a Restricted Subsidiary after the Measurement Date of an obligation of another Person, (C) to the extent that an Investment made after the Measurement Date was, after such date, or is sold or otherwise liquidated or repaid for cash, the lesser of (x) cash return of capital with respect to such Investment (less the cost of disposition, if any) and (y) the initial amount of such Investment, (D) from redesignations of Unrestricted Subsidiaries as Restricted Subsidiaries, not to exceed, in each case, the amount of Investments (other than Permitted Investments) made by the Company or a Restricted Subsidiary after the Measurement Date in any such Person, or (E) any Person becoming a Restricted Subsidiary (whereupon all Investments made by the Company or any Restricted Subsidiary in such Person since the Measurement Date shall be deemed to have been made pursuant to clause (1) of the definition of "Permitted Investment") but only to the extent such Investments by the Company or any Restricted Subsidiary in such Person was a Restricted Payment made to the extent permitted under this paragraph (c); *plus*

(v) US\$50 million (or the Dollar Equivalent thereof).

The foregoing provision shall not be violated by reason of any of the following:

- (1) the payment of any dividend or redemption of any Capital Stock within 60 days after the related date of declaration or call for redemption if, at said date of declaration or call for redemption, such payment or redemption would comply with the preceding paragraph;
- (2) the redemption, repurchase, defeasance or other acquisition or retirement for value of Subordinated Indebtedness of the Company or any of the Subsidiary Guarantors or JV Subsidiary Guarantors with the Net Cash Proceeds of, or in exchange for, a substantially concurrent Incurrence of Permitted Refinancing Indebtedness;
- (3) the redemption, repurchase or other acquisition of Capital Stock of the Company or any Subsidiary Guarantor or any JV Subsidiary Guarantor (or options, warrants or other rights to acquire such Capital Stock) in exchange for, or out of the Net Cash Proceeds of a substantially concurrent capital contribution or a sale (other than to a Subsidiary of the Company) of, shares of the Capital Stock (other than Disqualified Stock) of the Company or any Subsidiary Guarantor (or options, warrants or other rights to acquire such Capital Stock); *provided* that the amount of any such Net Cash Proceeds that are utilized for any such Restricted Payment will be excluded from clause (c)(ii) of the preceding paragraph, *provided however* that any item that has been excluded pursuant to clause (c)(ii) of the preceding paragraph will not be excluded again as a result of the proviso in this clause (3);
- (4) the redemption, repurchase, defeasance or other acquisition or retirement for value of Subordinated Indebtedness of the Company or any of the Subsidiary Guarantors or JV Subsidiary Guarantors in exchange for, or out of the Net Cash Proceeds of, a substantially concurrent capital contribution or sale (other than to a Subsidiary of the Company) of, shares of Capital Stock (other than Disqualified Stock) of the Company or any of the Subsidiary Guarantors or JV Subsidiary Guarantors (or options, warrants or other rights to acquire such Capital Stock); *provided* that the amount of any such Net Cash Proceeds that are utilized for any such Restricted Payment will be excluded from clause (c)(ii) of the preceding paragraph, *provided however* that any item that has been excluded pursuant to clause (c)(ii) of the preceding paragraph will not be excluded again as a result of the proviso in this clause (4);
- (5) the declaration and payment of any dividends or distributions declared, paid or made by a Restricted Subsidiary payable, on a pro rata basis or on a basis more favorable to the Company, to all holders of any class of Capital Stock of such Restricted Subsidiary;

provided that, with respect to a Restricted Subsidiary of which less than a majority of the Voting Stock is directly or indirectly owned by the Company, such dividend or distribution shall be declared, paid or made on a *pro rata* basis or on a basis more favorable to the Company, as determined by the ownership of the Voting Stock;

- (6) dividends paid to, or the purchase of Capital Stock of the Company or any Restricted Subsidiary held by, any Financial Company Investor in respect of any Indebtedness or Preferred Stock outstanding on the Original Issue Date or permitted to be Incurred under paragraph (2)(p) of the “Limitation on Indebtedness and Preferred Stock” covenant;
- (7) the declaration and payment of dividends on the Common Stock of the Company by the Company in an aggregate amount not to exceed RMB80 million for the fiscal year ended December 31, 2013;
- (8) the purchase by the Company or a Restricted Subsidiary of Capital Stock of any Restricted Subsidiary that is not Wholly Owned, directly or indirectly, by the Company from an Independent Third Party pursuant to an agreement entered into between/among the Company or any Restricted Subsidiary and such Independent Third Party for the purpose of acquiring interests in, or additional interests in, real property or land use rights (including without limitation, through the acquisition of Capital Stock of any Restricted Subsidiary holding or owning such real property or land use rights), provided that (x) such purchase occurs within 24 months after such Restricted Subsidiary acquires the real property or land use rights it was formed to acquire and (y) the Company delivers to the Trustee a Board Resolution set forth in an Officers’ Certificate confirming that, in the opinion of the Board of Directors, the purchase price of such Capital Stock is less than or equal to the Fair Market Value of such Capital Stock; provided further that the aggregate principal amount paid by the Company or its Restricted Subsidiaries for any purchase made pursuant to this clause (8) does not exceed an amount equal to 20% of Total Assets;
- (9) (A) the repurchase, redemption or other acquisition or retirement for value of the Capital Stock of the Company or any Restricted Subsidiary (directly or indirectly, including through any trustee, agent or nominee) in connection with an employee benefit plan, and any corresponding Investment by the Company or any Restricted Subsidiary in any trust or similar arrangements to the extent of such repurchased, redeemed, acquired or retired Capital Stock, or (B) the repurchase, redemption or other acquisition or retirement for value of any Capital Stock of the Company or any Restricted Subsidiary held by an employee benefit plan of the Company or any Restricted Subsidiary, any current or former officer, director, consultant, or employee of the Company or any Restricted Subsidiary (or permitted transferees, estates or heirs of any of the foregoing); provided that the aggregate consideration paid for all such repurchased, redeemed, acquired or retired Capital Stock shall not exceed US\$5 million (or the Dollar Equivalent thereof using the Original Issue Date as the date of determination);
- (10) cash payment in lieu of fractional shares in connection with the exercise of warrants, options or other securities convertible into or exchangeable for Capital Stock of the Company, provided, however, that any such cash payment shall not be for the purpose of evading the limitation of this “— Limitation on Restricted Payments” covenant (as determined in good faith by the Board of Directors of the Company);
- (11) the declaration and payment of dividends by the Company and/or the repurchase of the Company’s Common Stock with respect to any financial year, to the extent that such declaration and payment of dividends by the Company pursuant to this clause (11), together with such repurchase of the Company’s Common Stock pursuant to this clause (11), does not exceed 20% of the consolidated profit for the year of the Company calculated in accordance with GAAP; or

- (12) the distributions or payments of Securitization Fees in connection with Receivable Financings, *provided* that such distributions or payments declaration in connection with Receivable Financings shall not exceed 5% of the Total Assets,

provided that, in the case of clause (2), (3), (4), or (7) of the preceding paragraph, no Default shall have occurred and be continuing or would occur as a consequence of the actions or payments set forth therein.

Each Restricted Payment made pursuant to clause (1) and (11) of the preceding paragraph shall be included in calculating whether the conditions of clause (c) of the first paragraph of this “— Limitation on Restricted Payments” covenant have been met with respect to any subsequent Restricted Payments.

The amount of any Restricted Payments (other than cash) will be the Fair Market Value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Company or the Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment. The value of any assets or securities that are required to be valued by this covenant will be the Fair Market Value. The Board of Directors’ determination of the Fair Market Value of a Restricted Payment or any such assets or securities must be based upon an opinion or appraisal issued by an appraisal or investment banking firm of recognized international standing if the Fair Market Value exceeds US\$10.0 million (or the Dollar Equivalent thereof).

Not later than the date of making any Restricted Payment in excess of US\$10.0 million (or the Dollar Equivalent thereof) (other than any Restricted Payments set forth in clauses (5) through (12) above), the Company will deliver to the Trustee an Officers’ Certificate stating that such Restricted Payment is permitted and setting forth the basis upon which the calculations required by this “— Limitation on Restricted Payments” covenant were computed, together with a copy of any fairness opinion or appraisal required by the Indenture.

For purposes of determining compliance with this “— Limitation on Restricted Payments” covenant, in the event that an item of Investment meets the criteria of both the first paragraph of this “— Limitation on Restricted Payments” covenant and paragraph (18) of the definition of “Permitted Investment” at any time, the Company, in its sole discretion, shall classify, and from time to time may reclassify, such item of Investment in either or both of them.

Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

- (1) Except as provided below, the Company will not, and will not permit any Restricted Subsidiary to, create or otherwise cause or permit to exist or become effective any encumbrance or restriction on the ability of any Restricted Subsidiary to:
- (a) pay dividends or make any other distributions on any Capital Stock of such Restricted Subsidiary owned by the Company or any other Restricted Subsidiary;
 - (b) pay any Indebtedness or other obligation owed to the Company or any other Restricted Subsidiary;
 - (c) make loans or advances to the Company or any other Restricted Subsidiary; or
 - (d) sell, lease or transfer any of its property or assets to the Company or any other Restricted Subsidiary.
- (2) The provisions of paragraph (1) do not apply to any encumbrances or restrictions:
- (a) existing in agreements as in effect on the Original Issue Date, or in the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees, the Indenture, the Security

Documents, or under any Permitted Pari Passu Secured Indebtedness of the Company or any Subsidiary Guarantor Pledgor or Pari Passu Subsidiary Guarantee of any Subsidiary Guarantor or any JV Subsidiary Guarantor, and any extensions, refinancings, renewals or replacements of any of the foregoing agreements; *provided* that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced;

- (b) existing under or by reason of applicable law, rule, regulation or order;
- (c) existing with respect to any Person or the property or assets of such Person acquired by the Company or any Restricted Subsidiary, at the time of such acquisition and not incurred in contemplation thereof, which encumbrances or restrictions are not applicable to any Person or the property or assets of any Person other than such Person or the property or assets of such Person so acquired, and any extensions, refinancings, renewals or replacements thereof; *provided* that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced;
- (d) that otherwise would be prohibited by the provision described in clause (1)(d) of this covenant if they arise, or are agreed to, in the ordinary course of business and, that (i) restrict in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease or license, or (ii) exist by virtue of any Lien on, or agreement to transfer, option or similar right with respect to any property or assets of the Company or any Restricted Subsidiary not otherwise prohibited by the Indenture or (iii) do not relate to any Indebtedness, and that do not, individually or in the aggregate, detract from the value of the property or assets of the Company or any Restricted Subsidiary in any manner material to the Company or any Restricted Subsidiary;
- (e) with respect to a Restricted Subsidiary and imposed pursuant to an agreement that has been entered into for the sale or disposition of all or substantially all of the Capital Stock of, or property and assets of, such Restricted Subsidiary that is permitted by the “— Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries,” “— Limitation on Indebtedness and Preferred Stock” and “— Limitation on Asset Sales” covenants;
- (f) with respect to any Restricted Subsidiary and imposed pursuant to an agreement that has been entered into for the Incurrence of Indebtedness or issuance of Preferred Stock or Disqualified Stock of the type described under clause (2)(h), (2)(o), (2)(p), (2)(q), (2)(s), (2)(t), (2)(u) or (2)(v) or permitted under clause (2)(n) or (2)(r) of the “— Limitation on Indebtedness and Preferred Stock” covenant if the encumbrances or restrictions are (i) customary for such types of agreements and (ii) would not, at the time agreed to, be expected to materially and adversely affect the ability of the Company to make required payment on the Notes and any extensions, refinancings, renewals or replacements of any of the foregoing agreements; *provided* that the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are

being extended, refinanced, renewed or replaced; *provided* further that, the Board of Directors is empowered to determine as to whether the conditions set forth in clauses (i) and (ii) are met, which determination shall be conclusive if evidenced by a Board Resolution;

- (g) existing in customary provisions in shareholders agreement, joint venture agreements and other similar agreements permitted under the Indenture, to the extent such encumbrance or restriction relates to the activities or assets of a Restricted Subsidiary that is a party to such joint venture and if (i) the encumbrances or restrictions are customary for a joint venture or similar agreement of that type and (ii) the encumbrances or restrictions would not, at the time agreed to, be expected to materially and adversely affect (x) the ability of the Company to make the required payments on the Notes, or (y) any Subsidiary Guarantor or JV Subsidiary Guarantor to make required payments under its Subsidiary Guarantee or JV Subsidiary Guarantee; *provided* further that, the Board of Directors is empowered to determine as to whether the conditions set forth in clauses (i) and (ii) are met, which determination shall be conclusive if evidenced by a Board Resolution; or
- (h) existing with respect to any Unrestricted Subsidiary or the property or assets of such Unrestricted Subsidiary that is designated as a Restricted Subsidiary in accordance with the terms of the Indenture at the time of such designation and not incurred in contemplation of such designation, which encumbrances or restrictions are not applicable to any Person or the property or assets of any Person other than such former Unrestricted Subsidiary or its subsidiaries or the property or assets of such former Unrestricted Subsidiary or its subsidiaries, and any extensions, refinancing, renewals or replacements thereof; *provided* that, the encumbrances and restrictions in any such extension, refinancing, renewal or replacement, taken as a whole, are no more restrictive in any material respect to the Holders than those encumbrances or restrictions that are then in effect and that are being extended, refinanced, renewed or replaced.

Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries

The Company will not sell, and will not permit any Restricted Subsidiary, directly or indirectly, to issue or sell any shares of Capital Stock of a Restricted Subsidiary (including options, warrants or other rights to purchase shares of such Capital Stock) except:

- (1) to the Company or a Wholly Owned Restricted Subsidiary, or in the case of a Restricted Subsidiary that is not Wholly Owned, pro rata to its shareholders or incorporators;
- (2) to the extent such Capital Stock represents director's qualifying shares or is required by applicable law to be held by a Person other than the Company or a Wholly Owned Restricted Subsidiary;
- (3) the sale or issuance of Capital Stock of a Restricted Subsidiary if, immediately after giving effect to such sale or issuance, such Restricted Subsidiary would no longer constitute a Restricted Subsidiary and any remaining Investment in such Person would have been permitted to be made under the "— Limitation on Restricted Payments" covenant if made on the date of such sale or issuance and *provided* that the Company complies with the "— Limitation on Asset Sales" covenant; or
- (4) the sale or issuance of Capital Stock of a Restricted Subsidiary (which remains a Restricted Subsidiary after any such sale or issuance); *provided* that the Company or such Restricted Subsidiary applies the Net Cash Proceeds of such sale or issuance in accordance with the "— Limitation on Asset Sales" covenant.

Limitation on Issuances of Guarantees by Restricted Subsidiaries

The Company will not permit any Restricted Subsidiary which is neither a Subsidiary Guarantor nor a JV Subsidiary Guarantor, directly or indirectly, to Guarantee any Indebtedness (“Guaranteed Indebtedness”) of the Company or any Subsidiary Guarantor or JV Subsidiary Guarantor, unless (1)(a) such Restricted Subsidiary simultaneously executes and delivers a supplemental indenture to the Indenture providing for an unsubordinated Subsidiary Guarantee (in the case of a Subsidiary Guarantor) or JV Subsidiary Guarantee (in the case of a JV Subsidiary Guarantor) of payment of the Notes by such Restricted Subsidiary and (b) such Restricted Subsidiary waives and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Company or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, until the Notes have been paid in full or (2) such Indebtedness is permitted by clauses (2)(c), (2)(d) or (2)(q) (in the case of clause (2)(q), with respect to the Guarantee provided by the Company or any Restricted Subsidiary through the pledge of one or more bank accounts, bank deposits or other assets to secure (or the use of any Guarantee or letter of credit or similar instruments to Guarantee) any Bank Deposit Secured Indebtedness), under the caption “—Limitation on Indebtedness and Preferred Stock.”

If the Guaranteed Indebtedness (1) ranks *pari passu* in right of payment with the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall rank *pari passu* in right of payment with, or subordinated to, the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, or (2) is subordinated in right of payment to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall be subordinated in right of payment to the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, at least to the extent that the Guaranteed Indebtedness is subordinated to the Notes, the Subsidiary Guarantee or the JV Subsidiary Guarantee.

Limitation on Transactions with Shareholders and Affiliates

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into, renew or extend any transaction or arrangement (including, without limitation, the purchase, sale, lease or exchange of property or assets, or the rendering of any service) with (x) any holder (or any Affiliate of such holder) of 10% or more of any class of Capital Stock of the Company or (y) any Affiliate of the Company (each an “Affiliate Transaction”), unless:

- (1) the Affiliate Transaction is on fair and reasonable terms that are no less favorable to the Company or the relevant Restricted Subsidiary than those that would have been obtained in a comparable arm’s length transaction by the Company or the relevant Restricted Subsidiary with a Person that is not an Affiliate of the Company; and
- (2) the Company delivers to the Trustee:
 - (a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$5.0 million (or the Dollar Equivalent thereof), a Board Resolution set forth in an Officers’ Certificate certifying that such Affiliate Transaction complies with this covenant and such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors; and
 - (b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$10.0 million (or the Dollar

Equivalent thereof), in addition to the Board Resolution required in clause 2(a) above, an opinion as to the fairness to the Company or the relevant Restricted Subsidiary of such Affiliate Transaction from a financial point of view issued by an accounting, appraisal or investment banking firm of recognized international standing.

The foregoing limitation does not limit, and shall not apply to:

- (1) the payment of reasonable and customary regular fees and other compensation for the service as board members to directors of the Company or any Restricted Subsidiary who are not employees of the Company or any Restricted Subsidiary;
- (2) transactions between or among the Company and any of its Wholly Owned Restricted Subsidiaries or between or among Wholly Owned Restricted Subsidiaries;
- (3) any Restricted Payment of the type described in clauses (1) or (2) of the first paragraph of the covenant described above under the caption “— Limitation on Restricted Payments” if permitted by that covenant;
- (4) any sale of Capital Stock (other than Disqualified Stock) of the Company;
- (5) the payment of compensation to officers and directors of the Company or any Restricted Subsidiary pursuant to an employee stock or share option scheme, so long as such scheme is in compliance with the listing rules of the Hong Kong Stock Exchange, which as of the Original Issue Date require a majority shareholder approval of any such scheme;
- (6) any purchase of Capital Stock of a Restricted Subsidiary pursuant to a Staged Acquisition Agreement or a Minority Staged Acquisition Agreement, and any purchase of Capital Stock of a Restricted Subsidiary held by a Financial Company Investor; and
- (7) any repurchase, redemption or other acquisition or retirement for value of any Capital Stock of the Company or any Restricted Subsidiary pursuant to clause (6) of the second paragraph of the covenant entitled “— Limitation on Restricted Payments.”

In addition, the requirements of clause (2) of the first paragraph of this covenant shall not apply to (i) Investments (including Permitted Investments that are permitted under paragraph (18) of the definition of “Permitted Investments” but otherwise excluding any other Permitted Investments) not prohibited by the “— Limitation on Restricted Payments” covenant, (ii) transactions pursuant to agreements in effect on the Original Issue Date and described in this offering memorandum, or any amendment or modification or replacement thereof, so long as such amendment, modification or replacement is not more disadvantageous to the Company and its Restricted Subsidiaries than the original agreement in effect on the Original Issue Date and (iii) any transaction between or among any of the Company, any Wholly Owned Restricted Subsidiary and any Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary or between or among the Company or a Restricted Subsidiary on the one hand and a Minority Joint Venture or an Unrestricted Subsidiary on the other hand; *provided* that in the case of clause (iii) (a) such transaction is entered into in the ordinary course of business, (b) in the case of a transaction with a Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary, none of the minority shareholders or minority partners of or in such Restricted Subsidiary is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such minority shareholder or minority partner being an officer or director of such Restricted Subsidiary or being a Subsidiary of the Company), and (c) in the case of a transaction with a Minority Joint Venture or an Unrestricted Subsidiary, none of the shareholders or partners (other than the Company or a Subsidiary of the Company) of such Minority Joint Venture or Unrestricted Subsidiary is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such shareholder or partner being a director or officer of such Minority Joint Venture or Unrestricted Subsidiary or by reason of such shareholder or partner being, the Company or a Subsidiary or Minority Joint Venture of the Company).

Limitation on Liens

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien on the Collateral (other than Permitted Liens).

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien of any nature whatsoever on any of its assets or properties of any kind (other than the Collateral), whether owned at the Original Issue Date or thereafter acquired, except Permitted Liens, unless the Notes are equally and ratably secured by such Lien.

Limitation on Sale and Leaseback Transactions

The Company will not, and will not permit any of its Restricted Subsidiaries to, enter into any Sale and Leaseback Transaction; *provided* that the Company or any Restricted Subsidiary may enter into a Sale and Leaseback Transaction if:

- (1) the Company or any Restricted Subsidiary could have (a) Incurred Indebtedness in an amount equal to the Attributable Indebtedness relating to such Sale and Leaseback Transaction under the covenant described above under “— Limitation on Indebtedness and Preferred Stock” and (b) incurred a Lien to secure such Indebtedness pursuant to the covenant described above under the caption “— Limitation on Liens,” in which case, the corresponding Indebtedness and Lien will be deemed incurred pursuant to those provisions;
- (2) the gross cash proceeds of that Sale and Leaseback Transaction are at least equal to the Fair Market Value of the property that is the subject of such Sale and Leaseback Transaction; and
- (3) the transfer of assets in that Sale and Leaseback Transaction is permitted by, and the Company or such Restricted Subsidiary applies the proceeds of such transaction in compliance with, the covenant described below under the caption “— Limitation on Asset Sales.”

Limitation on Asset Sales

The Company will not, and will not permit any Restricted Subsidiary to, consummate any Asset Sale, unless:

- (1) no Default shall have occurred and be continuing or would occur as a result of such Asset Sale;
- (2) the consideration received by the Company or such Restricted Subsidiary, as the case may be, is at least equal to the Fair Market Value of the assets sold or disposed of; and
- (3) at least 75% of the consideration received consists of cash, Temporary Cash Investments or Replacement Assets; *provided* that in the case of an Asset Sale in which the Company or such Restricted Subsidiary receives Replacement Assets involving aggregate consideration in excess of US\$10.0 million (or the Dollar Equivalent thereof), the Company shall deliver to the Trustee an opinion as to the fairness to the Company or such Restricted Subsidiary of such Asset Sale from a financial point of view issued by an accounting, appraisal or investment banking firm of international standing. For purposes of this provision, each of the following will be deemed to be cash:
 - (a) any liabilities, as shown on the Company’s most recent consolidated balance sheet, of the Company or any Restricted Subsidiary (other than contingent liabilities and

liabilities that are by their terms subordinated to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee) that are assumed by the transferee of any such assets pursuant to a customary assumption, assignment, novation or similar agreement that releases the Company or such Restricted Subsidiary from further liability; and

- (b) any securities, notes or other obligations received by the Company or any Restricted Subsidiary from such transferee that are promptly, but in any event within 30 days of closing, converted by the Company or such Restricted Subsidiary into cash, to the extent of the cash received in that conversion;

Within 360 days after the receipt of any Net Cash Proceeds from an Asset Sale, the Company (or any Restricted Subsidiary) may apply such Net Cash Proceeds to:

- (1) permanently repay Senior Indebtedness of the Company or a Subsidiary Guarantor or any Indebtedness of a Restricted Subsidiary that is not a Subsidiary Guarantor (and, if such Senior Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto) in each case owing to a Person other than the Company or a Restricted Subsidiary; or
- (2) acquire properties and assets that replace the properties and assets that were the subject of such Asset Sale or in properties or assets (other than current assets that are not land use rights, properties under development or completed property held for sale) that will be used in a Permitted Business (“Replacement Assets”).

Any Net Cash Proceeds from Asset Sales that are not applied or invested as provided in clauses (1) and (2) in the immediately preceding paragraph will constitute “Excess Proceeds.” Excess Proceeds of less than US\$10.0 million (or the Dollar Equivalent thereof) will be carried forward and accumulated. When accumulated Excess Proceeds exceed US\$10.0 million (or the Dollar Equivalent thereof), within 10 days thereof, the Company must make an Offer to Purchase Notes having a principal amount equal to:

- (1) accumulated Excess Proceeds, multiplied by
- (2) a fraction (x) the numerator of which is equal to the outstanding principal amount of the Notes and (y) the denominator of which is equal to the outstanding principal amount of the Notes and all *pari passu* Indebtedness similarly required to be repaid, redeemed or tendered for in connection with the related Asset Sale,

rounded down to the nearest US\$1,000.

The offer price in any Offer to Purchase will be equal to 100% of the principal amount of the Notes plus accrued and unpaid interest to the date of purchase, and will be payable in cash.

If any Excess Proceeds remain after consummation of an Offer to Purchase, the Company may use those Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes (and any other *pari passu* Indebtedness) tendered in such Offer to Purchase exceeds the amount of Excess Proceeds, the Trustee will select the Notes (and such other *pari passu* Indebtedness) to be purchased on a *pro rata* basis by lot or such other method the Trustee determines in its sole and absolute discretion. Upon completion of each Offer to Purchase, the amount of Excess Proceeds will be reset at zero.

Limitation on the Company’s Business Activities

The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, engage in any business other than Permitted Businesses; *provided, however*, that the Company or any

Restricted Subsidiary may own Capital Stock of an Unrestricted Subsidiary or joint venture or other entity that is engaged in a business other than Permitted Businesses as long as any Investment therein was not prohibited when made by the covenant under the caption “— Limitation on Restricted Payments.”

Use of Proceeds

The Company will not, and will not permit any Restricted Subsidiary to, use the net proceeds from the sale of the Notes, in any amount, for any purpose other than (1) as specified under the caption “Use of Proceeds” in this offering memorandum and (2) pending the application of all of such net proceeds in such manner, to invest the portion of such net proceeds not yet so applied in Temporary Cash Investments.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary; *provided* that (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) neither the Company nor any Restricted Subsidiary provides credit support (other than any Guarantee in compliance with clause (6) below) for the Indebtedness of such Restricted Subsidiary; (3) such Restricted Subsidiary has no outstanding Indebtedness that could trigger a cross-default to the Indebtedness of the Company; (4) such Restricted Subsidiary does not own any Disqualified Stock of the Company or Disqualified or Preferred Stock of another Restricted Subsidiary or hold any Indebtedness of, or any Lien on any property of, the Company or any Restricted Subsidiary, if such Disqualified or Preferred Stock or Indebtedness could not be Incurred under the covenant described under the caption “— Limitation on Indebtedness and Preferred Stock” or such Lien would violate the covenant described under the caption “— Limitation on Liens;” (5) such Restricted Subsidiary does not own any Voting Stock of another Restricted Subsidiary, and all of its Subsidiaries are Unrestricted Subsidiaries or are being concurrently designated to be Unrestricted Subsidiaries in accordance with this paragraph; and (6) the Investment deemed to have been made thereby in such newly-designated Unrestricted Subsidiary and each other newly-designated Unrestricted Subsidiary being concurrently redesignated would be permitted to be made by the covenant described under “— Limitation on Restricted Payments”.

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) any Indebtedness of such Unrestricted Subsidiary outstanding at the time of such designation which will be deemed to have been Incurred by such newly-designated Restricted Subsidiary as a result of such designation would be permitted to be Incurred by the covenant described under the caption “— Limitation on Indebtedness and Preferred Stock;” (3) any Lien on the property of such Unrestricted Subsidiary at the time of such designation which will be deemed to have been incurred by such newly-designated Restricted Subsidiary as a result of such designation would be permitted to be incurred by the covenant described under the caption “— Limitation on Liens;” (4) such Unrestricted Subsidiary is not a Subsidiary of another Unrestricted Subsidiary (that is not concurrently being designated as a Restricted Subsidiary); (5) if such Restricted Subsidiary is not organized under the laws of the PRC, such Restricted Subsidiary shall upon such designation execute and deliver to the Trustee a supplemental indenture to the Indenture by which such Restricted Subsidiary shall become a Subsidiary Guarantor or a JV Subsidiary Guarantor to the extent required under “— The Subsidiary Guarantees and the JV Subsidiary Guarantees”; and (6) if such Restricted Subsidiary is not organized under the laws of the PRC, all Capital Stock of such Restricted Subsidiary owned directly by the Company or any other Restricted Subsidiary shall be pledged to the extent required under “— Security”.

Government Approvals and Licenses; Compliance with Law

The Company will, and will cause each Restricted Subsidiary to, (1) obtain and maintain in full force and effect all governmental approvals, authorizations, consents, permits, concessions and licenses as are necessary to engage in the Permitted Businesses; (2) preserve and maintain good and valid title to its properties and assets (including land-use rights) free and clear of any Liens other than Permitted Liens; and (3) comply with all laws, regulations, orders, judgments and decrees of any governmental body, except to the extent that failure so to obtain, maintain, preserve and comply with would not reasonably be expected to have a material adverse effect on (a) the business, results of operations or prospects of the Company and its Restricted Subsidiaries, taken as a whole, or (b) the ability of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor to perform its obligations under the Notes, the relevant Subsidiary Guarantee, the relevant JV Subsidiary Guarantee or the Indenture.

Anti-Layering

The Company will not Incur, and will not permit any Subsidiary Guarantor or JV Subsidiary Guarantor to Incur, any Indebtedness if such Indebtedness is contractually subordinated in right of payment to any other Indebtedness of the Company, such Subsidiary Guarantor or such JV Subsidiary Guarantor, as the case may be, unless such Indebtedness is also contractually subordinated in right of payment to the Notes, the applicable Subsidiary Guarantee or the applicable JV Subsidiary Guarantee, on substantially identical terms. This does not apply to distinctions between categories of Indebtedness that exist by reason of any Liens or Guarantees securing or in favor of some but not all of such Indebtedness.

Provision of Financial Statements and Reports

- (1) So long as any of the Notes remain outstanding, the Company will file with the Trustee and furnish to the Holders upon request, as soon as they are available but in any event not more than 10 calendar days after they are filed with the Hong Kong Stock Exchange or any other recognized exchange on which the Company's ordinary shares are at any time listed for trading, true and correct copies of any financial or other report in the English language filed with such exchange; *provided* that if at any time the Common Stock of the Company ceases to be listed for trading on a recognized stock exchange, the Company will file with the Trustee and furnish to the Holders:
 - (a) as soon as they are available, but in any event within 90 calendar days after the end of the fiscal year of the Company, copies of its financial statements (on a consolidated basis and in English language) in respect of such financial year (including a statement of income, balance sheet and cash flow statement) audited by a member firm of an internationally-recognized firm of independent accountants;
 - (b) as soon as they are available, but in any event within 45 calendar days after the end of the second financial quarter of the Company, copies of its financial statements (on a consolidated basis and in English language) in respect of such half-year period (including a statement of income, balance sheet and cash flow statement) reviewed by a member firm of an internationally-recognized firm of independent accountants; and
 - (c) as soon as they are available, but in any event within 45 calendar days after the end of each of the first and third financial quarters of the Company, copies of its unaudited financial statements (on a consolidated basis and in English language), including a statement of income, balance sheet and cash flow statement, prepared on a basis consistent with the audited financial statements of the Company together with a certificate signed by the

person then authorized to sign financial statements on behalf of the Company to the effect that such financial statements are true in all material respects and present fairly the financial position of the Company as at the end of, and the results of its operations for, the relevant quarterly period.

- (2) In addition, so long as any of the Notes remain outstanding, the Company will provide to the Trustee (a) within 120 days after the close of each fiscal year ending after the Original Issue Date, an Officers' Certificate stating the Fixed Charge Coverage Ratio with respect to the most recent fiscal year and showing in reasonable detail the calculation of the Fixed Charge Coverage Ratio, including the arithmetic computations of each component of the Fixed Charge Coverage Ratio, with a certificate from the Company's external auditors verifying the accuracy of the calculation and arithmetic computation; *provided* that, the Company shall not be required to provide such auditor certification if its external auditors refuse to provide such certification as a result of a policy of such external auditors not to provide such certification; and (b) as soon as possible and in any event within 30 days after the Company becomes aware or should reasonably become aware of the occurrence of a Default, an Officers' Certificate setting forth the details of the Default, and the action which the Company proposes to take with respect thereto.

Events of Default

The following events will be defined as "Events of Default" in the Indenture:

- (1) default in the payment of principal of (or premium, if any, on) the Notes when the same becomes due and payable at maturity, upon acceleration, redemption or otherwise;
- (2) default in the payment of interest on any Note when the same becomes due and payable, and such default continues for a period of 30 consecutive days;
- (3) default in the performance or breach of the provisions of the covenants described under "— Consolidation, Merger and Sale of Assets," the failure by the Company to make or consummate an Offer to Purchase in the manner described under the captions "— Repurchase of Notes upon a Change of Control Triggering Event" or "— Limitation on Asset Sales," or the failure by the Company to create, or cause its Restricted Subsidiaries to create, a first priority Lien on the Collateral (subject to any Permitted Liens and the Intercreditor Agreement) in accordance with the covenant described under the caption "— Security";
- (4) the Company or any Restricted Subsidiary defaults in the performance of or breaches any other covenant or agreement in the Indenture or under the Notes (other than a default specified in clause (1), (2) or (3) above) and such default or breach continues for a period of 30 consecutive days after written notice by the Trustee or the Holders of 25% or more in aggregate principal amount of the Notes;
- (5) there occurs with respect to any Indebtedness of the Company or any Restricted Subsidiary having an outstanding principal amount of US\$10.0 million (or the Dollar Equivalent thereof) or more in the aggregate for all such Indebtedness of all such Persons, whether such Indebtedness now exists or shall hereafter be created, (a) an event of default that has caused the holder thereof to declare such Indebtedness to be due and payable prior to its Stated Maturity and/or (b) the failure to make a principal payment when due;
- (6) one or more final judgments or orders for the payment of money are rendered against the Company or any of its Restricted Subsidiaries and are not paid or discharged, and there is a period of 60 consecutive days following entry of the final judgment or order that causes the aggregate amount for all such final judgments or orders outstanding and not paid or

discharged against all such Persons to exceed US\$10.0 million (or the Dollar Equivalent thereof) (in excess of amounts which the Company's insurance carriers have agreed to pay under applicable policies) during which a stay of enforcement, by reason of a pending appeal or otherwise, is not in effect;

- (7) an involuntary case or other proceeding is commenced against the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary) with respect to it or its debts under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect seeking the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary) or for any substantial part of the property and assets of the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary) and such involuntary case or other proceeding remains undismissed and unstayed for a period of 60 consecutive days; or an order for relief is entered against the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary) under any applicable bankruptcy, insolvency or other similar law as now or hereafter in effect;
- (8) the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary) (a) commences a voluntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or consents to the entry of an order for relief in an involuntary case under any such law, (b) consents to the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary) or for all or substantially all of the property and assets of the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary) or (c) effects any general assignment for the benefit of creditors (other than, in each case under (b), any of the foregoing that arises from any solvent liquidation or restructuring of a Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary) in the ordinary course of business that shall result in the net assets of such Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary) being transferred to or otherwise vested in the Company or any Restricted Subsidiary on a pro rata basis or on a basis more favorable to the Company);
- (9) any Subsidiary Guarantor or JV Subsidiary Guarantor denies or disaffirms its obligations under its Subsidiary Guarantee or JV Subsidiary Guarantee or, except as permitted by the Indenture, any Subsidiary Guarantee or JV Subsidiary Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect;
- (10) any default by the Company or any Subsidiary Guarantor Pledgor in the performance of any of its obligations under the Indenture and the Security Documents, which adversely affects the enforceability, validity, perfection or priority of the applicable Lien on the Collateral or which adversely affects the condition or value of the Collateral, taken as a whole, in any material respect; or
- (11) the Company or any Subsidiary Guarantor Pledgor denies or disaffirms its obligations under any Security Document or, other than in accordance with the Indenture and the Security Documents, any Security Document ceases to be or is not in full force and effect or the Collateral Agent ceases to have a first priority security interest in the Collateral (subject to any Permitted Liens and the Intercreditor Agreement).

If an Event of Default (other than an Event of Default specified in clause (7) or (8) above) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in aggregate principal amount of the Notes then outstanding, by written notice to the Company (and to the Trustee if such notice is given by the Holders), may, and the Trustee at the written request of such Holders shall, subject to receiving indemnity and/or security to its satisfaction, declare the principal of, premium, if any, and accrued and unpaid interest on the Notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued and unpaid interest shall be immediately due and payable. If an Event of Default specified in clause (7) or (8) above occurs with respect to the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that together would constitute a Significant Subsidiary), the principal of, premium, if any, and accrued and unpaid interest on the Notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

The Holders of at least a majority in principal amount of the outstanding Notes by written notice to the Company and to the Trustee may on behalf of the Holders of Notes waive all past defaults and rescind and annul a declaration of acceleration and its consequences if:

- (1) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived, and
- (2) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Upon such waiver, the Default will cease to exist, and any Event of Default arising therefrom will be deemed to have been cured, but no such waiver will extend to any subsequent or other Default or impair any right consequent thereon.

If an Event of Default occurs and is continuing, the Trustee may, or the Trustee may, in accordance with and subject to the Intercreditor Agreement, instruct the Collateral Agent to, pursue, in its own name or as trustee of an express trust, any available remedy by proceeding at law or in equity to collect the payment of principal of and interest on the Notes or to enforce the performance of any provision of the Notes or the Indenture or subject to the Intercreditor Agreement, instruct the Collateral Agent to enforce the Security Documents to the extent necessary. The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding. In addition, if an Event of Default occurs and is continuing, subject to the Intercreditor Agreement (if any), the Trustee may, and shall upon request of Holders of at least 25% in aggregate principal amount of outstanding Notes, (subject to receiving satisfactory indemnity and/or security) instruct the Collateral Agent to foreclose on the Collateral in accordance with the terms of the Security Documents and the Indenture and take such further action on behalf of the Holders of the Notes with respect to the Collateral as the Trustee deems appropriate. See the section entitled “— Security.”

The Holders of at least a majority in aggregate principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in personal liability, or that is unduly prejudicial to the rights of Holders not joining in the giving of such direction and may take any other action that is not inconsistent with any such direction received from Holders. The Trustee shall not be required to expend its funds in following such direction if it does not reasonably believe that reimbursement or indemnity and/or security is assured to it.

A Holder of Notes may not institute any proceeding, judicial or otherwise, with respect to the Indenture or the Notes, or for the appointment of a receiver or trustee, or for any other remedy under the Indenture or the Notes, unless:

- (1) the Holder has previously given the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity and/or security satisfactory to the Trustee against any costs, liability or expense to be incurred in compliance with such written request;
- (4) the Trustee does not comply with the request within 60 days after receipt of the written request and the offer of indemnity and/or security; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a direction that is inconsistent with the written request.

However, such limitations do not apply to the right of any Holder to receive payment of the principal of, premium, if any, or interest on, such Note, or to bring suit for the enforcement of any such payment, on or after the due date expressed in the Notes, which right shall not be impaired or affected without the consent of the Holder.

Officers of the Company must certify to the Trustee in writing, on or before a date not more than 120 days after the end of each fiscal year ending after the Original Issue Date, that a review has been conducted of the activities of the Company and its Restricted Subsidiaries and the Company's and the Subsidiary Guarantors' performance under the Indenture and that the Company has fulfilled all obligations thereunder, or, if there has been a default in the fulfillment of any such obligation, specifying each such default and the nature and status thereof. The Company will also be obligated to notify the Trustee in writing of any Default or Defaults in the performance of any covenants or agreements under the Indenture. See "— Provision of Financial Statements and Reports."

None of the Trustee or any Agent is obligated to do anything to ascertain whether any Event of Default or Default has occurred or is continuing and will not be responsible to Holders or any other person for any loss arising from any failure by it to do so, and each of the Trustee and the Agents may assume that no such event has occurred and that the Company and the Subsidiary Guarantors are performing all of their obligations under the Indenture unless the Trustee or the Agent, as the case may be, has received written notice of the occurrence of such event or facts establishing that a Default or an Event of Default has occurred or that the Company and the Subsidiary Guarantors are not performing all of their obligations under the Indenture and/or the Notes.

Consolidation, Merger and Sale of Assets

The Company will not consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions), unless:

- (1) the Company shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which the Company consolidated or merged, or that acquired or leased such property and assets (the "Surviving Person") shall be a corporation organized and validly existing under the laws of the Cayman Islands, Hong Kong or the British Virgin Islands and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of the Company under

the Indenture, the Notes, the Intercreditor Agreement, and the Security Documents, as the case may be, including the obligation to pay Additional Amounts with respect to any jurisdiction in which it is organized or resident for tax purposes or through which it makes payments, and the Indenture, the Notes, the Intercreditor Agreement, and the Security Documents, as the case may be, shall remain in full force and effect;

- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a *pro forma* basis, the Company or the Surviving Person, as the case may be, shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a *pro forma* basis the Company or the Surviving Person, as the case may be, could Incur at least US\$1.00 of Indebtedness under the first paragraph of the covenant under the caption “— Limitation on Indebtedness and Preferred Stock;”
- (5) the Company delivers to the Trustee (x) an Officers’ Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with;
- (6) each Subsidiary Guarantor and JV Subsidiary Guarantor, unless such Subsidiary Guarantor or JV Subsidiary Guarantor is the Person with which the Company has entered into a transaction described under the caption “— Consolidation, Merger and Sale of Assets,” shall execute and deliver a supplemental indenture to the Indenture confirming that its Subsidiary Guarantee or JV Subsidiary Guarantee, as applicable, shall apply to the obligations of the Company or the Surviving Person in accordance with the Notes and the Indenture.

No Subsidiary Guarantor or JV Subsidiary Guarantor will consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries’ properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to another Person (other than the Company or another Subsidiary Guarantor or, in the case of a JV Subsidiary Guarantor, other than to another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor), unless:

- (1) such Subsidiary Guarantor or JV Subsidiary Guarantor shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which such Subsidiary Guarantor or JV Subsidiary Guarantor consolidated or merged, or that acquired or leased such property and assets shall be the Company, another Subsidiary Guarantor or shall become a Subsidiary Guarantor concurrently with the transaction (or, in the case of a JV Subsidiary Guarantor, another JV Subsidiary Guarantor, the Company or a Subsidiary Guarantor); and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of such Subsidiary Guarantor or JV Subsidiary Guarantor under the Indenture, the Notes and the Security Documents, as the case may be, including the obligation to pay Additional Amounts with respect to any jurisdiction in which it is organized or resident for tax purposes or through which it makes payments, and the Indenture, the Notes and the Security Documents, as the case may be, shall remain in full force and effect;

- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a *pro forma* basis, the Company shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Company immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a *pro forma* basis, the Company could Incur at least US\$1.00 of Indebtedness under the first paragraph of the covenant under the caption “— Limitation on Indebtedness and Preferred Stock;”
- (5) the Company delivers to the Trustee (x) an Officers’ Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with;

provided that this paragraph shall not apply to any sale or other disposition that complies with the “— Limitation on Asset Sales” covenant or any Subsidiary Guarantor or JV Subsidiary Guarantor whose Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, is unconditionally released in accordance with the provisions described under “— The Subsidiary Guarantees — Release of the Subsidiary Guarantees and the JV Subsidiary Guarantees.”

Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve “all or substantially all” of the property or assets of a Person.

The foregoing requirements shall not apply to a consolidation or merger of any Subsidiary Guarantor or JV Subsidiary Guarantor with and into the Company or any other Subsidiary Guarantor or JV Subsidiary Guarantor, so long as the Company or such Subsidiary Guarantor or JV Subsidiary Guarantor survives such consolidation or merger.

The foregoing provisions would not necessarily afford Holders protection in the event of highly-leveraged or other transactions involving the Company or any Subsidiary Guarantor or JV Subsidiary Guarantor that may adversely affect Holders.

No Payments for Consents

The Company will not, and shall not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid or is paid to all Holders that consent, waive or agree to amend such term or provision within the time period set forth in the solicitation documents relating to such consent, waiver or amendment.

Defeasance

Defeasance and Discharge

The Indenture will provide that the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 183rd day after the deposit referred to below, and the provisions of the Indenture and the Security Documents will no longer be in effect with respect to the Notes (except for, among other matters, certain obligations to register the transfer or exchange of the Notes, to replace stolen, lost or mutilated Notes, to maintain paying agencies, to pay Additional Amounts and to hold monies for payment in trust) if, among other things:

- (1) the Company (a) has deposited with the Trustee (or its agent), in trust, money and/or U.S. Government Obligations or any combination thereof that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity for such payments in accordance with the terms of the Indenture and the Notes and (b) delivers to the Trustee an Opinion of Counsel or a certificate of an internationally-recognized firm of independent accountants to the effect that the amount deposited by the Company is sufficient to provide payment for the principal of, premium, if any, and accrued interest on, the Notes on the Stated Maturity for such payment in accordance with the terms of the Indenture;
- (2) the Company has delivered to the Trustee an Opinion of Counsel of recognized international standing to the effect that the creation of the defeasance trust does not violate the U.S. Investment Company Act of 1940, as amended, and after the passage of 123 days following the deposit, the trust fund will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law; and
- (3) immediately after giving effect to such deposit on a *pro forma* basis, no Event of Default, or event that after the giving of notice or lapse of time or both would become an Event of Default, shall have occurred and be continuing on the date of such deposit or during the period ending on the 183rd day after the date of such deposit, and such defeasance shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which the Company or any of its Restricted Subsidiaries is a party or by which the Company or any of its Restricted Subsidiaries is bound.

In the case of either discharge or defeasance of the Notes the Subsidiary Guarantees and JV Subsidiary Guarantees (if any) will terminate.

Defeasance of Certain Covenants

The Indenture further will provide that (i) the provisions of the Indenture applicable to the Notes will no longer be in effect with respect to clauses (3), (4), (5)(x) and (7) under the first paragraph, and clauses (3), (4), (5)(x) and (6) under the second paragraph under “— Consolidation, Merger and Sale of Assets” and all the covenants described herein under “— Certain Covenants,” other than as described under “— Certain Covenants-Government Approvals and Licenses; Compliance with Law” and “— Certain Covenants-Anti-Layering,” and (ii) clause (3) under “Events of Default” with respect to clauses (3), (4), (5)(x) and (7) under the first paragraph, and clauses (3), (4), (5)(x) and (6) under the second paragraph under “Consolidation, Merger and Sale of Assets” and with respect to the other events set forth in clause (i) above, clause (4) under “Events of Default” with respect to such other covenants in clause (i) above and clauses (5) and (6) under “Events of Default” shall be deemed not to be Events of Default upon, among other things, the deposit with the Trustee (or its agent), in trust, of money, U.S. Government Obligations or a combination thereof that through the payment of interest

and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes, the satisfaction of the provisions described in clause (2) of the preceding paragraph.

Defeasance and Certain Other Events of Default

In the event that the Company exercises its option to omit compliance with certain covenants and provisions of the Indenture as described in the immediately preceding paragraph and the Notes are declared due and payable because of the occurrence of an Event of Default that remains applicable, the amount of money and/or U.S. Government Obligations on deposit with the Trustee will be sufficient to pay amounts due on the Notes at the time of their Stated Maturity but may not be sufficient to pay amounts due on the Notes at the time of the acceleration resulting from such Event of Default. However, the Company will remain liable for such payments.

Amendments and Waiver

Amendments Without Consent of Holders

The Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement (if any) and any Security Document may be amended, without the consent of any Holder, to:

- (1) cure any ambiguity, defect, omission or inconsistency in the Indenture, the Notes, the Intercreditor Agreement, or any Security Document;
- (2) comply with the provisions described under “— Consolidation, Merger and Sale of Assets;”
- (3) evidence and provide for the acceptance of appointment by a successor Trustee;
- (4) add any Subsidiary Guarantor or JV Subsidiary Guarantor, or any Subsidiary Guarantee or any JV Subsidiary Guarantee, or release any Subsidiary Guarantor or JV Subsidiary Guarantor from any Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, as provided or permitted by the terms of the Indenture;
- (5) provide for the issuance of Additional Notes in accordance with the limitations set forth in the Indenture;
- (6) add any Subsidiary Guarantor Pledgor or release any Subsidiary Guarantor Pledgor or any Collateral as provided or permitted by the terms of the Indenture;
- (7) add any additional Collateral to secure the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee (if any);
- (8) in any other case where a supplemental indenture to the Indenture is required or permitted to be entered into pursuant to the provisions of the Indenture without the consent of any Holder;
- (9) effect any changes to the Indenture in a manner necessary to comply with the procedures of Euroclear or Clearstream or any applicable securities depository or clearing system;
- (10) permit Permitted Pari Passu Secured Indebtedness (including, without limitation, permitting the Trustee or the Collateral Agent to enter into, supplement or amend the Intercreditor Agreement, the Security Documents or the Indenture and take any other action necessary to permit the creation and registration of Liens on the Collateral to secure Permitted Pari Passu Secured Indebtedness, in accordance with the Indenture);

- (11) make any other change that does not materially and adversely affect the rights of any Holder; or
- (12) conform the text of the Indenture, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees to any provision of this “Description of the Notes” to the extent that such provision in this “Description of the Notes” was intended to be a verbatim recitation of a provision in the Indenture, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees.

Amendments With Consent of Holders

The Indenture, the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any), the Intercreditor Agreement (if any) and any Security Document may be amended with the consent of the Holders of not less than a majority in aggregate principal amount of the outstanding Notes, and the Holders of a majority in aggregate principal amount of the outstanding Notes may amend or waive future compliance by the Company, the Subsidiary Guarantor Pledgors, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) with any provision thereof; *provided, however*, that no such modification, amendment or waiver may, without the consent of each Holder affected thereby:

- (1) change the Stated Maturity of the principal of, or any installment of interest on, any Note;
- (2) reduce the principal amount of, or premium, if any, or interest on, any Note;
- (3) change the currency or time of payment of principal of, or premium, if any, or interest on, any Note;
- (4) impair the right to institute suit for the enforcement of any payment on or after the Stated Maturity (or, in the case of a redemption, on or after the redemption date) of any Note, any Subsidiary Guarantee or any JV Subsidiary Guarantee;
- (5) reduce the above-stated percentage of outstanding Notes the consent of whose Holders is necessary to modify or amend the Indenture;
- (6) waive a default in the payment of principal of, premium, if any, or interest on the Notes;
- (7) release any Subsidiary Guarantor or JV Subsidiary Guarantor from its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, except as provided in the Indenture;
- (8) release any Collateral, except as provided in the Intercreditor Agreement (if any), the Indenture and the Security Documents;
- (9) reduce the percentage or aggregate principal amount of outstanding Notes the consent of whose Holders is necessary for waiver of compliance with certain provisions of the Indenture or for waiver of certain defaults;
- (10) amend, change or modify any Subsidiary Guarantee or JV Subsidiary Guarantee in a manner that adversely affects the Holders;
- (11) amend, change or modify any provision of the Intercreditor Agreement (if any), any Security Document or the Indenture relating to the Collateral, in a manner that adversely affects the Holders, except in accordance with the other provisions of the Indenture;
- (12) reduce the amount payable upon a Change of Control Offer or an Offer to Purchase with the Excess Proceeds from any Asset Sale or, change the time or manner by which a Change of Control Offer or an Offer to Purchase with the Excess Proceeds or other proceeds from

any Asset Sale may be made or by which the Notes must be repurchased pursuant to a Change of Control Offer or an Offer to Purchase with the Excess Proceeds or other proceeds from any Asset Sale, whether through an amendment or waiver of provisions in the covenants, definitions or otherwise, unless such amendment, waiver or modification shall be in effect prior to the occurrence of a Change of Control Triggering Event or the event giving rise to the repurchase of the Notes under “— Limitation on Asset Sales”;

- (13) change the redemption date or the redemption price of the Notes from that stated under the caption “— Optional Redemption” or “— Redemption for Taxation Reasons;”
- (14) amend, change or modify the obligation of the Company, any Subsidiary Guarantor or any JV Subsidiary Guarantor to pay Additional Amounts; or
- (15) amend, change or modify any provision of the Indenture or the related definition affecting the ranking of the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee in a manner which adversely affects the Holders.

Unclaimed Money

Claims against the Company for the payment of principal of, premium, if any, or interest, on the Notes will become void unless presentation for payment is made as required in the Indenture within a period of six years.

No Personal Liability of Incorporators, Stockholders, Officers, Directors or Employees

No recourse for the payment of the principal of, premium, if any, or interest on any of the Notes or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company, any of the Subsidiary Guarantors or any of the JV Subsidiary Guarantors in the Indenture, or in any of the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees, or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, stockholder, officer, director, employee or controlling person of the Company, any of the Subsidiary Guarantors or JV Subsidiary Guarantors, or of any successor Person thereof. Each Holder, by accepting the Notes, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees. Such waiver may not be effective to waive liabilities under the federal securities laws.

Concerning the Trustee and the Agents

Citicorp International Limited has been appointed as Trustee under the Indenture. Citibank, N.A., London Branch has been appointed as note registrar (the “Note Registrar”) and paying and transfer agent (the “Paying Agent” and together with the Note Registrar, the “Agents”) with regard to the Notes. Except during the continuance of a Default, the Trustee undertakes to perform such duties and only such duties as are specifically set forth in the Indenture, and no implied covenant or obligation shall be read into the Indenture against the Trustee. If an Event of Default has occurred and is continuing, the Trustee will use the same degree of care and skill in its exercise of the rights and powers vested in it under the Indenture as a prudent person would exercise under the circumstances in the conduct of such person’s own affairs.

The Indenture contains limitations on the rights of the Trustee, should it become a creditor of the Company or any of the Subsidiary Guarantors or JV Subsidiary Guarantors to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The Trustee is permitted to engage in other transactions, including normal banking and trustee relationships, with the Company and its Affiliates; *provided, however*, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

The Trustee will not be under any obligation to exercise any rights or powers conferred under the Indenture for the benefit of the Holders, unless such Holders have offered to the Trustee indemnity and/or security satisfactory to the Trustee against any loss, liability or expense. None of the Trustee, the Agents, or the Collateral Agent nor any of their respective officers, directors, employees, attorneys or agents will be responsible or liable for the existence, genuineness, value or protection of any Collateral securing the Notes, for the legality, enforceability, effectiveness or sufficiency of the Intercreditor Agreement (if any) or other Security Documents, for the creation, perfection, priority, sufficiency or protection of any of the Liens, or for any defect or deficiency as to any such matters, or for any failure to demand, collect, foreclose or realize upon or otherwise enforce any of the Liens or Security Documents or any delay in doing so, except as a result of the fraud, gross negligence or willful default of the Trustee, the Agents or the Collateral Agent.

Citicorp International Limited will initially act as the Collateral Agent under the Security Documents in respect of the security over the Collateral. The Collateral Agent, acting in its capacity as such, shall have such duties with respect to the Collateral pledged, assigned or granted pursuant to the Security Documents as are set forth in the Indenture, the Intercreditor Agreement (if any) and the Security Documents. Under certain circumstances, the Collateral Agent may have obligations under the Security Documents, the Indenture or the Intercreditor Agreement (if any) that are in conflict with the interests of the Trustee, the Holders and the holders (or their representatives) of Permitted Pari Passu Secured Indebtedness (if any). Neither the Trustee nor the Collateral Agent will be under any obligation to exercise any rights or powers conferred under the Indenture, the Intercreditor Agreement (if any) or any other Security Document for the benefit of the Holders or the holders (or their representatives) of Permitted Pari Passu Secured Indebtedness (if any), unless such Holders and/or the holders (or their representatives) of Permitted Pari Passu Secured Indebtedness (if any) have instructed the Trustee in writing and have offered to the Trustee and/or the Collateral Agent indemnity and/or security satisfactory to it against any loss, liability or expense. Furthermore, each Holder, by accepting the Notes will agree, for the benefit of the Trustee and the Collateral Agent, that it is solely responsible for its own independent appraisal of an investigation into all risks arising under or in connection with the Security Documents and has not relied on and will not at any time rely on the Trustee or the Collateral Agent in respect of such risks.

Book-Entry; Delivery and Form

The Notes will be represented by a global note in registered form without interest coupons attached (the “Initial Global Note”). On the Original Issue Date, the Global Note will be deposited with a common depositary and registered in the name of the common depositary or its nominee for the accounts of Euroclear and Clearstream. Any additional Notes will be represented by additional global notes in registered form without interest coupons attached (the “Additional Global Notes” and, together with the Initial Global Note, the “Global Notes”).

Global Notes

Ownership of beneficial interests in the Global Notes (the “book-entry interests”) will be limited to persons that have accounts with Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-entry interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by Euroclear and Clearstream and their participants.

Except as set forth below under “— Individual Definitive Notes,” the book-entry interests will not be held in definitive form. Instead, Euroclear and/or Clearstream will credit on their respective book-entry registration and transfer systems a participant’s account with the interest beneficially owned by such participant. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge book-entry interests.

So long as the Notes are held in global form, the common depositary for Euroclear and/or Clearstream (or its nominee) will be considered the sole holder of the Global Notes for all purposes under the Indenture and “holders” of book-entry interests will not be considered the owners or “Holders” of Notes for any purpose. As such, participants must rely on the procedures of Euroclear and Clearstream and indirect participants must rely on the procedures of the participants through which they own book-entry interests in order to transfer their interests in the Notes or to exercise any rights of Holders under the Indenture.

None of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any), the Trustee or any of the Agents will have any responsibility or be liable for any aspect of the records relating to the book-entry interests. The Notes are not issuable in bearer form.

Payments on the Global Notes

Payments of any amounts owing in respect of the Global Notes (including principal, premium, interest and Additional Amounts) will be made to the Paying Agent in U.S. dollars. The Paying Agent will, in turn, make such payments to the common depositary for Euroclear and Clearstream, which will distribute such payments to participants in accordance with their procedures. Each of the Company and the Subsidiary Guarantors will make payments of all such amounts without deduction or withholding for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, except as may be required by law and additional amounts may be paid as described under “— Additional Amounts”.

Under the terms of the Indenture, the Company, any Subsidiary Guarantor, any JV Subsidiary Guarantor and the Trustee will treat the registered holder of the Global Notes (i.e., the common depositary or its nominee) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee or any of the Agents has or will have any responsibility or liability for:

- any aspect of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest, for any such payments made by Euroclear, Clearstream or any participant or indirect participants, or for maintaining, supervising or reviewing any of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest; or
- Euroclear, Clearstream or any participant or indirect participant.

Payments by participants to owners of book-entry interests held through participants are the responsibility of such participants.

Redemption of Global Notes

In the event any Global Note, or any portion thereof, is redeemed, the common depositary will distribute the amount received by it in respect of the Global Note so redeemed to Euroclear and/or Clearstream, as applicable, who will distribute such amount to the holders of the book-entry interests in such Global Note. The redemption price payable in connection with the redemption of such book-entry interests will be equal to the amount received by the common depositary, Euroclear or Clearstream, as applicable, in connection with the redemption of such Global Note (or any portion thereof). The Company understands that under existing practices of Euroclear and Clearstream, if fewer than all of the Notes are to be redeemed at any time, Euroclear and Clearstream will credit their respective participants’ accounts on a proportionate basis (with adjustments to prevent fractions) or by lot or on such other basis as they deem fair and appropriate; *provided*, however, that no book-entry interest of US\$200,000 principal amount, or less, as the case may be, will be redeemed in part.

Action by Owners of Book-Entry Interests

Euroclear and Clearstream have advised that they will take any action permitted to be taken by a Holder of Notes only at the direction of one or more participants to whose account the book-entry interests in a Global Note are credited and only in respect of such portion of the aggregate principal amount of Notes as to which such participant or participants has or have given such direction. Euroclear and Clearstream will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Note. If there is an Event of Default under the Notes, however, each of Euroclear and Clearstream reserves the right to exchange the Global Note for individual definitive notes in certificated form, and to distribute such individual definitive notes to their participants.

Transfers

Transfers between participants in Euroclear and Clearstream will be effected in accordance with Euroclear and Clearstream's rules and will be settled in immediately available funds. If a Holder requires physical delivery of individual definitive notes for any reason, including to sell the Notes to persons in jurisdictions which require physical delivery of such securities or to pledge such securities, such Holder must transfer its interest in the Global Note in accordance with the normal procedures of Euroclear and Clearstream and in accordance with the provisions of the Indenture.

Book-entry interests in the Global Notes will be subject to the restrictions on transfer discussed under "Transfer Restrictions".

Any book-entry interest in a Global Note that is transferred to a person who takes delivery in the form of a book-entry interest in another Global Note will, upon transfer, cease to be a book-entry interest in the first-mentioned Global Note and become a book-entry interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to book-entry interests in such other Global Note for as long as it retains such a book-entry interest.

Global Clearance and Settlement Under the Book-Entry System

Book-entry interests owned through Euroclear or Clearstream accounts will follow the applicable settlement procedures applicable. Book-entry interests will be credited to the securities custody accounts of Euroclear and Clearstream participants on the business day following the settlement date against payment for value on the settlement date.

The book-entry interests will trade through participants of Euroclear or Clearstream, and will settle in same-day funds. Since the purchaser determines the place of delivery, it is important to establish at the time of trading of any book-entry interests where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired value date.

Information Concerning Euroclear and Clearstream

The Company understands as follows with respect to Euroclear and Clearstream:

Euroclear and Clearstream hold securities for participating organizations and facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream provide to their participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are

financial institutions, such as underwriters, securities brokers and dealers, banks and trust companies, and certain other organizations. Indirect access to Euroclear or Clearstream is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodian relationship with a Euroclear or Clearstream participant, either directly or indirectly.

Although the foregoing sets out the procedures of Euroclear and Clearstream in order to facilitate the original issue and subsequent transfers of interests in the Notes among participants of Euroclear and Clearstream, neither Euroclear nor Clearstream is under any obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

None of the Company, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee or any of the Agents will have responsibility for the performance of Euroclear or Clearstream or their respective participants of their respective obligations under the rules and procedures governing their operations, including, without limitation, rules and procedures relating to book-entry interests.

Individual Definitive Notes

If (1) the common depository or any successor to the common depository is at any time unwilling or unable to continue as a depository for the reasons described in the Indenture and a successor depository is not appointed by the Company within 90 days, (2) either Euroclear or Clearstream, or a successor clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention to permanently cease business or does in fact do so, or (3) any of the Notes has become immediately due and payable in accordance with “— Events of Default” and the Company has received a written request from a Holder, the Company will issue individual definitive notes in registered form in exchange for the Global Note. Upon receipt of such notice from the common depository, Euroclear, Clearstream or the Trustee, as the case may be, the Company will use its best efforts to make arrangements with the common depository for the exchange of interests in the Global Notes for individual definitive notes and cause the requested individual definitive notes to be executed and delivered to the registrar in sufficient quantities and authenticated by the Trustee for delivery to Holders. Persons exchanging interests in a Global Note for individual definitive notes will be required to provide the Note Registrar, through the relevant clearing system, with written instruction and other information required by the Company and the Note Registrar to complete, execute and deliver such individual definitive notes. In all cases, individual definitive notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by the relevant clearing system.

Individual definitive notes will not be eligible for clearing and settlement through Euroclear or Clearstream.

Notices

All notices or demands required or permitted by the terms of the Notes or the Indenture to be given to or by the Holders are required to be in writing and may be given or served by being sent by prepaid courier or first-class mail (if intended for the Company or any Subsidiary Guarantor) addressed to the Company or such Subsidiary Guarantor at Room 1-2, Enterprise Square 3, Kowloon Bay, Hong Kong, Fax: (852) 2758 8342, Attention: President (Mr. Huang Ruoqing), (if intended for the Trustee) at the corporate trust office of the Trustee; and (if intended for any Holder) addressed to such Holder at such Holder’s last address as it appears in the Note register.

Any such notice or demand will be deemed to have been sufficiently given or served when so sent or deposited and, if to the Holders, when delivered in accordance with the applicable rules and procedures of Euroclear or Clearstream, as the case may be. Any such notice shall be deemed to have been delivered on the day such notice is delivered to Euroclear or Clearstream, as the case may be, or if by mail, when so sent or deposited.

Consent to Jurisdiction; Service of Process

The Company and each of the Subsidiary Guarantors will irrevocably (1) submit to the non-exclusive jurisdiction of any U.S. federal or New York state court located in the Borough of Manhattan, The City of New York in connection with any suit, action or proceeding arising out of, or relating to, the Notes, any Subsidiary Guarantee, any JV Subsidiary Guarantee, the Indenture or any transaction contemplated thereby; and (2) designate and appoint National Corporate Research, Ltd. for receipt of service of process in any such suit, action or proceeding.

Governing Law

Each of the Notes and the Indenture provides that such instrument will be governed by, and construed in accordance with, the laws of the State of New York. The relevant pledge documents pursuant to “— Security” are expected to be governed under the laws of the jurisdiction in which the relevant Subsidiary Guarantor is incorporated.

Definitions

Set forth below are defined terms used in the covenants and other provisions of the Indenture. Reference is made to the Indenture for other capitalized terms used in this “Description of the Notes” for which no definition is provided.

“2014 Notes” means the 13.75% senior notes due 2019 issued by the Company on August 1, 2014 and which have been fully redeemed.

“2015 HSB Facility Agent” means Hang Seng Bank Limited as the agent of the finance parties under the HSB Loan Agreement.

“2015 HSB Loan Agreement” means the US\$65,000,000 term loan facility agreement dated March 13, 2015 between, among others, the Company and the HSB Facility Agent.

“2016 HSB Facility Agent” means Hang Seng Bank Limited as the agent of the finance parties under the HSB Loan Agreement.

“2016 HSB Loan Agreement” means the US\$130,000,000 term loan facility agreement dated September 9, 2016 between, among others, the Company and the HSB Facility Agent.

“2017 HSB Facility Agent” means Hang Seng Bank Limited as the agent of the finance parties under the HSB Loan Agreement.

“2017 HSB Loan Agreement” means the US\$200,000,000 term loan facility agreement dated July 20, 2017 between, among others, the Company and the HSB Facility Agent. “Acquired Indebtedness” means Indebtedness of a Person existing at the time such Person becomes a Restricted Subsidiary or Indebtedness of a Restricted Subsidiary assumed in connection with an Asset Acquisition by such Restricted Subsidiary whether or not Incurred in connection with, or in contemplation of, the Person merging with or into or becoming a Restricted Subsidiary.

“2017 Notes” means the 7.00% senior notes due 2018 issued by the Company in accordance with an indenture dated November 15, 2017.

“Adjusted Treasury Rate” means, with respect to any redemption date, (i) the yield, under the heading which represents the average for the immediately preceding week, appearing in the most recently published statistical release designated “H.15(519)” or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under the caption “Treasury Constant Maturities”, for the maturity corresponding to the Comparable Treasury

Issue (if no maturity is within three (3) months before or after the maturity date of the Notes, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue shall be determined and the Adjusted Treasury Rate shall be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month) or (ii) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per year equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date, in each case calculated on the third Business Day immediately preceding the redemption date.

“Affiliate” means, with respect to any Person, any other Person (1) directly or indirectly controlling, controlled by, or under direct or indirect common control with, such Person; (2) who is a director or officer of such Person or any Subsidiary of such Person or of any Person referred to in clause (1) of this definition; or (3) who is a spouse or any person cohabiting as a spouse, child or step-child, parent or step-parent, brother, sister, step-brother or step-sister, parent-in-law, grandchild, grandparent, uncle, aunt, nephew and niece of a Person described in clause (1) or (2). For purposes of this definition, “control” (including, with correlative meanings, the terms “controlling,” “controlled by” and “under common control with”), as applied to any Person, means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of such Person, whether through the ownership of voting securities, by contract or otherwise.

“Applicable Premium” means with respect to any Note at any redemption date, the greater of (1) 1.00% of the principal amount of such Note and (2) the excess of (A) the present value at such redemption date of (x) the redemption price of such Note on the maturity date of the Notes (such redemption price being set forth in the table appearing above under the caption “— Optional Redemption”), plus (y) all required remaining scheduled interest payments due on such Note through the maturity date of the Notes (but excluding accrued and unpaid interest to the redemption date), computed using a discount rate equal to the Adjusted Treasury Rate plus 100 basis points, over (B) the principal amount of such Note on such redemption date.

In making the foregoing calculation:

- (a) pro forma effect shall be given to any Indebtedness, Disqualified Stock or Preferred Stock Incurred, repaid or redeemed during the period (the “Reference Period”) commencing on and including the first day of the Four Quarter Period and ending on and including the Transaction Date (other than Indebtedness Incurred or repaid under a revolving credit or similar arrangement (or under any predecessor revolving credit or similar arrangement) in effect on the last day of such Four Quarter Period), in each case as if such Indebtedness, Disqualified Stock or Preferred Stock had been Incurred, repaid or redeemed on the first day of such Reference Period; *provided* that, in the event of any such repayment or redemption, Consolidated EBITDA for such period shall be calculated as if the Company or such Restricted Subsidiary had not earned any interest income actually earned during such period in respect of the funds used to repay or redeem such Indebtedness, Disqualified Stock or Preferred Stock;
- (b) Consolidated Interest Expense attributable to interest on any Indebtedness (whether existing or being Incurred) computed on a pro forma basis and bearing a floating interest rate shall be computed as if the rate in effect on the Transaction Date (taking into account any Interest Rate Agreement applicable to such Indebtedness if such Interest Rate Agreement has a remaining term in excess of 12 months or, if shorter, at least equal to the remaining term of such Indebtedness) had been the applicable rate for the entire period;
- (c) pro forma effect shall be given to the creation, designation or redesignation of Restricted and Unrestricted Subsidiaries as if such creation, designation or redesignation had occurred on the first day of such Reference Period;
- (d) pro forma effect shall be given to Asset Dispositions and Asset Acquisitions (including giving pro forma effect to the application of proceeds of any Asset Disposition) that occur during such Reference Period as if they had occurred and such proceeds had been applied on the first day of such Reference Period; and
- (e) pro forma effect shall be given to asset dispositions and asset acquisitions (including giving pro forma effect to the application of proceeds of any asset disposition) that have been made by any Person that has become a Restricted Subsidiary or has been merged with or into the Company or any Restricted Subsidiary during such Reference Period and that would have constituted Asset Dispositions or Asset Acquisitions had such transactions occurred when such Person was a Restricted Subsidiary as if such asset dispositions or asset acquisitions were Asset Dispositions or Asset Acquisitions that occurred on the first day of such Reference Period;

provided that to the extent that clause (d) or (e) of this sentence requires that pro forma effect be given to an Asset Acquisition or Asset Disposition (or asset acquisition or asset disposition), such pro forma calculation shall be based upon the four full fiscal quarter periods immediately preceding the Transaction Date of the Person, or division or line of business of the Person, that is acquired or disposed for which financial information is available.

- (4) all obligations of such Person to pay the deferred and unpaid purchase price of property or services, except Trade Payables;
- (5) all Capitalized Lease Obligations and Attributable Indebtedness;

- (6) all Indebtedness of other Persons secured by a Lien on any asset of such Person, whether or not such Indebtedness is assumed by such Person; *provided* that the amount of such Indebtedness shall be the lesser of (a) the Fair Market Value of such asset at such date of determination and (b) the amount of such Indebtedness;
- (7) all Indebtedness of other Persons Guaranteed by such Person to the extent such Indebtedness is Guaranteed by such Person;
- (8) to the extent not otherwise included in this definition, Hedging Obligations;
- (9) all Disqualified Stock issued by such Person valued at the greater of its voluntary or involuntary liquidation preference and its maximum fixed repurchase price plus accrued dividends; and
- (10) any Preferred Stock issued by such Person if such Person is a Restricted Subsidiary, valued at the greater of its voluntary or involuntary liquidation preference and its maximum fixed repurchase price plus accrued dividends.

Notwithstanding the foregoing, Indebtedness shall not include any capital commitments, deferred payment obligations, pre-sale receipts in advance from customers or similar obligations Incurred in the ordinary course of business in connection with the acquisition, development, construction or improvement of real or personal property (including land use rights) to be used in a Permitted Business or any Entrusted Loan; *provided* that such Indebtedness is not reflected as borrowings on the consolidated balance sheet of the Company (contingent obligations and commitments referred to in a footnote to financial statements and not otherwise reflected as borrowings on the balance sheet will not be deemed to be reflected on such balance sheet).

The amount of Indebtedness of any Person at any date shall be the outstanding balance at such date of all unconditional obligations as described above and, with respect to contingent obligations, the maximum liability upon the occurrence of the contingency giving rise to the obligation; *provided*

- (1) that the amount outstanding at any time of any Indebtedness issued with original issue discount is the face amount of such Indebtedness less the remaining unamortized portion of the original issue discount of such Indebtedness at such time as determined in conformity with GAAP;
- (2) that money borrowed and set aside at the time of the Incurrence of any Indebtedness in order to prefund the payment of the interest on such Indebtedness shall not be deemed to be “Indebtedness” so long as such money is held to secure the payment of such interest; and
- (3) that the amount of Indebtedness with respect to any Hedging Obligation shall be: (i) zero if Incurred pursuant to clause (2)(f) under the “Limitation on Indebtedness and Preferred Stock” covenant, and (ii) equal to the net amount payable by such Person if such Hedging Obligation terminated at that time if not Incurred pursuant to such paragraph.

TAXATION

The following summary of certain Cayman Islands, BVI, Hong Kong and PRC tax consequences relating to the Notes is based upon applicable laws, regulations, rulings and decisions as of the date of this offering memorandum, all of which are subject to change (possibly with retroactive effect). This discussion does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Persons considering the purchase of Notes should consult their own tax advisors concerning the tax consequences of the purchase, ownership and disposition of Notes, including such possible consequences under the laws of their country of citizenship, residence or domicile.

Cayman Islands

Pursuant to section 6 of the Tax Concessions Law (1999 Revision) of the Cayman Islands, the Company has obtained an undertaking from the Governor-in-Cabinet:

- (i) that no law which is enacted in the Cayman Islands imposing any tax to be levied on profits or income or gains or appreciation shall apply to the Company or its operations; and
- (ii) in addition, that no tax be levied on profits, income gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable by the Company:
 - (aa) on or in respect of the shares, debentures or other obligations of the Company; or
 - (bb) by way of withholding in whole or in part of any relevant payment as defined in section 6(3) of the Tax Concessions Law (1999 Revision).

The undertaking for the Company is for a period of twenty years from July 29, 2008. The Cayman Islands currently levy no taxes on individuals or corporations based upon profits, income, gains or appreciations and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to the Company or to holders of the Notes by reason only of holding the Notes levied by the government of the Cayman Islands save certain stamp duties which may be applicable, from time to time, on certain instruments.

BVI

There is no income or other tax of the British Virgin Islands imposed by withholding or otherwise on any payment to be made to or by the Subsidiary Guarantors pursuant to the Subsidiary Guarantees.

Hong Kong

Withholding Tax

No withholding tax in Hong Kong is payable on payments of principal (including any premium payable on redemption of the Notes) or distributions in respect of the Notes.

Profits Tax

Hong Kong profits tax is charged on every person carrying on a trade, profession or business in Hong Kong in respect of assessable profits arising in or derived from Hong Kong from such trade, profession or business. Under the Inland Revenue Ordinance (Chapter 112 of the Laws of Hong Kong) (the "Inland Revenue Ordinance"), as it is currently applied, Hong Kong profits tax may be charged

on revenue profits arising on the sale, disposal or redemption of the Notes where such sale, disposition or redemption is or forms part of a trade, profession or business carried on in Hong Kong. Interest payments on the Notes will be subject to Hong Kong profits tax where such payments have a Hong Kong source, and are received by or accrue to:

- a financial institution (as defined in the Inland Revenue Ordinance) and arises through or from the carrying on by the financial institution of its business in Hong Kong; or
- corporation carrying on a trade, profession or business in Hong Kong; or
- a person, other than a corporation, carrying on a trade, profession or business in Hong Kong and such distributions is in respect of the funds of the trade, profession or business.

Although no tax is imposed in Hong Kong in respect of capital gains, Hong Kong profits tax may be chargeable on trading gains arising on the sale or disposition of the Notes where such transactions are or form part of a trade, profession or business carried on in Hong Kong.

Stamp Duty

No Hong Kong stamp duty will be chargeable upon the issue or transfer of a Note (for so long as the register of holders of the Notes is maintained outside Hong Kong).

PRC

The following summary of certain PRC tax consequences of the purchase, ownership and disposition of Notes is based upon applicable laws, rules and regulations in effect as of the date of this offering memorandum, all of which are subject to change (possibly with retroactive effect). This discussion does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Persons considering the purchase of Notes should consult their own tax advisors concerning the tax consequences of the purchase, ownership and disposition of Notes, including such possible consequences under the laws of their country of citizenship, residence or domicile.

Taxation on Interest

The EIT Law, effective January 1, 2008, imposes a withholding tax at the rate of 10% on interest from PRC sources paid to holders of notes that are “non-resident enterprises” if any such “non-resident enterprise” holder does not have an establishment or place of business in China or if, despite the existence of establishment or place of business in China, the relevant income is not effectively connected with such establishment or place of business in China. We may be considered a PRC tax resident enterprise, as described in “Risk Factors — Risk Relating to Conducting Business in the PRC — We may be treated as a PRC resident enterprise for PRC tax purposes, which may subject us to PRC income taxes on our worldwide income and PRC withholding taxes on interest we pay on the Notes and may result in PRC tax on gains from the transfer of the Notes.” Although the issue is not entirely clear, if we are considered a PRC resident enterprise, interest payable to non-resident holders on the Notes may be treated as income derived from sources within China and be subject to PRC withholding tax at the rate of 10% in the case of non-resident enterprise holders of the Notes pursuant to the EIT Law, or PRC individual withholding tax at the rate of 20% in the case of non-resident individual holders of the Notes pursuant to PRC individual income tax laws. We currently do not intend to withhold taxes from interest payments, but there can be no assurance that the PRC income tax authorities will accept our position on this issue. To the extent that China has entered into arrangements relating to the avoidance of double taxation with any jurisdiction, such as Hong Kong, that allow a lower rate of withholding tax, such lower rate may apply to qualified investors in the Notes.

Taxation on Capital Gains

The EIT Law imposes a tax at the rate of 10% on capital gains from PRC sources realized by holders of notes that are “non-resident enterprises” if any such “non-resident enterprise” holder does not have an establishment or place of business in China or if, despite the existence of an establishment or place of business in China, the relevant gain is not effectively connected with such establishment or place of business in China. We may be considered a PRC tax resident enterprise, as described in “Risk Factors — Risk Relating to Conducting Business in the PRC — We may be treated as a PRC resident enterprise for PRC tax purposes, which may subject us to PRC income taxes on our worldwide income and PRC withholding taxes on interest we pay on the Notes and may result in PRC tax on gains from the transfer of the Notes.” Although the issue is not entirely clear, if we are considered a PRC resident enterprise, the capital gains realized by non-resident holders of the Notes may be treated as income derived from sources within China and be subject to PRC withholding tax at the rate of 10% in the case of non-resident enterprise holders of the Notes pursuant to the EIT Law, or PRC individual income tax at the rate of 20% in the case of non-resident individual holders of the Notes pursuant to PRC individual income tax laws. To the extent that China has entered into arrangements relating to the avoidance of double taxation with any jurisdiction, such as Hong Kong, that allow a lower rate of withholding tax, such lower rate may apply to qualified investors in the Notes.

Stamp duty

No PRC stamp tax will be chargeable upon the issue or transfer of a Note (for so long as the register of holders of the Notes is maintained outside China).

PLAN OF DISTRIBUTION

Credit Suisse (Hong Kong) Limited, Deutsche Bank AG, Singapore Branch, Orient Securities (Hong Kong) Limited and VTB Capital plc are acting as the Initial Purchasers named below. Subject to the terms and conditions stated in the purchase agreement dated February 22, 2018, each Initial Purchaser named below has severally but not jointly agreed to purchase, and we have agreed to sell to such Initial Purchaser, the principal amount of the Notes set forth opposite such Initial Purchaser's name.

Initial Purchaser	Principal Amount of Notes
Credit Suisse (Hong Kong) Limited	US\$130,000,000
Deutsche Bank AG, Singapore Branch	US\$105,000,000
Orient Securities (Hong Kong) Limited	US\$25,000,000
VTB Capital plc	<u>US\$40,000,000</u>
Total	<u><u>US\$300,000,000</u></u>

The purchase agreement provides that the obligations of the Initial Purchasers to purchase the Notes are subject to approval of legal matters by counsel and to certain other conditions. The Initial Purchasers must purchase all the Notes if they purchase any of the Notes.

The Initial Purchasers propose to resell the Notes at the offering price set forth on the cover page of this offering memorandum only outside the United States in offshore transactions in reliance on Regulation S. See "Transfer Restrictions." The price at which the Notes are offered may be changed at any time without notice.

The Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantee (if any) have not been and will not be registered under the Securities Act or any state securities laws and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. See "Transfer Restrictions."

During the period beginning on the date hereof and continuing to the date that is seven days after the date on which the Notes are issued, without the prior written consent of the Initial Purchasers, none of the Company and the Subsidiary Guarantors will offer, sell, contract to sell or otherwise dispose of any debt securities issued or guaranteed by the Company or the Subsidiary Guarantors that are substantially similar to the Securities (other than the Securities and any Additional Notes (as defined in the Indenture) or any debt securities offered primarily in the PRC).

The Notes will constitute a new class of securities with no established trading market. Approval in-principle has been received from the SGX-ST for the listing and quotation of the Notes on the SGX-ST. However, we cannot assure you that the prices at which the Notes will sell in the market after this offering will not be lower than the initial offering price or that an active trading market for the Notes will develop and continue after this offering. The Initial Purchasers have advised us that they currently intend to make a market in the Notes. However, the Initial Purchasers are not obligated to do so and they may discontinue any market-making activities with respect to the Notes at any time without notice. Accordingly, we cannot assure you as to the liquidity of, or the trading market for, the Notes.

In connection with the offering of the Notes, the Initial Purchasers may engage in stabilizing transactions, syndicate covering transactions and penalty bids to the extent permitted by applicable laws and regulations. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Covering transactions involve purchase of the Notes in the open market after the distribution has been completed in order to cover short positions. Penalty bids permit the Initial Purchasers to reclaim a selling concession from a dealer when the Notes originally sold by such dealer are purchased in a stabilizing transaction or a covering transaction to cover short positions. Neither we nor the Initial Purchasers make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Notes. In addition, neither we nor the Initial Purchasers makes any representation that the Initial Purchasers will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

We expect to deliver the Notes against payment for the Notes on or about the date specified in the last paragraph of the cover page of this offering memorandum, which will be the fourth business day following the date of the pricing of the Notes. Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally settle in two business days; purchasers who wish to trade Notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the Notes initially will settle in T+4, to specify alternative settlement arrangements to prevent a failed settlement. Purchasers of the Notes who wish to trade the Notes on the date of pricing or the next succeeding business day should consult their own advisor.

The Initial Purchasers or their affiliates have performed commercial banking, investment banking or advisory services for us from time to time for which they have received customary fees and reimbursement of expenses. The Initial Purchasers or their affiliates may, from time to time, engage in transactions with and perform services for us in the ordinary course of business for which they may receive customary fees and reimbursement of expenses. We may enter into hedging or other derivative transactions as part of our risk management strategy with one or more of the Initial Purchasers, which may include transactions relating to our obligations under the Notes, all to the extent permitted under the Indenture. Our obligations under these transactions may be secured by cash or other collateral to the extent permitted under the Indenture.

In connection with this offering of the Notes, each Initial Purchaser and/or its affiliate(s) may act as an investor for its own account and may take up Notes in the offering, but not with a view to distribute, and in that capacity may retain, purchase or sell for its own account such securities and any securities of the Company or related investments and may offer or sell such securities or other investments otherwise than in connection with the offering of the Notes. Accordingly, references herein to the Notes being offered should be read as including any offering of the Notes to the Initial Purchasers and/or their affiliates acting in such capacity. Such persons do not intend to disclose the extent of any such investment or transactions otherwise than in accordance with any legal or regulatory obligation to do so.

We and the Subsidiary Guarantors have agreed to indemnify the Joint Bookrunners, the Joint Lead Managers and the Initial Purchasers against certain liabilities, including liabilities under the Securities Act, or to contribute to payments that the Joint Bookrunners, the Joint Lead Managers and the Initial Purchasers may be required to make because of any of those liabilities.

Selling Restrictions

General

No action has been taken or will be taken in any jurisdiction by the Company or the Initial Purchasers that would permit a public offering of the Notes, or the possession, circulation or distribution of this offering memorandum or any other material relating to the Notes or this offering, in any jurisdiction where action for that purpose is required. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither this offering memorandum nor such other material may be distributed or published, in or from any country or jurisdiction except in compliance with any applicable rules and regulations of such country or jurisdiction.

PRIIPs / Prohibition of Sales to EEA Retail Investors

Each Initial Purchaser has represented and agreed that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes to any retail investor in the European Economic Area (“EEA”).

For the purposes of this provision:

- (a) the expression “retail investor” means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); or
 - (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the “Insurance Mediation Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the “Prospectus Directive”); and
- (b) the expression “offer” includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

Furthermore, the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available by any person to any retail investor in the EEA. Consequently no key information document as would be required by Regulation (EU) No 1286/2014 (the “PRIIPs Regulation”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

United States

The Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) have not been and will not be registered under the Securities Act or any state securities laws and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. See “Transfer Restrictions.” The Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the Securities Act.

In addition, until 40 days after the commencement of this offering, an offer or sale of the Notes within the United States by a dealer (whether or not participating in this offering) may violate the registration requirements of the Securities Act if that offer or sale is made otherwise than in accordance with Rule 144A under the Securities Act or pursuant to another exemption from registration under the Securities Act.

United Kingdom

No invitation or inducement to engage in investment activity (within the meanings of Section 21 of the Financial Services and Markets Act 2000 (the “FSMA”)) received by the Initial Purchasers in connection with the issue or sale of the Notes may be communicated or caused to be communicated except in circumstances in which Section 21(1) of the FSMA does not apply to the Initial Purchasers. All applicable provisions of the FSMA must be complied with respect to anything done or to be done by the Initial Purchasers in relation to any Notes in, from or otherwise involving the United Kingdom.

Hong Kong

The Notes may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32 of the Laws of Hong Kong), or (ii) to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32 of the Laws of Hong Kong) and no advertisement, invitation or document relating to the Notes may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to the Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) and any rules made thereunder.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948) (as amended) (the “FIEL”), and disclosure under the FIEL has not been made with respect to the Notes. Accordingly, the Notes may not be offered or sold, directly or indirectly in Japan or to, or for the account of, any resident of Japan, or to others for re-offering or re-sale, directly or indirectly in Japan or to, or for the benefit of, any resident of Japan, except pursuant to any exemption from the registration requirements of the FIEL and otherwise in compliance with the FIEL and other applicable provisions of Japanese laws and regulations. As used in this paragraph, “resident of Japan” means any person residing in Japan, including any corporation or other entity organized under the laws of Japan.

Singapore

This offering memorandum has not been and will not be registered as a prospectus with the Monetary Authority of Singapore under the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”). Accordingly, this offering memorandum and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes may not be circulated or distributed, nor may the Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor under Section 274 of the SFA, (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275, of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the Notes are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities (as defined in Section 239(1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Notes pursuant to an offer made under Section 275 of the SFA except:

- (1) to an institutional investor or to a relevant person defined in Section 275(2) of the SFA, or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA;
- (2) where no consideration is or will be given for the transfer;
- (3) where the transfer is by operation of law;
- (4) as specified in Section 276(7) of the SFA; or
- (5) as specified in Regulation 32 of the Securities and Futures (Offers of Investments) (Shares and Debentures) Regulations 2005 of Singapore.

PRC

The Initial Purchasers have acknowledged that this offering memorandum does not constitute a public offer of the Notes, whether by way of sale or subscription, in the PRC. Each of the Initial Purchasers has severally represented and agreed that, except to the extent consistent with applicable laws and regulations in the PRC, the Notes are not being offered and may not be offered or sold, directly or indirectly, in the PRC to or for the benefit of, legal or natural persons of the PRC. According to the laws and regulatory requirements in the PRC, with the exception to the extent consistent with applicable laws and regulations in the PRC, the Notes may, subject to the laws and regulations of the relevant jurisdictions, only be offered or sold to non-PRC natural or legal persons in any country other than the PRC.

Cayman Islands

No invitation whether directly or indirectly may be made to the public in the Cayman Islands to subscribe for the Notes.

British Virgin Islands

No invitation will be made directly or indirectly to any person resident in the British Virgin Islands to subscribe for any of the Notes.

TRANSFER RESTRICTIONS

Because of the following restrictions, we encourage you to consult legal counsel prior to making any offer, sale, resale, pledge or other transfer of the Notes, including the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) (collectively, the “Securities”).

The Notes are subject to restrictions on transfer as summarized below. By purchasing the Securities, you will be deemed to have made the following acknowledgements, representations to, and agreements with, us and the Initial Purchasers:

1. You understand and acknowledge that:
 - the Securities have not been registered under the Securities Act or any other applicable securities laws;
 - the Securities are being offered for resale in transactions that do not require registration under the Securities Act or any other securities laws;
 - the Securities are being offered and sold only outside the United States in offshore transactions in reliance on Rule 903 of Regulation S under the Securities Act; and
 - unless so registered, the Securities may not be sold or otherwise transferred except under an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act or any other applicable securities laws.
2. You represent that you are not an affiliate (as defined in Rule 144 under the Securities Act) of ours, that you are not acting on our behalf and that you are purchasing the Securities in an offshore transaction in accordance with Regulation S.
3. You acknowledge that neither we nor the Initial Purchasers nor any person representing us or the Initial Purchasers has made any representation to you with respect to us or the offering of the Securities, other than the information contained in this offering memorandum. You represent that you are relying only on this offering memorandum in making your investment decision with respect to the Securities. You agree that you have had access to such financial and other information concerning us and the Securities as you have deemed necessary in connection with your decision to purchase the Securities including an opportunity to ask questions of and request information from us.
4. You represent that you are purchasing the Securities for your own account, or for one or more investor accounts for which you are acting as a fiduciary or agent, in each case not with a view to, or for offer or sale in connection with, any distribution of the Securities in violation of the Securities Act.
5. You also acknowledge that each note will contain a legend substantially to the following effect:

THIS SECURITY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE “SECURITIES ACT”), OR THE SECURITIES LAWS OF ANY STATE OR OTHER JURISDICTION. NEITHER THIS SECURITY NOR ANY INTEREST OR PARTICIPATION HEREIN MAY BE REOFFERED, SOLD, ASSIGNED, TRANSFERRED, PLEDGED, ENCUMBERED OR OTHERWISE DISPOSED OF IN THE ABSENCE OF SUCH REGISTRATION OR UNLESS SUCH TRANSACTION IS EXEMPT FROM, OR NOT SUBJECT TO, SUCH REGISTRATION. BY ITS ACQUISITION HEREOF, THE HOLDER HEREOF REPRESENTS THAT IT IS ACQUIRING THIS SECURITY IN AN OFFSHORE TRANSACTION IN ACCORDANCE WITH REGULATION S UNDER THE SECURITIES ACT.

6. You acknowledge that we, the Initial Purchasers, the Trustee, the Agents and others will rely upon the truth and accuracy of the above acknowledgments, representations and agreements. You agree that if any of the acknowledgments, representations or agreements you are deemed to have made by your purchase of the Securities is no longer accurate, you will promptly notify us and the Initial Purchasers. If you are purchasing any Securities as a fiduciary or agent for one or more investor accounts, you represent that you have sole investment discretion with respect to each of those accounts and that you have full power to make the above acknowledgments, representations and agreements on behalf of each account.

RATINGS

We have been assigned B with a stable outlook by Standard & Poor's Ratings Services and B with a stable outlook by Fitch Ratings Ltd. We cannot assure you that our corporate credit rating will remain in effect for any given period or that the ratings will not be lowered, put on negative outlook or CreditWatch negative, or otherwise revised or withdrawn entirely by such rating agencies in the future if in their judgment circumstances so warrant.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

羅兵咸永道

TO THE BOARD OF DIRECTORS OF REDCO PROPERTIES GROUP LIMITED
(incorporated in the Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial information set out on pages 23 to 52, which comprises the interim condensed consolidated balance sheet of Redco Properties Group Limited (the “Company”) and its subsidiaries (together, the “Group”) as at 30 June 2017 and the related interim condensed consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION

1 GENERAL INFORMATION

Redco Properties Group Limited (the “Company”) is an investment holding company and its subsidiaries (together with the Company, referred to as “the Group”) are principally engaged in property development business in the People’s Republic of China (the “PRC”). The Company is listed on the Main Board of the Stock Exchange of Hong Kong Limited (“SEHK”).

The Company was incorporated in the Cayman Islands on 14 July 2008 as an exempted company with limited liability under the Cayman Companies Law and its shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Hong Kong Stock Exchange”). The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, the Cayman Islands.

This condensed consolidated financial information is presented in Renminbi (“RMB”), unless otherwise stated.

2 BASIS OF PREPARATION

This condensed consolidated financial information for the six months ended 30 June 2017 has been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). The condensed consolidated interim financial information should be read in conjunction with the annual financial statements of the Company for the year ended 31 December 2016, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the HKICPA.

3 ACCOUNTING POLICIES

The accounting policies applied to this condensed consolidated interim financial information are consistent with those of the annual financial statements for the year ended 31 December 2016, as described in those annual financial statements, except for the estimation of income tax using the tax rate that would be applicable to expected total annual earnings and the adoption of amendments to HKFRSs effective for the financial year ending 31 December 2017.

- (a) The following amendments to standards and annual improvements are mandatory for the first time for the financial year beginning 1 January 2017 and currently relevant to the Group:

HKAS 7 (Amendment)	Disclosure Initiative
HKAS 12 (Amendment)	Recognition of Deferred Tax Assets for Unrealised Losses
Annual Improvements Project	Annual Improvements 2014-2016 Cycle (Amendments)
HKFRS 12 (Amendment)	

The Group has adopted these standards and the adoption of these standards do not have significant impacts on the Group’s condensed consolidated interim financial information.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION

3 ACCOUNTING POLICIES (CONTINUED)

- (b) The following new standards, amendments to standards and annual improvement have been issued but are not effective for the financial year beginning 1 January 2017 and have not been early adopted by the Group:

		Effective for accounting periods beginning on or after
HKFRS 10 and HKAS 28 (Amendment)	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined
Annual Improvements Project HKFRS 1 and HKAS 28 (Amendment)	Annual Improvements 2014-2016 Cycle	1 January 2018
HKFRS 2 (Amendment)	Classification and Measurement of Share-based Payment Transactions	1 January 2018
HKFRS 9	Financial Instruments	1 January 2018
HKFRS 15	Revenue from Contracts with Customers	1 January 2018
HKFRS 15 (Amendment)	Clarifications to HKFRS 15	1 January 2018
HK(IFRIC)-Int 22	Foreign Currency Transactions and Advance Consideration	1 January 2018
HKFRS 16	Leases	1 January 2019

None of the above is expected to have a significant effect on the Group's consolidated financial statements, except the following:

- (i) HKFRS 9 "Financial instruments"

HKFRS 9 "Financial instruments" replaces the whole of HKAS 39. HKFRS 9 has three financial asset classification categories for investments in debt instruments: amortised cost, fair value through other comprehensive income ("OCI") and fair value through profit or loss. Classification is driven by the entity's business model for managing the debt instruments and their contractual cash flow characteristics.

Investments in equity instruments are always measured at fair value. However, management can make an irrevocable election to present changes in fair value in OCI, provided the instrument is not held for trading. If the equity instrument is held for trading, changes in fair value are presented in profit or loss.

HKFRS 9 also introduces a new model for the recognition of impairment losses – the expected credit losses ("ECL") model, which constitutes a change from the incurred loss model in HKAS 39. HKFRS 9 contains a "three stage" approach, which is based on the change in credit quality of financial assets since initial recognition. Assets move through the three stages as credit quality changes and the stages dictate how an entity measures impairment losses and applies the effective interest rate method. The new rules mean that on initial recognition of a non-credit impaired financial asset carried at amortised cost a day-1 loss equal to the 12-month ECL is recognised in profit or loss. In the case of accounts receivables this day-1 loss will be equal to their lifetime ECL.

Where there is a significant increase in credit risk, impairment is measured using lifetime ECL rather than 12-month ECL.

3 ACCOUNTING POLICIES (CONTINUED)

(b) The following new standards, amendments to standards and annual improvement have been issued but are not effective for the financial year beginning 1 January 2017 and have not been early adopted by the Group:
(Continued)

(ii) HKFRS 15 “Revenue from contracts with customers”

HKFRS 15 “Revenue from Contracts with Customers” – this new standard replaces the previous revenue standards: HKAS 18 “Revenue” and HKAS 11 “Construction Contracts”, and the related Interpretations on revenue recognition. HKFRS 15 establishes a comprehensive framework for determining when to recognise revenue and how much revenue to recognise through a 5-step approach:

- (1) Identify the contract(s) with customer;
- (2) Identify separate performance obligations in a contract;
- (3) Determine the transaction price;
- (4) Allocate transaction price to performance obligations; and
- (5) Recognise revenue when performance obligation is satisfied.

The core principle is that a company should recognise revenue to depict the transfer of promised goods or services to the customer in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. It moves away from a revenue recognition model based on an “earnings processes” to an “asset liability” approach based on transfer of control. HKFRS 15 provides specific guidance on capitalisation of contract cost, license arrangements and principal versus agent considerations. It also includes a cohesive set of disclosure requirements about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity’s contracts with customers. Meanwhile, there will be additional disclosure requirement under HKFRS 15 upon its adoption. HKFRS 15 is effective for annual periods beginning on or after 1 January 2018 and earlier application is permitted.

(iii) HKFRS 16 “Leases”

HKFRS 16 “Leases” was issued in January 2016. It will result in almost all leases being recognised on the statement of financial position, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

The standard will affect primarily the accounting for the Group’s operating leases. As at the reporting date, the Group has non-cancellable operating lease commitments of RMB2,527,000 (Note 18). However, the Group has not yet determined to what extent these commitments will result in the recognition of an asset and a liability for future payments and how this will affect the Group’s profit and classification of cash flows.

Some of the commitments may be covered by the exception for short-term and low-value leases and some commitments may relate to arrangements that will not qualify as leases under HKFRS 16.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION

3 ACCOUNTING POLICIES (CONTINUED)

- (b) The following new standards, amendments to standards and annual improvement have been issued but are not effective for the financial year beginning 1 January 2017 and have not been early adopted by the Group:
(Continued)

(iii) HKFRS 16 “Leases” (Continued)

The standard is mandatory for first interim period within annual reporting periods beginning on or after 1 January 2019. At this stage, the Group does not intend to adopt the standard before its effective date.

The Group is in the process of making an assessment of what the impact of these new standards and amendments to existing standards would be in the period of initial application, but not yet in a position to state whether they would have a significant impact to the Group’s results and financial position.

- (c) Changes in accounting policy and early adoption of amendments to HKAS 40 “Investment property”

In previous years, an investment property of a joint venture of the Group was carried at historical cost less accumulated depreciation and impairment losses (the “Cost Model”). With effect from 1 January 2017, the Group changed its accounting policy for the investment properties to the fair value model under HKAS 16 (the “Fair Value Model”).

The change was made to increase the relevance of financial data to the users of the financial statements by taking into consideration of the following factors:

- a) The market values of the investment properties are volatile and are influenced by various factors which are associated with the underlying operation and performance of the Group. Adoption of the fair value model under HKAS 40 could provide a more appropriate and relevant information about the Group’s result and financial position.
- b) A majority of comparable companies within the Hong Kong and PRC real estate industry adopt the Fair Value Model. Therefore, using the Fair Value Model can align the Group’s accounting policy with industry peers and improve comparability of the Group’s financial performance with industry peers.

The change in accounting policy of investment properties has been accounted for retrospectively. The comparative figures have been restated.

The amendments to HKAS 40 will be effective for the financial year beginning 1 January 2018. With effect from 1 January 2017, the Group has early adopted the amendment in respect of the transfer of properties under development to investment properties for sales under fair value model.

The adoption has led to a fair value gain on investment properties of RMB326,995,000 and income tax expense of RMB81,749,000 recognised in the condensed consolidated statement of profit or loss and an increase in fair value of an investment property of RMB326,995,000 and increase in deferred income tax liabilities of RMB81,749,000 in the condensed consolidated balance sheet.

4 ESTIMATES

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2016, with the exception of changes in estimates that are required in determining the provision for income taxes.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION

5 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS*5.1 Financial risk factors*

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, cash flow and fair value interest rate risks), credit risk and liquidity risk.

The interim condensed consolidated financial information do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2016.

There have been no changes in the risk management policies since year end.

5.2 Liquidity risk

Compared to year end, there was no material change in the contractual undiscounted cash out flows for financial liabilities.

5.3 Fair value estimation

Level of the inputs to valuation techniques used to measure fair value of the Group's financial instruments as at 30 June 2017. Such inputs are categorised into three levels within a fair value hierarchy as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

See Note 11 for disclosures of the investment property that are measured at fair value.

6 REVENUE AND SEGMENT INFORMATION

The executive directors have been identified as the chief operating decision-maker. Management determines the operating segments based on the Group's internal reports, which are submitted to the executive directors for performance assessment and resources allocation.

The executive directors consider the business from a geographical perspective and assess the performance of property development in five reportable operating segments, namely Greater Western Taiwan Straits Economic Zone, Central and Western Regions, Bohai Economic Rim, Pearl River Delta Region and Others. The Group's construction and sea reclamation services and hotel operations are considered together with the property development segments and included in the relevant geographic operating segment. "Others" segment represents provision of design services to group companies, corporate support functions, property management services (services provided to both internal or external customers) and investment holdings businesses.

The executive directors assess the performance of the operating segments based on a measure of segment results. This measurement basis excludes the effects of depreciation, share of profit of investments accounted for using the equity method, finance income, finance costs and income tax (expense)/credit from the operating segments. Other information provided, except as noted below, to the executive directors is measured in a manner consistent with that in the annual financial statements.

Note:

- (i) During the six months ended 30 June 2017, the Group has entered into a rental agreement with an independent third party for property under development for sale, indicating a change in the intended use of the property under development for sale. As a result, the property under development for sale was reclassified as investment property carried at fair value. At the date of transfer, its fair value of approximately RMB402,497,000, including its cost of approximately RMB75,502,000 and fair value gain of approximately RMB326,995,000, has been transferred to investment property.

Fair value measurement

As at 30 June 2017, the fair value of the investment property was measured at level 3 of fair value hierarchy using significant unobservable inputs.

There were no transfers between levels 1, 2 and 3 during the period.

Valuation process of investment property

The Group engages an external, independent and qualified valuer, Jiangxi Hengfang Real Estate and Land Valuation Consultancy Co., Ltd. (“江西恒方房地產土地估價諮詢有限公司”) to determine the fair value of the investment property at the reporting date.

Discussions of valuation processes and results have been held between the management and the valuer in respect of the valuation as at 30 June 2017, and will be held at least once every six months going forward, in line with the Group’s interim and annual reporting dates.

19 FINANCIAL GUARANTEES AND CONTINGENT LIABILITIES

(a) Guarantees on mortgage facilities

The Group had the following contingent liabilities in respect of financial guarantees on mortgage facilities at the end of each of the following reporting periods:

	30 June 2017 RMB'000 (Unaudited)	31 December 2016 RMB'000 (Audited)
Guarantees in respect of mortgage facilities for certain purchasers of the Group's properties	<u>5,327,599</u>	<u>5,100,315</u>

The Group has arranged bank financing for certain purchasers of the Group's properties and provided guarantees to secure obligations of such purchasers for repayment. Such guarantees will terminate upon the earlier of (i) the transfer of the real estate ownership certificate to the purchaser which will generally occur within an average period of six months to three years from the completion of the guarantee registration; or (ii) the satisfaction of mortgage loans by the purchasers of the properties.

Pursuant to the terms of the guarantees, upon default of mortgage payments by these purchasers, the Group is responsible to repay the outstanding mortgage principal together with accrued interest and penalties owed by the defaulting purchasers to the banks and the Group is entitled to take over the legal title and possession of the related properties. The Group's guarantee period starts from the date of grant of mortgage. The directors consider that the likelihood of default of payments by the purchasers is minimal and their obligations are well covered by the value of the properties and therefore the total fair value of financial guarantees is immaterial.

(b) There are certain corporate guarantees provided by the Group's subsidiaries for each other in respect of borrowings (Note 16) as at 30 June 2017 and 31 December 2016. The directors consider that the subsidiaries are sufficiently financially resourced to settle their obligations.

Save as disclosed above the Group and the Company has no other significant contingent liabilities as at 30 June 2017 (31 December 2016: Nil)

20 BANKING FACILITIES AND PLEDGE OF ASSETS

As at 30 June 2017, the Group had aggregate banking facilities of approximately RMB3,993,821,000 (31 December 2016: RMB3,881,306,000) for overdrafts, bank loans and trade financing. Unused facilities as at the same date amounted to RMB628,600,000 (31 December 2016: RMB876,250,000).

As at 30 June 2017 and 31 December 2016, the borrowings of the Group were secured by (i) corporate guarantees of the Company; and (ii) certain land and properties under development for sale provided by the Group's subsidiaries.

The Senior Notes due 2019 are secured by shares of certain subsidiaries of the Company which are incorporated outside the PRC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION

21 EARNINGS PER SHARE

The basic earnings per share for the six months ended 30 June 2017 and 2016 is calculated based on the profit attributable to owners of the Company.

	Six months ended 30 June	
	2017 RMB'000 (Unaudited)	2016 RMB'000 (Unaudited) (Restated)
Profit attributable to owners of the Company (RMB'000)	<u>322,149</u>	<u>125,765</u>

24 DIVIDEND

The Board has declared an interim dividend of RMB2 cents per share for the six months ended 30 June 2017 (six months ended 30 June 2016: Nil), which is payable on 26 September 2017 to shareholders who are on the register at 14 September 2017. This interim dividend, amounting to RMB71,032,000, has not been recognised as a liability in this interim financial information. It will be recognised in shareholders' equity in the year ending 31 December 2017.

25 ACQUISITIONS OF SUBSIDIARIES

On 3 March 2017, the Group completed the acquisition of 30% equity interest of Nanchang Xinrong Real Estate Development Co., Ltd. (南昌欣榮房地產開發有限公司) ("Nanchang Xinrong") at a consideration of RMB3,000,000. Nanchang Xinrong is principally engaged in property development in Jiangxi Province and holds a parcel of land in Yin San Jiao Xiang Tang Development District, Nanchang.

On 5 May 2017, the Group completed the acquisition of 51% equity interest of Jiangxi Nayu Property Co., Ltd. (江西納裕實業有限公司) ("Jiangxi Nayu") at a consideration of RMB61,200,000. Jiangxi Nayu is principally engaged in property development in Jiangxi Province and holds a parcel of land in Chang Nan New District, Nanchang.

As both Nanchang Xinrong and Jiangxi Nayu did not operate any business prior to the date of acquisition, therefore the Group considers the nature of the acquisition as acquisition of assets in substance and the consideration should be attributable to the individual assets acquired and liabilities assumed.

The relative fair values of assets acquired and liabilities assumed at the acquisition date is analysed as follows:

	Jiangxi Nayu RMB'000	Nanchang Xinrong RMB'000

OPINION

What we have audited

The consolidated financial statements of Redco Properties Group Limited (the "Company") and its subsidiaries (the "Group") set out on pages 51 to 124, which comprise:

- the consolidated balance sheet as at 31 December 2016;
- the consolidated statement of profit or loss for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matter identified in our audit is related to the partial disposal of Top Glory Group.

Key Audit Matter

Partial disposal of Top Glory Group

Refer to notes 7, 14 and 27(a) to the consolidated financial statements for the detailed disclosure on the partial disposal of Top Glory Group and recognition of the retained interest as investment in an associate.

On 30 November 2016, the Group completed the disposal of 55% equity interest in Top Glory International Holdings Limited and its subsidiaries ("Top Glory Group") at a cash consideration of RMB93,555,000. The Group recorded a corresponding gain on disposal of approximately RMB122,799,000 in the consolidated statement of profit or loss. Subsequent to the partial disposal, the Group's retained interest in the Top Glory Group is accounted for as an associate and remeasured at fair value.

The valuation of the retained interest in the Top Glory Group is performed by management and is estimated based on the discounted cash flow ("DCF") method.

We focused on this area as the assessments made by management to prepare the DCF involved significant estimates and judgements, including the revenue growth rates, gross profit margin, terminal growth rate and discount rate. These estimates and judgements may be affected by unexpected future market or economic conditions which could result in a material impact to the valuation of the retained interest and the amount of gain on disposal to be recognised.

How our audit addressed the Key Audit Matter

Our work in relation to management's estimates and judgements used in the partial disposal of the Top Glory Group and the calculation of the gain on disposal focused on the following procedures:

- We obtained management's cash flow forecasts, tested the mathematical accuracy of the underlying calculations and agreed them to the approved three-year financial budget and future forecasts.
- We assessed the reasonableness of key assumptions used in the calculations, comprising revenue growth rates, gross profit margin and terminal growth rate. When assessing these key assumptions, we discussed with management to understand and challenge management's basis for the assumptions, and checking the growth rates against the signed contracts of the gross profit margin against historical performance.
- We engaged our valuation specialists to assist us in assessing the valuation methodology used by management and to evaluate the discount rate used by management, by comparing the discount rate used to entities with similar risk profiles and other market information.
- We agreed the cash proceeds to the bank advice and the disposal agreement.
- We reperformed management's calculation of the gain on disposal.

As a result of our work, we found management's estimates and judgements used in the valuation of the retained interest in the Top Glory Group and the calculation of the gain on disposal to be supported by the available evidence.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The audit committee is responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lee Kin Wah, Albert.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 GENERAL INFORMATION

Redco Properties Group Limited (the “Company”) was incorporated in the Cayman Islands on 14 July 2008 as an exempted company with limited liability under the Cayman Companies Law. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands.

The Company is an investment holding company and its subsidiaries (together with the Company, referred to as the “Group”) are principally engaged in property development business in the People’s Republic of China (the “PRC”). The Company is listed on the Main Board of The Stock Exchange of Hong Kong Limited (“SEHK”).

These consolidated financial statements are presented in Renminbi (“RMB”), unless otherwise stated.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied during all the years presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements of the Company have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRS”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and requirements of the Hong Kong Companies ordinance Cap. 622. The consolidated financial statements have been prepared under the historical cost convention.

The preparation of consolidated financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4 to the consolidated financial statements.

2.1.1 Amended standards adopted by the Group

The following amended standards have been adopted by the Group for the first time for the financial year beginning on or after 1 January 2016:

HKAS 1 (Amendment)	Disclosure Initiative
HKAS 16 and HKAS 38 (Amendment)	Clarification of Acceptable Methods of Depreciation and Amortisation
HKAS 16 and HKAS 41 (Amendment)	Agriculture: Bearer Plants
HKAS 27 (Amendment)	Equity Method in Separate Financial Statements
HKFRS 10, HKFRS 12 and HKAS 28 (Amendment)	Investment Entities: Applying the Consolidation Exception
HKFRS 11 (Amendment)	Accounting for Acquisitions of Interests in Joint Operations
HKFRS 14	Regulatory Deferral Accounts
HKFRSs (Amendment)	Annual Improvements to HKFRSs 2012 – 2014 Cycle

The adoption of these amendments did not have any impact on the current period or any prior period and is not likely to affect future periods.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.1 Basis of preparation – Continued

2.1.2 New and amended standards not yet adopted by the Group

Up to the date of issue of this report, the HKICPA has issued the following new and amended standards and which are relevant to the Group's operations but are not yet effective for the annual accounting period beginning on 1 January 2016 and which have not been early adopted by the Group:

		Effective for accounting periods beginning on or after
HKAS 7 (Amendment)	Disclosure Initiative	1 January 2017
HKAS 12 (Amendment)	Recognition of Deferred Tax Assets for Unrealised Losses	1 January 2017
HKFRS 2 (Amendment)	Classification and Measurement of Share-based Payment Transactions	1 January 2018
HKFRS 9	Financial Instruments	1 January 2018
HKFRS 10 and HKAS 28 (Amendment)	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined
HKFRS 15	Revenue from Contracts with Customers	1 January 2018
HKFRS 15 (Amendment)	Clarifications to HKFRS 15	1 January 2018
HKFRS 16	Leases	1 January 2019

The Group has completed an assessment of the impact of the above new and amended standards that became effective since 1 January 2016 and in the process of assessing the impact of others and considers that they will not have any significant impact on the results of the Group's operations and financial position. The Group plans to adopt the above new and amended standards when they become effective.

2.2 Subsidiaries

2.2.1 Consolidation

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

(a) Business combinations

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.2 *Subsidiaries – Continued*

2.2.1 *Consolidation – Continued*

(a) Business combinations – Continued

The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis. Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured at either fair value or the present ownership interests' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by HKFRS.

Acquisition-related costs are expensed as incurred.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill (Note 2.7). If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the consolidated income statement.

Intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

(b) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in a loss of control are accounted for as equity transactions – that is, as transactions with the owners of the subsidiary in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying amount of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(c) Disposal of subsidiaries

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. It means the amounts previously recognised in other comprehensive income are reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.2 *Subsidiaries – Continued*

2.2.2 *Separate financial statements*

Investments in subsidiaries are accounted for at cost less impairment. Cost includes directly attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.3 *Investments accounted for using the equity method*

2.3.1 *Joint arrangements*

The Group has applied HKFRS 11 to all joint arrangements. Under HKFRS 11 investment in a joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. The joint ventures are accounted for using the equity method.

Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses and movements in other comprehensive income. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint venture.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealised losses are also eliminated unless the transactions provide evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.3 *Investments accounted for using the equity method – Continued*

2.3.2 *Associates*

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investments in associates include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associate, any difference between the cost of the associate and the Group's share of the net fair value of the associate's identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognised in the statement of profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to 'share of profit of investments accounted for using equity method' in the statement of profit or loss.

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Gain or losses on dilution of equity interest in associates are recognised in the statement of profit or loss.

2.4 *Segment reporting*

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker ("CODM"). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Executive Directors that make strategic decisions.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.5 Foreign currency translation

(i) Functional and presentation currency

Items included in the consolidated financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The Company's functional currency is Hong Kong dollars ("HK\$"), and the consolidated financial statements are presented in RMB, which is the Company's and the Group's presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of profit or loss.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the consolidated statement of profit or loss within "finance income" and "finance costs". All other foreign exchange gains and losses are presented in the consolidated statement of profit or loss within "other gains, net".

(iii) Group companies

The results and financial positions of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- share capital is translated at the historical rate;
- income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which cash income and expenses are translated at the rate on the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Currency translation differences arising are recognised in other comprehensive income.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.6 *Property, plant and equipment*

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the consolidated statement of profit or loss during the financial period in which they are incurred.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as follows:

Leasehold improvement	shorter of the lease term or useful lives
Furniture and office equipment	3 to 5 years
Motor vehicles	3 to 5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.8).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within "other gains, net" in the consolidated statement of profit or loss.

2.7 *Goodwill*

Goodwill arises on the acquisition of a subsidiary and represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identified net assets acquired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs"), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the group at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.8 *Impairment of investment in joint ventures, associate and non-financial assets*

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

The Group applies the impairment assessment requirement of HKAS 39 to determine whether it is necessary to recognise any additional impairment loss in respect to its net investment in joint venture. Impairment testing of the interest in joint venture and associates is required upon receiving dividends from the investment if the dividend exceeds the total comprehensive income of the joint venture or the associate in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill. Impairment losses and reversal, if any, are recognised in accordance with HKAS 36.

2.9 *Properties under development for sale and completed properties for sale*

Properties under development for sale and completed properties held for sale are included in current assets at the lower of cost and net realisable value. Development cost of property comprises construction costs, depreciation of machinery and equipment, amortisation of land use rights, borrowing costs on qualifying assets and professional fees incurred during the development period. Upon completion, the properties are transferred to completed properties held for sale.

Net realisable value takes into account the price ultimately expected to be realised, less applicable variable selling expenses and the anticipated costs to completion.

Properties under development for sale are classified as current assets unless the construction period of the relevant property development project is expected to complete beyond normal operating cycle.

2.10 *Financial assets*

2.10.1 *Classification*

The Group's financial assets are classified as loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for the amounts that are settled or expected to be settled more than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables comprise "trade and other receivables, deposits and prepayments", "amounts due from an associate", "amounts due from non-controlling interests", "restricted cash", "amounts due from joint ventures" and "cash and cash equivalents" in the consolidated balance sheet.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.10 *Financial assets – continued*

2.10.2 *Recognition and measurement*

Regular way purchases and sales of financial assets are recognised on the trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the group has transferred substantially all risks and rewards of ownership. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

2.11 *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.12 *Impairment of financial assets*

Assets carried at amortised cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a “loss event”) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

The criteria that the Group uses to determine that there is objective evidence of an impairment loss include:

- Significant financial difficulty of the issuer or obligor;
- A breach of contract, such as a default or delinquency in interest or principal payments;
- The Company, for economic or legal reasons relating to the borrower’s financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
- The disappearance of an active market for that financial asset because of financial difficulties; or
- Observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
 - (i) adverse changes in the payment status of borrowers in the portfolio;
 - (ii) national or local economic conditions that correlate with defaults on the assets in the portfolio.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.12 Impairment of financial assets – Continued

The Group first assesses whether objective evidence of impairment exists. For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated statement of profit or loss. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated statement of profit or loss.

2.13 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand, deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less.

2.14 Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

2.15 Construction contract

A construction contract is defined by HKAS 11, 'Construction contracts', as a contract specifically negotiated for the construction of an asset.

When the outcome of a construction contract can be estimated reliably and it is probable that the contract will be profitable, contract revenue is recognised over the period of the contract by reference to the stage of completion. Contract costs are recognised as expenses by reference to the stage of completion of the contract activity at the end of the reporting period. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Variations in contract work, claims and incentive payments are included in contract revenue to the extent that may have been agreed with the customer and are capable of being reliably measured.

The Group uses the 'percentage-of-completion method to determine the appropriate amount to recognise in a given period. The stage of completion is measured by reference to the contract costs incurred up to the end of the reporting period as a percentage of total estimated costs for each contract. Costs incurred in the year in connection with future activity on a contract are excluded from contract costs in determining the stage of completion.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.15 Construction contract – Continued

On the balance sheet, the group reports the net contract position for each contract as either an asset or a liability. A contract represents an asset where costs incurred plus recognised profits (less recognised losses) exceed progress billings; a contract represents a liability where the opposite is the case.

2.16 Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

2.17 Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.18 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated income statement over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

2.19 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.19 Provisions – Continued

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

2.20 Current and deferred income tax

The tax expense for the year comprises current and deferred income tax. Tax is recognised in the consolidated income statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company's subsidiaries and a joint venture operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b) Deferred income tax

Inside basis differences

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred tax liabilities are not recognised if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Outside basis differences

Deferred income tax liabilities are provided on taxable temporary differences arising on investments in subsidiaries and a joint venture, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries and a joint venture only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.20 *Current and deferred income tax – Continued*

(c) *Offsetting*

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2.21 *Revenue recognition*

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is stated net of discounts, returns and value added taxes.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

(i) *Sale of properties*

Revenue from sale of properties is recognised when the significant risks and rewards of the properties are transferred to the buyers, which is when the construction of the relevant properties have been completed, delivery of the properties have been completed pursuant to the sales agreements and collectability of related receivables pursuant to the sale agreements is reasonably assured. Deposits and instalments received on properties sold prior to transfer of the significant risks and rewards of the properties are included as receipt in advance under current liabilities.

(ii) *Construction and sea reclamation service income*

Revenue from construction and sea reclamation services based on the stage of completion of the construction as detailed in Note 2.15.

(iii) *Property management income*

Revenue arising from property management is recognised in the accounting period in which the services are rendered.

(iv) *Interest income*

Interest income is recognised using the effective interest method.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.22 *Employee benefits*

(i) *Pension obligations*

The Group operates a mandatory provident fund scheme (“MPF Scheme”) in Hong Kong. The assets of the MPF Scheme are held in a separate trustee-administered fund. Both the Group and the employees are required to contribute 5% of the employees relevant income up to a maximum of HK\$1,500 per employee per month.

The Group also participates in an employee social security plan (the “Plan”) as required by the regulations in the PRC. The Group is required to make welfare contributions to the Plan which is based on certain percentage of the employees’ relevant income.

The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(ii) *Bonus plans*

The expected cost of bonus plan is recognised as a liability when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

Liabilities for bonus plans are expected to be settled within 12 months and are measured at the amounts expected to be paid when they are settled.

2.23 *Borrowing costs*

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.24 Financial guarantee liabilities

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and other bodies on behalf of subsidiaries to secure loans, overdrafts and other banking facilities.

Financial guarantees are initially recognised in the consolidated financial statements at fair value on the date the guarantee was given. The fair value of a financial guarantee at the time of signature is zero because all guarantees are agreed on arm's length terms, and the value of the premium agreed corresponds to the value of the guarantee obligation. No receivable for the future premiums is recognised. Subsequent to initial recognition, the Group's liabilities under such guarantees are measured at the higher of the initial amount, less amortisation of fees recognised in accordance with HKAS 18, and the best estimate of the amount required to settle the guarantee. These estimates are determined based on experience of similar transactions and history of past losses, supplemented by management's judgement. The fee income earned is recognised on a straight-line basis over the life of the guarantee. Any increase in the liability relating to guarantees is reported in the consolidated income statement within general and administrative expenses.

Where guarantees in relation to loans or other payables of subsidiaries are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment in the financial statements of the Company.

2.25 Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the consolidated statement of profit or loss on a straight-line basis over the period of the lease.

2.26 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

3 FINANCIAL RISK MANAGEMENT

3.1 *Financial risk factors*

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk and cash flow and fair value interest rate risk), liquidity risk and credit risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. Risk management is carried out by management of each individual entity within the Group.

(i) *Foreign exchange risk*

The Group mainly operates in the PRC with most of the transactions settled in RMB. Foreign exchange risk arises when future commercial transactions or recognised assets and liabilities are denominated in a currency that is not the entity's functional currency. The Group is exposed to foreign exchange risk primarily with respect to HK\$ and United States dollars ("US\$").

The Group's assets and liabilities, and transactions arising from its operations primarily do not expose it to material foreign exchange risk. Other than certain bank balances and bank borrowings, the Group's assets and liabilities are primarily denominated in RMB. The Group generates RMB from sales in the PRC to meet its liabilities denominated in RMB. The Group does not hedge its exposure to the foreign currencies.

During the year ended 31 December 2016, the Group recorded other comprehensive loss of exchange differences arising from translation of functional currency to presentation currency of RMB146,687,000 (2015: RMB141,641,000), attributable to the depreciation of the RMB against HK\$ and US\$. The translation risk is not hedged.

As at 31 December 2016 and 2015, certain of the Group's cash and bank balances were denominated in HK\$ and US\$, details of which have been disclosed in Note 19.

As at 31 December 2016 and 2015, the Group was exposed to foreign exchange risk primarily with respect to the potential effects on profit or loss included the impacts from translation in intercompany balances which are not denominated in functional currency of respective group companies.

RMB depreciation against HK\$ and US\$ during the year is the major reason for the exchange differences recognised by the Group. Further appreciation of HK\$ and US\$ against RMB will affect the Group's financial position and results of operations.

The following table shows that, if RMB had strengthened/weakened by 5% against HK\$, with all other variables held constant, post-tax profit for the year change, mainly as a result of foreign exchange gains/losses on translation of HK\$ denominated amounts due from/(to) fellow subsidiaries and trade and other payables.

3 FINANCIAL RISK MANAGEMENT – CONTINUED

3.1 Financial risk factors – Continued

(i) Foreign exchange risk – Continued

Post-tax profit (decrease)/increase
 RMB strengthened by 5%
 RMB weakened by 5%

2016 RMB'000	2015 RMB'000
(25,757)	6,906
25,757	(6,906)

The US\$ denominated borrowings (Note 22) is in the Company which functional currency is HK\$, since HK\$ is pegged to US\$, there is no significant foreign exchange risk with respect to US\$.

(ii) Cash flow and fair value interest rate risks

The Group's income and operating cash flows are substantially independent of changes in market interest rates. Except for bank deposits with variable interest, the Group has no other significant interest-bearing assets.

The Group's exposure to changes in interest rates is mainly attributable to its borrowings from bank. Bank borrowings of variable rates expose the Group to cash flow interest rate risk. The senior notes at a fixed rate expose the Group to fair value interest rate risk. The Group has not hedged its cash flow and fair value interest rate risk. The interest rate and terms of repayments of borrowings are disclosed in Note 22.

Management does not anticipate significant impact to the senior notes resulted from the changes in market interest rates. Moreover, given the stability of the interest rate in the recent financial market, in the opinion of the directors, the exposure of the senior notes to fair value interest rate risk is considered to be low. Therefore no sensitivity analysis is performed.

Management does not anticipate significant impact to interest-bearing assets resulted from the changes in interest rates, because the interest rates of bank deposits are not expected to change significantly.

At 31 December 2016 and 2015, if interest rates on borrowings at floating rates had been 100 basis points higher/lower with all other variables held constant, the post-tax profit and capitalised interest for the years ended 31 December 2016 and 2015 would have changed as follows:

Post-tax profit (decrease)/increase
 – 100 basis points higher
 – 100 basis points lower
 Capitalised interest increase/(decrease)
 – 100 basis points higher
 – 100 basis points lower

2016 RMB'000	2015 RMB'000
(1,647)	(1,714)
1,647	1,714
25,768	22,183
(25,768)	(22,183)

3 FINANCIAL RISK MANAGEMENT – CONTINUED

3.1 Financial risk factors – Continued

(iii) Liquidity risk

In managing the liquidity risk, the Group regularly and closely monitors its current and expected liquidity requirements to maintain its rolling cash flow at a level which is considered adequate by the Group to finance the Group's operations and to maintain sufficient cash to meet its business development requirements.

Management has periodically prepared cash flow projections and the Group has a number of alternative plans to offset the potential impact on the Group's business development and current operation, should there be circumstances that the anticipated cash flow may be affected by any unexpected changes in the PRC economic conditions. The Company's directors consider that the Group will be able to maintain sufficient financial resources to meet its needs. Unused facilities of the Group as of 31 December 2016 and 2015 have been disclosed in Note 31.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet dates to the contractual maturity dates. The amounts disclosed in the table are the contractual undiscounted cash flows and the earliest date the Group and the Company can be required to pay.

Specifically, for term loans which contain a repayment on demand clause which can be exercised at the bank's sole discretion, the analysis shows the cash outflow based on the earliest period in which the entity can be required to pay, that is if the lenders were to invoke their unconditional rights to call the loans with immediate effect. The maturity analysis for other bank borrowings is prepared based on the scheduled repayment dates.

(iv) Credit risk

Credit risk arises from bank deposits, trade receivables, other receivables and amounts due from joint ventures, an associate and non-controlling interests.

For trade and other receivables and amounts due from joint ventures, an associate and non-controlling interests, the Group assessed the credit quality of the counterparties by taking into account their financial position, credit history and other factors. Management also regularly reviews the recoverability of these receivables and follow up the disputes or amounts overdue, if any. The directors are of the opinion that the risk of default by counterparties is low.

3 FINANCIAL RISK MANAGEMENT – CONTINUED

3.1 *Financial risk factors – Continued*

(iv) *Credit risk – Continued*

The Group reviews the recoverable amount of each individual trade receivable balance at each reporting date to ensure that adequate impairment losses are made for irrecoverable amounts.

All the bank deposits are placed with banks with sound credit ratings to mitigate the risk. The Group does not hold any collateral as security.

The Group typically provides guarantees to banks in connection with the customers' borrowing of mortgage loans to finance their purchase of properties for an amount up to 70% of the total purchase price of the property. If a purchaser defaults on the payment of its mortgage loan during the guarantee period, the bank holding the guarantee may demand the Group to repay the outstanding amount under the loan and any interest accrued thereon. Under such circumstances, the Group is able to retain the customers' deposit and resell the property to recover any amounts paid by the Group to the bank. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

3.2 *Capital risk management*

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group manages the capital structure and makes adjustment to it in light of changes in economic condition.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt or to obtain bank and other borrowing.

The Group monitors capital on the basis of the gearing ratio. Gearing ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less cash and bank balance (including cash and cash equivalent and restricted cash). Total capital is calculated as total equity, as shown in the consolidated balance sheet, plus net debt. The gearing ratios at 31 December 2016 and 2015 were as follows:

	2016 RMB'000	2015 RMB'000
Total borrowings (Note 22)	3,629,232	3,220,540
Less: Cash and cash equivalents and restricted cash (Note 19)	<u>(3,603,474)</u>	<u>(2,357,901)</u>

Gearing ratio	<u>1%</u>	<u>23%</u>

3 FINANCIAL RISK MANAGEMENT – CONTINUED

3.3 *Fair value estimation*

The nominal value less estimated credit adjustments of trade receivables, other receivables, cash and cash equivalents, amounts due from non-controlling interests, trade and other payables and current portion of bank borrowings are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments or based on the current bid price in the market. All the resulting fair value estimates are included in level 3 of the fair value hierarchy.

The Group does not have any financial instruments that are measured at fair value.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

4.1 *Development costs directly attributable to property development activities*

The Group allocates portions of land and development costs to properties held for sale and under development. As certain of the Group's property development projects are developed and completed by phases, the budgeted development costs of the whole project are dependent on the estimate on the outcome of total development. Based on the experience and the nature of the development undertaken, the management makes estimates and assumptions concerning the future events that are believed to be reasonable under the circumstances. Given the uncertainties involved in the property development activities, the related actual results may be higher or lower than the amount estimated at the end of the reporting period. Any change in estimates and assumptions would affect the Group's operating performance in future years.

4.2 *Provision for impairment of properties held or under development for sale*

The management makes provision for impairment of properties held or under development for sale based on the estimate of the recoverable amount of the properties. Given the volatility of the property market in the PRC, the actual recoverable amount may be higher or lower than the estimate made as at the end of the reporting period. Any increase or decrease in the provision would affect the Group's operating performance in future years.

4.3 *Current taxation and deferred taxation*

The Group is subject to taxation in the PRC. Judgement is required in determining the amount of the provision for taxation and the timing of payment of the related taxation. There are transactions and calculations for which the ultimate tax determination is uncertain (for example, certain expenses such as entertainment and advertising expenses may not be finally deductible) during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the periods in which such determination are made.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS – CONTINUED

4.3 *Current taxation and deferred taxation – Continued*

Deferred tax assets relating to certain temporary differences and tax losses are recognised as management considers it is probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. Where the expectation is different from the original estimate, such differences will impact the recognition of deferred taxation assets and taxation in the periods in which such estimate is changed.

4.4 *Land appreciation tax*

PRC land appreciation tax is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including land cost, borrowing costs and all property development expenditures.

The subsidiaries of the Group engaging in property development business in the PRC are subject to land appreciation taxes, which have been included in the income tax expenses. However, the implementation of these taxes varies amongst various PRC cities and the Group has not finalised its land appreciation tax returns with various tax authorities. Accordingly, significant judgement is required in determining the amount of land appreciation and its related taxes. The Group recognises these liabilities based on management's best estimates. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax expenses and provisions of land appreciation taxes in the period in which such determination is made.

4.5 *Estimated impairment of goodwill*

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in Note 2.7. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (Note 12).

4.6 *Accruals for construction cost of public facilities*

The Group is required to construct certain public facilities in connection with obtaining certain land use rights for construction of properties in the PRC. The Group estimates the accruals for these costs for construction based on historical actual construction costs as adjusted for the effect of inflation. The Group regularly updates the construction schedules of public facilities and reviews the adequacy of the accrued balance.

4.7 *Fair value of the investment in an associate upon initial recognition*

The Group measures the retained interest in the entity to its fair value when control is lost. The fair value of the entity that is not traded in an active market is determined based on the discounted cash flow method, which involved judgement and estimates, including the revenue growth rates, gross profit margin, terminal growth rate and discount rate. These estimates and judgement are based on the market condition and historical performance.

5 REVENUE AND SEGMENT INFORMATION

The Executive Directors have been identified as the CODM. Management determines the operating segments based on the Group's internal reports, which are submitted to the Executive Directors for performance assessment and resources allocation.

The Executive Directors consider the business from a geographical perspective and assesses the performance of property development in four reportable operating segments, namely Greater Western Taiwan Straits Economic Zone, Central and Western Regions, Bohai Economic Rim, Pearl River Delta Region and Others. The Group's construction and sea reclamation services and hotel operations are considered together with the property development segments and included in the relevant geographic operating segment. "Others" segment represents provision of design services to group companies, corporate support functions, property management services (services provided to both internal or external customers) and investment holdings businesses.

The Executive Directors assess the performance of the operating segments based on a measure of segment results. This measurement basis excludes the effects of depreciation, share of loss of investments accounted for using the equity method, finance income, finance costs and income tax expense from the operating segments. Other information provided, except as noted below, to the Executive Directors is measured in a manner consistent with that in the consolidated financial statements.

During the year ended 31 December 2015, the Group's revenue was concentrated on a customer in relation to sea reclamation services. Revenue recognised for this customer amounted to 11.6% of the Group's revenue.

Geographical information

Revenue by geographical location is determined on the basis of the location of sales of properties or services rendered.

Non-current assets by geographical location are determined based on the location of the relevant assets.

The Group's non-current assets are mainly located in the PRC.

6 EXPENSES BY NATURE

Expenses included in cost of sales, selling and marketing expenses and general and administrative expenses are analysed as follows:

Note a:

The exchange gain mainly arises from the year end re-translation of RMB-denominated monetary assets, comprising mainly inter-company balances, on the balance sheets of the companies within the Group which use HK\$ as their functional currency. Subsequently, when these balance sheets are translated into RMB, the presentation currency of the Group, a corresponding debit arises, and this is included in other comprehensive loss under the caption of "Exchange differences arising on translation of functional currency to presentation currency".

(a) Pension cost – Defined Contribution Plan

Employees in the Group's PRC subsidiaries are required to participate in a defined contribution retirement scheme administrated and operated by the local municipal government. The Group's PRC subsidiaries contribute funds which are calculated on certain percentage of the average employee salary as agreed by local municipal government to the scheme to fund the retirement benefits of the employees.

The Group also participates in a pension scheme under the rules and regulations of the MPF Scheme for all employees in Hong Kong. The contributions to the MPF Scheme are based on minimum statutory contribution requirement of 5% of eligible employees' relevant aggregate income, subject to a ceiling of HK\$1,500 per month per head.

10 INCOME TAX EXPENSE

Subsidiaries established and operating in the PRC are subject to PRC corporate income tax at the rate of 25% for the year ended 31 December 2016 (2015: 25%).

No provision has been made for Hong Kong profits tax as the companies in Hong Kong did not generate any assessable profits for the year ended 31 December 2016 (2015: Nil).

PRC land appreciation tax is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including costs of land and development and construction expenditures.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

12 GOODWILL – CONTINUED

Impairment tests for goodwill – Continued

The Group acquired several subsidiaries which are engaged in property development and property management in the PRC. Goodwill represents the excess of consideration transferred over the Group's interest in net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquired subsidiaries. The recoverable amount of all CGUs is determined based on value-in-use calculations. These calculations use pre-tax cash flow projections based on financial budgets approved by management covering the remaining operating life of the phases of Mix Kingdom Redco.

The key assumptions used for value-in-use calculations for the year ended 31 December 2016 for Mix Kingdom Redco is as follows:

	West phase 1	West phase 5
Sales price per sq.m (RMB)	6,190	5,700
Construction cost per sq.m (RMB)	2,900	3,300
Gross margin	53%	42%
Discount rate	10%	10%

Sales price is determined based on current average sales prices to the buyers with adjustments made to reflect the expected price change in the industry.

The key assumptions used for value-in-use calculations for the year ended 31 December 2015 for Mix Kingdom Redco is as follows:

	West phase 1	West phase 5
Sales price per sq.m (RMB)	6,190	5,796
Construction cost per sq.m (RMB)	2,905	3,300
Gross margin	53%	43%
Discount rate	10%	10%

The directors are of the view that there was impairment on goodwill during the year ended 31 December 2016:

	2016 RMB'000	2015 RMB'000
Mix Kingdom Redco		
– West phase 4	—	22,161
Jiangxi Hengfeng Property Services Co., Ltd.	—	4,423
	<u>—</u>	<u>26,584</u>

For the other CGUs, the calculated recoverable amounts exceed the respective carrying amounts.

A rise in discount rate to 55% will remove the remaining headroom.

13 SUBSIDIARIES – CONTINUED

(a) Details of the principal subsidiaries at 31 December 2016 are set out below: – continued

- (i) Although the Group owns not more than half of the equity interest in Redco Investment (International) Co., Limited (“Redco Investment”), it is able to control the financing and operating decisions since the Group and the other shareholder agreed that the directors of the Group have the casting vote in the Board of Directors’ meeting for resolution of operating and major decisions. Consequently, the Group consolidates Redco Investment.
- (ii) Although the Group owns not more than half of the equity interest in Redco Development (JiangXi) Co., Ltd. (“Redco Development”), it is able to control more than one half of the voting rights by virtue of the fact that 3 out of 5 directors are elected by the Group. Consequently, the Group consolidates Redco Development.
- (iii) The English names of PRC companies referred to above in this note represent management’s best efforts in translating the Chinese names of those companies as no English names have been registered or available.
- (b) Set out below are the summarised financial information of Redco Development (JiangXi) Co., Ltd. (“Redco Development”), Changfeng Lianhua Real Estate Co., Ltd. 18 TRADE RECEIVABLES, OTHER RECEIVABLES, DEPOSITS AND PREPAYMENTS - CONTINUED

Note:

- (a) Trade receivables mainly arise from sales of properties. Proceeds in respect of sales of properties are to be received in accordance with the terms of the related sales and purchase agreements and credit terms are generally granted to corporate customers of 6 to 10 months. The ageing analysis of trade receivables at the balance sheet dates based on revenue recognition date was as follows:

	2016 RMB'000	2015 RMB'000
0 - 30 days	47,595	43,222
31 - 60 days	—	9
61 - 90 days	—	1,035
Over 90 days	31,494	—
	<u>79,089</u>	<u>44,266</u>

As at 31 December 2016, trade receivables of RMB40,741,000 (2015: RMB35,966,000) were overdue but not impaired. These receivables relate to certain customers that are financially viable. Based on past experience, management believes that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully receivable.

The ageing analysis of these trade receivables was as follows:

	2016 RMB'000	2015 RMB'000
0 - 30 days	31,061	34,922
31 - 60 days	—	9
61 - 90 days	—	1,035
Over 90 days	9,680	—
	<u>40,741</u>	<u>35,966</u>

- (b) Accrued contract revenue arises from the Group's construction and sea reclamation service. As at 31 December 2016, the corresponding receivable balance is not yet billed.
- (c) The deposits with local real estate associations mainly included deposits with Jinan Housing Repairment Fund Management Center (濟南市住房維修資金管理中心), Jinan Huaiyin District State Owned Asset Operation Company Limited (濟南市槐蔭區國有資產運營有限公司), Jinan Binhe New District Infrastructure Investment Holdings Limited (濟南濱河新區建設投資集團有限公司) and Yantai New Technology Industrial District Development Committee (煙台高新技術產業開發區管理委員會) in connection with the properties construction as required by the relevant regulations in respect of the Group's property development projects.
- (d) The carrying amounts of trade receivables, other receivables, deposits and prepayments approximate their fair values (Note 3.3) due to short maturities and are unsecured, interest-free and repayable on demand.
- (e) The carrying amounts of the Group's trade receivables and other receivables are all denominated in RMB.

Note:

- (a) Pursuant to the resolution passed at the extraordinary general meeting of the Company on 27 October 2016, the then issued and unissued shares of the Company of HK\$0.10 each was sub-divided into two shares of HK\$0.05 each on 28 October 2016.
- (b) On 29 December 2015, the Company issued subscription shares (the "Subscription Shares") pursuant to a subscription agreement dated 2 November 2015 to Nanchang Municipal Public Real Estate Group Limited (南昌市政公用房地產集團有限公司) (the "Subscriber") with a total of 175,804,661 ordinary shares of HK\$0.1 each at a subscription price of HK\$4.43 per share before share subdivision. Net proceeds amounted to HK\$778,814,648 (equivalent to RMB632,382,000). Of the proceeds, an amount of HK\$17,580,466 (equivalent to RMB13,824,000) representing the par value of share issued was credited to share capital account and the remaining HK\$761,234,182 (equivalent to RMB598,558,000) was credited to share premium account. The Group has also engaged an independent professional valuer to perform valuation of the fair value of the shares granted. The main parameters in the valuation include expected volatility of share price, dividends expected on the shares, and the risk free interest rate. Based on the valuation report, the Group recognised RMB20,000,000 of share based payment expense, being the difference between the fair value of shares granted and consideration received. Such expense is debited to general and administrative expenses and credited to share premium account. Number of total issued shares of the Company was increased to 1,775,804,661 upon completion of the subscription of shares.

The subscriber undertakes to the Company that it shall not sell any of the shares during one year after 29 December 2015 (the "Completion Date").

Wong Yeuk Hung, a major shareholder of the Group, provided an undertaking to the Subscriber in relation to future share price performance of the Company (Note 34(b)(i)).

Pursuant to a deed of undertaking, Mr. Wong undertakes to compensate the Subscriber by cash in full the shortfall if on the first anniversary of the Completion Date, the Subscriber remains the holder of all Subscription Shares and is not in breach of its lock-up undertaking under the subscription agreement. The shortfall will be determined with reference to the target market price of the Subscription Shares on or about the first anniversary of the Completion Date. The target price is set at 120% of the subscription price. To the best knowledge, information and belief of the Company, the target price contemplated under a deed of undertaking was determined with reference to the market price of the Subscription Shares, the Company's historical performances, business prospects and the Subscriber's expected return.

During the year end 31 December 2016, the above undertaking was not crystallised.

	<u>3,629,232</u>	<u>3,220,540</u>

On 1 August 2014, the Company issued 13.75% senior notes due 2019 with an aggregate nominal value of US\$125,000,000 at par value (the "Senior Notes due 2019"). The interest is payable semi-annually in arrears. The net proceeds, after deducting the direct issuance costs, amounted to approximately US\$121,500,000 (equivalent to RMB741,877,000). The Senior Notes due 2019 will mature on 1 August 2019. The Company, at its option, can redeem the Senior Notes due 2019 (i) in whole, or in part, on or after 1 August 2017 at the redemption price equal to 106.8750% before 1 August 2018 and 103.4375% thereafter of the principal amount plus accrued and unpaid interest and (ii) in whole but not in part, prior to 1 August 2017 at redemption price equal to 100% of the principal amount plus a premium and accrued and unpaid interest. The Senior Notes due 2019 are secured by the shares of certain subsidiaries of the Company which are incorporated outside the PRC. The Senior Notes due 2019 are listed on the Hong Kong Stock Exchange.

As disclosed in the Company's announcement dated 23 December 2015, the Group incurred cost of RMB2,166,000 for a change to a more favourable covenant term of senior notes due 2019, such expense is included in "general and administrative expenses". Also, on 18 November 2015, there was a change to a more favourable covenant term of one of the Group's bank borrowings.

26 ACQUISITION OF SUBSIDIARIES

(a) On 27 January 2016, the Group completed the acquisition of 100% equity interest of Shanghai Mingchang Property Co., Ltd. (上海明昌置業有限公司) ("Shanghai Mingchang") at a consideration of RMB415,491,000. Shanghai Mingchang is principally engaged in property development in the PRC and holds a parcel of land in the Wujiaochang, Yangpu District, Shanghai. The Group then disposed 10% of interest of Shanghai Mingchang on 1 August 2016. For details, please refer to Note 28 (a).

(b) On 27 December 2016, the Group completed the acquisition of 70% equity interest of Zhongshanshi Haoyu Real Estate Development Co., Ltd (中山市浩域房地產開發有限公司) ("Zhongshanshi Haoyu") at a consideration of RMB70,000,000. Zhongshanshi Haoyu is principally engaged in property development in the PRC and holds a parcel of land in No.46 and North of Fuhua Road, Zhongshan.

As both Shanghai Mingchang and Zhongshanshi Haoyu did not operate any business prior to the date of acquisition, therefore the Group considers the nature of the acquisition as acquisition of assets in substance and the consideration should be attributable to the individual assets acquired and liabilities assumed.

The relative fair values of assets acquired and liabilities assumed at the acquisition date is analysed as follows:

	Shanghai Mingchang RMB'000	Zhongshanshi Haoyu RMB'000
Consideration paid and payable as at acquisition date	415,491	70,000

The carrying amounts approximate their fair values (Note 3.3) at the date of acquisition.

The revenue and net results contributed by Yantai Zhongtai during the period from 16 June 2016 to 31 December 2016 is not significant to the Group. If the acquisition had occurred on 1 January 2015, the Group's revenue and profit for the year ended 31 December 2016 would have no significant change.

On 30 November 2016, the Group's interest in Yantai Zhongtai is partially disposed alongside the disposal of interest in Top Glory. Refer to Note 27(a) for more details of the disposal.

27 DISPOSAL OF SUBSIDIARIES

- (a) On 30 November 2016, the Group completed the disposal of 55% equity interest in Top Glory and its subsidiaries at a cash consideration of RMB 93,555,000. Top Glory through its subsidiaries is mainly engaged in the provision of property management services in the PRC. Upon completion, the equity interest of Top Glory held by the Group is reduced from 100% to 45%. This has resulted in the Group losing control over Top Glory, and Top Glory is accounted for by the Group as associate since 1 December 2016.

An analysis on gain on disposal is as follows:

	RMB'000
Consideration satisfied by:	
Cash consideration	93,555

Cash consideration	93,555
Less: Direct expenses	(6)
Less: Cash and cash equivalents disposed	(24,060)
	<u><u>69,489</u></u>

- (b) During the year ended 31 December 2016, the Group also disposed of certain other subsidiaries at a total cash consideration of RMB16,310,000, resulting in a gain on disposal of approximately RMB237,000. Alongside the disposal of these subsidiaries, non-controlling interests of approximately RMB8,872,000 was derecognised. The net cash inflow arising from the disposals is RMB3,001,000.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

28 TRANSACTION WITH NON-CONTROLLING INTERESTS

(a) Disposal of 10% interest in Shanghai Minchang

On 1 August 2016, the Group disposed 10% of its interest in Shanghai Minchang for a cash consideration of RMB19,843,000. The Group recorded an increase in non-controlling interest of approximately RMB29,653,000 and a decrease in equity attributable to owners of approximately RMB9,810,000.

(b) Acquisition of 10% interest in Tianjin Redco Shengye Investment Company Limited

On 25 July 2016, the Group acquired an additional 10% interest in Tianjin Redco Shengye Investment Company Limited for a cash consideration of RMB10,000,000. The Group recorded a decrease in non-controlling interest of approximately RMB10,000,000 and no change in equity attributable to owners.

Contracted but not provided for:
Property development expenditures

2016 RMB'000	2015 RMB'000
<u>1,192,719</u>	<u>1,765,619</u>

(b) Operating lease commitments

At 31 December 2016, the Group had future aggregate minimum lease payments under non-cancellable operating lease in respect of office as follows:

No later than one year

2016 RMB'000	2015 RMB'000
<u>570</u>	<u>1,220</u>

30 FINANCIAL GUARANTEES AND CONTINGENT LIABILITIES

(a) Guarantees on mortgage facilities

The Group had the following contingent liabilities in respect of financial guarantees on mortgage facilities at the end of each of the following reporting periods:

Guarantees in respect of mortgage facilities for certain purchasers of the Group's properties

2016 RMB'000	2015 RMB'000
<u>5,100,315</u>	<u>3,409,724</u>

The Group has arranged bank financing for certain purchasers of the Group's properties and provided guarantees to secure obligations of such purchaser for repayments. Such guarantees will terminate upon the earlier of (i) the transfer of the real estate ownership certificate to the purchaser which will generally occur within an average period of six months to three years from the completion of the guarantee registration; or (ii) the satisfaction of mortgage loans by the purchasers of the properties.

30 FINANCIAL GUARANTEES AND CONTINGENT LIABILITIES - CONTINUED

(a) *Guarantees on mortgage facilities - Continued*

Pursuant to the terms of the guarantees, upon default of mortgage payments by these purchasers, the Group is responsible to repay the outstanding mortgage principal together with accrued interest and penalties owed by the defaulting purchasers to the banks and the Group is entitled to retain the legal title and take over the possession of the related properties. The Group's guarantee period starts from the date of grant of mortgage. The directors consider that the likelihood of default of payments by the purchasers is minimal and their obligations are well covered by the value of the properties and therefore the fair value of financial guarantees is immaterial.

- (b) There are certain corporate guarantees provided by the Group's subsidiaries for each other in respect of borrowings (Note 22) as at 31 December 2016 and 2015. The directors consider that the subsidiaries are sufficiently financially resourced to settle their obligations.

Save as disclosed above, the Group and the Company had no other significant contingent liabilities as at 31 December 2016 (2015: Nil).

31 BANKING FACILITIES AND PLEDGE OF ASSETS

As at 31 December 2016, the Group had aggregate banking facilities of approximately RMB3,881,306,000 (2015: RMB3,463,001,000) for overdrafts and bank loans. There were unused facilities of approximately RMB876,250,000 as at the same date (2015: RMB545,000,000).

As at 31 December 2016 and 2015, the borrowings of the Group were secured by (i) corporate guarantees of the Company; and (ii) certain land and properties under development for sale provided by the Group's subsidiaries.

The Senior Notes due 2019 are secured by shares of certain subsidiaries of the Company which are incorporated outside the PRC.

32 EARNINGS PER SHARE

The basic earnings per share for the year ended 31 December 2016 is calculated based on the profit attributable to owners of the Company.

	2016	2015 (Restated)
Profit attributable to owners of the Company (RMB'000)	<u>434,319</u>	<u>401,030</u>
Weighted average number of shares in issue	<u>3,551,609,322</u>	3,201,921,362
Adjustment for bonus element arising from issuance of subscription shares	—	66,601,699
	<u>3,551,609,322</u>	<u>3,268,523,061</u>
Basic earnings per share (RMB cents)	<u>12.23</u>	<u>12.27</u>

Diluted earnings per share is equal to basic earnings per share as there was no dilutive potential share outstanding in both years presented.

The weighted average number of ordinary shares for the purpose of basic earnings per share for the year ended 31 December 2016 has been adjusted for the share subdivision (Note 20) on 28 October 2016.

32 EARNINGS PER SHARE - CONTINUED

The comparative figures for the basic earnings per share for the year ended 31 December 2015 are restated to take into account of the effect of the above share subdivision during the year retrospectively as if it had taken place before the beginning of the comparative year.

33 AMOUNTS DUE FROM/(TO) NON-CONTROLLING INTERESTS

Except for an amount due from a non-controlling interest of RMB 73,000,000 which bears interest of 10% per annum and is secured by its shareholding of the Group's subsidiary, the amounts due from/(to) non-controlling interests are interest-free, unsecured, repayable on demand. The carrying values approximate their fair values (Note 3.3) and are denominated in RMB.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF REDCO PROPERTIES GROUP LIMITED (incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Redco Properties Group Limited (the "Company") and its subsidiaries set out on pages 47 to 112, which comprise the consolidated balance sheet as at 31 December 2015, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Company and its subsidiaries as at 31 December 2015, and of their financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 GENERAL INFORMATION

Redco Properties Group Limited (the “**Company**”) was incorporated in the Cayman Islands on 14 July 2008 as an exempted company with limited liability under the Cayman Companies Law. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands.

The Company is an investment holding company and its subsidiaries (together with the Company, referred to as the “**Group**”) are principally engaged in property development business in the People’s Republic of China (the “**PRC**”). The Company is listed on the Main Board of The Stock Exchange of Hong Kong Limited (“**SEHK**”).

These consolidated financial statements are presented in Renminbi (“**RMB**”), unless otherwise stated.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied during all the years presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“**HKFRS**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and under the historical cost convention.

The preparation of consolidated financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4 to the consolidated financial statements.

2.1.1 Amended standards adopted by the Group

The following amended standards have been adopted by the Group for the first time for the financial year beginning on or after 1 January 2015 and none of them has material impact on the Group:

HKAS 19 (Amendment)	Defined Benefit Plans: Employee Contribution
HKFRSs (Amendment)	Annual improvements to HKFRSs 2010 – 2012 cycle
HKFRSs (Amendment)	Annual improvements to HKFRSs 2011 – 2013 cycle

In addition, the disclosure requirements of the revised Rules Governing the Listing Securities on the SEHK (“**Listing Rules**”) came into effect from 31 December 2015. Amongst these, the Listing Rules require financial statements to comply with the disclosure requirements of the new Hong Kong Companies Ordinance (Cap. disclosure 622) and its supporting Regulations that came into operation during the financial year, as a result, there are changes to presentation and disclosures of certain information in the consolidated financial statements.

2.1 Basis of preparation – continued

2.1.2 New and amended standards not yet adopted by the Group

Up to the date of issue of this report, the HKICPA has issued the following new and amended standards and which are relevant to the Group's operations but are not yet effective for the annual accounting period beginning on 1 January 2015 and which have not been early adopted by the Group:

HKAS 1 (Amendment)	Disclosure initiative ⁽¹⁾
HKAS 16 and HKAS 38 (Amendment)	Clarification of Acceptable Methods of Depreciation and Amortisation ⁽¹⁾
HKAS 27 (Amendment)	Equity Method in Separate Financial Statements ⁽¹⁾
HKFRS 9	Financial Instruments ⁽²⁾
HKFRS 10 and HKAS 28 (Amendment)	Sale or Contribution of Assets between an Investor and its Associate and Joint Venture ⁽³⁾
HKFRS 10, HKFRS 12 and HKAS 28 (Amendment)	Investment entities: applying the consolidation exception ⁽¹⁾
HKFRS 11 (Amendment)	Joint Arrangements - Accounting for Acquisitions of Interests in Joint Operation ⁽¹⁾
HKFRS 14	Regulatory Deferral Accounts ⁽¹⁾
HKFRS 15	Revenue from Contracts with Customers ⁽²⁾
HKFRSs (Amendment)	Annual improvements to HKFRSs 2012 - 2014 cycle ⁽¹⁾

⁽¹⁾ Effective for the Group for annual period beginning on 1 January 2016.

⁽²⁾ Effective for the Group for annual period beginning on 1 January 2018.

⁽³⁾ Effective date to be determined.

The Group has completed an assessment of the impact of the above new and amended standards that became effective since 1 January 2016 and in the process of assessing the impact of others and considers that they will not have any significant impact on the results of the Group's operations and financial position. The Group plans to adopt the above new and amended standards when they become effective.

2.1.3 Comparative figures

The Group adopts the classification of the following financial statement items in the consolidated income statement with effect from 1 January 2015:

Exchange differences had been included in "other gains/(losses), net". Comparative figure of exchange losses of approximately RMB17,870,000 which had been included in "general and administrative expenses" in prior year's financial statements have been reclassified to "other gains/(losses), net".

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.2 *Subsidiaries*

2.2.1 *Consolidation*

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis. Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured at either fair value or the present ownership interests' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by HKFRS.

Acquisition-related costs are expensed as incurred.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill (Note 2.7). If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the consolidated income statement.

Intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

2.2.2 *Separate financial statements*

Investments in subsidiaries are accounted for at cost less impairment. Cost includes directly attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.3 *Joint arrangements*

The Group has applied HKFRS 11 to the joint arrangement. Under HKFRS 11 investment in a joint arrangement are classified as either a joint operation or a joint venture depending on the contractual rights and obligations of the investor. The Group has assessed the nature of its joint arrangement and determined it to be a joint venture. The joint venture is accounted for using the equity method.

Under the equity method of accounting, interest in a joint venture is initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses and movements in other comprehensive income. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint venture.

Unrealised gains on transactions between the Group and its joint venture are eliminated to the extent of the Group's interest in the joint venture. Unrealised losses are also eliminated unless the transactions provide evidence of an impairment of the asset transferred. Accounting policies of the joint venture have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.4 *Segment reporting*

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker ("CODM"). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Executive Directors that make strategic decisions.

2.5 *Foreign currency translation*

(i) *Functional and presentation currency*

Items included in the consolidated financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). The Company's functional currency is Hong Kong dollars ("**HK\$**"), and the consolidated financial statements are presented in RMB, which is the Company's and the Group's presentation currency.

(ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated income statement.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the consolidated income statement within "finance income" and "finance costs". All other foreign exchange gains and losses are presented in the consolidated income statement within "other gain/(losses), net".

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.5 *Foreign currency translation – continued*

(iii) *Group companies*

The results and financial positions of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- share capital is translated at the historical rate;
- income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which cash income and expenses are translated at the rate on the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Currency translation differences arising are recognised in other comprehensive income.

2.6 *Property, plant and equipment*

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the consolidated income statement during the financial period in which they are incurred.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as follows:

Leasehold improvement	shorter of the lease term or useful lives
Furniture and office equipment	3 to 5 years
Motor vehicles	3 to 5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.8).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within "other gains/(losses), net" in the consolidated income statement.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.7 Goodwill

Goodwill arises on the acquisition of a subsidiary and represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identified net assets acquired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units (“CGUs”), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the group at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

2.8 Impairment of investment in a joint venture and non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

The Group applies the impairment assessment requirement of HKAS 39 to determine whether it is necessary to recognise any additional impairment loss in respect to its net investment in joint venture. Impairment testing of the interest in a joint venture is required upon receiving dividends from the investment if the dividend exceeds the total comprehensive income of the joint venture in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill. Impairment losses and reversal, if any, are recognised in accordance with HKAS 36.

2.9 Properties under development for sale and completed properties for sale

Properties under development for sale and completed properties held for sale are included in current assets at the lower of cost and net realisable value. Development cost of property comprises construction costs, depreciation of machinery and equipment, amortisation of land use rights, borrowing costs on qualifying assets and professional fees incurred during the development period. Upon completion, the properties are transferred to completed properties held for sale.

Net realisable value takes into account the price ultimately expected to be realised, less applicable variable selling expenses and the anticipated costs to completion.

Properties under development for sale are classified as current assets unless the construction period of the relevant property development project is expected to complete beyond normal operating cycle.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.10 *Financial assets*

2.10.1 *Classification*

The Group's financial assets are classified as loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for the amounts that are settled or expected to be settled more than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables comprise "trade receivables", "other receivables, deposits and prepayments", "amounts due from non-controlling interests", "restricted cash" and "cash and cash equivalents" in the consolidated balance sheet.

2.10.2 *Recognition and measurement*

Loans and receivables are recognised initially at fair value and subsequently carried at amortised cost using the effective interest method.

2.11 *Offsetting financial instruments*

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.12 *Impairment of financial assets*

Assets carried at amortised cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.12 Impairment of financial assets – continued

The criteria that the Group uses to determine that there is objective evidence of an impairment loss include:

- Significant financial difficulty of the issuer or obligor;
- A breach of contract, such as a default or delinquency in interest or principal payments;
- The Company, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
- The disappearance of an active market for that financial asset because of financial difficulties; or
- Observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
 - (i) adverse changes in the payment status of borrowers in the portfolio;
 - (ii) national or local economic conditions that correlate with defaults on the assets in the portfolio.

The Group first assesses whether objective evidence of impairment exists. For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated income statement. If a loan or held-to-maturity investment has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated income statement.

2.13 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand, deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less.

2.14 Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.15 *Share capital*

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

2.16 *Trade and other payables*

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.17 *Borrowings*

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated income statement over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

2.18 *Provisions*

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.19 Current and deferred income tax

The tax expense for the year comprises current and deferred income tax. Tax is recognised in the consolidated income statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company's subsidiaries and a joint venture operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred tax liabilities are not recognised if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax liabilities are provided on taxable temporary differences arising on investments in subsidiaries and a joint venture, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries and a joint venture only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.20 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of discounts.

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

(i) *Sale of properties*

Revenue from sale of properties is recognised when the significant risks and rewards of the properties are transferred to the buyers, which is when the construction of the relevant properties have been completed, notification of delivery of properties have been issued to the buyers and collectability of related receivables pursuant to the sale agreements is reasonably assured. Deposits and instalments received on properties sold prior to transfer of the significant risks and rewards of the properties are included as receipt in advance under current liabilities.

(ii) *Service income*

The Group provides sea reclamation services and property management services. For service income, revenue is recognised in the accounting period in which the services are rendered, by reference to the stage of completion of the construction and assessed on the basis of actual services provided as a proportion of the total services to be provided.

(iii) *Interest income*

Interest income is recognised using the effective interest method.

2.21 Employee benefits

(i) *Pension obligations*

The Group operates a mandatory provident fund scheme ("MPF Scheme") in Hong Kong. The assets of the MPF Scheme are held in a separate trustee-administered fund. Both the Group and the employees are required to contribute 5% of the employees relevant income up to a maximum of HK\$1,500 per employee per month.

The Group also participates in an employee social security plan (the "Plan") as required by the regulations in the PRC. The Group is required to make welfare contributions to the Plan which is based on certain percentage of the employees' relevant income.

The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.21 *Employee benefits – continued*

(ii) *Bonus plans*

The expected cost of bonus plan is recognised as a liability when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

Liabilities for bonus plans are expected to be settled within 12 months and are measured at the amounts expected to be paid when they are settled.

2.22 *Borrowing costs*

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.23 *Financial guarantee liabilities*

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and other bodies on behalf of subsidiaries to secure loans, overdrafts and other banking facilities.

Financial guarantees are initially recognised in the consolidated financial statements at fair value on the date the guarantee was given. The fair value of a financial guarantee at the time of signature is zero because all guarantees are agreed on arm's length terms, and the value of the premium agreed corresponds to the value of the guarantee obligation. No receivable for the future premiums is recognised. Subsequent to initial recognition, the Group's liabilities under such guarantees are measured at the higher of the initial amount, less amortisation of fees recognised in accordance with HKAS 18, and the best estimate of the amount required to settle the guarantee. These estimates are determined based on experience of similar transactions and history of past losses, supplemented by management's judgement. The fee income earned is recognised on a straight-line basis over the life of the guarantee. Any increase in the liability relating to guarantees is reported in the consolidated income statement within general and administrative expenses.

Where guarantees in relation to loans or other payables of subsidiaries are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment in the financial statements of the Company.

2.24 *Leases*

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the consolidated income statement on a straight-line basis over the period of the lease.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

2.25 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

3 FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: liquidity risk, credit risk and market risk (including foreign currency risk and cash flow and fair value interest rate risk). The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. Risk management is carried out by management of each individual entity within the Group.

(i) Liquidity risk

In managing the liquidity risk, the Group regularly and closely monitors its current and expected liquidity requirements to maintain its rolling cash flow at a level which is considered adequate by the Group to finance the Group's operations and to maintain sufficient cash to meet its business development requirements.

Management has periodically prepared cash flow projections and the Group has a number of alternative plans to offset the potential impact on the Group's business development and current operation, should there be circumstances that the anticipated cash flow may be affected by any unexpected changes in the PRC economic conditions. The Company's directors consider that the Group will be able to maintain sufficient financial resources to meet its needs. Unused facilities of the Group as of 31 December 2015 and 2014 have been disclosed in Note 29.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet dates to the contractual maturity dates. The amounts disclosed in the table are the contractual undiscounted cash flows and the earliest date the Group and the Company can be required to pay.

Specifically, for term loans which contain a repayment on demand clause which can be exercised at the bank's sole discretion, the analysis shows the cash outflow based on the earliest period in which the entity can be required to pay, that is if the lenders were to invoke their unconditional rights to call the loans with immediate effect. The maturity analysis for other bank borrowings is prepared based on the scheduled repayment dates.

3 FINANCIAL RISK MANAGEMENT – CONTINUED

3.1 Financial risk factors – continued

3.1 Financial risk factors – continued

(i) Liquidity risk – continued

The table below analyses the term loans with a repayment on demand clause based on agreed scheduled repayments set out in the loan agreements. The amounts include interest payments computed using contractual rates.

	Less than 1 year RMB'000	Between 1 and 2 years RMB'000	Between 2 and 5 years RMB'000	Over 5 years RMB'000	Total RMB'000
31 December 2015	48,371	27,033	182,125	—	257,529
31 December 2014	22,847	73,137	—	—	95,984

(ii) Credit risk

Credit risk arises from bank deposits, trade receivables, other receivables and amounts due from non-controlling interests.

For trade and other receivables and amounts due from non-controlling interests, the Group assessed the credit quality of the counterparties by taking into account their financial position, credit history and other factors. Management also regularly reviews the recoverability of these receivables and follow up the disputes or amounts overdue, if any. The directors are of the opinion that the risk of default by counterparties is low.

The Group's credit risk is concentrated on its customer in relation to sea reclamation services. While as at 31 December 2015, approximately 89.9% of the Group's trade receivables were due from this customer.

The Group reviews the recoverable amount of each individual trade receivable balance at each reporting date to ensure that adequate impairment losses are made for irrecoverable amounts.

All the bank deposits are placed with banks with sound credit ratings to mitigate the risk. The Group does not hold any collateral as security.

The Group typically provides guarantees to banks in connection with the customers' borrowing of mortgage loans to finance their purchase of properties for an amount up to 70% of the total purchase price of the property. If a purchaser defaults on the payment of its mortgage loan during the guarantee period, the bank holding the guarantee may demand the Group to repay the outstanding amount under the loan and any interest accrued thereon. Under such circumstances, the Group is able to retain the customers' deposit and resell the property to recover any amounts paid by the Group to the bank. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

3 FINANCIAL RISK MANAGEMENT – CONTINUED

3.1 Financial risk factors – continued

(iii) Foreign exchange risk

The Group mainly operates in the PRC with most of the transactions settled in RMB. Foreign exchange risk arises when future commercial transactions or recognised assets and liabilities are denominated in a currency that is not the entity's functional currency. The Group is exposed to foreign exchange risk primarily with respect to HK\$ and United States dollars ("US\$").

The Group's assets and liabilities, and transactions arising from its operations primarily do not expose it to material foreign exchange risk. Other than certain bank balances and bank borrowings, the Group's assets and liabilities are primarily denominated in RMB. The Group generates RMB from sales in the PRC to meet its liabilities denominated in RMB. The Group does not hedge its exposure to the foreign currencies.

During the year ended 31 December 2015, the Group recorded other comprehensive loss of exchange differences arising from translation of functional currency to presentation currency of RMB141,641,000 (2014: RMB60,000,000), attributable to the depreciation of the RMB against HK\$ and US\$. The translation risk is not hedged.

As at 31 December 2015 and 2014, certain of the Group's cash and bank balances were denominated in HK\$ and US\$, details of which have been disclosed in Note 19.

As at 31 December 2015 and 2014, the Group was exposed to foreign exchange risk primarily with respect to certain of its amounts due from fellow subsidiaries and trade and other payables which were denominated in HK\$ and US\$, details of which have been disclosed in Note 23.

RMB depreciation against HK\$ and US\$ during the year is the major reason for the exchange differences recognised by the Group. Further appreciation of HK\$ and US\$ against RMB will affect the Group's financial position and results of operations.

The following table shows that, if RMB had strengthened/weakened by 5% against HK\$, with all other variables held constant, post-tax profit for the year change, mainly as a result of foreign exchange gains/losses on translation of HK\$ denominated amounts due from/(to) fellow subsidiaries and trade and other payables.

	2015 RMB'000	2014 RMB'000
Post-tax profit increase/(decrease)		
RMB strengthened by 5%	6,906	(25,365)
RMB weakened by 5%	(6,906)	25,365

The US\$ denominated borrowings (Note 22) is in the Company which functional currency is HK\$, since HK\$ is pegged to US\$, there is no significant foreign exchange risk with respect to US\$.

3.1 Financial risk factors – continued

(iv) Cash flow and fair value interest rate risks

The Group's income and operating cash flows are substantially independent of changes in market interest rates. Except for bank deposits with variable interest, the Group has no other significant interest-bearing assets.

The Group's exposure to changes in interest rates is mainly attributable to its borrowings from bank. Bank borrowings of variable rates expose the Group to cash flow interest rate risk. The senior notes at a fixed rate expose the Group to fair value interest rate risk. The Group has not hedged its cash flow and fair value interest rate risk. The interest rate and terms of repayments of borrowings are disclosed in Note 22.

Management does not anticipate significant impact to the senior notes resulted from the changes in market interest rates. Moreover, given the stability of the interest rate in the recent financial market, in the opinion of the directors, the exposure of the senior notes to fair value interest rate risk is considered to be low. Therefore no sensitivity analysis is performed.

Management does not anticipate significant impact to interest-bearing assets resulted from the changes in interest rates, because the interest rates of bank deposits are not expected to change significantly.

At 31 December 2015 and 2014, if interest rates on borrowings at floating rates had been 100 basis points higher/lower with all other variables held constant, the post-tax profit and capitalised interest for the years ended 31 December 2015 and 2014 would have changed as follows:

	2015 RMB'000	2014 RMB'000
Post-tax profit (decrease)/increase		
– 100 basis points higher	(28)	(24)
– 100 basis points lower	28	24
Capitalised interest increase/(decrease)		
– 100 basis points higher	2,530	1,910
– 100 basis points lower	(2,530)	(1,910)

3 FINANCIAL RISK MANAGEMENT – CONTINUED

3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group manages the capital structure and makes adjustment to it in light of changes in economic condition.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt or to obtain bank and other borrowing.

The Group monitors capital on the basis of the gearing ratio. Gearing ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less cash and bank balance (including cash and cash equivalent and restricted cash). Total capital is calculated as total equity, as shown in the consolidated balance sheet, plus net debt. The gearing ratios at 31 December 2015 and 2014 were as follows:

	2015 RMB'000	2014 RMB'000
Total borrowings (Note 22)	3,220,540	2,761,444
Less: cash and cash equivalents and restricted cash (Note 19)	(2,357,901)	(1,306,923)
Net debt	862,639	1,454,521
Total equity	2,893,698	2,041,474
Total capital	3,756,337	3,495,995
Gearing ratio	23%	42%

3.3 Fair value estimation

The nominal value less estimated credit adjustments of trade receivables, other receivables, cash and cash equivalents, amounts due from non-controlling interests, trade and other payables and current portion of bank borrowings are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments or based on the current bid price in the market. All the resulting fair value estimates are included in level 3 of the fair value hierarchy.

The Group does not have any financial instruments that are measured at fair value.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS – CONTINUED

4.1 *Development costs directly attributable to property development activities*

The Group allocates portions of land and development costs to properties held for sale and under development. As certain of the Group's property development projects are developed and completed by phases, the budgeted development costs of the whole project are dependent on the estimate on the outcome of total development. Based on the experience and the nature of the development undertaken, the management makes estimates and assumptions concerning the future events that are believed to be reasonable under the circumstances. Given the uncertainties involved in the property development activities, the related actual results may be higher or lower than the amount estimated at the end of the reporting period. Any change in estimates and assumptions would affect the Group's operating performance in future years.

4.2 *Provision for impairment of properties held or under development for sale*

The management makes provision for impairment of properties held or under development for sale based on the estimate of the recoverable amount of the properties. Given the volatility of the property market in the PRC, the actual recoverable amount may be higher or lower than the estimate made as at the end of the reporting period. Any increase or decrease in the provision would affect the Group's operating performance in future years.

4.3 *Current taxation and deferred taxation*

The Group is subject to taxation in the PRC. Judgement is required in determining the amount of the provision for taxation and the timing of payment of the related taxation. There are transactions and calculations for which the ultimate tax determination is uncertain (for example, certain expenses such as entertainment and advertising expenses may not be finally deductible) during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the periods in which such determination are made.

Deferred tax assets relating to certain temporary differences and tax losses are recognised as management considers it is probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. Where the expectation is different from the original estimate, such differences will impact the recognition of deferred taxation assets and taxation in the periods in which such estimate is changed.

4.4 *Land appreciation tax*

PRC land appreciation tax is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including land cost, borrowing costs and all property development expenditures.

The subsidiaries of the Group engaging in property development business in the PRC are subject to land appreciation taxes, which have been included in the income tax expenses. However, the implementation of these taxes varies amongst various PRC cities and the Group has not finalised its land appreciation tax returns with various tax authorities. Accordingly, significant judgement is required in determining the amount of land appreciation and its related taxes. The Group recognises these liabilities based on management's best estimates. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax expenses and provisions of land appreciation taxes in the period in which such determination is made.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS – CONTINUED

4.5 *Estimated impairment of goodwill*

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in Note 2.7. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (Note 12).

4.6 *Accruals for construction cost of public facilities*

The Group is required to construct certain public facilities in connection with obtaining certain land use rights for construction of properties in the PRC. The Group estimates the accruals for these costs for construction based on historical actual construction costs as adjusted for the effect of inflation. The Group regularly updates the construction schedules of public facilities and reviews the adequacy of the accrued balance.

4.7 *Share based payment*

The fair value of the shares granted require judgement in determining the expected volatility of the share price, the dividends expected on the shares, and the risk-free interest rate.

5 REVENUE AND SEGMENT INFORMATION

The Executive Directors have been identified as the CODM. Management determines the operating segments based on the Group's internal reports, which are submitted to the Executive Directors for performance assessment and resources allocation.

The Executive Directors consider the business from a geographical perspective and assesses the performance of property development in four reportable operating segments, namely Greater Western Taiwan Straits Economic Zone, Central and Western Regions, Bohai Economic Rim, Pearl River Delta Region and Others. The Group's sea reclamation services and hotel operations are considered together with the property development segments and included in the relevant geographic operating segment. "Others" segment represents provision of design services to group companies, corporate support functions, property management services (services provided to both internal or external customers) and investment holdings businesses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5 REVENUE AND SEGMENT INFORMATION – CONTINUED

The Executive Directors assess the performance of the operating segments based on a measure of segment results. This measurement basis excludes the effects of depreciation, share of loss of a joint venture, finance income, finance costs and income tax expense from the operating segments. Other information provided, except as noted below, to the Executive Directors is measured in a manner consistent with that in the consolidated financial statements.

During year ended 31 December 2015, the Group's revenue is concentrated on its customer in relation to sea reclamation services. Revenue recognised for this customer amounted to 11.6% of the Group's revenue.

Geographical information

Revenue by geographical location is determined on the basis of the location of sales of properties or services rendered.

Non-current assets by geographical location are determined based on the location of the relevant assets.

The Group's non-current assets are mainly located in the PRC.

6 EXPENSES BY NATURE

Expenses included in cost of sales, selling and marketing expenses and general and administrative expenses are analysed as follows:

	2015 RMB'000	2014 RMB'000 (Restated)
Auditor's remuneration		
– Audit services	2,859	2,126
– Non-audit services	464	2,087
Cost of properties	2,086,534	2,359,463

Donation	4,095	2,003
Other selling and marketing and general and administrative expenses	42,633	12,894
	<u>2,569,501</u>	<u>2,763,316</u>
Total cost of sales, selling and marketing expenses and general and administrative expenses		

7 OTHER GAINS/(LOSSES), NET

	2015 RMB'000	2014 RMB'000 (Restated)
Gain on disposal of property, plant and equipment	528	52
Exchange gains/(losses)	27,375	(17,870)
Penalties income/(expenses)	1,000	(1,876)
Other gains/(losses)	2,630	(622)
	<u>31,533</u>	<u>(20,316)</u>

The exchange gain mainly arises from the year end re-translation of RMB-denominated monetary assets, comprising mainly inter-company balances, on the balance sheets of the companies within the Group which use HK\$ as their functional currency. Subsequently, when these balance sheets are translated into RMB, the presentation currency of the Group, a corresponding debit arises, and this is included in other comprehensive loss under the caption of "Exchange differences arising on translation of functional currency to presentation currency".

8 EMPLOYEE BENEFIT EXPENSES

	<u>111,118</u>	<u>64,078</u>

(a) Pension cost - Defined Contribution Plan

Employees in the Group's PRC subsidiaries are required to participate in a defined contribution retirement scheme administrated and operated by the local municipal government. The Group's PRC subsidiaries contribute funds which are calculated on certain percentage of the average employee salary as agreed by local municipal government to the scheme to fund the retirement benefits of the employees.

The Group also participates in a pension scheme under the rules and regulations of the MPF Scheme for all employees in Hong Kong. The contributions to the MPF Scheme are based on minimum statutory contribution requirement of 5% of eligible employees' relevant aggregate income, subject to a ceiling of HK\$1,500 per month per head.

Details of the retirement scheme contributions, which have been dealt with in the consolidated income statement of the Group, are as follows:

	2015 RMB'000	2014 RMB'000
Gross scheme contributions	<u>8,912</u>	<u>5,777</u>

8 EMPLOYEE BENEFIT EXPENSES – CONTINUED

(b) *Five highest paid individuals*

The five individuals whose emoluments were the highest in the Group for the year ended 31 December 2015 include three (2014: two) directors whose emoluments are reflected in the analysis presented in note 35. The emoluments payable to the remaining two (2014: three) individuals during the year are as follows:

	2015 RMB'000	2014 RMB'000
Salaries and other short-term benefits	2,463	3,156
Retirement scheme contributions	50	92
	<u>2,513</u>	<u>3,248</u>

The emoluments fall within the following bands:

	2015	2014
Nil to HK\$1,000,000 (equivalent to RMB813,350)	1	1
HK\$1,000,001 to HK\$2,000,000 (equivalent to RMB813,351 to RMB1,626,700)	1	2

Weighted average interest rate on capitalised borrowings (per annum)	<u>9.63%</u>	<u>9.18%</u>

10 INCOME TAX EXPENSE

Subsidiaries established and operating in the PRC are subject to PRC corporate income tax at the rate of 25% for the year ended 31 December 2015 (2014: 25%).

No provision has been made for Hong Kong profits tax as the companies in Hong Kong did not generate any assessable profits for the year ended 31 December 2015 (2014: Nil).

PRC land appreciation tax is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including costs of land and development and construction expenditures.

	<u>49,535</u>	<u>70,761</u>

12 GOODWILL – CONTINUED

The Group acquired several subsidiaries which are engaged in property development and property management in the PRC. Goodwill represents the excess of consideration transferred over the Group's interest in net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquire. The recoverable amount of all CGUs is determined based on value-in-use calculations. These calculations use pre-tax cash flow projections based on financial budgets approved by management covering a five-year period. Management expects cash flows beyond the five-year period are minimal.

The key assumptions used for value-in-use calculations for the year ended 31 December 2015 for Mix Kingdom Redco is as follows:

	West phase 1	West phase 4	West phase 5
Sales price per sq.m (RMB)	6,190	6,179	5,796
Construction cost per sq.m (RMB)	2,905	3,239	3,300
Gross margin	55%	55%	43%
Discount rate	10%	10%	10%

Management determined budgeted gross margin based on past performance and its expectations of market development. The discount rates used are pre-tax and reflect specific risks relating to the relevant business.

The key assumptions used for value-in-use calculations for the year ended 31 December 2014 for Mix Kingdom Redco is as follows:

	West phase 1	West phase 4	West phase 5
Sales price per sq.m (RMB)	6,190	6,082	5,796
Construction cost per sq.m (RMB)	2,905	3,239	3,300
Gross margin	55%	55%	43%
Discount rate	12%	12%	12%

The directors are of the view that there was impairment on goodwill during the year ended 31 December 2015:

	2015 RMB'000	2014 RMB'000
Mix Kingdom Redco		
– West phase 3	—	5,836
– West phase 4	22,161	—
– East phase 1A	—	1,490
– East phase 1B	—	146
– East phase 3	—	17,258
Jiangxi Hengfeng Property Services Co., Ltd	4,423	—
	26,584	24,730

For the other CGUs, the calculated recoverable amounts exceed the respective carrying amounts.

A rise in discount rate to 12% will remove the remaining headroom.

13 SUBSIDIARIES – CONTINUED

(a) Details of the principal subsidiaries at 31 December 2015 are set out below: – continued

- (i) Although the Group owns not more than half of the equity interest in Redco Investment (International) Co., Limited (“**Redco Investment**”), it is able to control the financing and operating decisions since the Group and the other shareholder agreed that the directors of the Group have the casting vote in the Board of Directors’ meeting for resolution of operating and major decisions. Consequently, the Group consolidates Redco Investment.
 - (ii) Although the Group owns not more than half of the equity interest in Redco Development (Jiangxi) Co., Ltd (“**Redco Development**”), it is able to control more than one half of the voting rights by virtue of the fact that 3 out of 5 directors are elected by the Group. Consequently, the Group consolidates Redco Development.
 - (iii) The English names of PRC companies referred to above in this note represent management’s best efforts in translating the Chinese names of those companies as no English names have been registered or available.
- (b) Amounts due from/(to) subsidiaries are unsecured, interest-free and repayable on demand. The carrying amounts are denominated in RMB and approximate their fair values (Note 3.3).

Number of total issued shares of the Company was increased to 1,600,000,000 upon completion of the Initial Global Offering and the Capitalisation issue.

20 SHARE CAPITAL – CONTINUED

Note:

- (d) On 29 December 2015, the Company issued subscription shares (the “**Subscription Shares**”) pursuant to a subscription agreement dated 2 November 2015 to Nanchang Municipal Public Real Estate Group Limited (南昌市政公用房地產集團有限公司) (the “**Subscriber**”) with a total of 175,804,661 ordinary shares of HK\$0.1 each at a subscription price of HK\$4.43 per share. Proceeds amounted to HK\$778,814,648 (equivalent to RMB612,382,000). Of the proceeds, an amount of HK\$17,580,466 (equivalent to RMB13,824,000) representing the par value of share issued was credited to share capital account and the remaining HK\$761,234,182 (equivalent to RMB598,558,000) was credited to share premium account. The Group has also engaged an independent professional valuer to perform valuation of the fair value of the shares granted. The main parameters in the valuation include expected volatility of share price, dividends expected on the shares, and the risk free interest rate. Based on the valuation report, the Group recognised RMB20,000,000 of share based payment expense, being the difference between the fair value of shares granted and consideration received. Such expense is debited to general and administrative expenses and credited to share premium account. Number of total issued shares of the Company was increased to 1,775,804,661 upon completion of the subscription of shares.

The subscriber undertakes to the Company that it shall not sell any of the shares during one year after 29 December 2015 (the “**Completion Date**”).

Wong Yeuk Hung, a major shareholder of the Group, provided an undertaking to the Subscriber in relation to future share price performance of the Company (Note 32(b) (ii)).

Pursuant to a deed of undertaking, Mr. Wong undertakes to compensate the Subscriber by cash in full the shortfall if on the first anniversary of the Completion Date, the Subscriber remains the holder of all Subscription Shares and is not in breach of its lock-up undertaking under the subscription agreement. The shortfall will be determined with reference to the target market price of the Subscription Shares on or about the first anniversary of the Completion Date. The target price is set at 120% of the subscription price. To the best knowledge, information and belief of the Company, the target price contemplated under a deed of undertaking was determined with reference to the market price of the Subscription Shares, the Company’s historical performances, business prospects and the Subscriber’s expected return.

On 1 August 2014, the Company issued 13.75% senior notes due 2019 with an aggregate nominal value of US\$125,000,000 at par value (the “Senior Notes due 2019”). The interest is payable semi-annually in arrears. The net proceeds, after deducting the direct issuance costs, amounted to approximately US\$121,500,000 (equivalent to RMB741,877,000). The Senior Notes due 2019 will mature on 1 August 2019. The Company, at its option, can redeem the Senior Notes due 2019 (i) in whole, or in part, on or after 1 August 2017 at the redemption price equal to 106.8750% before 1 August 2018 and 103.4375% thereafter of the principal amount plus accrued and unpaid interest and (ii) in whole but not in part, prior to 1 August 2017 at redemption price equal to 100% of the principal amount plus a premium and accrued and unpaid interest. The Senior Notes due 2019 are secured by the shares of certain subsidiaries of the Company which are incorporated outside the PRC. The Senior Notes due 2019 are listed on the Hong Kong Stock Exchange.

As disclosed in the Company’s announcement dated 23 December 2015, the Group incurred cost of RMB2,166,000 for a change to a more favourable covenant term of senior notes due 2019, such expense is included in “general and administrative expenses”. Also, on 18 November 2015, there was a change to a more favourable covenant term of one of the Group’s bank borrowings.

No later than one year	<u>1,220</u>	<u>1,181</u>

28 FINANCIAL GUARANTEES AND CONTINGENT LIABILITIES

(a) *Guarantees on mortgage facilities*

The Group had the following contingent liabilities in respect of financial guarantees on mortgage facilities at the end of each of the following reporting periods:

	2015 RMB'000	2014 RMB'000
Guarantees in respect of mortgage facilities for certain purchasers of the Group's properties	<u>3,409,724</u>	<u>2,801,078</u>

The Group has arranged bank financing for certain purchasers of the Group's properties and provided guarantees to secure obligations of such purchaser for repayments. Such guarantees will terminate upon the earlier of (i) the transfer of the real estate ownership certificate to the purchaser which will generally occur within an average period of six months to three years from the completion of the guarantee registration; or (ii) the satisfaction of mortgage loans by the purchasers of the properties.

Pursuant to the terms of the guarantees, upon default of mortgage payments by these purchasers, the Group is responsible to repay the outstanding mortgage principal together with accrued interest and penalties owed by the defaulting purchasers to the banks and the Group is entitled to retain the legal title and take over the possession of the related properties. The Group's guarantee period starts from the date of grant of mortgage. The directors consider that the likelihood of default of payments by the purchasers is minimal and their obligations are well covered by the value of the properties and therefore the fair value of financial guarantees is immaterial.

- (b) There are certain corporate guarantees provided by the Group's subsidiaries for each other in respect of borrowings (Note 22) as at 31 December 2015 and 2014. The directors consider that the subsidiaries are able to sufficiently financially resourced to settle their obligations.

Save as disclosed above, the Group and the Company had no other significant contingent liabilities as at 31 December 2015 (2014: Nil).

29 BANKING FACILITIES AND PLEDGE OF ASSETS

As at 31 December 2015, the Group had aggregate banking facilities of approximately RMB3,463,000,915 (2014: RMB2,119,220,000) for overdrafts and bank loans. There were unused facilities of approximately RMB545,000,000 as at the same date (2014: RMB105,000,000).

As at 31 December 2015 and 2014, the borrowings of the Group were secured by (i) corporate guarantees of the Company; and (ii) certain land and properties under development for sale provided by the Group's subsidiaries.

The Senior Notes due 2019 are secured by shares of certain subsidiaries of the Company which are incorporated outside the PRC.

30 EARNINGS PER SHARE

The basic earnings per share for the year ended 31 December 2015 is calculated based on the profit attributable to the equity holders of the Company.

	2015	2014
Profit attributable to equity holders of the Company (RMB'000)	<u>401,030</u>	<u>347,203</u>
Weighted average number of shares in issue	1,600,963,313	1,568,219,178
